Implications of Being an Emerging Growth Company

As a company with less than US\$1.07 billion in revenue for the last fiscal year, we qualify as an "emerging growth company" pursuant to the Jumpstart Our Business Startups Act of 2012 (as amended by the Fixing America's Surface Transportation Act of 2015), or the JOBS Act. An emerging growth company may take advantage of specified reduced reporting and other requirements that are otherwise applicable generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002, or Section 404, in the assessment of the emerging growth company's internal control over financial reporting. The JOBS Act also provides that an emerging growth company does not need to comply with any new or revised financial accounting standards until such date that a private company is otherwise required to comply with such new or revised accounting standards. We have elected to take advantage of such exemptions.

We will remain an emerging growth company until the earliest of (i) the last day of our fiscal year during which we have total annual gross revenues of at least US\$1.07 billion; (ii) the last day of our fiscal year following the fifth anniversary of the completion of this offering; (iii) the date on which we have, during the previous three-year period, issued more than US\$1.0 billion in non-convertible debt; or (iv) the date on which we are deemed to be a "large accelerated filer" under the Securities Exchange Act of 1934, as amended, or the Exchange Act, which would occur if the market value of the ADSs that are held by non-affiliates exceeds US\$700 million as of the last business day of our most recently completed second fiscal quarter. Once we cease to be an emerging growth company, we will not be entitled to the exemptions provided in the JOBS Act discussed above.

Non-GAAP Financial Measures

In evaluating our business, we consider and use two non-GAAP measures, adjusted net income/(loss) and adjusted EBITDA, as supplemental measures to review and assess our operating performance. The presentation of these two non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. We define adjusted net income/(loss) as net income/(loss) excluding share-based compensation. We define adjusted EBITDA as adjusted net income/(loss) before interest income, interest expenses, income tax expense/(credit), depreciation of property and equipment and amortization of intangible assets. We present these non-GAAP financial measures because they are used by our management to evaluate our operating performance and formulate business plans. We also believe that the use of these non-GAAP measures facilitates investors' assessment of our operating performance.

These non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using these non-GAAP financial measures is that they do not reflect all

items of income and expense that affect our operations. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.

We compensate for these limitations by reconciling these non-GAAP financial measures to the nearest U.S. GAAP performance measures, all of which should be considered when evaluating our performance. We encourage you to review our financial information in its entirety and not rely on a single financial measure.

The following table reconciles our adjusted net income/(loss) and adjusted EBITDA in 2017, 2018 and the six months ended June 30, 2018 and 2019 to the most directly comparable financial measure calculated and presented in accordance with U.S. GAAP, which is net income/(loss):

Key Operating Data

The following tables present our key operating data for the periods indicated:

	For the twelve-month period ended						
	December 31, 2017	March 31, 2018	June 30, 2018	September 30, 2018	December 31, 2018	March 31, 2019	June 30, 2019
	(in millions)						
Average monthly PV	121.6	120.9	127.0	145.6	196.2	225.4	347.7

Our average monthly PV is generated across our self-operated platforms and our accounts on major third-party platforms, including Weibo, Weixin/WeChat, Toutiao and Zhihu. Our average monthly PV increased significantly from 121.6 million in the twelve-month period ended December 31, 2017 to 196.2 million in the twelve-month period ended December 31, 2018. As we have adopted fixed rate pricing models under which customers pay fixed fees for advertising services irrespective of views, clicks or other performance measures, each additional page view does not directly result in a corresponding increase in advertising revenue. Nevertheless, we believe the increase in average monthly PV indicates that more users are accessing, or users are accessing more frequently, the content offered by us, which enhances our brand awareness and influence in the New Economy market. Leveraging such brand awareness and influence, we are able to attract online advertising services customers and enhance pricing power, which together lead to the growth of our online advertising services revenue. Our online advertising services revenue increased by 135.0% from RMB74.0 million in 2017 to RMB173.8 million (US\$25.3 million) in 2018.

RISK FACTORS

You should consider carefully all of the information in this prospectus, including the risks and uncertainties described below and our consolidated financial statements and related notes, before making an investment in the ADSs. Any of the following risks and uncertainties could have a material adverse effect on our business, financial condition, results of operations and prospects. The market price of the ADSs could decline significantly as a result of any of these risks and uncertainties, and you may lose all or part of your investment.

RISKS RELATED TO OUR BUSINESS AND INDUSTRY

We have a limited operating history as a stand-alone company, which makes it difficult to evaluate our business. We cannot guarantee that we will be able to maintain the growth rate that we have experienced to date.

We commenced our operations as a stand-alone company when we were incorporated by Xieli Zhucheng in December 2016. Since then we have achieved rapid growth in terms of user traffic, customer base and revenues. However, our limited operating history as a stand-alone company may not be indicative of our future growth or financial results. There is no assurance that we will be able to maintain our historical growth rates in future periods. Our growth prospects should be considered in light of the risks and uncertainties that fast-growing companies with a limited operating history in our industry may encounter, including, among others, risks and uncertainties regarding our ability to:

- enrich New Economy-focused content offerings;
- maintain, strengthen and diversify content distribution channels;
- retain existing users on, and attract new users to, our platforms;
- offer comprehensive business services tailored to enterprises' needs throughout their lifecycles;
- attract, retain and motivate talented in-house content creation team;
- maintain stable relationships with third-party professional content providers;
- develop and implement successful monetization strategies;
- increase brand awareness through marketing and branding activities;
- upgrade existing technology and infrastructure and develop new technologies;
- successfully compete with other companies that are currently in, or may in the future enter, our industry; and
- adapt to the evolving regulatory environment.

All of these endeavors involve risks and will require significant allocation of management and employee resources and capital expenditures. We cannot assure you that we will be able to effectively manage our growth or implement our business strategies effectively. If the market for our platform does not develop as we expect or if we fail to address the needs of this dynamic market, our business, results of operations and financial condition will be materially and adversely affected.

We are subject to risks associated with operating in the rapidly evolving New Economy sectors.

As a New Economy-focused content and business services provider dedicated to serving New Economy participants in China, we are subject to risks associated with the rapidly evolving nature of New Economy sectors, including but not limited to technology, consumer and retail, and healthcare. Our future business, financial conditions, and results of operations will largely depend on the development of China's New Economy and the growth of the number of New Economy participants.

According to the CIC Report, New Economy in China has experienced periods of rapid expansion, and the market size of New Economy-focused online advertising services, enterprise value-added services, and subscription services is expected to grow at a CAGR of approximately 16.5%, 27.3% and 34.9% from 2018 to 2023, respectively. However, there are significant uncertainties with respect to the growth and sustained profitability of China's New Economy sectors, including changes in general economic conditions in China, New Economy market trends and regulatory environment. Most of these factors are beyond our control. For example, adverse regulatory developments in New Economy sectors in China, such as new or stricter licensing requirements and restrictive industry policies, could materially affect the result of operations and financial conditions of our customers participating in such industries, which may in turn reduce their demand for our services. As a result, our business, financial condition and results of operations could be materially and adversely affected.

The success of our business depends on our ability to maintain and enhance our brand. Negative publicity about us, our services, operations and management, or our affiliates may adversely affect our reputation and business.

We believe that maintaining and enhancing our 36Kr brand is critical to our success, especially user and customer acquisition and retention. Unsuccessful marketing efforts, low-quality content and service offerings and unsatisfying user and customer experience are likely to harm our brand image and value. Furthermore, we were incorporated in December 2016 as a wholly-owned subsidiary of Xieli Zhucheng, to hold all its businesses of New Economy-focused content and business services. Any negative publicity about our affiliates may be misunderstood as relating to us, which may adversely affect our reputation and business.

In addition, negative publicity about us, our services, operations and our management may adversely affect our reputation and business. We have from time to time received negative publicity, including negative Internet and blog postings about our company, our business, our management, our services or our affiliates. Certain of such negative publicity may come from malicious harassment or unfair competition acts by third parties. Our brand and reputation may be materially and adversely affected, which in turn may cause us to lose market share, users, customers and other third parties we conduct business with. As a result, our results of operations and financial performance may be negatively affected.

If we fail to provide high-quality content in a timely manner, we may not be able to attract or retain users. If our efforts to attract or retain users are not successful, our business and results of operations will be materially and adversely affected.

We have experienced significant user growth over the past several years. Our success depends on our ability to generate sufficient user traffic on our platform through the provision of high-quality New Economy-focused content. To attract and retain users, we need to further enrich our content by producing and sourcing new high-quality content in a cost-effective and timely manner. Furthermore, we need to anticipate and quickly respond to changing user preferences, development in New Economy market trends. If we fail to cater to the needs and preferences of our users or deliver high-quality content in an efficient manner, we may suffer from reduced user traffic. In addition, if our valuable users no longer contribute their opinions or comments or other forms of interactive content to our platform, we may experience a decrease in the number of users or level of user engagement. At the same time, spam or excessive advertisement could impact user experience on our platform, which could damage our reputation and deter visits to our platform. If we are unable to grow our user base or increase user engagement, our platform will become less attractive to potential customers, especially online advertising services customers. As a result, our business, financial condition and results of operations may be materially and adversely affected.

We cannot guarantee our monetization strategies will be successfully implemented or generate sustainable revenues or profit.

We currently generate a majority of our revenues from online advertising services. Nevertheless, we have been diversifying and may further diversify our monetization channels by introducing new services, including services with which we have limited or no prior experience. We have been expanding our comprehensive enterprise value-added service offerings to meet various demands of our customers. We cannot assure that any of our newly launched services will successfully achieve wide market acceptance, increase the penetration of our addressable market or generate revenues or profit. If our business initiatives fail to enhance our monetization abilities, we may not be able to maintain or increase our revenues or recover any associated costs, and our business and operating results may suffer as a result.

Our business could suffer if we are unable to retain or hire quality in-house writers and editors.

We rely primarily on our in-house writers and editors to create high-quality original content. We intend to continue to invest resources in our in-house writer and editorial team to maintain and improve content creation capabilities. Nevertheless, the demand and competition for talent is intense in our industry, particularly for skilled writers and editors. Therefore, we may need to offer high compensation and additional benefits to maintain a skilled in-house content creation team, which could increase our expenses. If we fail to compete effectively for talents, lose existing writers or editors, or fail to otherwise maintain an in-house content creation team at reasonable costs, our in-house content creation capabilities would be negatively affected. Any deterioration in our in-house content creation capabilities may materially and adversely affect our business and operating results. If we are unable to offer high-quality original content in a cost-effective manner, our user experience may be adversely affected, and we may suffer from reduced user traffic. Our business, financial condition and results of operations may be materially and adversely affected as a result.

Deterioration or termination of cooperation with third-party professional content providers may have a material adverse impact on our business and results of operations.

Third-party professional content constitutes a meaningful part of our content offerings, and we intend to continue to attract and explore new partnership with third-party professional content providers. If we fail to maintain our relationship with them, or they fail to provide content of satisfactory quality upon terms commercially acceptable to us, we may lose a significant portion of high-quality content offerings, and as a result our brand and operations could be materially harmed.

Our business, prospects and financial results may be affected by our relationship with third-party platforms.

We distribute certain of our content through our accounts on leading third-party Internet and social networking platforms, including Weibo, Weixin/WeChat, Toutiao and Zhihu. These third-party platforms enable us to effectively extend our user reach and enhance our influence. In the twelve-month period ended June 30, 2019, we achieved an average monthly PV of 347.7 million, of which 329.5 million was derived from these third-party platforms. To the extent that we fail to leverage such third-party channels, our ability to attract or retain users may be harmed. If our relationship with these third-party platforms deteriorates or is terminated or we fail to establish or maintain relationships with them on commercially viable terms, we may not be able to quickly locate alternative channels. As a result, the aforementioned circumstances may limit our ability to continue growing our user base and have a material adverse effect on our business, financial condition and results of operations.

If the content provided on our platform is deemed to violate any PRC laws or regulations, our business, financial condition and results of operations may be materially and adversely affected.

China has enacted regulations governing Internet access and the distribution of news and other information over the Internet. Under these regulations, Internet content providers are prohibited from

posting or displaying over the Internet content that, among other things, violates PRC laws and regulations, impairs the national dignity of China or the public interest, or is obscene, superstitious, fraudulent, violent or defamatory. Internet content providers are also prohibited from displaying content that may be deemed by relevant government authorities as "socially destabilizing" or leaking "state secrets" of China. In addition, certain news items, such as news relating to national security, may not be published without permission from the PRC regulatory authorities. If the PRC regulatory authorities were to take any action to limit or prohibit the distribution of information through our platform or our services, or to limit or regulate any current or future content or services available to users on our platform, our business could be significantly harmed.

In addition, we operate discussion forum, blog, comment section and user survey for our users to interact on our platform, such as expressing opinions, posting comments and discussing with each other, and thereby generating our user interactive content. We have implemented an efficient and thorough content screening and monitoring mechanism which involve both automated filtering and manual review, to timely remove any inappropriate or illegal content, including interactive content on our platform. However, such procedures may not prevent all illegal or improper content or comments from being posted, and our editorial staff may fail to review and screen such content or comments effectively.

Failure to identify and prevent illegal or inappropriate content from being distributed on our platform may subject us to liability. To the extent that PRC regulatory authorities find any content on our platform objectionable, they may require us to limit or eliminate the dissemination of such content on our platform in the form of take-down orders or otherwise. In addition, PRC laws and regulations are subject to interpretation by the relevant authorities, and it may not be possible to determine in all cases the types of content that could result in our liability as a platform operator.

If we fail to develop effective online advertising services, retain or acquire new online advertising services customers, our financial condition, results of operations and prospects may be materially and adversely affected.

We generate a majority of our revenues from online advertising services. Revenue generated from online advertising services accounted for 61.4% and 58.1% of our total revenues in 2017 and 2018, respectively. Revenue generated from online advertising services accounted for 70.4% and 39.4% of our total revenues in the six months ended June 30, 2018 and 2019, respectively. Our ability to generate and maintain our revenues from online advertising services depends on a number of factors, including our brand value, our user and customer base and competition in the online advertising services market. We cannot assure you that we will be able to retain or acquire online advertising services customers in the future or maintain or increase pricing of online advertising services. For instance, if our online advertising services customers find that they can gain public attention more efficiently elsewhere, or if our competitors provide online advertising services that suit their goals better, we may lose our online advertising services customers. In addition, third parties may develop and use certain technologies to block the display of our online advertising services customers' advertisements on our platform. As a result, we may lose our online advertising services customers or be forced to reduce our pricing as our customers' advertisement becomes less effective due to more limited reach, which in turn materially and adversely affects our results of operations. Additionally, if our online advertising services customers determine that their advertising expenditures on our platform do not generate expected returns, they may bargain with us for lower pricing or reduce or terminate cooperation with us. Furthermore, given most of our online advertising service agreement with customers are short-term contracts, our customers may reduce or discontinue cooperation with us easily without incurring material liabilities.

We may be adversely affected by the complexity, uncertainties and changes in PRC regulation of Internet businesses and companies, including limitations on our ability to own key assets such as our platform.

The Chinese government heavily regulates the Internet industry, including foreign investment in the Chinese Internet industry, content on the Internet and license and permit requirements for services providers in the Internet industry. Since some of the laws, regulations and legal requirements with respect to the Internet are relatively new and evolving, their interpretation and enforcement involve significant uncertainties. In addition, the Chinese legal system is based on written statutes, such that prior court decisions can only be cited for reference and have little precedential value. As a result, in many cases it is difficult to determine what actions or omissions may result in liabilities. Issues, risks and uncertainties relating to China's government regulation of the Chinese Internet sector include the following:

- We operate our platform in China through entities controlled via contractual arrangements versus direct ownership due to restrictions on foreign investment.
- Uncertainties relating to the regulation of the Internet business in China, including evolving licensing practices, give rise to the risk that some of our permits, licenses or operations may be subject to challenge, which may be disruptive to our business, subject us to sanctions or require us to increase capital, compromise the enforceability of relevant contractual arrangements, or have other adverse effects on us. The numerous and often vague restrictions on acceptable content in China may subject us to potential civil and criminal liability, temporary blockage of platform or complete shut-down of our platform.

Due to the increasing popularity and use of the Internet and other online services, it is possible that a number of laws and regulations may be adopted with respect to the Internet or other online services covering issues such as user privacy, pricing, content, copyrights, distribution, antitrust and characteristics and quality of products and services. The adoption of additional laws or regulations may impede the growth of the Internet or other online services, which could, in turn, decrease the demand for our content and services and increase our cost of doing business. Moreover, the applicability to the Internet and other online services of existing laws in various jurisdictions governing issues such as property ownership, sales and other taxes, libel and personal privacy is uncertain and may take years to resolve. Any new legislation or regulation, the application of laws and regulations from jurisdictions whose laws do not currently apply to our business, or the application of existing laws and regulations to the Internet and other online services could significantly disrupt our operations or subject us to penalties.

The interpretation and application of existing PRC laws, regulations and policies, the stated positions of relevant PRC government authorities and possible new laws, regulations or policies have created substantial uncertainties regarding the legality of existing and future foreign investments in, and the businesses and activities of, Internet businesses in China, including our business.

Lack of Internet news information license may expose us to administrative sanctions, which would materially and adversely affect our business, results of operations and financial condition.

The PRC government regulates the Internet industry extensively, including foreign ownership of, and the licensing requirements pertaining to, companies in the Internet industry. A number of regulatory agencies, including the Ministry of Culture, or the MOC, the Ministry of Industry and Information Technology, or the MIIT, the Cyberspace Administration of China, or CAC, the National Radio and Television Administration, or the NRTA (previously known as the State Administration of Press Publication, Radio, Film and Television, or the SAPPRFT), the State Council Information Office, or the SCIO, and other governmental authorities, jointly regulate all major aspects of the Internet industry. Operators are required to obtain various government approvals and licenses prior to providing the relevant Internet information services.

The content provided on our platform, including New Economy-focused industry reports, market updates, flash updates, columns and interviews, may be deemed to be news information content. Pursuant to the *Provisions for the Administration of Internet News Information Services* issued by the national CAC on May 2, 2017 that became effective on June 1, 2017, an Internet news information license shall be obtained for a provider of Internet news information services to the public in a variety of ways, including forwarding Internet news information and offering of platforms for the dissemination of Internet news information. As such, we may be required to obtain an Internet news information license from CAC for our business. In practice, competent Internet news information services providers that are not state-owned, such as our company, may need to introduce a state-owned shareholder in order to facilitate the application and approval process for the Internet news information license. See "Regulations—Regulation on Internet News Services."

In addition, according to the *Provisions for the Administration of Internet News Information Services*, those that apply for a license for Internet news information collecting, editing and publishing service shall be news agencies (including the entities held thereby) or the entities under the charge of news publicity authorities. Internet news information services providers shall separate their news collection and editing services from other operational businesses and non-state-owned capitals shall not engage in services of collecting and editing Internet news information. We are not a news agency or a state-owned entity engaging in services of collecting and editing Internet news information. As such, we may not be permitted to collect and edit Internet news information. As a result, the CAC or its applicable office at the provincial level may, at its sole discretion, order us to cease relevant operations, and impose a fine of more than RMB 10,000 and less than RMB 30,000; where a crime is constituted, it shall be subject to criminal liabilities.

We plan to apply for the Internet news information license from the CAC through our VIE when it is feasible to do so. However, there can be no assurance that our application will be accepted or approved by the CAC. In the event we fail to obtain the Internet news information license, we may be ordered to suspend relevant business and our results of operations and financial condition could be materially and adversely affected. As of the date of this prospectus, we have not received any notice of warning or been subject to any administrative penalties or other disciplinary actions from the relevant governmental authorities for lack of the Internet news information license. However, in the past, CAC ordered certain PRC companies to suspend their online content offerings for a certain period of time due to their lack of Internet news information license. As such, we cannot assure you that we will not be subject to similar or other penalties, such as any warning, investigations, suspension of some or all of our content offerings or other penalties that may materially adversely affect our business, financial condition and results of operations.

Lack of Internet audio-visual program transmission license may expose us to administrative sanctions, which would materially and adversely affect our business, results of operations and financial condition.

Pursuant to the *Administrative Provisions on Internet Audio-visual Program Service, or the Audio-visual Program Provisions*, which was issued by the MIIT and the State Administration of Radio, Film and Television, or the SARFT (the predecessor of SAPPRFT) on December 20, 2007 and came into effect on January 31, 2008 and was amended on August 28, 2015, online transmission of audio and video programs requires an Internet audio-visual program transmission license and online audio-visual services providers must be either wholly state-owned or state-controlled. In a press conference jointly held by SARFT and MIIT to answer questions with respect to the Audio-visual Program Provisions in February 2008, SARFT and MIIT clarified that online audio-visual services providers that had already been operating lawfully prior to the issuance of the Audio-visual Program Provisions may re-register and continue to operate without becoming state-owned or controlled, provided that such providers have not engaged in any unlawful activities. This exemption will not be granted to online audio-video

services providers established after the Audio-visual Program Provisions was issued. See "Regulation—Regulations on Internet Audio-visual Program Services."

We provide our content in various formats, including a small portion of audio and video, and we plan to continue to offer audio and video content on our platform. If such content offerings are considered as online transmission of audio and video programs, we may be required to obtain the Internet audio-visual program transmission license. We currently do not possess such license. If the relevant regulatory authorities find our operations to be in violation of the applicable laws and regulations, we may receive a warning and be ordered to rectify such non-compliance and pay a fine of not more than RMB30,000. In severe cases, we may be ordered to cease transmission of audio and video programs, be subject to a penalty equal to one to two times our total investment in the affected business and the devices we used for such operation may be confiscated. Furthermore, according to the Audiovisual Program Provisions, the telecommunications administrative authorities may, based on written opinions of the SARFT, and in accordance with the relevant laws and regulations on supervision of telecommunications and Internet, close our platform, revoke the relevant license or filings for the provision of Internet information service and order the relevant network operation entity which provides us signal access services to stop such provision of services. As of the date of this prospectus, we have not received any notice of warning or been subject to any administrative penalties or other disciplinary actions from the relevant governmental authorities for lack of the Internet audio-visual program transmission license. However, in the past, the relevant governmental authorities penalized certain PRC companies due to their lack of the Internet audio-visual program transmission license. As such, we cannot assure you that we will not be subject to any warning, investigations suspension of some of our content offerings or other penalties that may materially and adversely affect our business, financial condition and results of operations.

Lack of Internet publishing license may expose us to administrative sanctions, which would materially and adversely affect our business, results of operations and financial condition.

On February 4, 2016, the SAPPRFT and the MIIT jointly issued the Rules for the Administration for Internet Publishing Services, or the Internet Publishing Rules, which took effect in March 10, 2016 and prohibit wholly foreign-owned enterprises, Sino-foreign equity joint ventures and Sino-foreign cooperative enterprises from engaging in the provision of web publishing services. Under these rules, providers of online publications are required to hold the Internet publishing license. However, uncertainty remains regarding the interpretation of relevant concepts, including "online publications" under the current PRC laws and regulations. Although we have not been required by the General Administration of Press and Publication or other relevant authorities to obtain the Internet publishing license as of the date of this prospectus, we may face further scrutiny by such authorities and they may require us to apply for such license or subject us to penalties. In addition, cooperation between Internet publishing services providers and wholly foreign-owned enterprises, Sino-foreign equity joint ventures, or Sino-foreign cooperative enterprises within China or overseas organizations or individuals engaging in Internet publishing business shall be subject to examination and approval by the General Administration of Press and Publication in advance. See "Regulations—Regulations on Internet Publishing."

If the provision of our in-house-generated content, in the forms of articles, pictures, audio and video clips, on our online platform is considered "online publishing", we may be required to obtain the Internet publishing license. If the relevant regulatory authorities find our operations without an Internet publishing license to be in violation of the applicable laws and regulations, such regulatory authorities may order us to cease relevant operations or close our platform, or confiscate the devices we used for such operation. If our revenue from such violation is less than RMB10,000, the relevant regulatory authorities may impose a fine of less than RMB50,000. If our revenue from such violation is RMB10,000 or above, such regulatory authorities may impose a fine equivalent to five to ten times of our revenue from the violation. In addition to the administrative penalties, our operation without the Internet publishing license may also subject us to civil and criminal liabilities.

We plan to apply for the Internet publishing license through our VIE when it is feasible to do so. However, there can be no assurance that the application will be accepted or approved by the relevant regulatory authorities. As of the date of this prospectus, we have not received any notice of warning or been subject to penalties or other disciplinary actions from the relevant governmental authorities for lack of the license. However, in the past, the relevant governmental authorities penalized certain PRC companies due to their lack of the Internet publishing license. As such, we cannot assure you that we will not be subject to any warning, investigations suspension of some or all of our content offerings or other penalties that may materially adversely affect our business, financial condition and results of operations.

Lack of online culture operating permit may expose us to administrative sanctions, which would materially and adversely affect our business, results of operations and financial condition.

On February 17, 2011, the Ministry of Culture (the predecessor of the Ministry of Culture and Tourism) issued the Interim Administrative Provisions on Internet Culture, or the Internet Culture Provision, which was amended in 2017. According to the Internet Culture Provision, Internet culture activities include: (i) production, reproduction, import, release or broadcast of Internet culture products (such as online music, online game, online performance and cultural products by certain technical means and copied to the Internet for spreading); (ii) distribution or publication of cultural products on Internet; and (iii) exhibitions, competitions and other similar activities concerning Internet culture products. Pursuant to the Internet Culture Provision, commercial Internet culture activities shall be approved by the relevant cultural administration authorities or cultural market enforcement authorities. See "Regulation—Regulations on Online Culture Administration."

Based on our understanding of the current PRC laws and regulations as well as inquiry with PRC government, our content and services may not be considered as "online culture product." However, there is uncertainty with respect to the interpretation and application of PRC laws. If our content and services are considered as "online culture product", we will be required to obtain the online culture operating permit from the relevant local branches of the Ministry of Culture and Tourism. Additionally, if the relevant regulatory authorities find our current operations without an online culture operating permit to be in violation of the applicable laws and regulations, we may receive a warning and be ordered to cease our relevant operation, and may also be subject to a fine of no more than RMB30,000. If we refuse to cease the relevant operation, we may also be blacklisted publicly as an uncreditworthy entity. As of the date of this prospectus, we have not received any notice of warning or been subject to penalties or other disciplinary actions from the relevant governmental authorities for lack of the permit. However, in the past, the Ministry of Culture Tourism or its relevant local branch ordered certain PRC companies to suspend their online content offering for a certain period of time due to their lack of the online culture operating permit. As such, we cannot assure you that we will not be subject to any warning, investigations suspension of some or all of our content offerings or other penalties that may materially and adversely affect our business, financial condition and results of operations.

Lack of production and operation of radio and television programs license may expose us to administrative sanctions, which would materially and adversely affect our business, results of operations and financial condition.

On July 19, 2004, the SARFT promulgated the Regulations on the Administration of Production and Operation of Radio and Television Programs, or the Radio and TV Programs Regulations, which came into effect on August 20, 2004 and was amended on August 28, 2015. Pursuant to the Radio and TV Programs Regulations, entities engaging in the production of radio and television programs must obtain a production and operation of radio and television program license from the SARFT or its counterparts at the provincial level. Holders of such licenses must conduct their business operations strictly in compliance within the approved scope as provided in the licenses. See "Regulation—Regulations on the Administration of Production and Operation of Radio and Television Programs."

Our in-house content are generated in the forms of articles, pictures, audio and video clips. Based on our understanding of the current PRC laws and regulations as well as inquiry with PRC government, radio and television programs primarily refer to content distributed on radio and television instead of on mobile apps and websites. However, there is uncertainty with respect to the interpretation and application of PRC laws. If our in-house generated audio and video content are considered as radio and television programs, we will be required to obtain the production and operation of radio and television program license. Additionally, the relevant regulatory authorities may also find our current operations without the production and operation of radio and television program license to be in violation of the applicable laws and regulations. As a result, we may be ordered to cease our relevant operation, or be subject to a fine of RMB10,000 to RMB50,000 and a confiscation of devices used in our relevant operation. As of the date of this prospectus, we have not received any notice of warning or been subject to penalties or other disciplinary actions from the relevant governmental authorities for lack of the license. However, in the past, the relevant governmental authorities penalized certain PRC companies due to their lack of production and operation of radio and television programs license. As such, we cannot assure you that we will not be subject to any warning, investigations or other penalties that may materially and adversely affect our business, financial condition and results of operations.

If we fail to complete the update procedures of or maintain the ICP license, our business, financial condition and results of operations may be materially and adversely affected.

PRC regulations impose sanctions for engaging in Internet information services of a commercial nature without having obtained an Internet content provider license, or the ICP license. These sanctions include corrective orders and warnings from the PRC communication administration authority, fines and confiscation of illegal gains and, in the case of significant infringements, the mobile apps and websites may be ordered to cease operation. See "Regulation—Regulations on Value-added Telecommunication Services."

Our PRC variable interest entity, Beijing Duoke, has obtained a valid ICP license, which will remain effective until March 13, 2020. As Beijing Duoke has changed its name from Beijing Pinxin and its registered capital within the validity period of its ICP license, we are required and we plan to apply for the update of the ICP license through Beijing Duoke. Given the evolving regulatory environment of the value-added telecommunication business, we cannot assure you that we will timely complete the update. In the event that the local telecommunication regulatory authority puts our update application on hold or we fail to complete the update of ICP license, we could be found in violation of the regulations governing the provision of Internet information services and may receive a warning and be ordered to rectify such non-compliance and pay a fine of more than RMB5,000 but not more than RMB30,000. As a result our operations and financial condition could be harmed materially. Furthermore, we may not be able to maintain or renew our ICP license, which would subject us to the sanctions such as the imposition of fines and the discontinuation or restriction of our operations or other sanctions as stipulated in the new regulatory rules, and materially and adversely affect our business and impede our ability to continue our operations.

