¹Starting from January 1, 2021, 36Kr recognized revenues of certain enterprise value-added services on a net basis, to reflect the fact that the Company continuously shifted focus towards higher margin businesses hence ceased to act as a principal in certain low gross margin businesses and only acted as an agent. To increase comparability of operating results and help investors better understand our business performance and operating trends, we introduced the gross transaction value as a supplemental metric to describe our business. Gross transaction value is defined as the value of executed confirmed orders for services provided for our customers.

⁴Equals revenues generated from individual subscription services for a period divided by the number of individual subscribers in the same period.

⁵Equals revenues generated from institutional investor subscription services for a period divided by the number of institutional investors in the same period.

²Equals revenues generated from online advertising services for a period divided by the number of online advertising services end customers in the same period.

³Equals revenues generated from enterprise value-added services for a period divided by the number of enterprise value-added services end customers in the same period.

Mr. Dagang Feng, co-chairman and chief executive officer of 36Kr, commented, "As we head into 2021, we remain focused on our core competencies in delivering high-quality content and service offerings and regained growth momentum. During the first quarter, we once again achieved record-setting performance in total user traffic, with average monthly PVs reaching to a new high at 829.3 million for the twelve-month period ended March 31, 2021, a 75.0% year-over-year increase and a 31.6% sequential uptick. This strong metric represents our 12th consecutive quarter of PV growth, underscoring our exceptional ability to generate engaging and valuable business-centric content that appeals to a broader user demographics.

"Echoing the growth in our traffic and user engagement, demand from our advertisers continued to climb in the first quarter with healthy growth in both the number of advertising customers and average revenue per customer. Bolstered by our long-term investments in content, products and technology, we believe we are well-positioned to capture the immense growth potential in the New-Economy-driven transformation across the enterprise services business space.

"As the go-to content and service platform in the New Economy space, we will further diversify our product and service offerings, cultivate our ecosystem of business communities and user base, and develop new growth avenues to improve monetization. We are confident that our long-term fundamentals position us well to forge ahead and unlock values to our customers, users and investors," Feng concluded.

Mr. Xiang Li, acting chief financial officer of 36Kr, stated, "Our first quarter results got the year off with a solid start, further demonstrating sustained user engagement and customer interest in our premium content and service offerings. In particular, the rebound in market demand underpinned a strong 57.9% year-over-year increase in our advertising services revenue for the first quarter. Also, as we continued to shift our resources and focus towards higher margin businesses, we saw substantial year-over-year increase in both gross profit and gross profit margin. Going forward, we remain dedicated to building upon our content strengths and growing monetization channels to seize vast New Economy opportunities."

First Quarter 2021 Financial Results

Total revenues were RMB43.5 million (US\$6.6 million) in the first quarter of 2021, compared to RMB65.2 million in the same period of 2020.

- **Online advertising services revenues** increased by 57.9% to RMB33.2 million (US\$5.1 million) in the first quarter of 2021, from RMB21.0 million in the same period of 2020. The increase was primarily attributable to the strong recovery and growth of market demand in the first quarter of 2021.
- Enterprise value-added services revenues were RMB6.9 million (US\$1.1 million) in the first quarter of 2021, compared to RMB42.8 million in the same period of 2020. The decrease was primarily because we continuously shifted our focus towards higher margin businesses and starting from this quarter, we ceased to act as a principal in certain low gross margin businesses and only acted as an agent. As a result, revenues of such businesses were recognized on a net basis from this quarter onward. To increase comparability of operating results and help investors better understand our business performance and operating trends, we introduced the gross transaction value as a supplemental metric to describe our business. Gross transaction value of enterprise value-added services was RMB32.5 million in the first quarter of 2021, compared to RMB42.8 million in the same period of 2020.

Subscription services revenues were RMB3.4 million (US\$0.5 million) in the first quarter of 2021, compared to RMB1.3 million in the same period of 2020. The increase was primarily attributable to the growth in institutional investor subscription services.

Cost of revenues was RMB20.2 million (US\$3.1 million) in the first quarter of 2021, compared to RMB59.7 million in the same period of 2020. The decrease was primarily because we continuously shifted our focus towards higher margin businesses. For more details, please refer to the aforementioned information in terms of enterprise value-added services revenues.

Gross profit was RMB23.4 million (US\$3.6 million) in the first quarter of 2021, compared to RMB5.4 million in the same period of 2020. **Gross profit** margin was 53.7% in the first quarter of 2021, compared to 8.4% in the same period of 2020.