As of the date of this prospectus, we have not received any notice of warning or been subject to penalties or other disciplinary actions from the relevant governmental authorities for failure to update the permit. However, we cannot assure you that we will not be subject to any warning, investigations or penalties that may adversely affect our business, financial condition and results of operations.

Advertisements on our platform may subject us to penalties and other administrative actions.

Under PRC advertising laws and regulations, we are obligated to monitor the advertising content shown on our platform to ensure that such content is true, accurate and in full compliance with applicable laws and regulations. In addition, where a special government review is required for specific types of advertisements prior to posting, such as advertisements relating to pharmaceuticals, medical

instruments, agrochemicals and veterinary pharmaceuticals, we are obligated to confirm that such review has been performed and approval has been obtained from competent governmental authorities. To fulfill these monitoring functions, we typically include clauses in our online advertising contracts requiring that all advertising content provided by online advertising services customers must comply with relevant laws and regulations. Under PRC law, we may have claims against online advertising services customers for all damages to us caused by their breach of such representations. Violation of these laws and regulations may subject us to penalties, including fines, confiscation of our online advertising income, orders to cease dissemination of the advertisements and orders to publish an announcement correcting the misleading information. In circumstances involving serious violations, such as posting a pharmaceutical product advertisement without approval, or posting an advertisement for fake pharmaceutical product, PRC regulatory authorities may force us to terminate our online advertising operation or revoke our licenses. See "Regulations—Regulations on Online Advertising Services."

A majority of the advertisements shown on our platform are provided to us by third parties. Although we have implemented automated and manual content monitoring systems and significant efforts have been made to ensure that the advertisements shown on our platform are in full compliance with applicable laws and regulations, we cannot assure you that all the content contained in such advertisements is true, accurate and legitimate as required by the advertising laws and regulations, especially given the uncertainty in the application of these laws and regulations. The inability of our systems and procedures to adequately and timely discover such evasions may subject us to regulatory penalties or administrative sanctions. Although we have not been subject to material penalties or administrative sanctions in the past for the advertisements shown on our platform, if we are found to be in violation of applicable PRC advertising laws and regulations in the future, we may be subject to penalties and our reputation may be harmed, which may have a material and adverse effect on our business, financial condition, results of operations and prospects. See "Regulations—Regulations on Online Advertising Services."

We face competition in major aspects of our business. If we are unable to compete effectively in the industry we operate, our business, results of operations and financial condition may be materially and adversely affected.

The New Economy-focused business services market is highly competitive. Our online advertising services face competition from other content-based online advertising services providers as well as technology channels of major Internet information portals, such as Sina and Tencent News. For our enterprise value-added services, we face competition from other New Economy-focused enterprise value-added services providers as well as traditional marketing, consulting and public relation companies. We also compete with paid content services providers with respect to our subscription services. We also face competition from traditional advertising media. If we cannot effectively compete with these platforms and distribution channels for marketing budgets of our existing and potential customers, our results of operations and growth prospects could be adversely affected.

Our competition is primarily centered on increasing user traffic, user engagement and brand recognition, as well as customer acquisition and retention, among other factors. Some of our competitors have longer operating histories and significantly greater financial resources than we do, which may allow them to attract and retain more users and customers. Our competitors may compete with us in a variety of ways, including by offering popular content, introducing new business services, conducting more aggressive brand promotions and other marketing activities and through investments and acquisitions. If any of our competitors achieves greater market acceptance or is able to offer more attractive content and business services than us, our user traffic, customer acquisition and retention, brand value and market share may decrease, which may have a material and adverse effect on our business, financial condition and results of operations.

If we are unable to conduct our marketing activities cost-effectively, our results of operations and financial condition may be materially and adversely affected.

We have incurred expenses on a variety of marketing and branding activities. In 2017 and 2018, we incurred RMB32.3 million and RMB67.0 million (US\$9.8 million) in sales and marketing expenses, accounting for 26.8% and 22.4% of our total revenues, respectively. Our marketing and branding activities may not be well received, successful or cost-effective, which may lead to significantly higher marketing expenses in the future. We may also not be able to continue our existing marketing and branding activities. Failure to refine our existing marketing strategies or introduce new effective marketing strategies in a cost-effective manner could impact our business operations and financial performance.

Content provided on our platform may expose us to libel or other legal claims which may result in costly legal damages.

Claims may be threatened and filed against us for libel, defamation, invasion of privacy, intellectual property right infringements and other theories based on the nature and content of the information distributed on our platform. While we screen our content for such potential liability, there is no assurance that our screening process will identify all potential liability, especially liability arising from our user interactive content and content we source from third parties. In the past, there was no claim brought against us which resulted in material liability, but we cannot assure you we will not be subject to future claims that could be costly, encourage similar lawsuits, distract our management team and harm our reputation and possibly our business.

If we are unable to manage our growth, our business and prospects may be materially and adversely affected.

We have experienced rapid growth since our incorporation in 2016. To manage our business expansion, we need to continuously expand and enhance our infrastructure and technology, and improve our operational and financial systems, procedures and internal controls. We cannot assure you that our current and planned personnel, infrastructure, systems, procedures and controls will be adequate to support our expanding operations. We may be required to spend more on sales and marketing in order to support any such expansion and our efforts may not be effective. If we fail to manage our expansion effectively or efficiently, our business and results of operations may be materially and adversely affected.

We may face challenges in expanding our international and local operations.

We rely on our diversified distribution channels to deliver our content to users in a cost-effective and timely manner. Specifically, we collaborate with established overseas and local media companies in setting up overseas and local stations. On the one hand, we face risks associated with expanding into new regions and markets in which we have limited or no experience and in which our brand may be less known. We may be unable to attract a sufficient number of users and other participants through our overseas and local stations. We may face fierce competition from overseas and local markets or other difficulties in operating effectively in these new markets. On the other hand, our international expansion and local penetration will also expose us to risk such as increased demands on management, operational and financial resources, different regulatory compliance requirements and exchange rate fluctuations, among others. One or more of these factors could adversely impact our international and local operations. Accordingly, any efforts we make to expand our international and local operations may not be successful.

Future investments in and acquisitions of complementary assets, technologies and businesses may fail and may result in equity or earnings dilution.

We may invest in or acquire assets, technologies and businesses that are complementary to our existing business. Our investments or acquisitions may not yield the results we expect. In addition, investments and acquisitions could result in the use of substantial amounts of cash, potentially dilutive issuances of equity securities, significant amortization expenses related to goodwill or intangible assets and exposure to potential unknown liabilities of the acquired business. Furthermore, if such goodwill or intangible assets become impaired, we may be required to record a significant charge to our results of operations. Such investments and acquisitions may also require our management team to devote a significant amount of attention. Moreover, the cost of identifying and consummating investments and acquisitions, and integrating the acquired businesses into ours, may be significant, and the integration of acquired businesses may be disruptive to our existing business operations. In addition, we may have to obtain approval from the relevant PRC governmental authorities for the investments and acquisitions and comply with any applicable PRC rules and regulations, which may be costly. In the event our investments and acquisitions are not successful, our results of operations and financial condition may be materially and adversely affected.

We have recorded negative cash flows from operating activities historically. We may need additional capital, and we may be unable to obtain such capital in a timely manner or on acceptable terms, or at all.

We have experienced cash outflow from operating activities in history. We recorded net cash used in operating activities of RMB11.4 million, RMB45.6 million (US\$6.6 million), RMB22.6 million and RMB94.9 million (US\$13.8 million) in 2017, 2018 and the six months ended June 30, 2018 and 2019, respectively. The cost of continuing operations could further reduce our cash position, and an increase in our net cash outflow from operating activities could adversely affect our operations by reducing the amount of cash available to meet the capital needs for our daily operation and future business expansion. Our ability to obtain additional capital is subject to a variety of uncertainties, including:

- our market position and competitiveness in the New Economy-focused business services market;
- our future profitability, overall financial condition, results of operations and cash flows;
- general market conditions for capital raising activities by New Economy and other Internet companies in China; and
- economic, political and other conditions in China and internationally.

We may be unable to obtain additional capital in a timely manner or on acceptable terms or at all. In addition, due to future capital needs and other business reasons, we may need to sell additional equity or debt securities or obtain a credit facility. The sale of additional equity or equity-linked securities could dilute our shareholders. The incurrence of indebtedness would result in increased debt service obligations and could result in operating and financing covenants that would restrict our operations or our ability to pay dividends to our shareholders.

If we fail to collect accounts receivable from our customers in a timely manner, our business operations and financial results may be materially and adversely affected.

We typically extend to our customers credit terms ranging from 90 to of 180 days, resulting in accounts receivable. We generally make a credit assessment of our customers before entering into an agreement with them. Nevertheless, we cannot assure you that we are or will be able to accurately assess the creditworthiness of each customer. Furthermore, the financial soundness of our customers, which is beyond our control, may affect our collection of accounts receivable. Any delay in payment or failed payment may adversely affect our liquidity and cash flows, which in turn has a material adverse effect on our business operations and financial results.

Our current dependence on a limited number of customers may cause significant fluctuations or declines in our revenues.

A considerable portion of our revenues is derived from a limited number of our customers. In 2018, our top five customers in aggregate accounted for 30% of our total revenues, and our largest customer accounted for 19% of our total revenues. Our largest customer in 2018 is a third-party advertising agency. Through our cooperation with this agency, we provided online advertising services to 45 companies, who are our end customers, in 2018. Nevertheless, there are inherent risks whenever a large percentage of total revenues are concentrated with a limited number of customers. It may not be possible for us to predict the future level of demand for our services by our largest customers. Actions taken by our largest customers to exploit their comparably superior bargaining position when negotiating for renewals of services agreements or otherwise could also have an adverse effect on our results of operations. In addition, revenues from the largest customers may fluctuate from time to time for reasons beyond our control. There can be no assurance that we can maintain relationships with our largest customers on commercially desirable terms. If any of the foregoing were to occur, we could be pressured to reduce the prices we charge for our services or risk losing our largest customers, which could have an adverse effect on our revenues and margins, and could negatively affect our financial position and results of operations and/or trading price of our ADSs.

The continued and collaborative efforts of our senior management and key employees are crucial to our success, and our business may be harmed if we lose their services.

Our success depends on the continued and collaborative efforts of our senior management. If, however, one or more of our executives or other key personnel are unable or unwilling to continue to provide services to us, we may not be able to find suitable replacements easily or at all. Competition for management and key personnel is intense and the pool of qualified candidates is limited. We may not be able to retain the services of our executives or key personnel, or attract and retain experienced executives or key personnel in the future. If any of our executive officers or key employees joins a competitor or forms a competing business, we may lose crucial business secrets, technological know-hows, customers and other valuable resources.

We may be subject to intellectual property infringement claims or other allegations by third parties for information or content distributed on our platform, which may be expensive to defend and may materially and adversely affect our business, financial condition and prospects.

Our success depends, in large part, on our ability to operate our business without infringing third-party rights, including third-party intellectual property rights. Companies in the Internet, technology and media industries own, and are seeking to obtain, a large number of patents, copyrights, trademarks and trade secrets, and they are frequently involved in litigation based on allegations of infringement or other violations of intellectual property rights or other related legal rights. The validity, enforceability and scope of protection of intellectual property rights in Internet-related industries, particularly in China, are uncertain and still evolving. As we face increasing competition and as litigation becomes more common in China in resolving commercial disputes, we face a higher risk of being the subject of intellectual property infringement claims.

While our content screening and monitoring mechanism screens content for potential copyright infringements, we may not be able to identify all instances of copyright infringement, especially those arising from professional content we source from third parties. For example, content providers may submit copyrighted content that they have no right to distribute. In the event we deliver content that violates the copyrights of a third party, we may be required to pay damages to compensate such third party. In addition, our platform allows our users to voice their opinions, express their views, discuss with each other and provide feedbacks to our content. Content posted by our users may expose us to allegations by third parties of infringement of intellectual property rights, invasion of privacy,

defamation and other violations of third-party rights. Pursuant to our user agreement, users agree not to post any content that is illegal, obscene or may otherwise violate generally accepted codes of ethics. We have also implemented automated and manual review of the content on our platform. However, there is no assurance that we can identify and remove all potentially infringing content uploaded by our users. As a result, our business, results of operations and financial condition could be materially and adversely affected.

Third parties may take action and file claims against us if they believe that certain content on our site violates their copyrights or other related legal rights. We have been, and may in the future be, subject to such claims in the PRC.

In addition, we operate our platform primarily through our consolidated affiliated entities and their subsidiaries, and our ability to monitor content as described above depends in large part on the experience and skills of the management of, and our control over, those consolidated affiliated entities. Our control over the management and operations of our consolidated affiliated entities through contractual arrangements may not be as effective as that through direct ownership. See "[Risks Related to Our Corporate Structure](#)—We rely on contractual arrangements with our VIE and its shareholders to operate our business, which may not be as effective as direct ownership in providing operational control and otherwise materially and adversely affect our business."

Although we have not been subject to claims or lawsuits with respect to copyright infringement outside of China, we cannot assure you that we will not become subject to copyright laws or legal proceedings initiated by third parties in other jurisdictions, such as the United States, as a result of the ability of users to access our content in the United States and other jurisdictions, the ownership of our ADSs by investors in the United States and other jurisdictions, the extraterritorial application of foreign law by foreign courts, the fact that we sub-licensed content from licensors who in turn obtained their authorizations from content providers in the United States and other jurisdictions or otherwise. In addition, as a publicly listed company, we may be exposed to increased risk of litigation. If a claim of infringement brought against us in the United States or other jurisdictions is successful, we may be required to, upon enforcement, (i) pay substantial statutory or other damages and fines, (ii) remove relevant content from our platform or (iii) enter into royalty or license agreements which may not be available on commercially reasonable terms or at all.

We may not be able to adequately protect our intellectual property and prevent others from unauthorized use of our intellectual property, which could cause us to be less competitive and harm our business.

We rely on a combination of copyright, trademark and other intellectual property laws and confidentiality agreements and other measures to protect our intellectual property rights. Despite our efforts to protect our proprietary rights, unauthorized parties may attempt to copy or otherwise obtain and use our copyrighted content and other intellectual property. Monitoring such unauthorized use is difficult and costly, and we cannot be certain that the steps we have taken will prevent misappropriation. From time to time, we may have to resort to litigation to enforce our intellectual property rights, which could result in substantial costs and diversion of our resources. The PRC has historically afforded less protection to a company's intellectual property than the United States and the Cayman Islands, and therefore companies such as ours operating in the PRC face an increased risk of intellectual property piracy.

In addition, we entered into a trademark transfer agreement with Xieli Zhucheng, pursuant to which it has agreed to transfer certain trademarks to us. As of the date of this prospectus, we have not finished the trademark transferring registration, which could impair our ability to protect our trademark rights and prevent others from unauthorized use of such trademarks.

We may from time to time become a party to litigation, legal disputes, claims or administrative proceedings that may materially and adversely affect us.

We may from time to time become a party to various litigation, legal disputes, claims or administrative proceedings arising in the ordinary course of our business. We may also get involved in legal disputes, claims or litigation in connection with our major corporate actions. For example, in connection with our reorganization, shareholders of Xieli Zhucheng are entitled to designate an entity to subscribe for and/or receive shares of our company reflecting their respective indirect ownership percentages in our VIE before completion of the reorganization. Certain shareholder of Xieli Zhucheng, however, has not officially responded to Xieli Zhucheng's request for such designation. As such, Xieli Zhucheng designated an offshore entity to hold the shares that such shareholder is entitled to receive in the reorganization, which represent 1.4% of our total outstanding shares immediately prior to the completion of this offering, pending further instructions from such shareholder. We cannot assure you, however, that such shareholder will be satisfied with such arrangement or will not file any claim or lawsuit against Xieli Zhucheng or us to claim for damages or even challenge the validity of the reorganization and our contractual arrangements with our VIE.

We cannot predict the outcome of any litigation, legal disputes, claims or administrative proceedings. If any verdict or award is rendered against us or if we decide to settle the disputes, we may be required to incur monetary damages or other liabilities. Even if we can successfully defend ourselves, we may have to incur substantial costs and spend substantial time and efforts in these lawsuits. Negative publicity relating to such litigation, legal disputes, claims or administrative proceedings may damage our reputation and adversely affect the image of our brand and services. Furthermore, any litigation, legal disputes, claims or administrative proceedings which are not of material importance may escalate due to the various factors involved, such as the facts and circumstances of the cases, the likelihood of winning or losing, the monetary amount at stake, and the parties concerned continue to evolve in the future, and such factors may result in these cases becoming of material importance to us. Consequently, any ongoing or future litigation, legal disputes, claims or administrative proceedings could materially and adversely affect our business, financial condition and results of operations.

We have undertaken strategic partnerships which may not be successful. If our collaboration with any of our strategic partners is terminated or curtailed, or if we are no longer able to benefit from the business collaborations with our strategic partners, our business may be adversely affected.

Our business has benefited from our collaborations with our strategic partners to provide services that are critical to our businesses. For example, through our strategic partnership with JingData, which is a wholly-owned subsidiary of Xieli Zhucheng, we collectively contribute to and manage a massive database of over 800,000 enterprises, which is essential to our business. If there is a material disruption in the business of JingData, or any systems failure or security breach or lapse from JingData, our business, financial condition and results of operations may be adversely affected. We cannot assure you that such alliances or partnerships will make a positive contribution to our business, and we might not be able to maintain our cooperative relationships with our strategic partners and their respective affiliates in the future. If the services provided by these strategic partners become limited, compromised, restricted, curtailed or less effective or become more expensive or unavailable to us for any reason, our business may be materially and adversely affected. To the extent we cannot maintain our cooperative relationships with any of these strategic partners, it may be very difficult for us to identify other alternative partners, which may divert significant management attention from existing business operations and adversely impact our daily operation and customer experience.

We rely on third-party online payment platforms as to certain aspects of our operations. If these payment services are restricted or curtailed in any way or become unavailable to us or our users for any reason, our business may be materially and adversely affected.

Our customers may pay for our service using a variety of different online payment methods. We rely on third parties to process such payment. Acceptance and processing of these payment methods are subject to certain rules and regulations and require payment of interchange and other fees. To the extent there are increases in payment processing fees, material changes in the payment ecosystem, such as delays in receiving payments from payment processors and/or changes to rules or regulations concerning payment processing, our revenue, operating expenses and results of operation could be adversely impacted.

Our business, results of operations and financial condition may be harmed by service disruptions, or by our failure to timely and effectively scale and adapt our existing technology and infrastructure.

We may experience service disruptions, outages and other performance problems due to a variety of factors, including infrastructure changes, human or software errors, hardware failure, capacity constraints due to an overwhelming number of people accessing our services simultaneously, computer viruses and denial of service, fraud and security attacks. Any disruption or failure in our infrastructure could hinder our ability to handle existing or increased traffic on our platform or cause us to lose content stored on our platform, which could significantly harm our business and our ability to retain existing users and attract new users.

As the number of our users increases and as we continue to diversify into new content formats, we may be required to expand and adapt our technology and infrastructure to continue to reliably store, analyze and deliver content. It may become increasingly difficult to maintain and improve the performance of our services, especially during peak usage times, as our services become more complex and our user traffic increases. If our users are unable to access our platform or we are not able to make information available rapidly on our platform, or at all, users may become frustrated and seek other channels for their New Economy-focused content, and may not return to our platform or use our platform as often in the future, or at all. This would negatively impact our ability to attract users and maintain high level of user engagements as well as our ability to attract online advertising services customers.

Our operations depend on the performance of the Internet infrastructure and fixed telecommunications networks in China. Any malfunction, capacity constraint or operation interruption may have an adverse impact on our business.

The successful operation of our business depends on the performance of the Internet infrastructure and telecommunications networks in China. Almost all access to the Internet is maintained through state-owned telecommunications operators under the administrative control and regulatory supervision of the MIIT. Moreover, we primarily rely on a limited number of telecommunication services providers to provide us with data communications capacity. We have limited access to alternative networks or services in the event of disruptions, failures or other problems with China's Internet infrastructure or the telecommunications networks provided by telecommunications services providers. With the expansion of our business, we may be required to upgrade our technology and infrastructure to keep up with the increasing traffic on our platform. However, we have no control over the costs of the services provided by telecommunications services providers. If the prices we pay for telecommunications and Internet services rise significantly, our results of operations may be materially and adversely affected. If Internet access fees or other charges to Internet users increase, our user traffic may decline and our business may be harmed.

Privacy concerns relating to our services and the use of user information could damage our reputation, deter current and potential users and customers from using our services and negatively impact our business.

We collect personal data from our users in order to better study and predict the preferences and demands of our users, and in turn tailor and recommend our content offerings accordingly. Concerns about the collection, use, disclosure or security of personal information or other privacy-related matters, even if unfounded, could damage our reputation, cause us to lose users and customers and adversely affect our business, results of operations and financial condition. While we strive to comply with applicable data protection laws and regulations, as well as our own posted privacy policies and other obligations we may have with respect to privacy and data protection, the failure or perceived failure to comply may result, and in some cases has resulted, in inquiries and other proceedings or actions against us by government agencies or others, as well as negative publicity and damage to our reputation and brand, each of which could cause us to lose users and customers, which could have an adverse effect on our business.

Any systems failure or compromise of our security that results in the unauthorized access to or release of our users' or customers' data could significantly limit the adoption of our services, as well as harm our reputation and brand and, therefore, our business. We expect to continue to expend significant resources to protect against security breaches. The risk that these types of events could seriously harm our business is likely to increase as we expand the number of products and services we offer and expand our user base.

New laws or regulations concerning data protection, or the interpretation and application of existing consumer and data protection laws or regulations, which is often uncertain and in flux, may be inconsistent with our practices. Complying with new laws and regulations could cause us to incur substantial costs or require us to change our business practices in a manner materially adverse to our business. See "Regulation—Regulation on Privacy Protection."

If our security measures are breached, or if our services are subject to attacks that degrade or deny the ability of users to access our services, our services may be perceived as not being secure, users may curtail or stop using our services and our business, results of operations and financial condition may be harmed.

Our services involve the storage and transmission of users' information, and security breaches expose us to a risk of loss of this information, litigation and potential liability. Our user data is encrypted and saved on cloud-based servers, protected by access control, and further backed up in long-distance servers, so as to minimize the possibility of data loss or breach. Upon a security breach, our technical team will be notified immediately and diagnose and solve the technical problems. As of the date of this prospectus, we have not experienced any material incidents of security breach.

Despite the security measures we have implemented, we may experience cyber-attacks of varying degrees, including attempts to hack into our user accounts or redirect our user traffic to other websites. Functions that facilitate interactivity with other mobile applications, which among other things allows users to log into our platform using their accounts or identities, could increase the scope of access of hackers to user accounts. Our security measures may also be breached due to employee error, malfeasance or otherwise. Additionally, outside parties may attempt to fraudulently induce employees or users to disclose sensitive information in order to gain access to our data or our users' data or accounts, or may otherwise obtain access to such data or accounts. Any such breach or unauthorized access could result in significant legal and financial exposure, damage to our reputation and a loss of confidence in the security of our services that could have an adverse effect on our business, results of operations and financial condition. Because the techniques used to obtain unauthorized access, disable or degrade service or sabotage systems change frequently and often are not recognized until launched against a target, we may be unable to anticipate these techniques or to implement adequate preventative measures. If an actual or perceived breach of our security occurs, the market perception of

the effectiveness of our security measures could be harmed, we could lose users and we may be exposed to significant legal and financial risks, including legal claims and regulatory fines and penalties. Any of these actions could have a material and adverse effect on our business, results of operations and financial condition.

Our user and customer operating metrics and other estimates are subject to inherent challenges in measuring our operating performance, which may harm our reputation.

We regularly review our operating metrics in relation to our users and customers to evaluate growth trends, measure our performance, and make strategic decisions. These metrics are calculated using our internal data as well as third-party platform's data, have not been validated by an independent third party, and may not be indicative of our future operation results. While these numbers are based on what we believe to be reasonable estimates for the applicable period of measurement, there are inherent challenges in measuring how our platform is used across a large population in China. For example, we may not be able to distinguish individual users who have multiple registered accounts across our self-operated platforms and third-party platforms. Errors or inaccuracies in our metrics or data could result in incorrect business decisions and inefficiencies. For instance, if a significant understatement or overstatement of active users were to occur, we might expend resources to implement unnecessary business measures or fail to take required actions to remedy an unfavorable trend. If online advertising services customers or investors do not perceive our user or other operating metrics to accurately represent our user base, or if we discover inaccuracies in our user or other operating metrics, our reputation may be harmed.

If we fail to implement and maintain an effective system of internal controls over financial reporting, we may be unable to accurately or timely report our results of operations or prevent fraud, and investor confidence and the market price of our ADSs may be materially and adversely affected.

Prior to this offering, we were a private company with limited accounting personnel and other resources with which to address our internal controls and procedures. Our management has not completed an assessment of the effectiveness of our internal control over financial reporting, and our independent registered public accounting firm has not conducted an audit of our internal control over financial reporting. In the course of auditing our consolidated financial statements as of and for the years ended December 31, 2017 and 2018, we and our independent registered public accounting firm identified one material weakness in our internal control over financial reporting and other control deficiencies. The material weakness identified is our lack of sufficient competent financial reporting and accounting personnel with appropriate understanding of U.S. GAAP to design and implement formal period-end financial reporting controls and procedures to address U.S. GAAP technical accounting issues, and to prepare and review the consolidated financial statements and related disclosures in accordance with U.S. GAAP and financial reporting requirements set forth by the SEC. We are in the process of implementing a number of measures to address the identified material weakness and control deficiencies. See "Management's Discussion and Analysis of Financial Condition and Results of Operations—Internal Control Over Financial Reporting." However, we cannot assure you that these measures may fully address or remediate the material weakness and control deficiencies.

Upon the completion of this offering, we will become a public company in the United States subject to the Sarbanes-Oxley Act of 2002. Section 404 of the Sarbanes-Oxley Act of 2002, or Section 404, will require that we include a report from management on our internal control over financial reporting in our annual report on Form 20-F beginning with our annual report for the fiscal year ending December 31, 2020. In addition, once we cease to be an "emerging growth company" as such term is defined in the JOBS Act, our independent registered public accounting firm must attest to and report on the effectiveness of our internal control over financial reporting. Our management may conclude that our internal control over financial reporting is not effective. Moreover, even if our

management concludes that our internal control over financial reporting is effective, our independent registered public accounting firm, after conducting its own independent testing, may issue a report that is qualified if it is not satisfied with our internal controls or the level at which our controls are documented, designed, operated or reviewed, or if it interprets the relevant requirements differently from us. In addition, after we become a public company, our reporting obligations may place a significant strain on our management, operational and financial resources and systems for the foreseeable future. We may be unable to timely complete our evaluation testing and any required remediation.

During the course of documenting and testing our internal control procedures, in order to satisfy the requirements of Section 404, we may identify other or more material weaknesses or deficiencies in our internal control over financial reporting. In addition, if we fail to maintain the adequacy of our internal control over financial reporting, as these standards are modified, supplemented or amended from time to time, we may not be able to conclude on an ongoing basis that we have effective internal control over financial reporting in accordance with Section 404. Generally speaking, if we fail to achieve and maintain an effective internal control environment, we could suffer material misstatements in our financial statements and fail to meet our reporting obligations, which would likely cause investors to lose confidence in our reported financial information. This could in turn limit our access to capital markets, harm our results of operations and lead to a decline in the trading price of our ADSs. Additionally, ineffective internal control over financial reporting could expose us to increased risk of fraud or misuse of corporate assets and subject us to potential delisting from the stock exchange on which we list, regulatory investigations and civil or criminal sanctions.

We have limited business insurance coverage which could expose us to significant costs and business disruption.

Insurance companies in China offer limited business insurance products. We do not have any business liability or disruption insurance coverage for our operations in China. Any business disruption may result in our incurring substantial costs and the diversion of our resources, which could have an adverse effect on our results of operations and financial condition.

Our quarterly operating results may fluctuate, which makes our results of operations difficult to predict and may cause our quarterly results of operations to fall short of expectations.

Our quarterly operating results have fluctuated in the past and may continue to fluctuate depending upon a number of factors, many of which are out of our control. Our operating results tend to be seasonal. For instance, advertising and marketing activities tend to be less active during the first quarter, which is Chinese New Year holiday season. As compared to the first quarter, our online advertising services customers tend to increase advertising and marketing spending near the end of each calendar year when they spend their remaining annual budgets. Moreover, as most of our offline events are hosted in the fourth quarter of each year, we also experience increase in revenues during the fourth quarter of each year for our enterprise value-added services. For these reasons, comparing our operating results on a period-to-period basis may not be meaningful, and you should not rely on our past results as an indication of our future performance. Our quarterly and annual revenues and costs and expenses as a percentage of our revenues in a given period may be significantly different from our historical or projected rates and our operating results in future quarters may fall below expectations.

We have granted, and may continue to grant, share incentives, which may have an adverse effect on our future profit.

Beijing Duoke adopted a share incentive plan in December 2016, or the 2016 Share Incentive Plan, to enhance its ability to attract and retain exceptionally qualified individuals and to encourage them to acquire a proprietary interest in the growth and performance of us. In September 2019, 36Kr Holdings Inc. adopted a share incentive plan, which we refer to as the 2019 Share Incentive Plan. The 2016 Share Incentive Plan was canceled concurrently upon the adoption of the 2019 Share Incentive Plan, and each participant of the 2016 Share Incentive Plan is expected to receive corresponding grants under the 2019 Share Incentive Plan. As of the date of this prospectus, the maximum aggregate number of ordinary shares which may be issued pursuant to all awards under the 2019 Share Incentive Plan is 137,186,000. See "Management—Share Incentive Plan."

In addition, prior to our incorporation, Xieli Zhucheng granted restricted share units to certain employees in relation to the New Economy-focused businesses which were transferred to us. As a result, the associated share-based compensation expenses of such employees were allocated to the consolidated financial statements of our Group as a contribution by the parent company. In 2017, 2018 and for the six months ended June 30, 2018 and 2019, we recorded RMB4.9 million, RMB5.1 million (US\$0.7 million), RMB2.7 million and RMB29.1 million (US\$4.2 million), respectively, in share-based compensation expenses. We believe the granting of share-based awards is of significant importance to our ability to attract and retain key personnel and employees, and we will continue to grant share-based compensation to employees in the future. As a result, our expenses associated with share-based compensation may increase, which may have an adverse effect on our results of operations.

A severe and prolonged global economic recession and the slowdown in the Chinese economy may adversely affect our business, results of operations and financial condition.

The global macroeconomic environment is facing challenges, including the end of quantitative easing by the U.S. Federal Reserve, the economic slowdown in the Eurozone since 2014, uncertainties over the impact of Brexit and ongoing trade disputes and tariffs. The growth of the Chinese economy has slowed down since 2012 compared to the previous decade and the trend may continue. According to the National Bureau of Statistics of China, China's gross domestic product (GDP) growth was 6.6% in 2018. There is considerable uncertainty over the long-term effects of the monetary and fiscal policies adopted by the central banks and financial authorities of some of the world's leading economies, including the United States and China. There have been concerns over unrest and terrorist threats in the Middle East, Europe and Africa. There have also been concerns on the relationship between China and other countries, including surrounding Asian countries, which may potentially lead to foreign investors closing down their businesses or withdrawing their investments in China and, thus, exiting the China market, and other economic effects. In addition, there have also been concerns on the relationship between China and the U.S. following rounds of tariffs imposed by the U.S. and retaliatory tariffs imposed by China. It is unclear whether these challenges and uncertainties will be contained or resolved, and what effects they may have on the global political and economic conditions in the long term. Economic conditions in China are sensitive to global economic conditions, as well as changes in domestic economic and political policies and the expected or perceived overall economic growth rate in China. Any prolonged slowdown in the global or Chinese economy may have a negative impact on our business, results of operations and financial condition, and continued turbulence in the international markets may adversely affect our ability to access the capital markets to meet liquidity needs. Our customers may reduce or delay spending with us, while we may have difficulty expanding our customer base fast enough, or at all, to offset the impact of decreased spending by our existing customers. In addition, to the extent we offer credit to any customer and the customer experiences financial difficulties due to the economic slowdown, we could have difficulty collecting payment from the customer.

Any catastrophe, including natural catastrophes and outbreaks of health pandemics and other extraordinary events, could disrupt our business operation.

We are vulnerable to natural disasters and other calamities. Fire, floods, typhoons, earthquakes, power loss, telecommunications failures, break-ins, war, riots, terrorist attacks or similar events may give rise to server interruptions, breakdowns, system failures or Internet failures, which could cause the loss or corruption of data or malfunctions of software or hardware as well as adversely affect our ability to provide our services.

Our business could also be adversely affected by the effects of Ebola virus disease, H1N1 flu, H7N9 flu, avian flu, Severe Acute Respiratory Syndrome, or SARS, or other epidemics. Our business operations could be disrupted if any of our employees is suspected of having Ebola virus disease, H1N1 flu, H7N9 flu, avian flu, SARS or another contagious disease or condition, since it could require our employees to be quarantined and/or our offices to be disinfected. In addition, our business, results of operations and financial condition could be adversely affected to the extent that any of these epidemics harms the Chinese economy in general.

RISKS RELATED TO OUR CORPORATE STRUCTURE

If the PRC government finds that the agreements that establish the structure for operating some of our operations in China do not comply with PRC regulations relating to the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations.

Foreign investment in the value-added telecommunication services industry in China is extensively regulated and subject to numerous restrictions. The Special Administrative Measures for Entrance of Foreign Investment (Negative List 2019) provides that foreign investors are generally not allowed to own more than 50% of the equity interests in a commercial Internet content provider or other value-added telecommunication services provider other than an e-commerce services provider, and the Provisions on the Administration of Foreign-Invested Telecommunications Enterprises (2016 Revision) requires that the major foreign investor in a value-added telecommunication services provider in China must have experience in providing value-added telecommunications services overseas and maintain a good track record. In addition, foreign investors are prohibited from investing in companies engaged in Internet dissemination, Internet content provision, Internet news information services, online publishing businesses, certain Internet culture businesses, Internet audio-visual programs businesses and production and operation of radio and television programs. See "Regulation—Foreign Investment Law"

We are a Cayman Islands company and our subsidiary in China is currently considered a foreign-invested enterprise. Accordingly, in practice, our PRC subsidiary is not eligible to provide value-added telecommunication services or conduct other businesses which foreign-owned companies are prohibited or restricted from conducting in China. To ensure strict compliance with the PRC laws and regulations, we conduct such business activities through our VIE, and its subsidiaries. Beijing Dake, our wholly owned subsidiary in China, has entered into a series of contractual arrangements with our VIE and its shareholders, which enables us to (i) exercise effective control over our VIE; (ii) receive substantially all of the economic benefits of our VIE; and (iii) have an exclusive option to purchase all or part of the equity interests and assets in our VIE when and to the extent permitted by PRC laws and regulations. For a description of these contractual arrangements, see "Corporate History and Structure."

If the PRC government finds that our contractual arrangements do not comply with its restrictions on foreign investment in the value-added telecommunication services and other foreign prohibited services or if the PRC government otherwise finds that we, our VIE, or any of its subsidiaries are in violation of PRC laws or regulations or lack the necessary permits or licenses to operate our business,

the relevant PRC regulatory authorities would have broad discretion in dealing with such violations or failures, including:

- revoking the business licenses and/or operating licenses of such entities;
- discontinuing or placing restrictions or onerous conditions on our operation through any transactions between our PRC subsidiary and our VIE;
- imposing fines, confiscating the income from our PRC subsidiary or our VIE, or imposing other requirements with which we or our VIE may not be able to comply;
- requiring us to restructure our ownership structure or operations, including terminating the contractual arrangements with our VIE and deregistering the equity pledges of our VIE, which in turn would affect our ability to consolidate, derive economic interests from, or exert effective control over our VIE;
- restricting or prohibiting our use of the proceeds of this offering to finance our business and operations in China; or
- taking other regulatory or enforcement actions that could be harmful to our business.

Any of these events could cause significant disruption to our business operations and severely damage our reputation, which would in turn materially and adversely affect our business, financial condition and results of operations. If occurrence of any of these events results in our inability to direct the activities of our VIE that most significantly impact their economic performance and/or our failure to receive the economic benefits of our VIE, we may not be able to consolidate their operating results in our consolidated financial statements in accordance with U.S. GAAP.

Substantial uncertainties exist with respect to the interpretation and implementation of the newly enacted Foreign Investment Law of the PRC and how it may impact the viability of our current corporate structure, corporate governance and business operations.

On March 15, 2019, the National People's Congress adopted the Foreign Investment Law of the PRC, which will become effective on January 1, 2020 and replace three existing laws regulating foreign investment in China, namely, the Wholly Foreign-Invested Enterprise Law of the PRC, the Sino-Foreign Cooperative Joint Venture Enterprise Law of the PRC and the Sino-Foreign Equity Joint Venture Enterprise Law of the PRC, together with their implementation rules and ancillary regulations. The Foreign Investment Law of the PRC embodies an expected PRC regulatory trend to rationalize its foreign investment regulatory regime in line with prevailing international practice and the legislative efforts to unify the corporate legal requirements for both foreign and domestic investments. However, since it is relatively new, uncertainties still exist in relation to its interpretation and implementation. For example, the Foreign Investment Law of the PRC adds a catch-all clause to the definition of "foreign investment" so that foreign investment, by its definition, includes "investments made by foreign investors in China through other means defined by other laws or administrative regulations or provisions promulgated by the State Council" without further elaboration on the meaning of "other means." It leaves leeway for the future legislations promulgated by the State Council to provide for contractual arrangements as a form of foreign investment. It is therefore uncertain whether our corporate structure will be seen as violating the foreign investment rules as we are currently leveraging the contractual arrangements to operate certain businesses in which foreign investors are prohibited from or restricted to investing. Furthermore, if future legislations prescribed by the State Council mandate further actions to be taken by companies with respect to existing contractual arrangements, we may face substantial uncertainties as to whether we can complete such actions in a timely manner, or at all. If we fail to take appropriate and timely measures to comply with any of these or similar regulatory compliance requirements, our current corporate structure, corporate governance and business operations could be materially and adversely affected.

We rely on contractual arrangements with our VIE and its shareholders to operate our business, which may not be as effective as direct ownership in providing operational control and otherwise materially and adversely affect our business.

We rely on contractual arrangements with our VIE, its shareholders, as well as certain of its subsidiaries to operate our business in China. For a description of these contractual arrangements, see "Corporate History and Structure." These contractual arrangements may not be as effective as direct ownership in providing us with control over our VIE. For example, our VIE and its shareholders could breach their contractual arrangements with us by, among other things, failing to conduct their operations in an acceptable manner or taking other actions that are detrimental to our interests. The revenues contributed by our VIE and its subsidiaries constituted substantially all of our revenues in 2017, 2018 and for the six months ended June 30, 2018 and 2019.

If we had direct ownership of our VIE, we would be able to exercise our rights as a shareholder to effect changes in the board of directors of our VIE, which in turn could implement changes, subject to any applicable fiduciary obligations, at the management and operational level. However, under the contractual arrangements, we expect to rely on the performance by our VIE and its shareholders of their respective obligations under the contracts to exercise control over our VIE. The shareholders of our VIE may not act in the best interests of our company or may not perform their obligations under these contracts. Such risks will exist throughout the period in which we operate our business through the contractual arrangements with our VIE and its shareholders. If any dispute relating to these contracts remains unresolved, we will have to enforce our rights under these contracts through the operations of PRC law and arbitration, litigation or other legal proceedings and therefore will be subject to uncertainties in the PRC legal system. See "—Any failure by our VIE or its shareholders to perform their obligations under our contractual arrangements with them would have a material and adverse effect on our business." Therefore, our contractual arrangements with our VIE and its shareholders may not be as effective in controlling our business operations as direct ownership.

Any failure by our VIE or its shareholders to perform their obligations under our contractual arrangements with them would have a material and adverse effect on our business.

If our VIE or its shareholders fail to perform their respective obligations under the contractual arrangements, we could be limited in our ability to enforce the contractual arrangements that give us effective control over our business operations in the PRC and may have to incur substantial costs and expend additional resources to enforce such arrangements. We may also have to rely on legal remedies under PRC law, including seeking specific performance or injunctive relief, and claiming damages, which we cannot assure will be effective under PRC law. For example, if the shareholders of our VIE refuse to transfer their equity interest in our VIE to our PRC subsidiary or its designee after we exercise the purchase option pursuant to these contractual arrangements, or if they otherwise act in bad faith or otherwise fail to fulfill their contractual obligations, we may have to take legal actions to compel them to perform their contractual obligations. In addition, if there are any disputes or governmental proceedings involving any interest in such shareholders' equity interests in our VIE, our ability to exercise shareholders' rights or foreclose the share pledges according to the contractual arrangements may be impaired. If these disputes or proceedings were to impair our control over our VIE, we may not be able to maintain effective control over our business operations in the PRC and thus would not be able to continue to consolidate our VIE's financial results, which would in turn result in a material adverse effect on our business, operations and financial condition.

All the agreements under our contractual arrangements are governed by PRC law and provide for the resolution of disputes through arbitration in China. Accordingly, these contracts would be interpreted in accordance with PRC law, and any disputes would be resolved in accordance with PRC legal procedures.

All the agreements under our contractual arrangements are governed by PRC law and provide for the resolution of disputes through arbitration in China. Accordingly, these contracts would be interpreted in accordance with PRC law and any disputes would be resolved in accordance with PRC legal procedures. The legal system in the PRC is not as developed as in some other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. Meanwhile, there are very few precedents and little formal guidance as to how contractual arrangements in the context of a VIE should be interpreted or enforced under PRC law. There remain significant uncertainties regarding the ultimate outcome of such arbitration should legal action become necessary. In addition, under PRC law, rulings by arbitrators are final, parties cannot appeal the arbitration results in courts, and if the losing parties fail to carry out the arbitration awards within a prescribed time limit, the prevailing parties may only enforce the arbitration awards in PRC courts through arbitration award recognition proceedings, which would require additional expenses and delay. In the event we are unable to enforce these contractual arrangements, or if we suffer significant delay or other obstacles in the process of enforcing these contractual arrangements, we may not be able to exert effective control over our VIE, and our ability to conduct our business may be negatively affected. See "[Risks Related to Doing Business in China—Uncertainties with respect to the PRC legal system and the interpretation of laws and regulations could materially and adversely affect us.](#)"

Contractual arrangements in relation to our VIE may be subject to scrutiny by the PRC tax authorities and they may determine that we or our VIE owe additional taxes, which could negatively affect our financial condition and the value of your investment.

Under applicable PRC laws and regulations, arrangements and transactions among related parties may be subject to audit or challenge by the PRC tax authorities within ten years after the taxable year when the transactions are conducted. We could face material and adverse tax consequences if the PRC tax authorities determine that the contractual arrangements between us and our VIE were not entered into on an arm's-length basis in such a way as to result in an impermissible reduction in taxes under applicable PRC laws, rules and regulations, and adjust the income of our VIE in the form of a transfer pricing adjustment. A transfer pricing adjustment could, among other things, result in a reduction of expense deductions recorded by our VIE for PRC tax purposes, which could in turn increase its tax liabilities without reducing our PRC subsidiary's tax expenses. In addition, the PRC tax authorities may impose additional tax liability on our VIE for the adjusted but unpaid taxes according to the applicable regulations. Our financial position could be materially and adversely affected if our VIE's tax liabilities increase or if it is required to pay late payment fees and other penalties.

The shareholders of our VIE may have actual or potential conflicts of interest with us, which may materially and adversely affect our business and financial condition.

The shareholders of our VIE may have actual or potential conflicts of interest with us. These shareholders may breach, or cause our VIE to breach, or refuse to renew, the existing contractual arrangements we have with them and our VIE, which would have a material and adverse effect on our ability to effectively control our VIE and receive economic benefits from them. For example, the shareholders may be able to cause our agreements with our VIE to be performed in a manner adverse to us by, among other things, failing to remit payments due under the contractual arrangements to us on a timely basis. We cannot assure you that when conflicts of interest arise any or all of these shareholders will act in the best interests of our company or such conflicts will be resolved in our favor. If we cannot resolve any conflict of interest or dispute between us and these shareholders, we would have to rely on legal proceedings, which could result in disruption of our business and subject us to substantial uncertainty as to the outcome of any such legal proceedings.

We may lose the ability to use, or otherwise benefit from, the licenses, permits and assets held by our VIE.

As part of our contractual arrangements with our VIE, our VIE holds certain assets, licenses and permits that are material to our business operations, including without limitation permits, licenses, domain names and most of our IP rights. The contractual arrangements contain terms that specifically obligate our VIE's shareholders to ensure the valid existence of our VIE and restrict the disposal of material assets of our VIE. However, in the event that our VIE's shareholders breach the terms of these contractual arrangements and voluntarily liquidate any of our VIE, or our VIE declares bankruptcy and all or part of its assets become subject to liens or rights of third-party creditors, or are otherwise disposed of or encumbered without our consent, we may be unable to conduct some or all of our business operations or otherwise benefit from the assets held by our VIE, which could have a material adverse effect on our business, financial condition and results of operations. Furthermore, under the contractual arrangements, our VIE may not, in any manner, sell, transfer, mortgage or dispose of their material assets or legal or beneficial interests in the business without our prior consent. If our VIE undergoes a voluntary or involuntary liquidation proceeding, its shareholders or unrelated third-party creditors may claim rights to some or all of the assets of our VIE, thereby hindering our ability to operate our business as well as constrain our growth.

RISKS RELATED TO DOING BUSINESS IN CHINA

Uncertainties with respect to the PRC legal system and the interpretation of laws and regulations could materially and adversely affect us.

The PRC legal system is a civil law system based on written statutes. Unlike the common law system, prior court decisions under the civil law system may be cited for reference but have limited precedential value.

In 1979, the PRC government began to promulgate a comprehensive system of laws and regulations governing economic matters in general. The overall effect of legislation over the past three decades has significantly enhanced the protections afforded to various forms of foreign investments in China. However, China has not developed a fully integrated legal system, and recently enacted laws and regulations may not sufficiently cover all aspects of economic activities in China. In particular, the PRC legal system is based on written statutes and prior court decisions have limited value as precedents. Since these laws and regulations are relatively new and the PRC legal system continues to rapidly evolve, the interpretations of many laws, regulations and rules may not be uniform and enforcement of these laws, regulations and rules involves uncertainties. These uncertainties may affect our judgment on the relevance of legal requirements and our ability to enforce our contractual rights or tort claims. In addition, the regulatory uncertainties may be exploited through unmerited or frivolous legal actions or threats in attempts to extract payments or benefits from us. Furthermore, the PRC legal system is based in part on government policies and internal rules, some of which are not published on a timely basis or at all and may have a retroactive effect. As a result, we may not be aware of our violation of any of these policies and rules until sometime after the violation. In addition, any administrative and court proceedings in China may be protracted, resulting in substantial costs and diversion of resources and management attention.

In particular, PRC laws and regulations concerning the industries we operate are developing and evolving. Although we have taken measures to comply with the laws and regulations that are applicable to our business operations and avoid conducting any non-compliant activities under the applicable laws and regulations, the PRC governmental authorities may promulgate new laws and regulations regulating the industries we operate in the future. We cannot assure you that our practice would not be deemed to violate any new PRC laws or regulations relating to the industries we operate. Moreover, developments in the industries we operate may lead to changes in PRC laws, regulations and policies or

in the interpretation and application of existing laws, regulations and policies that may limit or restrict us, which could materially and adversely affect our business and operations.

The custodians or authorized users of our controlling non-tangible assets, including chops and seals, may fail to fulfill their responsibilities, or misappropriate or misuse these assets.

Under the PRC law, legal documents for corporate transactions, including agreements and contracts are executed using the chop or seal of the signing entity or with the signature of a legal representative whose designation is registered and filed with relevant PRC market regulation administrative authorities.

In order to secure the use of our chops and seals, we have established internal control procedures and rules for using these chops and seals. In any event that the chops and seals are intended to be used, the responsible personnel will submit the application through our office automation system and the application will be verified and approved by authorized employees in accordance with our internal control procedures and rules. In addition, in order to maintain the physical security of our chops, we generally have them stored in secured locations accessible only to authorized employees. Although we monitor such authorized employees, the procedures may not be sufficient to prevent all instances of abuse or negligence. There is a risk that our employees could abuse their authority, for example, by entering into a contract not approved by us or seeking to gain control of one of our subsidiaries or our VIE. If any employee obtains, misuses or misappropriates our chops and seals or other controlling non-tangible assets for whatever reason, we could experience disruption to our normal business operations. We may have to take corporate or legal action, which could involve significant time and resources to resolve and divert management from our operations.

Changes in China's economic, political and social conditions as well as government policies could have a material adverse effect on our business and prospect.

Substantially all of our operations are located in China. Accordingly, our business, prospect, financial condition and results of operations may be influenced to a significant degree by political, economic and social conditions in China generally, and by continued economic growth in China as a whole. The Chinese economy differs from the economies of most developed countries in many respects, including the amount of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. Although the Chinese government has implemented measures emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China is still owned by the government. In addition, the Chinese government continues to play a significant role in regulating industry development by imposing industrial policies. The Chinese government also exercises significant control over China's economic growth through allocating resources, controlling payment of foreign currency-denominated obligations, setting monetary policy and providing preferential treatment to particular industries or companies.

While the Chinese economy has experienced significant growth over the past decades, growth has been uneven, both geographically and among various sectors of the economy. Any adverse changes in economic conditions in China, in the policies of the Chinese government or in the laws and regulations in China could have a material adverse effect on the overall economic growth of China. Such developments could adversely affect our business and operating results, lead to a reduction in demand for our services and adversely affect our competitive position. The Chinese government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures may benefit the overall Chinese economy, but may have a negative effect on us. For example, our financial condition and results of operations may be adversely affected by government control over capital investments or changes in tax regulations. In addition, in the past the Chinese government has implemented certain measures, including interest rate adjustment, to control

the pace of economic growth. These measures may cause decreased economic activity in China. Any prolonged slowdown in the Chinese economy may reduce the demand for our services and materially and adversely affect our business and operating results.

Certain judgments obtained against us by our shareholders may not be enforceable.

We are a Cayman Islands company and substantially all of our current operations are conducted in China. In addition, most of our current directors and officers are nationals and residents of countries other than the United States. As a result, it may be difficult or impossible for you to bring an action against us or against these individuals in the United States in the event that you believe that your rights have been infringed under the U.S. federal securities laws or otherwise. Even if you are successful in bringing an action of this kind, the laws of the Cayman Islands and of China may render you unable to enforce a judgment against our assets or the assets of our directors and officers. For more information regarding the relevant laws of the Cayman Islands and China, see "Enforceability of Civil Liabilities."

Regulation and censorship of information disseminated over the Internet in China may adversely affect our business and reputation and subject us to liability for information displayed on our platform.

The PRC government has adopted regulations governing Internet access and the distribution of news and other information over the Internet. Under these regulations, Internet content providers and Internet publishers are prohibited from posting or displaying over the Internet content that, among other things, violates PRC laws and regulations, impairs the national dignity of China, or is reactionary, obscene, superstitious, fraudulent or defamatory. Failure to comply with these requirements may result in the revocation of licenses to provide Internet content and other licenses, and the closure of the concerned websites. The website operator may also be held liable for such censored information displayed on or linked to the websites. If our platform is found to be in violation of any such requirements, we may be penalized by relevant authorities, and our operations or reputation could be adversely affected.

We may rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we may have, and any limitation on the ability of our PRC subsidiaries to make payments to us and any tax we are required to pay could have a material and adverse effect on our ability to conduct our business.

We are a Cayman Islands holding company and, other than external financing, we rely principally on dividends and other distributions on equity from our PRC subsidiaries for our cash requirements, including the funds necessary to pay dividends and other cash distributions to our shareholders and for services of any debt we may incur. Our PRC subsidiaries' ability to distribute dividends is based upon their distributable earnings. Current PRC regulations permit our PRC subsidiaries to pay dividends to their respective shareholders only out of their accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. In addition, each of our PRC subsidiaries, our VIE and its subsidiaries is required to set aside at least 10% of its after-tax profits each year, if any, to fund a statutory reserve until such reserve reaches 50% of its registered capital. Each of our PRC subsidiaries is also required to further set aside a portion of its after-tax profits to fund the employee welfare fund, although the amount to be set aside, if any, is determined at its discretion. These reserves are not distributable as cash dividends. If our PRC subsidiaries incur debt on their own behalf in the future, the instruments governing the debt may restrict their ability to pay dividends or make other payments to us. Any limitation on the ability of our PRC subsidiaries to distribute dividends or other payments to their respective shareholders could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our businesses, pay dividends or otherwise fund and conduct our business.

In addition, the Enterprise Income Tax Law and its implementation rules provide that a withholding tax rate of up to 10% will be applicable to dividends payable by Chinese companies to non-PRC resident enterprises unless otherwise exempted or reduced according to treaties or arrangements between the PRC central government and governments of other countries or regions where the non-PRC resident enterprises are incorporated.

In response to the persistent capital outflow and the RMB's depreciation against the U.S. dollar in the fourth quarter of 2016, the People's Bank of China, or the PBOC, and the State Administration of Foreign Exchange, or SAFE, have implemented a series of capital control measures in the subsequent months, including stricter vetting procedures for China-based companies to remit foreign currency for overseas acquisitions, dividend payments and shareholder loan repayments. For instance, the PBOC issued the Circular on Further Clarification of Relevant Matters Relating to Offshore RMB Loans Provided by Domestic Enterprises, or PBOC Circular 306, on November 26, 2016, which provides that offshore RMB loans provided by a domestic enterprise to offshore enterprises with which it has an equity relationship shall not exceed 30% of the domestic enterprise's most recent audited owner's equity. PBOC Circular 306 may constrain our PRC subsidiaries' ability to provide offshore loans to us. The PRC government may continue to strengthen its capital controls and our PRC subsidiaries' dividends and other distributions may be subjected to tighter scrutiny in the future. Any limitation on the ability of our PRC subsidiaries to pay dividends or make other distributions to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our business, pay dividends, or otherwise fund and conduct our business. See also "—We may be classified as a "PRC resident enterprise" for PRC enterprise income tax purposes, which could result in unfavorable tax consequences to us and our non-PRC shareholders and ADS holders and have a material adverse effect on our results of operations and the value of your investment."

Under the Enterprise Income Tax Law of the PRC and related regulations, dividends, interests, rent or royalties payable by a foreign-invested enterprise, such as our PRC subsidiaries, to any of its foreign non-resident enterprise investors, and proceeds from any such foreign enterprise investor's disposition of assets (after deducting the net value of such assets) are subject to a 10% withholding tax, unless the foreign enterprise investor's jurisdiction of incorporation has a tax treaty with China that provides for a reduced rate of withholding tax.

PRC regulation of loans to, and direct investment in, PRC entities by offshore holding companies and governmental control of currency conversion may restrict or prevent us from using the proceeds of this offering to make loans to our PRC subsidiary and our VIE, or to make additional capital contributions to our PRC subsidiary.

In utilizing the proceeds of this offering, we, as an offshore holding company, are permitted under PRC laws and regulations to provide funding to our PRC subsidiaries, which are treated as foreign-invested enterprises under PRC laws, through loans or capital contributions. However, loans by us to our PRC subsidiaries to finance their activities cannot exceed statutory limits and must be registered with the local counterpart of SAFE and capital contributions to our PRC subsidiaries are subject to the requirement of making necessary filings in the Foreign Investment Comprehensive Management Information System, and registration with other governmental authorities in China.

SAFE promulgated the Notice of the State Administration of Foreign Exchange on Reforming the Administration of Foreign Exchange Settlement of Capital of Foreign-invested Enterprises, or Circular 19, effective on June 1, 2015, in replacement of the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign-Invested Enterprises, or SAFE Circular 142, the Notice from the State Administration of Foreign Exchange on Relevant Issues Concerning Strengthening the Administration of Foreign Exchange Businesses, or Circular 59, and the Circular on Further Clarification and Regulation of the Issues Concerning the Administration of Certain Capital Account Foreign Exchange

Businesses, or Circular 45. According to Circular 19, the flow and use of the Renminbi capital converted from foreign currency-denominated registered capital of a foreign-invested company is regulated such that Renminbi capital may not be used for the issuance of Renminbi entrusted loans, the repayment of inter-enterprise loans or the repayment of banks loans that have been transferred to a third party. Although Circular 19 allows Renminbi capital converted from foreign currency-denominated registered capital of a foreign-invested enterprise to be used for equity investments within the PRC, it also reiterates the principle that Renminbi converted from the foreign currency-denominated capital of a foreign-invested company may not be directly or indirectly used for purposes beyond its business scope. Thus, it is unclear whether SAFE will permit such capital to be used for equity investments in the PRC in actual practice. SAFE promulgated the Notice of the State Administration of Foreign Exchange on Reforming and Standardizing the Foreign Exchange Settlement Management Policy of Capital Account, or Circular 16, effective on June 9, 2016, which reiterates some of the rules set forth in Circular 19, but changes the prohibition against using Renminbi capital converted from foreign currency-denominated registered capital of a foreign-invested company to issue Renminbi entrusted loans to a prohibition against using such capital to issue loans to non-associated enterprises. Violations of SAFE Circular 19 and Circular 16 could result in administrative penalties. Circular 19 and Circular 16 may significantly limit our ability to transfer any foreign currency we hold, including the net proceeds from our initial public offering and follow-on public offering, to our PRC subsidiaries, which may adversely affect our liquidity and our ability to fund and expand our business in the PRC.

Due to the restrictions imposed on loans in foreign currencies extended to any PRC domestic companies, we are not likely to make such loans to our VIE and its subsidiaries, each a PRC domestic company. Meanwhile, we are not likely to finance the activities of our VIE and its subsidiaries by means of capital contributions given the restrictions on foreign investment in the businesses that are currently conducted by our VIE and its subsidiaries.

In light of the various requirements imposed by PRC regulations on loans to, and direct investment in, PRC entities by offshore holding companies, we cannot assure you that we will be able to complete the necessary government registrations or obtain the necessary government approvals on a timely basis, if at all, with respect to future loans to our PRC subsidiaries or our VIE or future capital contributions by us to our PRC subsidiaries. As a result, uncertainties exist as to our ability to provide prompt financial support to our PRC subsidiaries or our VIE and their subsidiaries when needed. If we fail to complete such registrations or obtain such approvals, our ability to use foreign currency, including the proceeds we received from our initial public offering, and to capitalize or otherwise fund our PRC operations may be negatively affected, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

Fluctuations in exchange rates could have a material and adverse effect on our results of operations and the value of your investment.