Operating expenses were RMB64.8 million (US\$9.9 million) in the first quarter of 2021, compared to RMB102.8 million in the same period of 2020. The decrease was mainly due to the decrease in general and administrative expenses in the first quarter of 2021.

- Sales and marketing expenses were RMB35.7 million (US\$5.4 million) in the first quarter of 2021, compared to RMB34.9 million in the same period of 2020.
- **General and administrative expenses** were RMB20.2 million (US\$3.1 million) in the first quarter of 2021, compared to RMB59.3 million in the same period of 2020. The decrease was primarily attributable to the decreases in the allowance for credit losses and share-based compensation expenses.
- **Research and development expenses** were RMB9.0 million (US\$1.4 million) in the first quarter of 2021, compared to RMB8.5 million in the same period of 2020.

Share-based compensation expenses recognized in cost of revenues, sales and marketing expenses, research and development expenses, as well as general and administrative expenses totaled RMB2.7 million (US\$0.4 million) in the first quarter of 2021, compared to RMB13.0 million in the same period of 2020.

Other income was RMB1.0 million (US\$0.2 million) in the first quarter of 2021, compared to RMB1.4 million in the same period of 2020.

Income tax credit was RMB6.0 thousand (US\$1.0 thousand) in the first quarter of 2021, compared to RMB90.0 thousand in the same period of 2020.

Net loss was RMB40.5 million (US\$6.2 million) in the first quarter of 2021, compared to RMB95.9 million in the same period of 2020. **Non-GAAP adjusted net loss**⁶ was RMB37.8 million (US\$5.8 million) in the first quarter of 2021, compared to RMB82.9 million in the same period of 2020.

Net loss attributable to 36Kr Holdings Inc.'s ordinary shareholders was RMB39.5 million (US\$6.0 million) in the first quarter of 2021, compared to RMB95.4 million in the same period of 2020.

Basic and diluted net loss per share were both RMB0.038 (US\$0.006) in the first quarter of 2021, compared to RMB0.093 in the same period of 2020.

⁶ Non-GAAP adjusted loss represents net loss excluding share-based compensation expenses.

Certain Balance Sheet Items

As of March 31, 2021, the Company had cash, cash equivalents and short-term investments of RMB174.1 million (US\$26.6 million), compared to RMB209.2 million as of December 31, 2020. The decrease was mainly attributable to an equity investment we made in the first quarter of 2021, with a total cash consideration of approximately RMB30.0 million (US\$4.6 million).

Share Repurchase Program

On May 6, 2020, the Company announced that its Board of Directors has authorized a share repurchase program under which the Company may repurchase up to a total of 1,000,000 of its American Depositary Shares ("ADSs"), each representing 25 Class A ordinary shares. As of March 31, 2021, the Company had repurchased approximately 680,000 ADSs for approximately US\$2.3 million under this program.

About 36Kr Holdings Inc.

36Kr Holdings Inc. is a prominent brand and a pioneering platform dedicated to serving New Economy participants in China with the mission of empowering New Economy participants to achieve more. The Company started its business with high-quality New Economy-focused content offerings, covering a variety of industries in China's New Economy with diverse distribution channels. Leveraging traffic brought by high-quality content, the Company has expanded its offerings to business services, including online advertising services, enterprise value-added services and subscription services to address the evolving needs of New Economy companies and upgrading needs of traditional companies. The Company is supported by comprehensive database and strong data analytics capabilities. Through diverse service offerings and the significant brand influence, the Company is well-positioned to continuously capture the high growth potentials of China's New Economy.

Use of Non-GAAP Financial Measures

In evaluating its business, the Company considers and uses two non-GAAP measures, adjusted net income/(loss) and adjusted EBITDA, as supplemental measures to review and assess its operating performance. The presentation of these two non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. The Company presents these non-GAAP financial measures because they are used by the Company's management to evaluate its operating performance and formulate business plans. The Company also believes that the use of these non-GAAP measures facilitates investors' assessment of its operating performance.

These non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using these non-GAAP financial measures is that they do not reflect all items of income and expense that affect our operations. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.

The Company compensates for these limitations by reconciling these non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating the Company performance. The Company encourages investors to review its financial information in its entirety and not rely on a single financial measure.

Adjusted net loss represents net loss excluding share-based compensation expenses.

Adjusted EBITDA represents adjusted net income/(loss) before interest income, interest expenses, income tax expense/(credit), depreciation of property and equipment and amortization of intangible assets.

For more information on these non-GAAP financial measures, please see the table captioned "Reconciliations of GAAP and non-GAAP results" set forth at the end of this press release.