The value of the Renminbi against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions in China and by China's foreign exchange policies. On July 21, 2005, the PRC government changed its decade-old policy of pegging the value of the Renminbi to the U.S. dollar, and the Renminbi appreciated more than 20% against the U.S. dollar over the following three years. Between July 2008 and June 2010, this appreciation halted and the exchange rate between the Renminbi and the U.S. dollar remained within a narrow band. Since June 2010, the Renminbi has fluctuated against the U.S. dollar, at times significantly and unpredictably. On November 30, 2015, the Executive Board of the International Monetary Fund (IMF) completed the regular five-year review of the basket of currencies that make up the Special Drawing Right, or the SDR, and decided that with effect from October 1, 2016, Renminbi is determined to be a freely usable currency and will be included in the SDR basket as a fifth currency,

along with the U.S. dollar, the Euro, the Japanese yen and the British pound. In the fourth quarter of 2016, the Renminbi has depreciated significantly in the backdrop of a surging U.S. dollar and persistent capital outflows of China. Moreover, there remains significant international pressure on the PRC government to adopt a more flexible currency policy, including from the U.S. government, which has labeled China as a "currency manipulator," which could result in greater fluctuation of the Renminbi against the U.S. dollar. With the development of the foreign exchange market and progress towards interest rate liberalization and Renminbi internationalization, the PRC government may in the future announce further changes to the exchange rate system and we cannot assure you that the Renminbi will not appreciate or depreciate significantly in value against the U.S. dollar in the future. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the Renminbi and the U.S. dollar in the future.

Significant revaluation of the Renminbi may have a material and adverse effect on your investment. For example, to the extent that we need to convert U.S. dollars we receive from this offering into Renminbi for our operations, appreciation of the Renminbi against the U.S. dollar would have an adverse effect on the Renminbi amount we would receive from the conversion. Conversely, if we decide to convert our Renminbi into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs or for other business purposes, appreciation of the U.S. dollar against the Renminbi would have a negative effect on the U.S. dollar amount available to us.

Very limited hedging options are available in China to reduce our exposure to exchange rate fluctuations. To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk. While we may decide to enter into hedging transactions in the future, the availability and effectiveness of these hedges may be limited and we may not be able to adequately hedge our exposure or at all. In addition, our currency exchange losses may be magnified by PRC exchange control regulations that restrict our ability to convert Renminbi into foreign currency.

Foreign exchange controls may limit our ability to utilize our revenues effectively and affect the value of your investment.

The PRC government imposes foreign exchange controls on the convertibility of the Renminbi, in certain cases, the remittance of currency out of China. We receive substantially all of our revenues in Renminbi. Under our current corporate structure, our Cayman Islands holding company primarily relies on dividend payments from our PRC subsidiaries to fund any cash and financing requirements we may have. Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and trade and service-related foreign exchange transactions, can be made in foreign currencies without prior approval of SAFE by complying with certain procedural requirements. Specifically, under the existing exchange restrictions, without prior approval of SAFE, cash generated from the operations of our PRC subsidiaries in China may be used to pay dividends to our company. However, approval from or registration with appropriate government authorities is required where Renminbi is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies. As a result, we need to obtain SAFE approval or registration to use cash generated from the operations of our PRC subsidiaries and VIE to pay off their respective debt in a currency other than Renminbi owed to entities outside China, or to make other capital expenditure payments outside China in a currency other than Renminbi. The PRC government may at its discretion restrict access to foreign currencies for current account transactions in the future. If the foreign exchange control system prevents us from obtaining sufficient foreign currencies to satisfy our foreign currency demands, we may not be able to pay dividends in foreign currencies to our shareholders and holders of the ADSs.

The M&A Rules and certain other PRC regulations establish complex procedures for some acquisitions of Chinese companies by foreign investors, which could make it more difficult for us to pursue growth through acquisitions in China.

The Rules on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rules, adopted by six PRC regulatory agencies in 2006 and amended in 2009, and some other regulations and rules concerning mergers and acquisitions established additional procedures and requirements that could make merger and acquisition activities by foreign investors more time consuming and complex, including requirements in some instances that the anti-monopoly law enforcement agency be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise. Moreover, the Anti-Monopoly Law of the PRC requires that the anti-monopoly law enforcement agency be notified in advance of any transaction where the parties' turnover in the China market and/or global market exceed certain thresholds and the buyer would obtain control of, or decisive influence over, the target as a result of the business combination. As further clarified by the Provisions of the State Council on the Threshold of Filings for Undertaking Concentrations issued by the State Council in 2008 and amended in September 2018, such thresholds include: (i) the total global turnover of all operators participating in the transaction exceeds RMB10 billion in the preceding fiscal year and at least two of these operators each had a turnover of more than RMB400 million within China in the preceding fiscal year, or (ii) the total turnover within China of all the operators participating in the transaction exceeded RMB2 billion in the preceding fiscal year, and at least two of these operators each had a turnover of more than RMB400 million within China in the preceding fiscal year. There are numerous factors the anti-monopoly law enforcement agency considers in determining "control" or "decisive influence," and, depending on certain criteria, the anti-monopoly law enforcement agency may conduct anti-monopoly review of transactions in respect of which it was notified. In light of the uncertainties relating to the interpretation, implementation and enforcement of the Anti-Monopoly Law of the PRC, we cannot assure you that the anti-monopoly law enforcement agency will not deem our past and future acquisitions or investments to have triggered filing requirement for anti-trust review. If we are found to have violated the Anti-Monopoly Law of the PRC for failing to file the notification of concentration and request for review, we could be subject to a fine of up to RMB500,000, and the parts of the transaction causing the prohibited concentration could be ordered to be unwound, which may materially and adversely affect our business, financial condition and results of operations.

In addition, the Circular of the General Office of the State Council on the Establishment of Security Review System for the Merger and Acquisition of Domestic Enterprises by Foreign Investors that became effective in March 2011, and the Rules on Implementation of Security Review System for the Merger and Acquisition of Domestic Enterprises by Foreign Investors issued by the Ministry of Commerce that became effective in September 2011 specify that mergers and acquisitions by foreign investors that raise "national defense and security" concerns and mergers and acquisitions through which foreign investors may acquire de facto control over domestic enterprises that raise "national security" concerns are subject to strict review by the Ministry of Commerce, and the rules prohibit any activities attempting to bypass a security review, including by structuring the transaction through a proxy or contractual control arrangement. In the future, we may grow our business by acquiring complementary businesses. Complying with the requirements of the above-mentioned regulations and other relevant rules to complete such transactions could be time consuming, and any required approval processes, including obtaining approval from the Ministry of Commerce or its local counterparts may delay or inhibit our ability to complete such transactions, which could affect our ability to expand our business or maintain our market share.

PRC regulations relating to the establishment of offshore special purpose companies by PRC residents may subject our PRC resident beneficial owners or our PRC subsidiaries to liability or penalties, limit our ability to inject capital into our PRC subsidiaries, limit our PRC subsidiaries' ability to increase their registered capital or distribute profits to us, or may otherwise adversely affect us.

SAFE promulgated the Circular on Issues Concerning the Foreign Exchange Administration over the Overseas Investment and Financing and Round-trip Investment by Domestic Residents via Special Purpose Vehicles, or SAFE Circular 37, in July 2014. SAFE Circular 37 requires PRC residents or entities to register with SAFE or its local branches in connection with their establishment or control of an offshore entity established for the purpose of overseas investment or financing with such PRC residents or entities' legally owned assets or equity interests in domestic enterprises or offshore assets or interests. In addition, such PRC residents or entities must update their SAFE registrations when the offshore special purpose vehicle undergoes material events relating to any change of basic information (including change of such PRC citizens or residents, name and operation term), increases or decreases in investment amount, transfers or exchanges of shares, or mergers or divisions. According to the Circular of Further Simplifying and Improving the Policies of Foreign Exchange Administration Applicable to Direct Investment released in February 2015 by SAFE, local banks will examine and handle foreign exchange registration for overseas direct investment, including the initial foreign exchange registration and amendment registration, under SAFE Circular 37 from June 2015. See "Regulation—Regulations on Foreign Exchange and Offshore Investment."

If our shareholders who are PRC residents or entities do not complete their registration with the local SAFE, the National Development and Reform Commission, or the NDRC, or MOC branches, our PRC subsidiaries may be prohibited from distributing their profits and proceeds from any reduction in capital, share transfer or liquidation to us, and we may be restricted in our ability to contribute additional capital to our PRC subsidiaries. In addition, our shareholders may be required to suspend or stop the investment and complete the registration within a specified time, and may be warned or prosecuted for criminal liability if a crime is constituted. Moreover, failure to comply with the SAFE registration described above could result in liability under PRC laws for evasion of applicable foreign exchange restrictions.

We have notified all PRC residents or entities who directly or indirectly hold shares in our Cayman Islands holding company and who are known to us as being PRC residents or entities to complete the foreign exchange registrations or outbound investment filings. However, we may not be informed of the identities of all the PRC residents or entities holding direct or indirect interest in our company, nor can we compel our beneficial owners to comply with SAFE registration or outbound investment filings requirements. As a result, we cannot assure you that all of our shareholders or beneficial owners who are PRC residents or entities have complied with, and will in the future make, obtain or update any applicable registrations or approvals required by SAFE, NDRC or MOC regulations. Failure by such shareholders or beneficial owners to comply with SAFE, NDRC or MOC regulations, or failure by us to amend the foreign exchange registrations of our PRC subsidiaries, could subject us to fines or legal sanctions, restrict our overseas or cross-border investment activities, limit our PRC subsidiaries' ability to make distributions or pay dividends to us or affect our ownership structure, which could adversely affect our business and prospects.

Furthermore, as these foreign exchange and outbound investment regulations are still relatively new and their interpretation and implementation has been constantly evolving, it is unclear how these regulations, and any future regulation concerning offshore or cross-border transactions, will be interpreted, amended and implemented by the relevant government authorities. For example, we may be subject to a more stringent review and approval process with respect to our foreign exchange activities, such as remittance of dividends and foreign currency denominated borrowings, which may adversely affect our financial condition and results of operations. In addition, if we decide to acquire a PRC domestic company, we cannot assure you that we or the owners of such company, as the case may be, will be able to obtain the necessary approvals or complete the necessary filings and registrations required by the foreign exchange regulations. This may restrict our ability to implement our acquisition strategy and could adversely affect our business and prospects.

Any failure to comply with PRC regulations regarding the registration requirements for employee share incentive plans may subject the PRC plan participants or us to fines and other legal or administrative sanctions.

Pursuant to SAFE Circular 37, PRC residents who participate in share incentive plans in overseas non-publicly-listed companies may submit applications to SAFE or its local branches for the foreign exchange registration with respect to offshore special purpose companies. In the meantime, directors, executive officers and other employees who are PRC citizens or who are non-PRC residents residing in the PRC for a continuous period of not less than one year, subject to limited exceptions, and who have been granted share-based awards, may follow the Circular of the SAFE on Issues Concerning the Administration of Foreign Exchange Used for Domestic Individuals' Participation in Equity Incentive Plan of Overseas Listed Companies, promulgated by SAFE in 2012. Pursuant to the circular, PRC citizens and non-PRC citizens who reside in China for a continuous period of not less than one year who participate in any stock incentive plan of an overseas publicly listed company, subject to a few exceptions, are required to register with SAFE through a domestic qualified agent, which could be the PRC subsidiaries of such overseas listed company, and complete certain other procedures. In addition, an overseas entrusted institution must be retained to handle matters in connection with the exercise or sale of stock options and the purchase or sale of shares and interests. We, our directors, our executive officers and other employees who are PRC citizens or who reside in the PRC for a continuous period of not less than one year and who have been granted share-based awards will be subject to these regulations when our company becomes an overseas listed company upon the completion of this offering. Failure to complete the SAFE registrations may subject them to fines, and legal sanctions and may also limit our ability to contribute additional capital into our PRC subsidiaries and limit our PRC subsidiaries' ability to distribute dividends to us. We also face regulatory uncertainties that could restrict our ability to adopt additional incentive plans for our directors, executive officers and employees under PRC law. See "Regulation—Regulations on Foreign Exchange and Offshore Investment."

The State Administration of Taxation has issued certain circulars concerning employee share options and restricted shares. Under these circulars, our employees working in China who exercise share options or are granted restricted shares will be subject to PRC individual income tax. Our PRC subsidiaries have obligations to file documents related to employee share options or restricted shares with relevant tax authorities and to withhold individual income taxes of those employees who exercise their share options. If our employees fail to pay or we fail to withhold their income taxes according to relevant laws and regulations, we may face sanctions imposed by the tax authorities or other PRC governmental authorities. See "Regulation—Regulations on Foreign Exchange and Offshore Investment."

The enforcement of the PRC Labor Contract Law and other labor-related regulations in the PRC may adversely affect our business and results of operations.

The Standing Committee of the National People's Congress enacted the Labor Contract Law in 2008, and amended it on December 28, 2012. The Labor Contract Law introduced specific provisions related to fixed-term employment contracts, part-time employment, probationary periods, consultation with labor unions and employee assemblies, employment without a written contract, dismissal of employees, severance, and collective bargaining to enhance previous PRC labor laws. Under the Labor Contract Law, an employer is obligated to sign a non-fixed-term labor contract with any employee who has worked for the employer for ten consecutive years. Further, if an employee requests or agrees to renew a fixed-term labor contract that has already been entered into twice consecutively, the resulting contract, with certain exceptions, must have an unlimited term, subject to certain exceptions. With certain exceptions, an employer must pay severance to an employee where a labor contract is

terminated or expires. In addition, the PRC governmental authorities have continued to introduce various new labor-related regulations since the effectiveness of the Labor Contract Law.

Under the PRC Social Insurance Law and the Administrative Measures on Housing Fund, employees are required to participate in pension insurance, work-related injury insurance, medical insurance, unemployment insurance, maternity insurance, and housing funds and employers are required, together with their employees or separately, to pay the social insurance premiums and housing funds for their employees. If we fail to make adequate social insurance and housing fund contributions, we may be subject to fines and legal sanctions, and our business, financial conditions and results of operations may be adversely affected.

These laws designed to enhance labor protection tend to increase our labor costs. In addition, as the interpretation and implementation of these regulations are still evolving, our employment practices may not be at all times be deemed in compliance with the regulations. As a result, we could be subject to penalties or incur significant liabilities in connection with labor disputes or investigations.

We may be classified as a "PRC resident enterprise" for PRC enterprise income tax purposes, which could result in unfavorable tax consequences to us and our non-PRC shareholders and ADS holders and have a material adverse effect on our results of operations and the value of your investment.

Under the Enterprise Income Tax Law of the PRC and its implementation rules, an enterprise established outside of the PRC with a "de facto management body" within the PRC is considered a "resident enterprise" and will be subject to PRC enterprise income tax on its global income at the rate of 25%. The implementation rules define the term "de facto management body" as the body that exercises full and substantial control over and overall management of the business, personnel, accounts and properties of an enterprise. In April 2009, the State Administration of Taxation issued a circular, known as SAT Circular 82, which provides certain specific criteria for determining whether the "de facto management body" of a PRC-controlled enterprise that is incorporated offshore is located in China. Although this circular only applies to offshore enterprises controlled by PRC enterprises or PRC enterprise groups, not those controlled by PRC individuals or foreigners like us, the criteria set forth in the circular may reflect the State Administration of Taxation's general position on how the "de facto management body" test should be applied in determining the tax resident status of all offshore enterprises. According to SAT Circular 82, an offshore incorporated enterprise controlled by a PRC enterprise or a PRC enterprise group will be regarded as a PRC tax resident by virtue of having its "de facto management body" in China and will be subject to PRC enterprise income tax on its global income only if all of the following conditions are met: (i) the primary location of the day-to-day operational management is in the PRC; (ii) decisions relating to the enterprise's financial and human resource matters are made or are subject to approval by organizations or personnel in the PRC; (iii) the enterprise's primary assets, accounting books and records, company seals, and board and shareholder resolutions, are located or maintained in the PRC; and (iv) at least 50% of voting board members or senior executives habitually reside in the PRC.

We believe none of our entities outside of China is a PRC resident enterprise for PRC tax purposes. However, the tax resident status of an enterprise is subject to determination by the PRC tax authorities and uncertainties remain with respect to the interpretation of the term "de facto management body." As a majority of our management members are based in China, it remains unclear how the tax residency rule will apply to our case. If the PRC tax authorities determine that our company or any of our subsidiaries outside of China is a PRC resident enterprise for enterprise income tax purposes, we may be subject to PRC enterprise income on our worldwide income at the rate of 25%, which could materially reduce our net income. In addition, we will also be subject to PRC enterprise income tax reporting obligations. Furthermore, we may be required to withhold a 10% withholding tax from dividends we pay to our shareholders that are non-resident enterprises, including the holders of the ADSs, if such income is treated as sourced from within the PRC. In addition,

non-resident enterprise shareholders (including the ADS holders) may be subject to PRC tax at a rate of 10% on gains realized on the sale or other disposition of ADSs or ordinary shares, if such income is treated as sourced from within the PRC. Furthermore, if we are deemed a PRC resident enterprise, dividends paid to our non-PRC individual shareholders (including the ADS holders) and any gain realized on the transfer of ADSs or ordinary shares by such shareholders may be subject to PRC tax at a rate of 20% (which, in the case of dividends, may be withheld at source by us), if such income is deemed to be from PRC sources. These rates may be reduced by an applicable tax treaty, but it is unclear whether non-PRC shareholders of our company would be able to claim the benefits of any tax treaties between their country of tax residence and the PRC in the event that we are treated as a PRC resident enterprise. Any such tax may reduce the returns on your investment in the ADSs or ordinary shares.

We face uncertainty with respect to indirect transfers of equity interests in PRC resident enterprises by their non-PRC holding companies.

On February 3, 2015, the State Administration of Taxation issued the Circular on Issues of Enterprise Income Tax on Indirect Transfers of Assets by Non-PRC Resident Enterprises, or SAT Circular 7. SAT Circular 7 extends its tax jurisdiction to transactions involving the transfer of taxable assets through offshore transfer of a foreign intermediate holding company. In addition, SAT Circular 7 has introduced safe harbors for internal group restructurings and the purchase and sale of equity through a public securities market. SAT Circular 7 also brings challenges to both foreign transferor and transferee (or other person who is obligated to pay for the transfer) of taxable assets.

On October 17, 2017, the State Administration of Taxation issued the Circular on Issues of Tax Withholding regarding Non-PRC Resident Enterprise Income Tax at Source, or SAT Circular 37, which came into effect on December 1, 2017. SAT Circular 37 further clarifies the practice and procedure of the withholding of nonresident enterprise income tax.

Where a nonresident enterprise transfers taxable assets indirectly by disposing of the equity interests of an overseas holding company, which is known as an indirect transfer, the nonresident enterprise as either transferor or transferee, or the PRC entity that directly owns the taxable assets, may report such indirect transfer to the relevant tax authority. Using a "substance over form" principle, the PRC tax authority may disregard the existence of the overseas holding company if it lacks a reasonable commercial purpose and was established for the purpose of reducing, avoiding or deferring PRC tax. As a result, gains derived from such indirect transfer may be subject to PRC enterprise income tax, and the transferee or other person who is obligated to pay for the transfer is obligated to withhold the applicable taxes, currently at a rate of 10% for the transfer of equity interests in a PRC resident enterprise. Both the transferor and the transferee may be subject to penalties under PRC tax laws if the transferee fails to withhold the taxes and the transferor fails to pay the taxes.

We face uncertainties as to the reporting and other implications of certain past and future transactions where PRC taxable assets are involved, such as offshore restructuring, sale of the shares in our offshore subsidiaries and investments. Our company may be subject to filing obligations or taxed if our company is transferor in such transactions, and may be subject to withholding obligations if our company is transferee in such transactions, under SAT Circular 7 or SAT Circular 37. For transfer of shares in our company by investors who are non-PRC resident enterprises, our PRC subsidiaries may be requested to assist in the filing under SAT Circular 7 or SAT Circular 37. As a result, we may be required to expend valuable resources to comply with SAT Circular 7 or SAT Circular 37 or to request the relevant transferors from whom we purchase taxable assets to comply with these circulars, or to establish that our company should not be taxed under these circulars, which may have a material adverse effect on our financial condition and results of operations.

The audit report included in this prospectus is prepared by an auditor who is not inspected by the Public Company Accounting Oversight Board and, as such, you are deprived of the benefits of such inspection.

Our independent registered public accounting firm that issues the audit reports included in this prospectus filed with the SEC, as an auditor of companies that are traded publicly in the United States and a firm registered with the U.S. Public Company Accounting Oversight Board, or the PCAOB, is subject to laws in the United States pursuant to which the PCAOB conducts regular inspections to assess its compliance with professional standards. Since our auditors are located in China, a jurisdiction where the PCAOB has been unable to conduct inspections without the approval of the Chinese authorities, our auditors are not currently inspected by the PCAOB. In May 2013, PCAOB announced that it had entered into a Memorandum of Understanding on Enforcement Cooperation with the China Securities Regulatory Commission, or CSRC and the PRC Ministry of Finance, which establishes a cooperative framework between the parties for the production and exchange of audit documents relevant to investigations undertaken by PCAOB, the CSRC or the PRC Ministry of Finance in the United States and the PRC, respectively. PCAOB continues to be in discussions with the CSRC, and the PRC Ministry of Finance to permit joint inspections in the PRC of audit firms that are registered with PCAOB and audit Chinese companies that trade on U.S. exchanges.

On December 7, 2018, the SEC and the PCAOB issued a joint statement highlighting continued challenges faced by the U.S. regulators in their oversight of financial statement audits of U.S.-listed companies with significant operations in China. However, it remains unclear what further actions, if any, the SEC and PCAOB will take to address the problem.

Inspections of other firms that the PCAOB has conducted outside of China have identified deficiencies in those firms' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. The lack of PCAOB inspections in China prevents the PCAOB from regularly evaluating our auditor's audits and its quality control procedures. As a result, investors may be deprived of the benefits of PCAOB inspections.

The inability of the PCAOB to conduct inspections of auditors in China makes it more difficult to evaluate the effectiveness of our auditors' audit procedures or quality control procedures as compared to auditors outside of China that are subject to PCAOB inspections. Investors may lose confidence in our reported financial information and procedures and the quality of our financial statements.

Proceedings instituted by the SEC against certain PRC-based accounting firms, including our independent registered public accounting firm, could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act.

In December 2012, the SEC instituted administrative proceedings against the Big Four PRC-based accounting firms, including our independent registered public accounting firm, alleging that these firms had violated U.S. securities laws and the SEC's rules and regulations thereunder by failing to provide to the SEC the firms' audit work papers with respect to certain PRC-based companies that are publicly traded in the United States.

On January 22, 2014, the administrative law judge, or the ALJ, presiding over the matter rendered an initial decision that each of the firms had violated the SEC's rules of practice by failing to produce audit papers and other documents to the SEC. The initial decision censured each of the firms and barred them from practicing before the SEC for a period of six months.

On February 6, 2015, the four China-based accounting firms each agreed to a censure and to pay a fine to the SEC to settle the dispute and avoid suspension of their ability to practice before the SEC and audit U.S.-listed companies. The settlement required the firms to follow detailed procedures and to seek to provide the SEC with access to Chinese firms' audit documents via the CSRC. Under the terms of the settlement, the underlying proceeding against the four China-based accounting firms was deemed

dismissed with prejudice four years after entry of the settlement. The four-year mark occurred on February 6, 2019. While we cannot predict if the SEC will further challenge the four China-based accounting firms' compliance with U.S. law in connection with U.S. regulatory requests for audit work papers or if the results of such a challenge would result in the SEC imposing penalties such as suspensions, if the accounting firms are subject to additional remedial measures, our ability to file our financial statements in compliance with SEC requirements could be impacted. A determination that we have not timely filed financial statements in compliance with SEC requirements could ultimately lead to the delisting of our ADSs from the NASDAQ or the termination of the registration of our ADSs under the Exchange Act, or both, which would substantially reduce or effectively terminate the trading of our ADSs in the United States.

RISKS RELATED TO THE ADSs AND THIS OFFERING

An active trading market for our ordinary shares or the ADSs may not develop and the trading price for the ADSs may fluctuate significantly.

We will apply to list the ADSs on the NASDAQ. We have no current intention to seek a listing for our ordinary shares on any stock exchange. Prior to the completion of this offering, there has been no public market for the ADSs or our ordinary shares, and we cannot assure you that a liquid public market for the ADSs will develop. If an active public market for the ADSs does not develop following the completion of this offering, the market price and liquidity of the ADSs may be materially and adversely affected. The initial public offering price for the ADSs will be determined by negotiation between us and the underwriters based upon several factors, and we can provide no assurance that the trading price of the ADSs after this offering will not decline below the initial public offering price. As a result, investors in our securities may experience a significant decrease in the value of their ADSs.

The trading price of the ADSs is likely to be volatile, which could result in substantial losses to investors.

The trading price of the ADSs is likely to be volatile and could fluctuate widely due to multiple factors, some of which are beyond our control. This may happen because of broad market and industry factors, including the performance and fluctuation of the market prices of other companies with business operations located mainly in China that have listed their securities in the United States. In addition to market and industry factors, the price and trading volume for the ADSs may be highly volatile for factors, including the following:

- variations in our revenues, operating costs and expenses, earnings and cash flow;
- announcements of new investments, acquisitions, strategic partnerships or joint ventures by us or our competitors;
- announcements of new products and services by us or our competitors;
- changes in financial estimates by securities analysts;
- detrimental adverse publicity about us, our shareholders, affiliates, directors, officers or employees, our content offerings, our business model, our services or our industry;
- announcements of new regulations, rules or policies relevant for our business;
- additions or departures of key personnel;
- release of lock-up or other transfer restrictions on our outstanding equity securities or sales of additional equity securities; and
- potential litigation or regulatory investigations.

Any of these factors may result in large and sudden changes in the volume and price at which the ADSs will trade.

In the past, shareholders of public companies have often brought securities class action suits against those companies following periods of instability in the market price of their securities. If we were involved in a class action suit, it could divert a significant amount of our management's attention and other resources from our business and operations and require us to incur significant expenses to defend the suit, which could harm our results of operations. Any such class action suit, whether or not successful, could harm our reputation and restrict our ability to raise capital in the future. In addition, if a claim is successfully made against us, we may be required to pay significant damages, which could have a material adverse effect on our financial condition and results of operations.

Because the initial public offering price is substantially higher than the pro forma net tangible book value per share, you will experience immediate and substantial dilution.

If you purchase ADSs in this offering, you will pay more for each ADS than the corresponding amount paid by existing shareholders for their ordinary shares. As a result, you will experience immediate and substantial dilution of US\$ per ADS, assuming that no outstanding options to acquire ordinary shares are exercised. This number represents the difference between the initial public offering price of US\$ per ADS, and our pro forma net tangible book value per ADS as of , 2019, after giving effect to this offering. You may experience further dilution to the extent that our ordinary shares are issued upon exercise of any share options. See "Dilution" for a more complete description of how the value of your investment in our ADSs will be diluted upon completion of this offering.

If securities or industry analysts do not publish research or reports about our business, or if they adversely change their recommendations regarding the ADSs, the market price for the ADSs and trading volume could decline.

The trading market for the ADSs will be influenced by research or reports that industry or securities analysts publish about our business. If one or more analysts who cover us downgrade the ADSs, the market price for the ADSs would likely decline. If one or more of these analysts cease to cover us or fail to regularly publish reports on us, we could lose visibility in the financial markets, which in turn could cause the market price or trading volume for the ADSs to decline.

The sale or availability for sale of substantial amounts of the ADSs could adversely affect their market price.

Sales of substantial amounts of the ADSs in the public market after the completion of this offering, or the perception that these sales could occur, could adversely affect the market price of the ADSs and could materially impair our ability to raise capital through equity offerings in the future. The ADSs sold in this offering will be freely tradable without restriction or further registration under the Securities Act. [In connection with this offering, we, our directors, executive officers and existing shareholders holding substantially all of our issued ordinary shares have agreed not to sell any ordinary shares or ADSs for 180 days after the date of this prospectus without the prior written consent of the representatives of the underwriters, subject to certain exceptions.] However, the underwriters may release these shares from these restrictions at any time, subject to applicable regulations of the Financial Industry Regulatory Authority, Inc. Any sale or perceived sale of the shares into the market may cause the price of ADSs to decline. See "Underwriting" and "Shares Eligible for Future Sale" for a more detailed description of the restrictions on selling our securities after this offering.

Techniques employed by short sellers may drive down the market price of the ADSs.

Short selling is the practice of selling securities that the seller does not own but rather has borrowed from a third party with the intention of buying identical securities back at a later date to return to the lender. The short seller hopes to profit from a decline in the value of the securities between the sale of the borrowed securities and the purchase of the replacement shares, as the short seller expects to pay less in that purchase than it received in the sale. As it is in the short seller's interest for the price of the security to decline, many short sellers publish, or arrange for the publication of, negative opinions and allegations regarding the relevant issuer and its business prospects in order to create negative market momentum and generate profits for themselves after selling a security short. These short attacks have, in the past, led to selling of shares in the market. If we were to become the subject of any unfavorable allegations, whether such allegations are proven to be true or untrue, we could have to expend a significant amount of resources to investigate such allegations and/or defend ourselves. While we would strongly defend against any such short seller attacks, we may be constrained in the manner in which we can proceed against the relevant short seller by principles of freedom of speech, applicable state law or issues of commercial confidentiality.

You may be subject to limitations on the transfer of the ADSs.

The ADSs are transferable on the books of the depository. However, the depository may close its books at any time or from time to time when it deems it expedient in connection with the performance of its duties. The depository may close its books in emergencies, and on weekends and public holidays. The depository may refuse to deliver, transfer or register transfers of the ADSs generally when our share register or the books of the depository are closed, or at any time if we or the depository thinks it is advisable to do so because of any requirement of law or of any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

Because we do not expect to pay cash dividends in the foreseeable future after this offering, you must rely on a price appreciation of the ADSs for a return on your investment.

We currently intend to retain most, if not all, of our available funds and any future earnings after this offering to fund the development and growth of our business. As a result, we do not expect to pay any cash dividends in the foreseeable future. Therefore, you should not rely on an investment in the ADSs as a source for any future dividend income.

Our board of directors has complete discretion as to whether to distribute dividends, subject to certain requirements of Cayman Islands law. In addition, our shareholders may by ordinary resolution declare a dividend, but no dividend may exceed the amount recommended by our directors. Under Cayman Islands law, a Cayman Islands company may pay a dividend out of either profit or share premium account, provided that in no circumstances may a dividend be paid if this would result in the company being unable to pay its debts as they fall due in the ordinary course of business. Even if our board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiaries, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors. Accordingly, the return on your investment in the ADSs will likely depend entirely upon any future price appreciation of the ADSs. There is no guarantee that the ADSs will appreciate in value after this offering or even maintain the price at which you purchased the ADSs. You may not realize a return on your investment in the ADSs and you may even lose your entire investment in the ADSs.

The approval of the China Securities Regulatory Commission may be required in connection with this offering under PRC law.

The M&A Rules purport to require offshore special purpose vehicles that are controlled by PRC companies or individuals and that have been formed for the purpose of seeking a public listing on an overseas stock exchange through acquisitions of PRC domestic companies or assets to obtain CSRC approval prior to publicly listing their securities on an overseas stock exchange. In September 2006, the CSRC published a notice on its official website specifying documents and materials required to be submitted to it by a special purpose vehicle seeking CSRC approval of its overseas listings. The interpretation and application of the regulations remain unclear, and this offering may ultimately require approval from the CSRC. If CSRC approval is required, it is uncertain whether it would be possible for us to obtain the approval, and any failure to obtain or delay in obtaining CSRC approval for this offering would subject us to sanctions imposed by the CSRC and other PRC regulatory agencies.

Jingtian & Gongcheng, our PRC legal counsel, has advised us that, based on its understanding of the current PRC laws and regulations, we will not be required to submit an application to the CSRC for the approval of the listing and trading of the ADSs on the NASDAQ because (i) the CSRC currently has not issued any definitive rule or interpretation concerning whether offerings like ours under this prospectus are subject to this regulation; (ii) we established the PRC subsidiaries that are wholly owned foreign enterprises by means of investment and not through a merger or acquisition of the equity or assets of a "PRC domestic company" as such term is defined under the M&A Rules; and (iii) no explicit provision in the M&A Rules classifies the contractual arrangements between us and our VIE as a type of acquisition transaction falling under the M&A Rules.

However, our PRC legal counsel has further advised us that there remains some uncertainty as to how the M&A Rules or any other PRC laws and regulations, including but not limited to the Notice of the State Council on Further Strengthening the Administration of Share Issues and Listing Overseas, will be interpreted or implemented in the context of an overseas offering our PRC legal opinions summarized above are subject to any new laws, rules and regulations or detailed implementations and interpretations in any form relating to the M&A Rules. We cannot assure you that relevant PRC government agencies, including the CSRC, would reach the same conclusion as our PRC legal counsel, and hence we may face regulatory actions or other sanctions from the CSRC or other PRC regulatory agencies. These regulatory agencies may impose fines and penalties on our operations in China, limit our ability to pay dividends outside of China, limit our operating privileges in China, delay or restrict the repatriation of the proceeds from this offering into China or take other actions that could have a material adverse effect on our business, financial condition, results of operations and prospects, as well as the trading price of the ADSs. The CSRC or other PRC regulatory agencies also may take actions requiring us, or making it advisable for us, to halt this offering before settlement and delivery of the ADSs offered hereby. Consequently, if you engage in market trading or other activities in anticipation of and prior to settlement and delivery, you do so at the risk that settlement and delivery may not occur. In addition, if the CSRC or other regulatory agencies later promulgate new rules or explanations requiring that we obtain their approvals for this offering, we may be unable to obtain a waiver of such approval requirements, if and when procedures are established to obtain such a waiver. Any uncertainties and/or negative publicity regarding such approval requirement could have a material adverse effect on the trading price of the ADSs.

Our post-offering amended and restated memorandum and articles of association contain anti-takeover provisions that could have a material adverse effect on the rights of holders of our ordinary shares and the ADSs.

We have adopted an amended and restated memorandum and articles of association that will become effective immediately prior to the completion of this offering. Our post-offering amended and

restated memorandum and articles of association contain provisions to limit the ability of others to acquire control of our company or cause us to engage in change-of-control transactions. These provisions could have the effect of depriving our shareholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging third parties from seeking to obtain control of our company in a tender offer or similar transaction. Our board of directors has the authority, without further action by our shareholders, to issue preferred shares in one or more series and to fix their designations, powers, preferences, privileges, and relative participating, optional or special rights and the qualifications, limitations or restrictions, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, any or all of which may be greater than the rights associated with our ordinary shares, in the form of ADS or otherwise. Preferred shares could be issued quickly with terms calculated to delay or prevent a change in control of our company or make removal of management more difficult. If our board of directors decides to issue preferred shares, the price of the ADSs representing our ordinary shares may fall and the voting and other rights of the holders of our ordinary shares and the ADSs may be materially and adversely affected.

You may face difficulties in protecting your interests, and your ability to protect your rights through U.S. courts may be limited, because we are incorporated under Cayman Islands law.

We are an exempted company incorporated under the laws of the Cayman Islands. Our corporate affairs are governed by our memorandum and articles of association, the Companies Law (2018 Revision) of the Cayman Islands and the common law of the Cayman Islands. The rights of shareholders to take action against our directors, actions by our minority shareholders and the fiduciary duties of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from the common law of England, the decisions of whose courts are of persuasive authority, but are not binding, on a court in the Cayman Islands. The rights of our shareholders and the fiduciary duties of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands have a less developed body of securities laws than the United States. Some U.S. states, such as Delaware, have more fully developed and judicially interpreted bodies of corporate law than the Cayman Islands. In addition, Cayman Islands companies may not have standing to initiate a shareholder derivative action in a federal court of the United States.

Shareholders of Cayman Islands exempted companies like us have no general rights under Cayman Islands law to inspect corporate records or to obtain copies of lists of shareholders of these companies. Our directors have discretion under our articles of association that will become effective immediately prior to completion of this offering to determine whether or not, and under what conditions, our corporate records may be inspected by our shareholders, but are not obliged to make them available to our shareholders. This may make it more difficult for you to obtain the information needed to establish any facts necessary for a shareholder motion or to solicit proxies from other shareholders in connection with a proxy contest.

As a result of all of the above, our public shareholders may have more difficulty in protecting their interests in the face of actions taken by our management, members of the board of directors or controlling shareholders than they would as public shareholders of a company incorporated in the United States. For a discussion of significant differences between the provisions of the Companies Law (2018 Revision) of the Cayman Islands and the laws applicable to companies incorporated in the United States and their shareholders, see "Description of Share Capital—Differences in Corporate Law."

ADSs holders may not be entitled to a jury trial with respect to claims arising under the deposit agreement, which could result in less favorable outcomes to the plaintiff(s) in any such action.

The deposit agreement governing the ADSs representing our Class A ordinary shares provides that, to the fullest extent permitted by law, ADS holders waive the right to a jury trial for any claim they may have against us or the depository arising out of or relating to our shares, the ADSs or the deposit agreement, including any claim under the U.S. federal securities laws.

If we or the depository were to oppose a jury trial based on this waiver, the court would have to determine whether the waiver was enforceable based on the facts and circumstances of the case in accordance with applicable state and federal law. To our knowledge, the enforceability of a contractual pre-dispute jury trial waiver in connection with claims arising under the federal securities laws has not been finally adjudicated by the United States Supreme Court. However, we believe that a contractual pre-dispute jury trial waiver provision is generally enforceable, including under the laws of the State of New York, which govern the deposit agreement, or by a federal or state court in the City of New York, which has non-exclusive jurisdiction over matters arising under the deposit agreement. In determining whether to enforce a contractual pre-dispute jury trial waiver, courts will generally consider whether a party knowingly, intelligently and voluntarily waived the right to a jury trial. We believe that this would be the case with respect to the deposit agreement and the ADSs. It is advisable that you consult legal counsel regarding the jury waiver provision before investing in the ADSs.

If you or any other holders or beneficial owners of ADSs bring a claim against us or the depository in connection with matters arising under the deposit agreement or the ADSs, including claims under federal securities laws, you or such other holder or beneficial owner may not be entitled to a jury trial with respect to such claims, which may have the effect of limiting and discouraging lawsuits against us or the depository. If a lawsuit is brought against us or the depository under the deposit agreement, it may be heard only by a judge or justice of the applicable trial court, which would be conducted according to different civil procedures and may result in different outcomes than a trial by jury would have, including outcomes that could be less favorable to the plaintiff(s) in any such action.

Nevertheless, if this jury trial waiver is not permitted by applicable law, an action could proceed under the terms of the deposit agreement with a jury trial. No condition, stipulation or provision of the deposit agreement or the ADSs serves as a waiver by any holder or beneficial owner of ADSs or by us or the depository of compliance with any substantive provision of the U.S. federal securities laws and the rules and regulations promulgated thereunder.

The voting rights of holders of ADSs are limited by the terms of the deposit agreement, and you may not be able to exercise your right to direct the voting of your Class A ordinary shares underlying the ADSs.

Holders of ADSs do not have the same rights as our registered shareholders. As a holder of the ADSs, you will not have any direct right to attend general meetings of our shareholders or to cast any votes at such meetings. You will only be able to exercise the voting rights which attach to the Class A ordinary shares underlying the ADSs indirectly by giving voting instructions to the depository in accordance with the provisions of the deposit agreement. Under the deposit agreement, you may vote only by giving voting instructions to the depository, as holder of the Class A ordinary shares underlying the ADSs. If we ask for your instructions, then upon receipt of your voting instructions, the depository will try to vote the underlying Class A ordinary shares in accordance with these instructions. If we do not instruct the depository to ask for your instructions, the depository may still vote in accordance with instructions you give, but it is not required to do so. You will not be able to directly exercise any right to vote with respect to the underlying Class A ordinary shares unless you withdraw the shares underlying your ADSs and become the registered holder of such shares prior to the record date for the general meeting. When a general meeting is convened, you may not receive sufficient advance notice of the meeting to enable you to withdraw the shares underlying the ADSs and become the registered

holder of such shares prior to the record date for the general meeting to allow you to attend the general meeting and to vote directly with respect to any specific matter or resolution to be considered and voted upon at the general meeting. In addition, under our post-offering articles of association that will become effective immediately prior to completion of this offering, for the purposes of determining those shareholders who are entitled to attend and vote at any general meeting, our directors may close our register of members and/or fix in advance a record date for such meeting, and such closure of our register of members or the setting of such a record date may prevent you from withdrawing the Class A ordinary shares underlying the ADSs and becoming the registered holder of such shares prior to the record date, so that you would not be able to attend the general meeting or to vote directly. Where any matter is to be put to a vote at a general meeting, upon our instruction, the depository will notify you of the upcoming vote and to deliver our voting materials to you. Under our post-offering amended and restated memorandum and articles of association that will become effective immediately upon completion of this offering, the minimum notice period required to be given by our company to our registered shareholders for convening a general meeting is fifteen (15) days. We cannot assure you that you will receive the voting material in time to ensure you can direct the depository to vote your shares. In addition, the depository and its agents are not responsible for failing to carry out voting instructions or for their manner of carrying out your voting instructions. This means that you may not be able to exercise your right to direct how the shares underlying the ADSs are voted and you may have no legal remedy if the shares underlying the ADSs are not voted as you requested.

Certain of our existing shareholders have substantial influence over our company, and their interests may not be aligned with the interests of our other stockholders.

Dagang Feng, our chief executive officer and the co-chairman of our board of directors, currently holds approximately 17.5% voting power, including his sole voting power and the shared voting power resulting from arrangement under acting-in-concert agreements entered into in September 2019. For more information, see "Principal Shareholders". Upon the completion of the offering, due to dual-class share structure, Mr. Feng is expected to own approximately % of our voting power. Mr. Feng is expected to continue to have significant influence over our business, including decisions regarding mergers, consolidations, liquidations and the sale of all or substantially all of our assets, election of directors and other significant corporate actions. This concentration of ownership may also have the effect of discouraging, delaying or preventing a future change of control, which could deprive our stockholders of an opportunity to receive a premium for their shares as part of a sale of our company and might reduce the price of our ADSs. Furthermore, in case that Mr. Feng controls a majority of our voting stock upon the completion of the offering, he may pursue corporate opportunities independent of us.

Our dual-class share structure with different voting rights will limit your ability to influence corporate matters and could discourage others from pursuing any change of control transactions that holders of our Class A ordinary shares and ADSs may view as beneficial.

We have adopted a dual-class share structure such that our ordinary shares will consist of Class A ordinary shares and Class B ordinary shares conditional upon and effective immediately prior to the completion of this offering. In respect of matters requiring the votes of shareholders, each Class A ordinary share is entitled to one vote and each Class B ordinary share is entitled to 25 votes. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof. Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. We will sell Class A ordinary shares represented by our ADSs in this offering.

Conditional upon and effective immediately prior to the completion of this offering, Palopo Holding Limited, an entity wholly owned by Dagang Feng, and 36Kr Heros Holding Limited, an entity wholly owned by Chengcheng Liu, will beneficially own all of our issued and outstanding Class B

ordinary shares. Based on an assumed initial public offering price of US\$ per ADS, the mid-point of the estimated public offering price range shown on the front cover of this prospectus, these Class B ordinary shares will constitute approximately % of our total issued and outstanding share capital and % of the aggregate voting power of our total issued and outstanding share capital immediately upon the completion of this offering, assuming the underwriters do not exercise their over-allotment option.

As a result of this dual-class share structure, the holders of our Class B ordinary shares will have concentrated control over the outcome of matters put to a vote of shareholders and have significant influence over our business, including decisions regarding mergers, consolidations, liquidations and the sale of all or substantially all of our assets, election of directors and other significant corporate actions. The holders of Class B ordinary shares may take actions that are not in the best interest of us or our other shareholders or holders of the ADSs. This concentration of ownership may discourage, delay or prevent a change in control of our company, which could have the effect of depriving our other shareholders of the opportunity to receive a premium for their shares as part of a sale of our company and may reduce the price of the ADSs. This concentrated control will limit your ability to influence corporate matters and could discourage others from pursuing any potential merger, takeover or other change of control transactions that holders of Class A ordinary shares and ADSs may view as beneficial. In addition, future issuances of Class B ordinary shares may be dilutive to the holders of Class A ordinary shares. As a result, the market price of our Class A ordinary shares could be adversely affected.

You may experience dilution of your holdings due to the inability to participate in rights offerings.

We may, from time to time, distribute rights to our shareholders, including rights to acquire securities. Under the deposit agreement, the depository will not distribute rights to holders of ADSs unless the distribution and sale of rights and the securities to which these rights relate are either exempt from registration under the Securities Act with respect to all holders of ADSs, or are registered under the provisions of the Securities Act. The depository may, but is not required to, attempt to sell these undistributed rights to third parties, and may allow the rights to lapse. We may be unable to establish an exemption from registration under the Securities Act, and we are under no obligation to file a registration statement with respect to these rights or underlying securities or to endeavor to have a registration statement declared effective. Accordingly, holders of ADSs may be unable to participate in our rights offerings and may experience dilution of their holdings as a result.

As a company incorporated in the Cayman Islands, we are permitted to adopt certain home country practices in relation to corporate governance matters that differ significantly from the NASDAQ corporate governance listing standards. These practices may afford less protection to shareholders than they would enjoy if we complied fully with the NASDAQ corporate governance listing standards.

As a Cayman Islands company listed on the NASDAQ, we are subject to the NASDAQ corporate governance listing standards. However, the NASDAQ rules permit a foreign private issuer like us to follow the corporate governance practices of its home country. Certain corporate governance practices in the Cayman Islands, which is our home country, may differ significantly from the NASDAQ corporate governance listing standards. We intend to follow Cayman Islands corporate governance practices in lieu of the corporate governance requirements of the NASDAQ that listed companies must have: (i) a majority of independent directors; (ii) the establishment of a nominating/corporate governance committee composed entirely of independent directors; and (iii) a compensation committee composed entirely of independent directors. As a result of our reliance on the "foreign private issuer" exemptions, our shareholders may be afforded less protection than they otherwise would enjoy under the NASDAQ corporate governance listing standards applicable to U.S. domestic issuers.

We are a foreign private issuer within the meaning of the rules under the Exchange Act, and as such we are exempt from certain provisions applicable to U.S. domestic public companies.

Because we qualify as a foreign private issuer under the Exchange Act, we are exempt from certain provisions of the securities rules and regulations in the United States that are applicable to U.S. domestic issuers, including:

- the rules under the Exchange Act requiring the filing with the SEC of quarterly reports on Form 10-Q or current reports on Form 8-K;
- the sections of the Exchange Act regulating the solicitation of proxies, consents or authorizations in respect of a security registered under the Exchange Act;
- the sections of the Exchange Act requiring insiders to file public reports of their stock ownership and trading activities and liability for insiders who profit from trades made in a short period of time; and
- the rules under Regulation FD governing selective disclosure rules of material nonpublic information.

We will be required to file an annual report on Form 20-F within four months of the end of each fiscal year. In addition, we intend to publish our results on a quarterly basis as press releases, distributed pursuant to the rules and regulations of the NASDAQ. Press releases relating to financial results and material events will also be furnished to the SEC on Form 6-K. However, the information we are required to file with or furnish to the SEC will be less extensive and less timely compared to that required to be filed with the SEC by U.S. domestic issuers. As a result, you may not be afforded the same protections or information that would be made available to you were you investing in a U.S. domestic issuer.

We will incur increased costs as a result of being a public company, particularly after we cease to qualify as an "emerging growth company."

Upon completion of this offering, we will become a public company and expect to incur significant legal, accounting and other expenses that we did not incur as a private company. The Sarbanes-Oxley Act of 2002, as well as rules subsequently implemented by the SEC and the NASDAQ, impose various requirements on the corporate governance practices of public companies. As a company with less than US\$1.07 billion in revenues for our last fiscal year, we qualify as an "emerging growth company" pursuant to the JOBS Act. An emerging growth company may take advantage of specified reduced reporting and other requirements that are otherwise applicable generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002, or Section 404, in the assessment of the emerging growth company's internal control over financial reporting. The JOBS Act also permits an emerging growth company to delay adopting new or revised accounting standards until such time as those standards apply to private companies. After we are no longer an "emerging growth company," we expect to incur significant expenses and devote substantial management effort toward ensuring compliance with the requirements of Section 404 and the other rules and regulations of the SEC.

We expect the rules and regulations applicable to us after we becoming a public company to increase our legal and financial compliance costs and to make some corporate activities more time-consuming and costly. For example, as a result of becoming a public company, we will need to increase the number of independent directors and adopt policies regarding internal controls and disclosure controls and procedures. We also expect that operating as a public company will make it more difficult and more expensive for us to obtain director and officer liability insurance, and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. In addition, we will incur additional costs associated with our public

company reporting requirements. It may also be more difficult for us to find qualified persons to serve on our board of directors or as executive officers. We are currently evaluating and monitoring developments with respect to these rules and regulations, and we cannot predict or estimate with any degree of certainty the amount of additional costs we may incur or the timing of such costs.

There can be no assurance that we will not be a passive foreign investment company, which could result in adverse U.S. federal income tax consequences to U.S. investors in the ADSs or ordinary shares.

In general, a non-U.S. corporation is a passive foreign investment company, or PFIC, for any taxable year in which (i) 75% or more of its gross income consists of passive income or (ii) 50% or more of the average value of its assets (generally determined on a quarterly basis) consists of assets that produce, or are held for the production of, passive income. For purposes of the above calculations, a non-U.S. corporation that owns at least 25% by value of the shares of another corporation is treated as if it held its proportionate share of the assets of the other corporation and received directly its proportionate share of the income of the other corporation. Passive income generally includes dividends, interest, rents, royalties and certain gains. Cash is a passive asset for these purposes. Goodwill is an active asset to the extent attributable to activities that produce active income.

Based on the expected composition of our income and assets and the value of our assets, including goodwill, which is based on the expected price of our ADSs in this offering, we do not expect to be a PFIC for our current taxable year. However, it is not entirely clear how the contractual arrangements between us and our VIE will be treated for purposes of the PFIC rules, and we may be or become a PFIC if our VIE is not treated as owned by us. Because the treatment of our contractual arrangements with our VIE is not entirely clear, because we will hold a substantial amount of cash following this offering and because our PFIC status for any taxable year will depend on the composition of our income and assets and the value of our assets from time to time (which may be determined, in part, by reference to the market price of our ADSs, which could be volatile), there can be no assurance that we will not be a PFIC for our current or any future taxable year. If we were a PFIC for any taxable year during which a U.S. investor held ADSs or ordinary shares, certain adverse U.S. federal income tax consequences could apply to such U.S. investor. See "Taxation—U.S. Federal Income Tax Considerations—Passive Foreign Investment Company Rules."

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that involve risks and uncertainties. All statements other than statements of historical facts are forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from those expressed or implied by the forward-looking statements.

You can identify these forward-looking statements by words or phrases such as "may," "will," "expect," "anticipate," "aim," "estimate," "intend," "plan," "believe," "likely to" or other similar expressions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements include, but are not limited to, statements about:

- our goals and growth strategies;
- our future business development, results of operations and financial condition;
- relevant government policies and regulations relating to our business and industry;
- our expectation regarding the use of proceeds from this offering;
- general economic and business condition in China; and
- assumptions underlying or related to any of the foregoing.

You should read thoroughly this prospectus and the documents that we refer to in this prospectus with the understanding that our actual future results may be materially different from and worse than what we expect. Other sections of this prospectus include additional factors which could adversely impact our business and financial performance. Moreover, we operate in an evolving environment. New risk factors and uncertainties emerge from time to time and it is not possible for our management to predict all risk factors and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. We qualify all of our forward-looking statements by these cautionary statements.

You should not rely upon forward-looking statements as predictions of future events. Forward-looking statements speak only as of the date they are made, and we do not undertake any obligation to update them in light of new information or future developments or to release publicly any revisions to these statements in order to reflect later events or circumstances or to reflect the occurrence of unanticipated events.

This prospectus also contains statistical data and estimates that we obtained from industry publications and reports generated by third-party providers of market intelligence. These industry publications and reports generally indicate that the information contained therein was obtained from sources believed to be reliable, but do not guarantee the accuracy and completeness of such information. Although we believe that the publications and reports are reliable, we have not independently verified the data.

USE OF PROCEEDS

We estimate that we will receive net proceeds from this offering of approximately US\$ million, or approximately US\$ million if the underwriters exercise their option to purchase additional ADSs in full, based on an assumed initial public offering price of US\$ per ADS, which is the mid-point of the estimated initial public offering price range shown on the cover page of this prospectus, after deducting underwriting discounts and commissions and the estimated offering expenses payable by us.

We plan to use the net proceeds of this offering as follows:

- approximately 20% to further enhance our content offerings;
- approximately 40% to expand our business service scope, client base and service depth;
- approximately 15% to improve our data analytics and technological capabilities; and
- approximately 25% to supplement our working capital and achieve other general corporate purposes.

In utilizing the net proceeds from this offering, we are permitted under PRC laws and regulations to provide funding to our PRC subsidiaries only through loans or capital contributions, and to our consolidated VIE only through loans, and only if we satisfy the applicable government registration and approval requirements. We cannot assure you that we will be able to meet these requirements on a timely basis, or at all. See "Risk Factors—Risks Related to Doing Business in China—PRC regulation of loans to, and direct investment in, PRC entities by offshore holding companies and governmental control of currency conversion may restrict or prevent us from using the proceeds of this offering to make loans to our PRC subsidiary and our VIE, or to make additional capital contributions to our PRC subsidiary."

Pending use of the net proceeds, we intend to hold our net proceeds in short-term, interest-bearing, financial instruments or demand deposits.

DIVIDEND POLICY

We have not previously declared or paid cash dividends and we have no plan to declare or pay any dividends in the near future on our shares or the ADSs representing our Class A ordinary shares. We currently intend to retain most, if not all, of our available funds and any future earnings to operate and expand our business.

We are a holding company incorporated in the Cayman Islands. We rely principally on dividends from our PRC subsidiaries for our cash requirements, including any payment of dividends to our shareholders. PRC regulations may restrict the ability of our PRC subsidiaries to pay dividends to us. See "Regulation—Regulations on Dividend Distribution."

Our board of directors has discretion as to whether to distribute dividends, subject to certain requirements of Cayman Islands law. In addition, our shareholders may by ordinary resolution declare a dividend, but no dividend may exceed the amount recommended by our board of directors. Under Cayman Islands law, a Cayman Islands company may pay a dividend out of either profit or share premium account, provided that in no circumstances may a dividend be paid if this would result in the company being unable to pay its debts as they fall due in the ordinary course of business. Even if our board of directors decides to pay dividends, the form, frequency and amount will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors that the board of directors may deem relevant. If we pay any dividends on our ordinary shares, we will pay those dividends which are payable in respect of the Class A ordinary shares underlying the ADSs to the depositary, as the registered holder of such Class A ordinary shares, and the depositary then will pay such amounts to the ADS holders in proportion to the Class A ordinary shares underlying the ADSs held by such ADS holders, subject to the terms of the deposit agreement, including the fees and expenses payable thereunder. See "Description of American Depositary Shares."

Notes:

- (1) The pro forma as adjusted information discussed above is illustrative only. Our additional paid-in capital, total shareholders' equity and total capitalization following the completion of this offering are subject to adjustment based on the actual initial public offering price and other terms of this offering determined at pricing.

- (2) Assuming the number of ADSs offered by us as set forth on the cover page of this prospectus remains the same, and after deduction of underwriting discounts and commissions and the estimated offering expenses payable by us, a US\$1.00 change in the assumed initial public offering price of US\$ per ADS being the mid-point of the estimated range of the initial offering price shown on the cover page of this prospectus would, in the case of an increase, increase and, in the case of a decrease, decrease each of additional paid-in capital, total shareholders' (deficit)/equity and total capitalization by US\$ million.

DILUTION

If you invest in our ADSs, your interest will be diluted to the extent of the difference between the initial public offering price per ADS and our net tangible book value per ADS after this offering. Dilution results from the fact that the initial public offering price per Class A ordinary share is substantially in excess of the book value per ordinary share attributable to the existing shareholders for our presently outstanding ordinary shares.

Our net tangible book value as of June 30, 2019 was US\$ million, US\$ per ordinary share and US\$ per ADS. Net tangible book value per ordinary share represents the amount of total tangible assets, minus the amount of total liabilities, divided by the total number of ordinary shares outstanding. Dilution is determined by subtracting net tangible book value per ordinary share from the public offering price per ordinary share.

Without taking into account any other changes in such net tangible book value after June 30, 2019, other than to give effect to our issuance and sale of ADSs offered in this offering at an initial public offering price of US\$ per ADS being the mid-point of the estimated range of the initial offering price shown on the cover page of this prospectus, after deduction of the underwriting discounts and commissions and estimated offering expenses payable by us, our pro forma as adjusted net tangible book value as of June 30, 2019 would have been US\$ million, or US\$ per ordinary share and US\$ per ADS, to existing shareholders and an immediate dilution in net tangible book value of US\$ per ordinary share, or US\$ per ADS, to purchasers of ADSs in this offering.

The following table illustrates the dilution on a per ordinary share basis assuming that the initial public offering price per ordinary share is US\$ and all ADSs are exchanged for ordinary shares:

	Per Ordinary Share	Per ADS
Initial public offering price per ordinary share	US\$	US\$
Net tangible book value per ordinary share	US\$	US\$
Pro forma net tangible book value per ordinary share after giving effect to the automatic conversion of all of our outstanding preferred shares, as of June 30, 2019	US\$	US\$
Pro forma net tangible book value per ordinary share as adjusted to give effect to the automatic conversion of all of our outstanding preferred shares and this offering as of June 30, 2019	US\$	US\$
Amount of dilution in net tangible book value per ordinary share to new investors in the offering	US\$	US\$
Amount of dilution in net tangible book value per ADS to new investors in the offering	US\$	US\$

The pro forma as adjusted information discussed above is illustrative only. Our net tangible book value following the completion of this offering is subject to adjustment based on the actual initial public offering price of our ADSs and other terms of this offering determined at pricing.

ENFORCEABILITY OF CIVIL LIABILITIES

We were incorporated in the Cayman Islands in order to enjoy the following benefits:

- political and economic stability;
- an effective judicial system;
- a favorable tax system;
- the absence of exchange control or currency restrictions; and
- the availability of professional and support services.

However, certain disadvantages accompany incorporation in the Cayman Islands. These disadvantages include, but are not limited to, the following:

- the Cayman Islands has a less developed body of securities laws as compared to the United States and these securities laws provide significantly less protection to investors; and
- Cayman Islands companies may not have standing to sue before the federal courts of the United States.

Our constitutional documents do not contain provisions requiring that disputes, including those arising under the securities laws of the United States, between us, our officers, directors and shareholders, be arbitrated.

All of our operations are conducted outside the United States, and all of our assets are located outside the United States. A majority of our directors and officers are nationals or residents of jurisdictions other than the United States and a substantial portion of their assets are located outside the United States. As a result, it may be difficult for a shareholder to effect service of process within the United States upon these persons, or to enforce against us or them judgments obtained in United States courts, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States.

We have appointed Cogency Global Inc. as our agent upon whom process may be served in any action brought against us under the securities laws of the United States.

Maples and Calder (Hong Kong) LLP, our counsel as to Cayman Islands law, and Jingtian & Gongcheng, our counsel as to PRC law, have advised us, respectively, that there is uncertainty as to whether the courts of the Cayman Islands and China, respectively, would:

- recognize or enforce judgments of United States courts obtained against us or our directors or officers predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States; or
- entertain original actions brought in each respective jurisdiction against us or our directors or officers predicated upon the securities laws of the United States or any state in the United States.

Maples and Calder (Hong Kong) LLP has informed us that although there is no statutory enforcement in the Cayman Islands of judgments obtained in the federal or state courts of the United States (and the Cayman Islands are not a party to any treaties for the reciprocal enforcement or recognition of such judgments), a judgment obtained in such jurisdiction will be recognized and enforced in the courts of the Cayman Islands at common law, without any re-examination of the merits of the underlying dispute, by an action commenced on the foreign judgment debt in the Grand Court of the Cayman Islands, provided such judgment (a) is given by a foreign court of competent jurisdiction, (b) imposes on the judgment debtor a liability to pay a liquidated sum for which the judgment has been given, (c) is final, (d) is not in respect of taxes, a fine or a penalty, and (e) was not

obtained in a manner and is not of a kind the enforcement of which is contrary to natural justice or the public policy of the Cayman Islands. However, the Cayman Islands courts are unlikely to enforce a judgment obtained from the U.S. courts under civil liability provisions of the U.S. federal securities law if such judgment is determined by the courts of the Cayman Islands to give rise to obligations to make payments that are penal or punitive in nature. Because such a determination has not yet been made by a court of the Cayman Islands, it is uncertain whether such civil liability judgments from U.S. courts would be enforceable in the Cayman Islands.

We have been advised by Jingtian & Gongcheng, our PRC legal counsel, that there is uncertainty as to whether the courts of the PRC would recognize or enforce judgments of United States courts or Cayman courts obtained against us or these persons predicated upon the civil liability provisions of the United States federal and state securities laws, or entertain original actions brought in each respective jurisdiction against us or these persons predicated upon the securities laws of the United States or any state in the United States. Jingtian & Gongcheng has further advised us that the recognition and enforcement of foreign judgments are provided for under PRC Civil Procedures Law. PRC courts may recognize and enforce foreign judgments in accordance with the requirements of PRC Civil Procedures Law based either on treaties between China and the country where the judgment is made or on reciprocity between jurisdictions. China does not have any treaties or other form of reciprocity with the United States or the Cayman Islands that provide for the reciprocal recognition and enforcement of foreign judgments. In addition, according to the PRC Civil Procedures Law, courts in the PRC will not enforce a foreign judgment against us or our directors and officers if they decide that the judgment violates the basic principles of PRC law or national sovereignty, security or public interest. As a result, it is uncertain whether and on what basis a PRC court would enforce a judgment rendered by a court in the United States. Under the PRC Civil Procedures Law, foreign shareholders may originate actions based on PRC law against us in the PRC, if they can establish sufficient nexus to the PRC for a PRC court to have jurisdiction, and meet other procedural requirements, including, among others, the plaintiff must have a direct interest in the case, and there must be a concrete claim, a factual basis and a cause for the suit. However, it would be difficult for foreign shareholders to establish sufficient nexus to the PRC by virtue only of holding our ADSs or ordinary shares.

Letter to Investors

Dear investors,

Thank you for taking the time to read our prospectus and this letter. If you invest with us, you will be embarking on a journey with us through the New Economy revolution. As New Economy is rapidly transforming businesses through cutting-edge technology and innovative business models, I would like to share with you how we have come to be and some of our thoughts for the future.

Fostering a Vibrant New Economy Community

36Kr is founded in 2010 on the mission to empower New Economy participants to achieve more. We started off by introducing world-leading business models, technologies and management trends to Chinese entrepreneurs. Gradually, investors came to our platform looking for and learning about the latest New Economy trends and seeking opportunities to invest in promising startup companies. After nine years of operations, with our insights and expertise in New Economy sectors, we especially take pride in our ability to discover startup companies with great potentials and introduce them to the investment community.

We then began to attract established companies, including New Economy unicorns and traditional companies, and improved how they are connected with other businesses, the investment community and individuals on our platform. We provide companies with tools or solutions, such as online advertising services and enterprise value-added services, to help established companies increase media exposure and brand awareness, and to guide traditional companies as they adapt to the New Economy.

We have further accumulated a large and growing individual user base through our valuable membership and subscription services. These individuals tend to be passionate about the development of New Economy and steadfast in their belief in New Economy being the inevitable future.

We are proud to have fostered a vibrant and self-reinforcing community of New Economy participants, and have become one of the most recognized platforms among New Economy participants in China.

In May 2017, Beijing Sanshiliuke changed its name to Beijing Pinxin Media Culture Co., Ltd., which later changed its name to Beijing Duoke Information Technology Co., Ltd. in March 2019.

Reorganization

We incorporated 36Kr Holdings Inc. in the Cayman Islands on December 3, 2018. On June 25, 2019, Beijing Duke was incorporated as Tianjin Duoke's wholly-owned subsidiary in the PRC. In September 2019, 36Kr Holdings Inc. issued 39,999,999 series D preferred shares. Immediately after the completion of this offering and assuming no exercise by the underwriters of their over-allotment option, we expect an aggregate of % of our total issued and outstanding ordinary shares will be held by our existing shareholders, and an aggregate of % of our total issued and outstanding ordinary shares will be held by new investors in this offering.

In August 2019, to obtain control over Beijing Duoke, which we refer to as our VIE, and conduct substantially all of our operations in China, we entered into a series of contractual arrangements through Beijing Duke with our VIE and its shareholders. Our contractual arrangements with our VIE and its shareholders have enabled us to (i) exercise effective control over our VIE, (ii) receive substantially all of the economic benefits and bear the obligation to absorb substantially all of the losses of our VIE, and (iii) have an exclusive option to purchase all or part of the equity interests in our VIE when and to the extent permitted by PRC laws. For more details, including risks associated with the VIE structure, please see "—Contractual Arrangements with Beijing Duoke," and "Risk Factors—Risks Related to Our Corporate Structure."

Corporate Structure

The chart below summarizes our corporate legal structure and identifies our principal subsidiaries and our VIE as of the date of this prospectus.

(1) As approved by its shareholders and directors, Beijing Duoke is currently undertaking a restructuring, upon the consummation of which, the remaining VIE shareholders will consist of:

- i. Tianjin Zhanggongzi Technology Partnership (L.P.), holding 62.17% of equity interest;
- ii. Shenzhen Guohong No. 2 Enterprise Management Partnership (L.P.), holding 23.32% of equity interest;
- iii. Ningbo Meishan Baoshui Gangqu Tianhong Lvheng Investment Management Partnership (L.P.), holding 14.51% of equity interest;

Contractual Arrangements with Beijing Duoke

Due to the PRC legal restrictions on foreign ownership of Internet-based businesses, currently we conduct substantially all of our operations in China through our variable interest entity and its subsidiaries. We have entered into a series of contractual arrangements, including an exclusive purchase option agreement, powers of attorney, an equity pledge agreement and an exclusive business cooperation agreement, with our VIE and its shareholders. We also entered into substantially the same contractual arrangements with our VIE and the remaining VIE shareholders in September 2019, which will become effective upon consummation of the restructuring of our VIE.

These contractual arrangements have enabled us to exercise effective control over our VIE, receive substantially all of the economic benefits of our VIE, and have an exclusive option to purchase all or part of the equity interests in our VIE when and to the extent permitted by PRC law. As a result of these contractual arrangements, we are regarded as the primary beneficiary of our VIE, and we accordingly treat them as our consolidated affiliated entities under U.S. GAAP.

The following is a summary of the contractual arrangements entered into by and among Beijing Duoke, our VIE and its shareholders in August 2019.

Agreements that provide us with effective control over Beijing Duoke

Exclusive Purchase Option Agreement

Beijing Duoke, Beijing Duoke and the shareholders of Beijing Duoke have entered into an exclusive purchase option agreement, pursuant to which each of the shareholders of Beijing Duoke irrevocably granted Beijing Duoke or its designated representatives an exclusive option to purchase, to the extent permitted under PRC law, all or part of his, her or its equity interests in Beijing Duoke. Beijing Duoke

or its designated representatives have sole discretion as to when to exercise such options, either in part or in full, once or at multiple times at any time. Without Beijing Duke's prior written consent, the shareholders of Beijing Duoke shall not sell, transfer, mortgage or otherwise dispose of their equity interests in Beijing Duoke, or allow the encumbrance thereon. The agreement will remain effective until all equity interests in Beijing Duoke held by its shareholders are transferred or assigned to Beijing Duke or its designated representatives.

Powers of Attorney

Beijing Duke, Beijing Duoke and the shareholders of Beijing Duoke have entered into powers of attorney, pursuant to which each of the shareholders of Beijing Duoke irrevocably appointed Beijing Duke (as well as its successors, including a liquidator, if any, replacing Beijing Duke) or its designated persons to act on their respective behalf as exclusive agent and attorney, to the extent permitted by law, with respect to all rights of shareholders concerning all equity interests held by each of them in Beijing Duoke, including without limitation (i) exercise all the shareholder's rights (including but not limited to voting rights and right to sell, transfer, pledge or dispose of all equity interests in Beijing Duoke held in part or in whole), (ii) to attend shareholders' meetings and to execute any and all written resolutions and meeting minutes in the name and on behalf of such shareholders, and (iii) to file documents with the relevant companies registry. The agreement will remain effective until Beijing Duke unilaterally terminates the agreement in writing or all equity interests in Beijing Duoke held by its shareholders are transferred or assigned to Beijing Duke or its designated representatives.

Equity Pledge Agreement

Beijing Duke, Beijing Duoke and the shareholders of Beijing Duoke have entered into an equity pledge agreement, pursuant to which the shareholders of Beijing Duoke have pledged all of their equity interests in Beijing Duoke that they own, including any interest or dividend paid for the shares, to Beijing Duke as a security interest to guarantee the performance by Beijing Duoke and its shareholders' performance of their respective obligations under the exclusive business cooperation agreement, exclusive purchase option agreement and power of attorney. Upon the or discovery of the occurrence of any circumstances or event that may lead to an event of default (as defined in the equity pledge agreement), Beijing Duke, as the pledgee, will be entitled to certain rights, including the right to sell the pledged equity interests. Beijing Duke is not be liable for any loss incurred by its due exercise of such rights and powers. This pledge will become effective on the date the pledged equity interests are registered with the relevant office of industry and commerce and will remain effective until the pledgors are no longer the shareholders of Beijing Duoke.

Agreement that allows us to receive economic benefits from our VIE

Exclusive Business Cooperation Agreement

Beijing Duke and Beijing Duoke have entered into an exclusive business cooperation agreement, pursuant to which Beijing Duke has the exclusive right to provide to Beijing Duoke technical support, consulting services and other services related to Beijing Duoke's business, including business management, daily operations, strategic planning, among others. Beijing Duke has granted Beijing Duoke the right to register its intellectual property rights under Beijing Duoke. Beijing Duke has the right to purchase such intellectual property rights from Beijing Duoke at nominal prices. The scope of the services provided by Beijing Duke may be expanded from time to time per Beijing Duoke's request. The timing and amount of the service fee payments shall be determined at the sole discretion of Beijing Duke. The term of this agreement is indefinite unless Beijing Duke unilaterally terminates the agreement in writing.

In the opinion of Jingtian & Gongcheng, our PRC legal counsel:

- the ownership structures of our VIE and Beijing Dake in China currently and immediately after giving effect to this offering, will not result in any violation of PRC laws or regulations currently in effect; and
- the contractual arrangements among Beijing Dake, our VIE and the shareholders of our VIE governed by PRC law currently and immediately after giving effect to this offering are valid, binding upon each party to such arrangements and enforceable against each party thereto in accordance with their terms and applicable PRC laws and regulations currently in effect, and will not result in any violation of PRC laws or regulations currently in effect.

However, there are substantial uncertainties regarding the interpretation and application of current and future PRC laws, regulations and rules. Accordingly, the PRC regulatory authorities may in the future take a view that is contrary to or otherwise different from the above opinion of our PRC legal counsel. If the PRC government finds the agreements that establish the structure do not comply with PRC government restrictions on foreign investment in certain of our businesses, we may be subject to severe penalties including being prohibited from continuing operations. See "Risk Factors—Risks Related to Our Corporate Structure—If the PRC government finds that the agreements that establish the structure for operating some of our operations in China do not comply with PRC regulations relating to the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations." and "Risk Factors—Risks Related to Doing Business in China—Uncertainties with respect to the PRC legal system and the interpretation of laws and regulations could materially and adversely affect us."

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with the section entitled "Selected Consolidated Financial Data" and our consolidated financial statements and the related notes included elsewhere in this prospectus. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results and the timing of events could differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under "Risk Factors" and elsewhere in this prospectus.

Overview

We are a prominent brand and a pioneering platform dedicated to serving New Economy participants in China. We started our business with high-quality New Economy-focused content offerings. Leveraging traffic brought by high-quality content, we have expanded our offerings to business services, including online advertising services, enterprise value-added services and subscription services. According to the CIC Survey, we are one of the most recognized platforms among New Economy participants in China. With our significant brand influence, we are well-positioned to continuously capture the high growth potentials of China's New Economy.

High-quality New Economy-focused content is the foundation of our business. We provide insightful reports on companies, timely market updates and thought-provoking editorials and commentaries. We especially take pride in our ability to discover startup companies with great potentials and introduce them to the investment community. We were the first to report on a number of startup companies that later became industry leaders. For example, in January 2013, we were the first to report on ByteDance, which later became a world-leading technology company. Meanwhile, our content covers a variety of industries in China's New Economy, such as technology, consumer and retail, and healthcare.

We offer business services, including online advertising services, enterprise value-added services and subscription services to our customers. We address the evolving needs of New Economy companies and upgrade needs of traditional companies by providing them with tailored advertising and marketing solutions and other enterprise value-added services. We also help institutional investors identify promising targets, source investment opportunities and connect them with startup companies directly. Additionally, we have cultivated a large number of subscribers who purchase our premium content and other benefits. Through our diverse service offerings, we have captured extensive monetization opportunities.

With high-quality content and diverse business service offerings, we have fostered an affluent and sophisticated user base and as such, attracted a valuable customer base. As of December 31, 2018, we provided business services to 23 of the Global Fortune 100 Companies. Additionally, as of December 31, 2018, we also provided business services to 59 of the Top 100 New Economy companies as measured by market capitalization and valuation, according to the CIC Report. While we started our institutional investors subscription services in the first quarter of 2017, we already covered 46 of the Top 200 institutional investors in China as of December 31, 2018 as measured by assets under management, according to the CIC Report.

We have achieved significant revenue growth and profitability. Our revenue increased by 148.2% from RMB120.5 million in 2017 to RMB299.1 million (US\$43.6 million) in 2018. Our revenue increased by 178.7% from RMB72.4 million for the six months ended June 30, 2018 to RMB201.9 million (US\$29.4 million) for the same period in 2019. Our net income increased by 411.4% from RMB7.9 million in 2017 to RMB40.5 million (US\$5.9 million) in 2018 and our net profit margin increased from 6.6% in 2017 to 13.5% in 2018. We had net loss of RMB8.3 million and RMB45.5 million (US\$6.6 million) for the six months ended June 30, 2018 and 2019, respectively.

Key Operating Data

The following table presents our monthly average PV for the twelve-month periods ended the dates indicated:

	For the twelve-month period ended						
	December 31, 2017	March 31, 2018	June 30, 2018	September 30, 2018 (in millions)	December 31, 2018	March 31, 2019	June 30, 2019
Average monthly PV	121.6	120.9	127.0	145.6	196.2	225.4	347.7

Our average monthly PV is generated across our self-operated platforms and our accounts on major third-party platforms, including Weibo, Weixin/WeChat, Toutiao and Zhihu. Our average monthly PV increased significantly from 121.6 million in the twelve-month period ended December 31, 2017 to 196.2 million in the twelve-month period ended December 31, 2018. As we have adopted fixed rate pricing models under which customers pay fixed fees for advertising services irrespective of views, clicks or other performance measures, each additional page view does not directly result in a corresponding increase in advertising revenue. Nevertheless, we believe the increase in average monthly PV indicates that more users are accessing, or users are accessing more frequently, the content offered by us, which enhances our brand awareness and influence in the New Economy market. Leveraging such brand awareness and influence, we are able to attract online advertising services customers and enhance pricing power, which together lead to the growth of our online advertising services revenue. Our online advertising services revenue increased by 135.0% from RMB74.0 million in 2017 to RMB173.8 million (US\$25.3 million) in 2018.

Major Factors Affecting Our Results of Operations

The following factors are the principal factors that have affected and will continue to affect our business, financial condition, results of operations and prospects.

Trends in China's economic conditions and development of China's New Economy

Our business and results of operations are significantly affected by China's overall economic conditions and structural transformation, especially the development of China's New Economy. The development of New Economy in China is affected by factors such as technological advancements, New Economy participant base, entrepreneurial environment, capital investment, regulatory environment and talent pool. According to the CIC Report, the GDP of China's New Economy increased from approximately US\$0.6 trillion in 2014 to approximately US\$2.0 trillion in 2018, representing a robust CAGR of 34.8%, and the GDP of China's New Economy as a percentage of the GDP of China's overall economy increased from 6.4% in 2014 to 16.1% in 2018. A strong growth of China's New Economy has resulted in, and likely will continue to result in increasing demands for New Economy-focused content and business services. Our content and business services have captured, and are likely to continue to capture, the various market opportunities brought by China's New Economy development.

Nevertheless, unfavorable changes in China's overall economy, New Economy and New Economy-focused business services market, especially unfavorable regulations and policies towards New Economy, could negatively affect demand for our services and materially and adversely affect our results of operations. The emerging New Economy in China is still in its early stage of development and there are considerable uncertainties about its future growth. See "Risk Factors—Risks Related to Our Business and Industry—We are subject to risks associated with operating in the rapidly evolving New Economy sector."

Our ability to retain and attract New Economy participants on our platform

We have fostered a vibrant and self-reinforcing community of New Economy participants. Our high-quality content offerings generate organic traffic and attract New Economy participants to our platform and become our users and customers, which greatly enhances our ability to generate revenues. Leveraging our established and growing community of New Economy participants, we are able to gain deeper insights into China's New Economy and generate more high-quality content. Additionally, as of December 31, 2018, we provided business services to 23 of the Global Fortune 100 companies and 59 of the Top 100 New Economy companies in China as measured by market capitalization and valuation, according to the CIC Report. As we are in the progress of expanding our service offerings and diversifying our monetization channels, none of these customers individually contributed significantly to our revenue in 2018. In this regard, we plan to offer more effective and tailored business solutions to our customers, which in turn enhances our value propositions to them and improves their engagement. Moreover, leveraging our significant brand appeal among New Economy participants, we are well-positioned to better retain and attract more participants onto our platform.

Our ability to effectively control our costs and expenses

Our ability to manage and control our costs and expenses is critical to the success of our business. Leveraging our prominent brand, our traffic and customer acquisition cost has been low. We have also adopted various measures, such as automated screening system, to enhance operating efficiency and reduce costs and expenses. We expect our costs and expenses to increase in absolute amount as we grow our business while decreasing as a percentage of our total revenues due to enhanced brand value and increased operational efficiency.

Our ability to further diversify our monetization channels and enhance our monetization capabilities

Our financial condition and results of operations depend substantially on our monetization capabilities, including our ability to convert more users to subscribers, attract more customers, cross-sell and increase customer spending. Leveraging our high-quality content and comprehensive business service offerings, we have captured extensive monetization opportunities. Our revenue increased by 148.2% from 2017 to 2018 and increased by 178.7% from the first half of 2018 to the first half of 2019, primarily driven by the growth of our business.

We endeavor to constantly reinforce our monetization capabilities by providing broader and better content and services, which improves our user and customer experience, attracts more traffic and enhances stickiness. Our robust customer and user base, in turn, leads to increased revenue and profit which enables us to further devote more resources to content and service offerings. We intend to meet our customers' needs throughout their lifecycle and seek additional cross-selling opportunities to achieve synergies among our services.

Seasonality

We experience seasonality in our business, primarily our online advertising services. Advertising and marketing activities tend to be less active during the first quarter, which is Chinese New Year holiday season. During this period, companies generally limit their advertising and marketing spending. As a result, we generally experience fewer activities on our platform and demands for our services during the first quarter. As compared to the first quarter, our online advertising services customers tend to increase advertising and marketing spending near the end of each calendar year. We believe an increase in revenues during the fourth quarter of each year is a typical pattern in the online advertising market. Moreover, as most of our offline events are hosted in the fourth quarter of each year, we also experience an increase in revenues during the fourth quarter of each year for our enterprise value-added services. In line with increased revenues during the fourth quarter, we record higher balances of account receivables at year-end. See "Risk Factors—Risks Related to Our Business and Industry—Our quarterly operating results may fluctuate, which makes our results of operations difficult to predict and may cause our quarterly results of operations to fall short of expectations."

Equipment location rental fee and operation costs are related to our interactive marketing services. Other costs mainly include (i) office rental cost, (ii) bandwidth and server costs, (iii) depreciation, and (iv) other miscellaneous costs. We expect our cost of revenues to increase in absolute amount in line with our expansion of business but to decrease as a percentage of our revenues through economies of scale and continuous improvement of operating efficiency.

Other Income/(expenses)

Share of loss from equity method investments

Share of loss from equity method investments is related to our equity investment, where we are able to exercise significant influence but do not own a majority equity interest or control in the investee. The investee suspended its operation in August 2018 and was dissolved in January 2019.

Short-term investment income

Short-term investment income represents unrealized gains in change of fair value and realized gains in sale of short-term investments.

Interest income

Interest income consists of our interests received from our cash and cash equivalents placed in banks.

Interest expenses

We incurred interest expenses mainly in relation to the loan provided by Xieli Zhucheng, our related party.

Others, net

Our other income primarily includes government grants.

Taxation

Cayman Islands

We are incorporated in the Cayman Islands. Under the current law of the Cayman Islands, we are not subject to income or capital gains tax. In addition, payments of dividends and capital in respect of our ordinary shares (and any consequential payments to the holders of our ADSs) will not be subject to taxation in the Cayman Islands and no withholding will be required on the payment of dividends or capital to any holder of our ordinary shares or ADSs, nor will gains derived from the disposal of our ordinary shares or ADSs be subject to Cayman Islands income or corporation tax. The Cayman Islands currently have no income, corporation or capital gains tax and no estate duty, inheritance tax or gift tax.

British Virgin Islands

Our subsidiaries incorporated in the British Virgin Islands are not subject to income or capital gains tax under the current laws of the British Virgin Islands. In addition, payment of dividends by the British Virgin Islands subsidiaries to their respective shareholders who are not resident in the British Virgin Islands, if any, is not subject to withholding tax in the British Virgin Islands.

Hong Kong

Our wholly owned subsidiary in Hong Kong, 36Kr Holdings (HK) Limited, is subject to Hong Kong profits tax on its activities conducted in Hong Kong at a uniform tax rate of 16.5%. Payments of dividends by our subsidiary to us are not subject to withholding tax in Hong Kong.

PRC

Our subsidiaries and our VIE in China are companies incorporated under PRC law and, as such, are subject to PRC enterprise income tax on their taxable income in accordance with the relevant PRC income tax laws. Pursuant to the PRC Enterprise Income Tax Law, or the EIT Law, which became effective on January 1, 2008 and was amended on February 24, 2017 and December 29, 2018, respectively, a uniform 25% enterprise income tax rate is generally applicable to both foreign-invested enterprises and domestic enterprises, except where a special preferential rate applies.

Our PRC subsidiaries are subject to value-added taxes, or VAT, at a rate of 6% on our services, less any deductible VAT we have already paid or borne. They are also subject to surcharges on VAT payments in accordance with PRC law. As a Cayman Islands holding company, we may receive dividends from our PRC subsidiaries. The PRC EIT Law and its implementing rules provide that dividends paid by a PRC entity to a nonresident enterprise for income tax purposes is subject to PRC withholding tax at a rate of 10%, subject to reduction by an applicable tax treaty with China. Pursuant to the Arrangement between Mainland China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and Tax Evasion on Income, the withholding tax rate in respect to the payment of dividends by a PRC enterprise to a Hong Kong enterprise may be reduced to 5% from a standard rate of 10% if the Hong Kong enterprise directly holds at least 25% of the PRC enterprise. Pursuant to the Notice of the State Administration of Taxation on the Issues concerning the Application of the Dividend Clauses of Tax Agreements, or SAT Circular 81, a Hong Kong resident enterprise must meet the following conditions, among others, in order to apply the reduced withholding tax rate: (i) it must be a company; (ii) it must directly own the required percentage of equity interests and voting rights in the PRC resident enterprise; and (iii) it must have directly owned such required percentage in the PRC resident enterprise throughout the 12 months prior to receiving the dividends. In August 2015, the State Administration of Taxation, or SAT, promulgated the Administrative Measures for Nonresident Taxpayers to Enjoy Treatment under Tax Treaties, or SAT Circular 60, which became effective on November 1, 2015 and was amended on June 15, 2018. SAT Circular 60 provides that nonresident enterprises are not required to obtain preapproval from the relevant tax authority in order to enjoy the reduced withholding tax. Instead, nonresident enterprises and their withholding agents may, by self-assessment and on confirmation that the prescribed criteria to enjoy the tax treaty benefits are met, directly apply the reduced withholding tax rate, and file necessary forms and supporting documents when performing tax filings, which will be subject to post-tax filing examinations by the relevant tax authorities. Accordingly, we may be able to benefit from the 5% withholding tax rate for the dividends we receive from our PRC subsidiaries, if we satisfy the conditions prescribed under SAT Circular 81 and other relevant tax rules and regulations. However, according to SAT Circular 81 and SAT Circular 60, if the relevant tax authorities consider the transactions or arrangements we have are for the primary purpose of enjoying a favorable tax treatment, the relevant tax authorities may adjust the favorable withholding tax in the future.

If our holding company in the Cayman Islands or any of our subsidiaries outside of China were deemed to be a "resident enterprise" under the PRC EIT Law, it would be subject to enterprise income tax on its worldwide income at a rate of 25%. See "Risk Factors—Risks Related to Doing Business in China—We may be classified as a "PRC resident enterprise" for PRC enterprise income tax purposes, which could result in unfavorable tax consequences to us and our non-PRC shareholders and ADS holders and have a material adverse effect on our results of operations and the value of your investment."

Singapore

Our subsidiary in Singapore is subject to the Singapore Corporate Tax rate of 17%.

Internal Control Over Financial Reporting

Prior to this offering, we have been a private company with limited accounting and financial reporting personnel and other resources to address our internal controls and procedures. In connection with the audits of our consolidated financial statements as of and for the years ended December 31, 2017 and 2018, we and our independent registered public accounting firm identified one material weakness in our internal control over financial reporting. As defined in the standards established by the Public Company Accounting Oversight Board of the United States, a "material weakness" is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis.

The material weakness identified is our company's lack of sufficient competent financial reporting and accounting personnel with appropriate understanding of U.S. GAAP to design and implement formal period-end financial reporting controls and procedures to address U.S. GAAP technical accounting issues, and to prepare and review the consolidated financial statements and related disclosures in accordance with U.S. GAAP and financial reporting requirements set forth by the SEC.

To remediate the identified material weakness, we are currently in the process of establishing clear rules and responsibilities for accounting and financial reporting staffs to address complex accounting and financial reporting issues. Furthermore, we are in the process of hiring additional qualified financial and accounting personnel with working experience with U.S. GAAP and SEC reporting requirements. In addition, we plan to:

- implement regular U.S. GAAP and SEC financial reporting training programs for our accounting and financial personnel; and
- develop and implement a comprehensive set of period-end financial reporting policies and procedures, especially for non-recurring and complex transactions to ensure consolidated financial statements and related disclosures are in compliance with U.S. GAAP and SEC reporting requirements.

The process of designing and implementing an effective financial reporting system is a continuous effort that requires us to anticipate and react to changes in our business and the economic and regulatory environments and to devote significant resources to maintain a financial reporting system that is adequate to satisfy our reporting obligation. See "Risk Factors—Risks Related to Our Business—If we fail to implement and maintain an effective system of internal controls over financial reporting, we may be unable to accurately or timely report our results of operations or prevent fraud, and investor confidence and the market price of our ADSs may be materially and adversely affected."

As a company with less than US\$1.07 billion in revenue for our last fiscal year, we qualify as an "emerging growth company" pursuant to the JOBS Act. An emerging growth company may take advantage of specified reduced reporting and other requirements that are otherwise applicable

generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002, in the assessment of the emerging growth company's internal control over financial reporting. The JOBS Act also provides that an emerging growth company does not need to comply with any new or revised financial accounting standards until such date that a private company is otherwise required to comply with such new or revised accounting standards. We will not "opt out" of such exemptions afforded to an emerging growth company.

Critical Accounting Policies, Judgments and Estimates

We prepare our consolidated financial statements in accordance with U.S. GAAP, which requires our management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the balance sheet dates and revenues and expenses during the reporting periods. We continually evaluate these judgments and estimates based on our own historical experience, knowledge and assessment of current business and other conditions, our expectations regarding the future based on available information and assumptions that we believe to be reasonable, which together form our basis for making judgments about matters that are not readily apparent from other sources. Since the use of estimates is an integral component of the financial reporting process, our actual results could differ from those estimates. Some of our accounting policies require a higher degree of judgment than others in their application.

The selection of critical accounting policies, the judgments and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in conditions and assumptions are factors that should be considered when reviewing our financial statements. We believe the following accounting policies involve the most significant judgments and estimates used in the preparation of our financial statements. You should read the following description of critical accounting policies, judgments and estimates in conjunction with our consolidated financial statements and other disclosures included in this prospectus.

Basis of presentation for the reorganization

The reorganization consists of transferring the online advertising services, enterprise value-added services and subscription services, collectively referred to as the 36Kr Business, to our Group, which is owned by the shareholders of Beijing Duoke and Xieli Zhucheng immediately before and after the reorganization. The shareholding percentages and rights of each shareholder are substantially the same in Beijing Duoke and in our Company immediately before and after the reorganization. Accordingly, the reorganization is accounted for in a manner similar to a common control transaction because of the high degree of common ownership, and it is determined that the transfers lack economic substance. Therefore, the accompanying consolidated financial statements include the assets, liabilities, revenue, expenses and cash flows of 36Kr Business for the periods presented and are prepared as if the corporate structure of our Group after the reorganization had been in existence throughout the periods presented. Accordingly, the effect of the ordinary shares and the preferred shares issued by our Company pursuant to the reorganization have been retrospectively presented as of the beginning of the earliest period presented on the consolidated financial statement or the original issue date, whichever is later.

Principles of consolidation

Our consolidated financial statements include the financial statements of our company, our subsidiaries, our VIE and its subsidiaries for which we are the ultimate primary beneficiary.

Subsidiaries are those entities in which we, directly or indirectly, control more than one half of the voting power or have the power to appoint or remove the majority of the members of the board of

directors, or to cast a majority of votes at the meeting of the board of directors, or to govern the financial and operating policies of the investee under a statute or agreement among the shareholders or equity holders.

A VIE is an entity in which we, or our subsidiary, through contractual arrangements, has the power to direct the activities that most significantly impact the entity's economic performance, bears the risks of and enjoys the rewards normally associated with ownership of the entity, and therefore is the primary beneficiary of the entity.

All significant intercompany transactions and balances between ourselves, our subsidiaries, our VIE and subsidiaries of the VIE have been eliminated upon consolidation.

Revenue Recognition

We early adopted ASC Topic 606, "Revenue from Contracts with Customers" (ASC 606) for all years presented. According to ASC 606, revenue is recognized when control of the promised goods or services is transferred to the customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. We determine revenue recognition through the following steps:

- identification of the contract, or contracts, with a customer;
- identification of the performance obligations in the contract;
- determination of the transaction price, including the constraint on variable consideration;
- allocation of the transaction price to the performance obligations in the contract; and
- recognition of revenue when (or as) we satisfy a performance obligation.

The following is a description of the accounting policy for our principal revenue streams.

Online advertising services

Online advertising revenue is derived principally from advertising contracts with customers, which allow advertisers to place advertisements on agreed areas of our platform in different formats and over a particular period of time. We display advertisement provided by customers in a variety of forms such as full screen display, banners, and pop-ups. We also help produce advertisements based on the customers' requests, and post the advertisements on our platform to help promote customers' products and enhance their brand awareness. We have developed capabilities in generating and distributing our own and third-party high-quality content on our self-operated platforms. There is no third-party content for fulfilling a promise to the customers for the years ended December 31, 2017 and 2018.

We generate our online advertising service revenue primarily (i) at a fixed fee per each day's advertisement display, which is known as the Cost Per Day ("CPD") model, and (ii) at a fixed fee per each advertisement posted on our platform, which we refer as the cost-per-advertisement model. We recognize revenue for the amount of fees we receive from our advertisers, after deducting discounts and net of value-added tax ("VAT") under ASC 606.

Our online advertising contracts with customers may include multiple performance obligations. For such arrangements, we allocate revenues to each performance obligation based on its relative standalone selling price. We generally determine standalone selling prices of each distinct performance obligation based on the prices charged to customers when sold on a standalone basis.

Under the CPD model, a contract is signed to establish a fixed price for the advertising services to be provided over a period of time. Given the advertisers benefit from the advertising evenly, we recognize revenue on a straight-line basis over the period of display, provided all revenue recognition

criteria have been met. Under the cost-per-advertisement model, as all the economic benefit enjoyed by the customer can be substantially realized at the time the advertisements are posted initially, we recognize revenue at a point in time when we post the advertisements initially.

Enterprise value-added services

The principal enterprise value-added services we provide to customers are set out as follows:

a) Integrated marketing

We help our customers develop tailored and diverse marketing strategies to improve their marketing efficiency. Integrated marketing services include providing marketing plan, marketing event organization and execution, and public relations, etc.

b) Offline events

We organize diverse events, such as summits, forums, industry conferences and fan festivals to create brand-building opportunities and to facilitate business cooperation and investment opportunities.

Our customer who then becomes a sponsor of such events may participate as a speaker, place advertisements at offline events and on our online platform during the course of events.

c) Consulting

We provide consulting services to customers to help them seek new business opportunities and partners by leveraging our extensive network of New Economy participants.

In certain circumstances, we engage third-party suppliers to perform part of the aforementioned services in fulfilling our contract obligation. In these cases, we control and take responsibilities for such services before the services are transferred to the customer. We have the right to direct the suppliers to perform the service and control the goods or assets transferred to our customers. In addition, we combine and integrate the separate services provided by the suppliers into the specified marketing or business consulting solutions to our customers. Thus, we consider we should recognize revenue as a principal in the gross amount of consideration to which we are entitled in exchange for the specified services transferred.

Although a bundle of services are provided to the customers in each of the three services mentioned above, our overall commitment in such contract arrangement is to transfer a combined item at a fixed fee, which is an integrated marketing or business consulting solution, to which the individual services are inputs. The integrated services are customized for the customers, and they are interdependent and interrelated. Therefore, we combine such bundle of services in the contracts into a single performance obligation. Most of the offline events are completed within several days, and most of the contracts of integrated marketing solution and business consulting are completed within one year. The revenues are recognized ratably over the duration of such events and activities.

In addition to the traditional marketing services above, we provide interactive marketing services through interactive marketing dispensers equipped with large display screen, sensors and speakers. We usually use the machines to provide promotion services to new products. Revenue is recognized when these services are rendered and determined based on the customer's number of items dispensed or at a fixed contract price in a period of time.

Subscription services

a) Institutional investor and enterprise subscription services

We offer institutional investor and enterprise subscription services, a service package to institutional investors and to New Economy companies, which consists of creating their yellow pages on our platform, publishing articles about them on our platform, priority access to our offline activities, etc., and for enterprise subscribers we also offer online courses and one-on-one consulting. We offer such subscription benefits for a fixed period subscription fee.

Both the institutional investor and enterprise subscription services involve multiple performance obligations. We allocate revenues to each performance obligation based on its relative standalone selling price. We generally determine standalone selling prices of each distinct performance obligation based on the prices charged to customers when sold on a standalone basis. Where standalone selling price is not directly observable, the best estimate of the stand-alone selling price is taken into consideration of the pricing of advertisements or enterprise value-added services of us with similar characteristics and advertisements or services with similar formats and quoted prices from competitors and other market conditions. Most of such contracts have all performance obligations completed within one year. The revenue has been recognized over the period when such services are delivered or when the services are rendered based on the transaction price allocated to each performance obligation.

b) Individual subscription services

We provide paid columns, online courses and offline trainings to our individual subscribers. Revenues from paid columns and online courses are derived from providing fee-based online content to individuals on our platform. The revenues generated from paid columns and online courses are recognized evenly over the economic period that individual subscribers can benefit, which is usually less than one year.

We also provide two forms of offline training services. One is organized by ourselves, and we are responsible for delivering the training to the individual subscribers and have primary responsibility and broad discretion to establish price. Therefore, we are considered the primary obligor in these transactions and recognize the revenues at a gross basis. The other form of offline training services provided by us is to help recruit the trainees and coordinate the training activities instructed by the training organizer and sponsor. The revenue is recognized over the service period on a net basis as we consider ourselves as an agent in such arrangement.

Allowance for Doubtful Accounts

We maintain an allowance for doubtful accounts which reflects our best estimate of amounts that potentially will not be collected. We determine the allowance for doubtful accounts based on factors such as historical experience, credit-worthiness and age of receivable balances. If the financial condition of the customers were to deteriorate and result in an impairment of their ability to make payments, or if the customers decide not to pay us, additional allowances may be required which could materially impact our financial condition and results of operations. In 2017, 2018 and for the six months ended June 30, 2018, allowance for doubtful accounts charged to our consolidated statements of comprehensive income were 0, RMB2.6 million (US\$0.4 million) and RMB0.1 million, respectively. For the six months ended June 30, 2019, allowance for doubtful accounts credited to our consolidated statements of comprehensive loss was RMB0.8 million (US\$0.1 million).

Share-based Compensation Expense and Valuation of Underlying Equity

All share-based awards granted to employees are restricted share units, which are measured at fair value on grant date. Share-based compensation expense is recognized using the straight-line method, over the requisite service period, which is the vesting period.

In determining the grant date fair value of our ordinary shares for purposes of recording share-based compensation in connection with the restricted share units, we, with the assistance of an independent valuation firm, evaluated the use of income approach to estimate the enterprise value of our company and income approach (discounted cash flow, or DCF method) was relied on for value determination.

The following table sets forth the fair value of our ordinary shares estimated at the grant date of share-based awards.

<u>Date of Valuation</u>	<u>Fair Value Per Share (RMB)</u>	<u>DLOM</u>	<u>Discount Rate</u>
June 19, 2017	0.47	30%	27%

The determination of the fair value of our ordinary shares requires complex and subjective judgments to be made regarding our projected financial and operating results, our unique business risks, the liquidity of our shares and our operating history and prospects at the time of valuation.

The major assumptions used in calculating the fair value of ordinary shares include:

- Weighted average cost of capital, or WACC: The WACCs were determined based on a consideration of the factors including risk-free rate, comparative industry risk, equity risk premium, company size and non-systematic risk factors.
- Discount for lack of marketability, or DLOM: DLOM was quantified by the Finnerty's Average-Strike put options mode. Under this option pricing method, which assumed that the put option is struck at the average price of the stock before the privately held shares can be sold, the cost of the put option was considered as a basis to determine the DLOM.

The income approach involves applying appropriate WACCs to estimated cash flows that are based on earnings forecasts. Our revenues and earnings growth rates, as well as major milestones that we have achieved, contributed to the increase in the fair value of our ordinary shares from 2016 to 2017. However, these fair values are inherently uncertain and highly subjective. The assumptions used in deriving the fair values are consistent with our business plan. These assumptions include: no material changes in the existing political, legal and economic conditions in China; our ability to retain competent management, key personnel and staff to support our ongoing operations; and no material deviation in market conditions from economic forecasts. These assumptions are inherently uncertain. The risk associated with achieving our forecasts were assessed in selecting the appropriate WACCs, which were 27%.

The option-pricing method was used to allocate equity value to preferred and ordinary shares. This method involves making estimates of the anticipated timing of a potential liquidity event, such as a sale of our company, a redemption event or an initial public offering, and estimates of the volatility of our equity securities. The anticipated timing is based on the plans of our board of directors and management.

Notwithstanding the fluctuations of our quarterly results of operations as discussed below, we have experienced rapid revenue growth in the last nine quarters. Our quarterly revenues were primarily generated from our online advertising services and enterprise value-added services. The increase in revenues generated from online advertising services was mainly attributable to the increased number of

our online advertising services end customers and increased average revenue per online advertising services end customer. The increase in revenues generated from enterprise value-added services was mainly attributable to the increased number of our enterprise value-added services end customers and increased average revenue per enterprise value-added services end customer.

We experience seasonality in our business, primarily our online advertising services. We have experienced lower online advertising services revenues in the first quarter of each year as companies tend to limit their advertising and marketing spending during Chinese New Year holiday season. We have achieved higher online advertising services revenues in the fourth quarter of each year as companies generally increase advertising and marketing spending near the end of each calendar year. Moreover, as most of our offline events are hosted in the fourth quarter of each year, we also experience an increase in enterprise value-added services revenues during that period. See also "Risk Factors—Risks Related to Our Business and Industry—Our quarterly operating results may fluctuate, which makes our results of operations difficult to predict and may cause our quarterly results of operations to fall short of expectations."

In line with our revenues, our quarterly operating expenses also experience similar seasonal fluctuations. Despite the seasonal fluctuations, our quarterly operating expenses generally increased in absolute amounts during in the last eight quarters, which was in line with our revenue growth and business expansion. Meanwhile, our operating expenses as a percentage of our revenues generally decreased on a year over year basis, primarily as a result of economies of scale and continuous improvement of operating efficiency.

Non-GAAP Financial Measures

In evaluating our business, we consider and use two non-GAAP measures, adjusted net income/(loss) and adjusted EBITDA, as supplemental measures to review and assess our operating performance. The presentation of these two non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. We define adjusted net income/(loss) as net income/(loss) excluding share-based compensation. We define adjusted EBITDA as adjusted net income/(loss) before interest income, interest expenses, income tax expense/(credit), depreciation of property and equipment and amortization of intangible assets. We present these non-GAAP financial measures because they are used by our management to evaluate our operating performance and formulate business plans. We also believe that the use of these non-GAAP measures facilitate investors' assessment of our operating performance.

These non-GAAP financial measures are not defined under U.S. GAAP and are not presented in accordance with U.S. GAAP. These non-GAAP financial measures have limitations as analytical tools. One of the key limitations of using these non-GAAP financial measures is that they do not reflect all items of income and expense that affect our operations. Further, these non-GAAP measures may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.

We compensate for these limitations by reconciling these non-GAAP financial measures to the nearest U.S. GAAP performance measure, all of which should be considered when evaluating our performance. We encourage you to review our financial information in its entirety and not rely on a single financial measure.

The following table reconciles our adjusted net income/(loss) and adjusted EBITDA in 2017, 2018 and the six months ended June 30, 2018 and 2019 to the most directly comparable financial measure calculated and presented in accordance with U.S. GAAP, which is net income/(loss):

Liquidity and Capital Resources

Cash flows and working capital

Our principal sources of liquidity have been cash generated from historical equity financing activities. As of June 30, 2019, we had RMB26.2 million (US\$3.8 million) in cash and cash equivalents. Our cash and cash equivalents consist of cash on hand and demand deposits or other highly liquid investments placed with banks or other financial institutions which are unrestricted as to withdrawal and use and have original maturities of less than three months. Our cash and cash equivalents are primarily denominated in Renminbi, U.S. dollars and Singapore dollars, including (i) RMB23.4 million (US\$3.4 million) denominated in Renminbi and held in the PRC by our VIE and its subsidiaries, (ii) RMB2.3 million (US\$0.3 million) denominated in U.S. dollar and held in Singapore by KrAsia and (iii) RMB0.5 million (US\$0.1 million) denominated in Singapore dollar and held in Singapore by KrAsia. As of June 30, 2019, we had RMB78.0 million (US\$11.4 million) in short-term investments, all of which were denominated in Renminbi and held in the PRC by our VIE and its subsidiaries. We believe that our current cash and anticipated cash flow from operations will be sufficient to meet our anticipated cash needs, including our cash needs for working capital and capital expenditures, for at least the next 12 months.

Our accounts receivable, net increased by 190.2% from RMB62.8 million as of December 31, 2017 to RMB182.3 million (US\$26.6 million) as of December 31, 2018, and further increased by 48.6% to RMB270.9 million (US\$39.5 million) as of June 30, 2019, which was generally in line with our revenue growth. We experience seasonality in our online advertising services and enterprise value-added services, such that we generate more revenues during the fourth quarter of each year. Therefore we generally record larger amounts of account receivables at calendar year-ends. We generally provide credit terms ranging from 90 to 180 days to our customers. We have been increasingly focused on the collection of accounts receivable.

We intend to finance our future working capital requirements and capital expenditures from cash generated from operating activities and funds raised from financing activities, including the net proceeds we will receive from this offering. We may, however, require additional cash due to changing business conditions or other future developments, including any investments or acquisitions we may

decide to pursue. If our existing cash is insufficient to meet our requirements, we may seek to issue debt or equity securities or obtain additional credit facilities. Financing may be unavailable in the amounts we need or on terms acceptable to us, if at all. Issuance of additional equity securities or equity-linked securities, including convertible debt securities, would dilute our earnings per share. The incurrence of debt would divert cash for working capital and capital expenditures to service debt obligations and could result in operating and financial covenants that restrict our operations and our ability to pay dividends to our shareholders. If we are unable to obtain additional equity or debt financing as required, our business operations and prospects may suffer.

As a holding company with no material operations of our own, we conduct our operations primarily through our PRC subsidiaries and consolidated VIE in China. We are permitted under PRC laws and regulations to provide funding to our PRC subsidiaries in China through capital contributions or loans, subject to the approval of government authorities and limits on the amount of capital contributions and loans. See "Risk Factors—Risks Related to Doing Business in China—PRC regulation of loans to, and direct investment in, PRC entities by offshore holding companies and governmental control of currency conversion may restrict or prevent us from using the proceeds of this offering to make loans to our PRC subsidiary and our VIE, or to make additional capital contributions to our PRC subsidiary" and "Use of Proceeds." The ability of our subsidiaries in China to make dividends or other cash payments to us is subject to various restrictions under PRC laws and regulations. See Risk Factors—Risks Related to Doing Business in China—We may rely to a significant extent on dividends and other distributions on equity paid by our principal operating subsidiaries to fund offshore cash and financing requirements. Any limitation on the ability of our operating subsidiaries to make payments to us could have a material and adverse impact on our ability to operate our business." and "Risk Factors—Risks Related to Doing Business in China—PRC regulations relating to investments in offshore companies by PRC residents may subject our PRC-resident beneficial owners or our PRC subsidiaries to liability or penalties, limit our ability to inject capital into our PRC subsidiaries or limit our PRC subsidiaries' ability to increase their registered capital or distribute profits.

The difference between our net cash used in operating activities and our net loss of RMB45.5 million (US\$6.6 million) was mainly due to (i) an increase of RMB87.8 million (US\$12.8 million) in our accounts receivable primarily as a result of our business growth, and (ii) an increase of RMB12.4 million (US\$1.8 million) in our prepayments and other current assets, partially offset by an increase of RMB30.8 million (US\$4.5 million) in our accounts payable primarily as a result of our business growth.

In 2018, the difference between our net cash used in operating activities and our net income of RMB40.5 million (US\$5.9 million) was mainly due to an increase of RMB121.5 million (US\$17.7 million) in our accounts receivable primarily as a result of our business growth.

Net cash used in operating activities was RMB11.4 million in 2017. In 2017, the difference between our net cash used in operating activities and our net income of RMB7.9 million was mainly due to an increase of RMB60.8 million in our accounts receivable primarily as a result of our business growth.

Financing activities

Net cash provided by financing activities was RMB5.8 million (US\$0.9 million) for the six months ended June 30, 2019, representing capital injection from non-controlling shareholders.

Net cash provided by financing activities was RMB163.0 million in 2017, and was mainly attributable to the proceeds from issuance of Series C-1 preferred shares to our shareholders which amounted to RMB152.0 million, and the capital injection from shareholders, which amounted to RMB10.0 million.

Our capital expenditures are incurred primarily in connection with purchases of equipment and intangible assets, and leasehold improvements. Our capital expenditures were RMB0.4 million, RMB16.7 million (US\$2.4 million), RMB4.0 million, and RMB2.5 million (US\$0.4 million), in 2017 and 2018 and for the six months ended June 30, 2018 and 2019, respectively. We intend to fund our future

capital expenditures with our existing cash balance and proceeds from this offering. We will continue to make capital expenditures to meet the expected growth of our business.

Contractual Obligations

The following table sets forth our contractual obligations as of June 30, 2019:

	Payment due by period				Total
	Less than 1 year	1 - 3 years	3 - 5 years	More than 5 years	
Operating lease commitment ⁽¹⁾	6,850	28,261	14,560	0	49,671

(in RMB thousands)

Notes:

- (1) Operating lease commitment represents minimum payments under non-cancelable operating leases related to offices. Payments made under operating leases are charged to the consolidated statements of comprehensive income on a straight-line basis over the lease periods.

Holding Company Structure

36Kr Holdings Inc. is a holding company with no material operations of its own. We conduct our operations primarily through our PRC subsidiaries and VIE and its subsidiaries. As a result, our ability to pay dividends depends upon dividends paid by our subsidiaries. If our subsidiaries or any newly formed subsidiaries incur debt on their own behalf in the future, the instruments governing their debt may restrict their ability to pay dividends to us.

In addition, our subsidiaries in China are permitted to pay dividends to us only out of their retained earnings, if any, as determined in accordance with the Accounting Standards for Business Enterprise as promulgated by the Ministry of Finance of the PRC, or PRC GAAP. In accordance with PRC company laws, our VIE and its subsidiaries in China must make appropriations from their after-tax profit to non-distributable reserve funds including (i) statutory surplus fund and (ii) discretionary surplus fund. The appropriation to the statutory surplus fund must be at least 10% of the after-tax profits calculated in accordance with PRC GAAP. Appropriation is not required if the statutory surplus fund has reached 50% of the registered capital of our VIE. Appropriation to discretionary surplus fund is made at the discretion of our VIE. Pursuant to the law applicable to China's foreign investment enterprise, our subsidiaries that are foreign investment enterprise in the PRC have to make appropriation from their after-tax profit, as determined under PRC GAAP, to reserve funds including (i) general reserve fund, (ii) enterprise expansion fund and (iii) staff bonus and welfare fund. The appropriation to the general reserve fund must be at least 10% of the after-tax profits calculated in accordance with PRC GAAP. Appropriation is not required if the reserve fund has reached 50% of the registered capital of our subsidiary. Appropriations to the other two reserve funds are at our subsidiary's discretion.

As an offshore holding company, we are permitted under PRC laws and regulations to provide funding from the proceeds of our offshore fund raising activities to our PRC subsidiaries only through loans or capital contributions, and to our consolidated affiliated entity only through loans, in each case subject to the satisfaction of the applicable government registration and approval requirements. See "Risk Factors—Risks Related to Doing Business in China—PRC regulation of loans to, and direct investment in, PRC entities by offshore holding companies and governmental control of currency conversion may restrict or prevent us from using the proceeds of this offering to make loans to our PRC subsidiary and our VIE, or to make additional capital contributions to our PRC subsidiary." for details. As a result, there is uncertainty with respect to our ability to provide prompt financial support to our PRC subsidiaries and our consolidated VIE when needed. Notwithstanding the foregoing, our PRC subsidiaries and our consolidated VIE may use their own retained earnings (rather than Renminbi

converted from foreign currency denominated capital) to provide financial support to our consolidated affiliated entity either through entrustment loans from our PRC subsidiaries to our VIE or direct loans to such consolidated affiliated entity's nominee shareholders, which would be contributed to the consolidated variable entity as capital injections. Such direct loans to the nominee shareholders would be eliminated in our consolidated financial statements against the consolidated affiliated entity's share capital.

Off-Balance Sheet Commitments and Arrangements

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of any third parties. We have not entered into any derivative contracts that are indexed to our shares and classified as shareholder's equity or that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. We do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or product development services with us.

Quantitative and Qualitative Disclosures about Market Risk

Credit risk

Our credit risk primarily arises from cash and cash equivalents, short-term investments, receivables due from its customers, related parties and other parties. The maximum exposure of such assets to credit risk is the assets' carrying amounts as of the balance sheet dates. We expect that there is no significant credit risk associated with cash and cash equivalents and short term investments which were held by reputable financial institutions in the jurisdictions where we, our subsidiaries, VIE and the subsidiaries of the VIE are located. We believe that we are not exposed to unusual risks as these financial institutions have high credit quality.

We believe that there is no significant credit risk associated with amounts due from related parties. Receivables due from customers are typically unsecured in the PRC and the credit risk with respect to which is mitigated by credit evaluations we perform on our customers and our ongoing monitoring process of outstanding balances.

Foreign currency exchange rate risk

Our operating transactions are mainly denominated in RMB, which is not freely convertible into foreign currencies. The value of the RMB is subject to changes by the central government policies and to international economic and political development. In the PRC, certain foreign exchange transactions are required by law to be transacted only by authorized financial institutions at exchange rates set by the PBOC. Remittances in currencies other than RMB by us in China must be processed through PBOC or other China foreign exchange regulatory bodies which require certain supporting documentation in order to effect the remittance.

To date, we have not entered into any hedging transactions in an effort to reduce our exposure to foreign currency exchange risk.

We estimate that we will receive net proceeds of approximately US\$ million from this offering, after deducting underwriting discounts and commissions and the estimated offering expenses payable by us, based on the initial offering price of US\$ per ADS. Assuming that we convert the full amount of the net proceeds from this offering into RMB, a 10% appreciation of the U.S. dollar against RMB, from a rate of RMB6.8650 to US\$1.00, the rate in effect as of June 28, 2019, to a rate of RMB to US\$1.00, will result in an increase of RMB million in our net proceeds from

this offering. Conversely, a 10% depreciation of the U.S. dollar against the RMB, from a rate of RMB6.8650 to US\$1.00, the rate in effect as of June 28, 2019, to a rate of RMB to US\$1.00, will result in a decrease of RMB million in our net proceeds from this offering.

Inflation risk

Since our inception, inflation in China has not materially impacted our results of operations. According to the National Bureau of Statistics of China, the year-over-year percent changes in the consumer price index for December 2017 and 2018 were increases of 1.8% and 1.9%, respectively. Although we have not in the past been materially affected by inflation since our inception, we can provide no assurance that we will not be affected in the future by higher rates of inflation in China.

According to the CIC Report, the scale of New Economy in China, as measured by GDP, grew from approximately US\$0.6 trillion in 2014 to approximately US\$2.0 trillion in 2018, representing a CAGR of approximately 34.8%, which is more than five times faster than the economic growth of China during the same period. Meanwhile, the GDP for China's New Economy is expected to grow at a CAGR of approximately 23.3% from 2018 to reach US\$5.7 trillion in 2023, and the GDP for New Economy as a percentage of the overall GDP is expected to increase from 16.1% in 2018 to 33.5% in 2023.

Major Growth Drivers of China's New Economy

Participants in China's New Economy

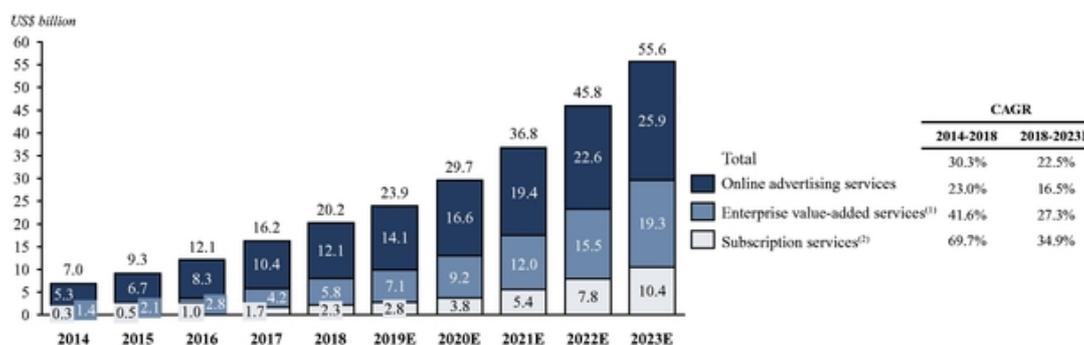

The flourishing New Economy in China has brought tremendous opportunities to New Economy companies, traditional companies being transformed by cutting-edge technology and innovative business models, institutional investors and individuals involved in New Economy. In particular, New Economy companies have grown rapidly in size and number. According to the CIC Report, the number of New Economy companies in China grew from approximately 39.4 thousand as of December 31, 2014 to approximately 95.7 thousand as of December 31, 2018, and the total valuation of all New Economy companies increased at a robust CAGR of approximately 30.3% from US\$1.4 trillion as of December 31, 2014 to US\$4.1 trillion as of December 31, 2018. According to the CIC Report, China is among the countries with the largest number of startup companies with a valuation of over US\$1 billion, or unicorns, in the world. As of December 31, 2018, China is home to 164 unicorns, increased significantly from 16 unicorns in 2014. These unicorns are redefining existing industries as well as creating new industries in the New Economy market.

The booming growth of New Economy in China has attracted strong capital investment. Pursuant to the framework agreement, we offer the advertising agency a discount on the listing prices of our online advertising services and we require its payment be made within three months after the delivery of our services.

The customers of our online advertising services include both New Economy companies and traditional companies. In 2017 and 2018, we provided online advertising services to 187 and 320 customers, respectively.

Competition

We operate in the New Economy-focused business services market in China. We believe we are one of the few companies capable of providing a full suite of New Economy-focused business services, but we face competition from other New Economy-focused business services providers in the respective market segments we operate in.

Specifically, our online advertising services face competition from other content-based online advertising services providers as well as technology verticals of major Internet information portals, such as Sina and Tencent News. For our enterprise value-added services, we face competition from other New Economy-focused enterprise value-added services providers as well as traditional marketing, consulting and public relations companies. We also compete with paid content services providers with respect to our subscription services.

Our ability to compete successfully depends on many factors, including the quality and coverage of our content, our industry expertise, brand recognition, user and customer experience, big data and technological capabilities. We believe we are well-positioned to effectively compete against our competitors and capture market opportunities. However, our competitors may have broader content and service offerings, greater brand recognition, more capital and larger user and customer base. For discussion of risks related to our competitor, see "Risk Factors—Risks Related to Our Business and Industry—We face competition in major aspects of our business. If we are unable to compete effectively in the industry we operate, our business, results of operations and financial condition may be materially and adversely affected."

Technology

We continuously upgrade our technology to deliver superior user experience and enhance our operational efficiency.

Corporate Database

Through our strategic partnership with JingData, a leading primary market financial data service provider in China and our related party, we collectively contribute to and manage a massive database of over 800,000 enterprises. This massive database covers corporate information, operating data, financial performance, financing activities and industry updates. Through this database, we have gained valuable insights into the latest development and trends of the New Economy sector, which contribute to our content creation and service offerings.

AI and big data analytics

Through data analysis, we study and analyze the preferences and demands of our users and customers, and tailor our content and service offerings accordingly. For example, we analyze user preferences gathered through our platform to personalize content recommendations. We have adopted AI technology in content screening, such as AI automated review, to expedite the publishing process and enhance efficiency.

As of June 30, 2019, we had 64 employees dedicated to research and development. Our research and development team primarily consists of senior software engineers and IT infrastructure architects.

Data Security and Privacy

We believe data security is critical to our business operation. All our users consent to our collection, use and disclosure of their data in compliance with applicable laws and regulations. To protect users' information, we have internal policies governing how we may use and share personal information, and protocols, technologies and systems guarding against improper access or disclosure of

personal information. See "Risk Factors—Risks Related to Our Business and Industry—If our security measures are breached, or if our services are subject to attacks that degrade or deny the ability of users to access our services, our services may be perceived as not being secure, users may curtail or stop using our services and our business, results of operations and financial condition may be harmed."

We limit access to our servers that store our user information and internal data on a "need-to-know" basis. We have also adopted a data encryption system to ensure secure storage and transmission of data, and prevent any unauthorized access and use of our data. Furthermore, we have implemented comprehensive data masking to fend off potential security attacks.

Intellectual Property

Our intellectual property includes trademarks and trademark applications related to our brands and services, software copyrights, trade secrets and other intellectual property rights and licenses. We seek to protect our intellectual property assets and brands through a combination of trademark, patent, copyright and trade secret protection laws in the PRC and other jurisdictions, as well as through confidentiality agreements and other measures.

We hold "36Kr" and "36 氪" trademarks in China. In addition, we hold 205 registered trademarks and 17 registered software copyrights in China as of the date of this prospectus. We have 12 registered domain names as of the date of this prospectus, including our website domain name, 36kr.com.

Employees

As of December 31, 2017 and 2018 and June 30, 2019, we had a total of 194, 411 and 478 employees, respectively. Substantially all of our employees are located in China. The following table sets forth the breakdown of our full-time employees as of June 30, 2019 by function:

<u>Function/Department</u>	<u>Number of Employees</u>	<u>% of Total</u>
Content and operations	141	29.5
Sales and marketing	217	45.4
Research and development	64	13.4
General and administration	56	11.7
Total	478	100.0

We enter into standard labor contracts with our employees, and additionally, we enter into confidentiality and non-compete agreements with our key employees. In addition to salaries and benefits, we provide commission-based compensation to our sales and marketing force and performance-based bonuses to other full-time employees.

Under PRC law, we participate in various employee social security plans that are organized by municipal and provincial governments for our PRC-based full-time employees, including pension, unemployment insurance, work-related injury insurance, medical insurance and housing insurance. We are required under PRC law to make contributions from time to time to employee benefit plans for our PRC-based full-time employees at specified percentages of the salaries, bonuses and certain allowances of such employees, up to a maximum amount specified by the local governments in China. See "Risk Factors—Risks Related to Our Business and Industry—The enforcement of the PRC Labor Contract Law and other labor-related regulations in the PRC may adversely affect our business and results of operations."

We believe we offer our employees competitive compensation packages and a merit-based work environment that encourages initiatives. We believe our brand reputation, corporate culture and selection and training system also contribute to attracting and retaining our employees. As a result, we

are generally able to attract and retain qualified personnel and maintain a stable core management team.

We maintain a good working relationship with our employees, and as of the date of this prospectus, we have not experienced any material labor disputes. None of our employees are represented by labor unions.

Facilities and Property

As of June 30, 2019, we leased office spaces in China with an aggregate gross floor area of approximately 3,599.0 square meters.

Insurance

We provide social security insurance including medical insurance, maternity insurance, workplace injury insurance, unemployment insurance and pension benefits for our employees. Consistent with customary industry practice in China, we do not maintain business interruption insurance, nor do we maintain key-man life insurance.

Legal Proceedings

We are currently not a party to any material legal or administrative proceedings. We may from time to time be subject to various legal or administrative claims and proceedings arising in the ordinary course of business. Litigation or any other legal or administrative proceeding, regardless of the outcome, may result in substantial cost and diversion of our resources, including our management's time and attention.

REGULATION

This section sets forth a summary of the most significant rules and regulations that affect our business activities in China.

Foreign Investment Law

The Foreign Investment Law was formally adopted by the 2nd session of the thirteenth National People's Congress on March 15, 2019, which will come into effect on January 1, 2020 and replace the trio of existing laws regulating foreign investment in China, namely, the Sino-foreign Equity Joint Venture Enterprise Law, the Sino-foreign Cooperative Joint Venture Enterprise Law and the Wholly Foreign-invested Enterprise Law, together with their implementation rules and ancillary regulations. The organization form, organization and activities of foreign-invested enterprises shall be governed, among others, by the PRC Company Law and the PRC Partnership Enterprise Law. Foreign-invested enterprises established before the implementation of this Law may retain the original business organization and so on within five years after the implementation of this Law.

According to the Foreign Investment Law, foreign investments are entitled to pre-entry national treatment and are subject to negative list management system. The pre-entry national treatment means that the treatment given to foreign investors and their investments at the stage of investment access is not lower than that of domestic investors and their investments. The negative list management system means that the state implements special administrative measures for access of foreign investment in specific fields. Foreign investors shall not invest in any forbidden fields stipulated in the negative list and shall meet the conditions stipulated in the negative list before investing in any restricted fields. Foreign investors' investment, earnings and other legitimate rights and interests within the territory of China shall be protected in accordance with the law, and all national policies on supporting the development of enterprises shall equally apply to foreign-invested enterprises.

Investment activities in the PRC by foreign investors are principally governed by the Guidance Catalogue of Industries for Foreign Investment, or the Catalogue, which was promulgated and is amended from time to time by the Ministry of Commerce (the "MOFCOM") and the NDRC. Industries listed in the Catalogue are divided into three categories: encouraged, restricted and prohibited. Industries not listed in the Catalogue are generally deemed as constituting a fourth "permitted" category. On June 30, 2019, the NDRC and the MOFCOM promulgated the Special Administrative Measures for Access of Foreign Investment (the "Negative List 2019"), which came into effect on July 30, 2019 and replaced the previous Foreign Investment Catalogue or negative list. Our business like value-added telecommunications services, internet news services, internet audio-visual program services and internet publishing services are under special administrative measures in the Negative List 2019.

Regulations on Value-added Telecommunication Services

Among all of the applicable laws and regulations, the *Telecommunications Regulations of the People's Republic of China* (the "*Telecom Regulations*") promulgated by the PRC State Council on September 25, 2000 and last amended on February 6, 2016, is the primary governing law, and sets out the general framework for the provision of telecommunications services by domestic PRC companies. Under the Telecom Regulations, telecommunications services providers are required to procure operating licenses prior to their commencement of operations. The *Telecom Regulations* distinguish "basic telecommunications services" from value-added telecommunication services (the "VATS"). VATS are defined as telecommunications and information services provided through public networks. The *Catalogue of Telecommunications Business (the "Telecom Catalogue")* was issued as an attachment to the Telecom Regulations to categorize telecommunications services as either basic or value-added. In

February 2003 and December 2015, the *Telecom Catalogue* was updated respectively, categorizing online data and transaction processing, information services, among others, as VATS.

Foreign direct investment in telecommunications companies in China is governed by the Provisions on the Administration of Foreign-Invested Telecommunications Enterprises, or the FITE Regulations, which were issued by the State Council on December 11, 2001, became effective on January 1, 2002 and last amended on February 6, 2016. Under the aforesaid regulations, foreign-invested telecommunications enterprises in the PRC, or FITEs, must be established as Sino-foreign equity joint ventures, and the geographical area it may conduct telecommunications services is provided by the MIIT accordingly. The foreign party to a FITE engaging in value-added telecommunications services may hold up to 50% of the equity of the FITE. In addition, the major foreign investor in a value-added telecommunications business in China must satisfy a number of stringent performance and operational experience requirements, including demonstrating a good track record and experience in operating a value-added telecommunications business. Moreover, approvals from the MIIT and the MOFCOM or their authorized local counterparts must be obtained prior to the operation of the FITE and the MIIT and the MOFCOM retain considerable discretion in granting such approvals.

In September 2000, the State Council promulgated the *Administrative Measures on Internet Information Services* (the "Internet Measures"), most recently amended on January 8, 2011. Under the Internet Measures, commercial Internet content-related services operators shall obtain a VATS License for Internet content provision business, or the ICP License, from the relevant government authorities before engaging in any commercial Internet content-related services operations within China.

The *Administrative Measures on Telecommunications Business Operating Licenses* or the *Licenses Measures*, issued on March 1, 2009 and most recently amended on July 3, 2017, which set forth more specific provisions regarding the types of licenses required to operate VATS, the qualifications and procedures for obtaining such licenses and the administration and supervision of such licenses. Under these regulations, a commercial operator of VATS must first obtain a VATS License, from the Ministry of Industry and Information Technology (the "MIIT") or its provincial level counterparts, otherwise such operator might be subject to sanctions including corrective orders and warnings from the competent administration authority, fines and confiscation of illegal gains and, in the case of significant infringements, the related websites may be ordered to close.

Under the Licenses Measures, where telecommunications operators change the name, legal representative or registered capital within the validity period of their operating licenses, they shall file an application for update of the operating license to the original issuing authority within 30 days after completing the administration for industry and commerce. Those fail to comply with the procedure may be ordered to make rectifications, issued a warning or imposed a fine of RMB 5,000 to RMB 30,000 by the relevant telecommunications administrations.

We engage in business activities that are value-added telecommunications services as defined in the Telecom Regulations and the Catalog. To comply with the relevant laws and regulations, Beijing Pinxin Media Culture Co., Ltd, has obtained the ICP License, which will remain effective until March 13, 2020. As Beijing Pinxin has changed its name, registered capital and shareholders within the validity period of its ICP license, we are required and have applied for the update of the ICP license. However, there can be no assurance that we will timely complete the update. See "Risk Factors—Risks Related to Our Business and Industry—If we fail to complete the update procedures of or maintain the value-added telecommunication license, our business, financial condition and results of operations may be materially and adversely affected."

Regulation of Internet Information Services

The *Administrative Measures on Internet Information Services*, or the Internet Content Measures, which were promulgated by the State Council on September 25, 2000 and amended on January 8, 2011,

set out guidelines on the provision of Internet information services. The Internet Content Measures specify that Internet information services regarding news, publications, education, medical and health care, pharmacy and medical appliances, among other things, are required to be examined, approved and regulated by the relevant authorities. Internet information providers are prohibited from providing services beyond those included in the scope of their licenses or filings. Furthermore, the Internet Content Measures specify a list of prohibited content. Internet information providers are prohibited from producing, copying, publishing or distributing information that is humiliating or defamatory to others or that infringes the legal rights of others. Internet information providers that violate such prohibition may face criminal charges or administrative sanctions. Internet information providers must monitor and control the information posted on their websites. If any prohibited content is found, they must remove the content immediately, keep a record of such content and report to the relevant authorities.

The Internet Content Measures classify Internet information services into commercial Internet information services and non-commercial Internet information services. Commercial Internet information services refer to services that provide information or services to Internet users with charge. A provider of commercial Internet information services must obtain an ICP License.

Regulation on Internet News Services

Pursuant to the *Provisions for the Administration of Internet News Information Services* promulgated by the Cyberspace Administration of China, or CAC, which was issued on May 2, 2017 and became effective on June 1, 2017, an Internet news license shall be obtained from CAC by the service provider for the provision of internet news information services to the public in a variety of ways, including offering platforms for such dissemination. "News information" as mentioned therein includes reports and comments relating to social and public affairs such as politics, economy, military affairs and foreign affairs, as well as relevant reports and comments on social emergencies. The services providers shall meet various qualifications and requirements as listed in such regulation, and further, to provide Internet-based news information services, the services providers are also required to complete formalities for ICP License or filing with the competent telecommunications authorities in accordance with the law. In practice, Internet news information services providers that are not state-owned are required to introduce a state-owned shareholder in order to apply for the Internet news license.

In addition to the above, such regulation also stipulates that no organization may establish Internet-based news information service agencies in the form of Sino-foreign joint ventures, Sino-foreign cooperative ventures or wholly foreign-owned enterprises. Any cooperation involving Internet-based news information services and between Internet-based news information service agencies and foreign-invested enterprises shall be reported to the national CAC for security assessment.

We plan to apply for the Internet news information license from the CAC through our VIE when it is feasible to do so. However, there can be no assurance that our application will be accepted or approved by the CAC. See "Risk Factors—Risks Related to Our Business and Industry—Lack of Internet news information license may expose us to administrative sanctions, which would materially and adversely affect our business, results of operations and financial condition."

Regulations on Internet Audio-visual Program Services

On December 20, 2007, MIIT and SARFT jointly issued the *Administrative Provisions for the Internet Audio-visual Program Service*, or the *Audio-video Program Provisions 2015*, which came into effect on January 31, 2008 and was amended on August 28, 2015. The *Audio-video Program Provisions* defines "Internet audio-visual program services" as producing, editing and integrating of audio-video programs, supplying audio-video programs to the public via the Internet, and providing audio-video programs uploading and transmission services to a third party. Entities providing Internet audio-visual

programs services must obtain an Internet audio-visual program transmission license. Applicants for such licenses shall be state-owned or state-controlled entities unless an Internet audio-visual program transmission license has been obtained prior to the effectiveness of the *Audio-video Program Provisions 2015* in accordance with the then-in-effect laws and regulations. In addition, foreign-invested enterprises are not allowed to engage in the above-mentioned services.

According to the *Audio-video Program Provisions 2015* and other relevant laws and regulations, audio-video programs provided by the entities supplying Internet audio-visual program services shall not contain any illegal content or other content prohibited by the laws and regulations, such as any content against the basic principles in the *PRC Constitution*, any content that damages the sovereignty of the country or national security, and any content that disturbs social order or undermine social stability. An audio-video program that has already been broadcast shall be retained in full for at least 60 days. Movies, television programs and other media content used as Internet audio-visual programs shall comply with relevant administrative regulations on programs broadcasts through radio, movie and television channels. Entities providing services related to Internet audio-visual programs shall immediately delete the audio-video programs violating laws and regulations, keep relevant records, report relevant authorities and implement other regulatory requirements.

The *Classified Categories of the Internet Audio-visual Program Services(for Trial Implementation)*, or the *Audio-video Program Categories*, promulgated by the SAPPRT on March 10, 2017, classifies Internet audio/video program services into detailed categories.

On October 31, 2018, the National Radio and Television Administration (the "NRTA") issued the *Notice on Further Strengthening the Management of Radio and Television and Network Audiovisual Programs* ("Notice 60"). According to Notice 60, all radio and television broadcasting institutes, network audiovisual program service institutes and program production institutes shall stick to the right political direction and strengthen value guidance; pursue people-centered creative orientation to curb bad tendencies such as pursuing celebrities, pan-entertainment and so on; persist in providing high-quality content, constantly innovate programs, and strictly control the remuneration of guests.

We are required to obtain an Internet audio-visual program transmission license for the Internet audio-visual program services. See "Risk Factors—Risks Related to Our Business and Industry—Lack of Internet audio-visual program transmission license may expose us to administrative sanctions, which would materially and adversely affect our business, results of operations and financial condition."

Regulations on Online Culture Administration

According to the *Interim Administrative Provisions on Internet Culture*, or the *Internet Culture Provisions*, promulgated by the MOC on February 17, 2011, and amended on December 15, 2017 Internet culture activities include: (i) production, reproduction, import, release or broadcast of Internet culture products (such as online music, online game, online performance and cultural products by certain technical means and copied to the Internet for spreading); (ii) distribution or publication of cultural products on Internet; and (iii) exhibitions, competitions and other similar activities concerning Internet culture products. The Internet Culture Provisions further classifies Internet cultural activities into commercial Internet cultural activities and non-commercial Internet cultural activities. Entities engaging in commercial Internet cultural activities must apply to the relevant authorities for a Network Cultural Business Permit, while non-commercial cultural entities are only required to report to related culture administration authorities within 60 days of the establishment of such entity. If any entity engages in commercial Internet culture activities without approval, the cultural administration authorities or other relevant government may order such entity to cease to operate Internet culture activities as well as levying penalties including administrative warning, fines up to RMB30,000 and listing such entity on the cultural market blacklist to impose credit penalty in case of continued

non-compliance. In addition, foreign-invested enterprises are not allowed to engage in the above-mentioned services except online music.

Based on our understanding of the current PRC laws and regulations as well as inquiry with PRC government, our content and services may not be considered as "online culture product." However, there is uncertainty with respect to the interpretation and application of PRC laws. See "Risk Factors—Risks Related to Our Business and Industry—Lack of online culture operating permit may expose us to administrative sanctions, which would materially and adversely affect our business, results of operations and financial condition."

Regulations on Internet Publishing

On February 4, 2016, the SAPPRFT and MIIT jointly issued the *Rules for the Administration for Internet Publishing Services*, or the *Internet Publishing Rules*, which became effective on March 10, 2016, to replace the *Provisional Rules for the Administration for Internet Publishing* that had been jointly issued by the General Administration of Press and Publication (the "GAPP") and the MII on June 27, 2002. The *Internet Publishing Rules* defines "Internet publications" as digital works that are edited, produced, or processed to be published and provided to the public through the Internet, including (i) original digital works, such as pictures, maps, games, and comics; (ii) digital works with content that is consistent with the type of content that has been published in media such as books, newspapers, periodicals, audio-visual products, and electronic publications; (iii) digital works in the form of online databases compiled by selecting, arranging, and compiling other types of digital works; and (iv) other types of digital works identified by the SAPPRFT. Under the *Internet Publishing Rules*, Internet operators distributing such publications via the Internet are required to apply for an Internet publishing license with the relevant governmental authorities and the approval of SAPPRFT before distributing Internet publications.

We plan to apply for the Internet publishing license through our VIE when it is feasible to do so. However, there can be no assurance that the application will be accepted or approved by the relevant regulatory authorities. See "Risk Factors—Risks Related to Our Business and Industry—Lack of Internet publishing license may expose us to administrative sanctions, which would materially and adversely affect our business, results of operations and financial condition."

Regulations on the Administration of Production and Operation of Radio and Television Program

On July 19, 2004, the SAPPRFT promulgated the *Administrative Measures on the Production and Operation of Radio and Television Programs*, or the *Radio and Television Program Production Measures*, which came into effect on August 20, 2004 and was amended on August 28, 2015. The *Radio and Television Program Production Measures* is applicable for establishing institutions that produce and distribute radio and television programs or for the production of radio and television programs like programs with a special topic, column programs, variety shows, animated cartoons, radio plays and television dramas and for activities like transactions and agency transactions of program copyrights. And it provides that any business that produces or operates radio or television programs must first obtain a Radio and Television Program Production and Operation Permit. Entities holding such permits shall conduct their business within the permitted scope as provided in their permits. In addition, foreign-invested enterprises are not allowed to engage in the above-mentioned services.

If our in-house generated audio and video content are considered as radio and television programs, we will be required to obtain the production and operation of radio and television program license. See "Risk Factors—Lack of production and operation of radio and television programs license may expose us to administrative sanctions, which would materially and adversely affect our business, results of operations and financial condition."

Regulation on Privacy Protection

On December 28, 2012, the Standing Committee of the National People's Congress (the "SCNPC") enacted the *Decision to Enhance the Protection of Network Information*, or the *Information Protection Decision*, to enhance the protection of personal information in electronic form. The *Information Protection Decision* provides that Internet services providers must expressly inform their users of the purpose, manner and scope of the Internet services providers' collection and use of personal information, publish the Internet services providers' standards for their collection and use of User Personal Information, and collect and use personal information only with the consent of the users and only within the scope of such consent. The *Information Protection Decision* also mandates that Internet services providers and their employees must keep strictly confidential personal information that they collect, and that Internet services providers must take such technical and other measures as are necessary to safeguard the information against disclosure.

On July 16, 2013, the MIIT issued the *Order for the Protection of Telecommunication and Internet User Personal Information* (the "Order"). Most of the requirements under the Order that are relevant to Internet services providers are consistent with the requirements already established under the MIIT provisions discussed above, except that under the Order the requirements are often more strict and have a wider scope. If an Internet services provider wishes to collect or use personal information, it may do so only if such collection is necessary for the services it provides. Further, it must disclose to its users the purpose, method and scope of any such collection or use, and must obtain consent from the users whose information is being collected or used. Internet services providers are also required to establish and publish their protocols relating to personal information collection or use, keep any collected information strictly confidential, and take technological and other measures to maintain the security of such information. Internet services providers are also required to cease any collection or use of the user personal information, and de-register the relevant user account, when a given user stops using the relevant Internet service. Internet services providers are further prohibited from divulging, distorting or destroying any such personal information, or selling or providing such information unlawfully to other parties. The Order states, in broad terms, that violators may face warnings, fines, and disclosure to the public and, in the most severe cases, criminal liability.

On January 5, 2015, the State Administration for Industry and Commerce (the "SAIC") promulgated the *Measures on Punishment for Infringement of Consumer Rights*, pursuant to which business operators collecting and using personal information of consumers must comply with the principles of legitimacy, propriety and necessity, specify the purpose, method and scope of collection and use of the information, and obtain the consent of the consumers whose personal information is to be collected. Business operators may not: (i) collect or use personal information of consumers without their consent; (ii) unlawfully divulge, sell or provide personal information of consumers to others; (iii) send commercial information to consumers without their consent or request, or when a consumer has explicitly declined to receive such information.

In addition, National Internet Information Office published Measures for the Security Assessment of Personal Information and Important Data to be Transmitted Abroad, or the Draft Security Assessment Notice to seek for public comments on April 11, 2017. The Draft Security Assessment Notice emphasizes the security evaluation requirements, any company found to be non-compliant with the obligations under the Draft Security Assessment Notice may potentially be subject to fines, administrative and/or criminal liabilities. It is still uncertain when the Draft Security Assessment Notice would be signed into law and whether the final version would have any substantial changes from this draft. Although we do not transfer any users' personal information outside the PRC currently, we cannot guarantee that we will not transfer such information outside the PRC in the future subject to the requests or orders of governmental authorizations outside the PRC. We may not be able to fulfill the obligations then we are subjected to, among other, the security assessment at acceptable cost, or at all. In order for us to maintain or become compliant with applicable laws as they come into effect, it

may require substantial expenditures on resources to continually evaluate our policies and processes and adapt to new requirements that are or become applicable to us.

Regulation on Cybersecurity and Censorship

On November 7, 2016, the Standing Committee of the National People's Congress promulgated the PRC Cybersecurity Law, which took effect on June 1, 2017. The PRC Cybersecurity Law applies to the construction, operation, maintenance, and use of networks as well as the supervision and administration of Internet security in the PRC. "Network operators," who are broadly defined as owners and administrator of networks and network services providers, shall meet their cyber security obligations and shall take technical and other necessary measures to protect the safety and stability of their networks. Under the Cybersecurity Law, network operators are subject to various security protection-related obligations, including:

- verifying users' identities before signing agreements or providing services such as network access, domain name registration, landline telephone or mobile phone access, information publishing, or real-time communication services;

- strengthening management of information published by users. When the network operators discover information prohibited by laws and regulations from publication or dissemination, they shall immediately stop dissemination of that information, including taking measures such as deleting the information, preventing the information from spreading, saving relevant records, and reporting to the relevant governmental agencies.

On May 2, 2017, the CAC issued the Measures for Security Review of Cyber Products and Services (for Trial Implementation), or the Cybersecurity Review Measures, which came into effect on June 1, 2017. Under the Cybersecurity Review Measures, the following cyber products and services will be subject to cybersecurity: cyber products and services purchased by networks, and information systems related to national security.

The purchase of cyber products and services by operators of critical information infrastructure in key industries and fields, such as public communications and information services, energy, transportation, water resources, finance, public service, and electronic administration, and other critical information infrastructure, that may affect national security.

To comply with the above PRC laws and regulations, we have adopted internal procedures to monitor content displayed on our website and application. However, due to the large amount of user uploaded content, we may not be able to identify all the content that may violate relevant laws and regulations. Regulations on Online Advertising Services

On April 24, 2015, the Standing Committee of the National People's Congress enacted the Advertising Law of the PRC, or the New Advertising Law, effective on September 1, 2015 and was amended in 2018. The New Advertising Law increases the potential legal liability of advertising services providers and strengthens regulations of false advertising. On July 4, 2016, the SAIC issued the Interim Measures of the Administration of Online Advertising, or the SAIC Interim Measures, effective on September 1, 2016. The New Advertising Law and the SAIC Interim Measures require that Internet advertisements may not affect users' normal Internet use and Internet pop-up ads must display a "close" sign prominently and ensure one-key closing of the pop-up windows. The SAIC Interim Measures provide that all online advertisements must be marked with the word "Advertisement" so that viewers can easily identify them as such. Moreover, the SAIC Interim Measures treat paid search results as advertisements that are subject to PRC advertisement laws, and requires that paid search results be conspicuously identified on search result pages as advertisements.

The New Advertising Law and SAIC Interim Measures require us to monitor the advertising content shown on our mobile applications to ensure that such content is true, accurate and in full compliance with applicable laws and regulations. However, we cannot assure you that all of the content contained in such advertisements is true and accurate as required by the advertising laws and regulations. Copyright owners enjoy certain legal rights, including right of publication, right of authorship and right of reproduction. The *Copyright Law* as revised in 2001 extends copyright protection to Internet activities and products disseminated over the Internet. In addition, PRC laws and regulations provide for a voluntary registration system administered by the Copyright Protection Center of China, or the CPCC. According to the *Copyright Law*, an infringer of the copyrights shall be subject to various civil liabilities, which include ceasing infringement activities, apologizing to the copyright owners and compensating the loss of copyright owner. Infringers of copyright may also subject to fines and/or administrative or criminal liabilities in severe situations.

The *Computer Software Copyright Registration Measures*, or the *Software Copyright Measures*, promulgated by the National Copyright Administration on April 6, 1992 and amended on May 26, 2000 and February 20, 2002, regulates registrations of software copyright, exclusive licensing contracts for software copyright and assignment agreements. The National Copyright Administration, or the NCA administers software copyright registration and the CPCC, is designated as the software registration authority. The CPCC shall grant registration certificates to the Computer Software Copyrights applicants which meet the requirements of both the *Software Copyright Measures* and the *Computer Software Protection Regulations (Revised in 2013)*.

The *Measures for Administrative Protection of Copyright Related to Internet*, which was jointly promulgated by the NCA and the MII on April 29, 2005 and became effective on May 30, 2005, provides that upon receipt of an infringement notice from a legitimate copyright holder, an ICP operator must take remedial actions immediately by removing or disabling access to the infringing content. If an ICP operator knowingly transmits infringing content or fails to take remedial actions after receipt of a notice of infringement that harms public interest, the ICP operator could be subject to administrative penalties, including an order to cease infringing activities, confiscation by the authorities of all income derived from the infringement activities, or payment of fines.

Patent Law

According to the *Patent Law of the PRC* (Revised in 2008), the State Intellectual Property Office is responsible for administering patent law in the PRC. The patent administration departments of provincial, autonomous region or municipal governments are responsible for administering patent law

within their respective jurisdictions. The Chinese patent system adopts a first-to-file principle, which means that when more than one person file different patent applications for the same invention, only the person who files the application first is entitled to obtain a patent of the invention. To be patentable, an invention or a utility model must meet three criteria: novelty, inventiveness and practicability. A patent is valid for twenty years in the case of an invention and ten years in the case of utility models and designs.

As of the date of this prospectus, we had no registered patents in the PRC.

Trademark Law

Trademarks are protected by the *Trademark Law of the PRC* (Revised in 2013) which was adopted in 1982 and subsequently amended in 1993, 2001 and 2013 respectively as well as by the *Implementation Regulations of the PRC Trademark Law* adopted by the State Council in 2002 and as most recently amended on April 29, 2014. The Trademark Office of the State Administration for Market Regulation of the PRC handles trademark registrations. The Trademark Office grants a ten-year term to registered trademarks and the term may be renewed for another ten-year period upon request by the trademark owner. A trademark registrant may license its registered trademarks to another party by entering into trademark license agreements, which must be filed with the Trademark Office for its record. As with patents, the Trademark Law has adopted a first-to-file principle with respect to trademark registration. If a trademark applied for is identical or similar to another trademark which has already been registered or subject to a preliminary examination and approval for use on the same or similar kinds of products or services, such trademark application may be rejected. Any person applying for the registration of a trademark may not injure existing trademark rights first obtained by others, nor may any person register in advance a trademark that has already been used by another party and has already gained a "sufficient degree of reputation" through such party's use.

Employment Agreements and Indemnification Agreements

We have entered into employment agreements with each of our executive officers. Pursuant to these employment agreements, each of our executive officers is employed for a specified time period, which will be renewed automatically unless a notice of non-renewal is given. We may terminate an executive officer's employment for cause at any time without advance notice in certain events, and may terminate an executive officer's employment by giving a prior written notice and paying certain compensation. An executive officer may terminate his or her employment at any time by giving a prior written notice. Under these employment agreements, each executive officer agrees to hold, unless expressly consented to by us, at all times during and after the termination of his or her employment agreement, in strict confidence and not to use, any of our confidential information or the confidential information of our customers and suppliers. In addition, under these agreements, each executive officer agrees to be bound by certain non-competition restrictions during the term of his or her employment and for two years following the last date of employment.

We will also enter into indemnification agreements with each of our directors and executive officers. Under these agreements, we agree to indemnify our directors and executive officers against all liabilities and expenses incurred by such persons in connection with claims made by reason of their being a director or officer of our company to the fullest extent permitted by law with certain limited exceptions.

Board of Directors

Our Board of Directors will consist of eight directors, including three independent directors, namely Yifan Li, Peng Su and Hendrick Sin, upon the SEC's declaration of effectiveness of our registration statement on Form F-1 to which this prospectus forms a part. A director is not required to hold any shares in our company to qualify to serve as a director. The Listing Rules of the NASDAQ generally require that a majority of an issuer's board of directors must consist of independent directors. However, the Listing Rules of the NASDAQ permit foreign private issuers like us to follow "home country practice" in certain corporate governance matters. We rely on this "home country practice" exemption and do not have a majority of independent directors serving on our Board of Directors.

A director who is in any way, whether directly or indirectly, interested in a contract or proposed contract with our company is required to declare the nature of his or her interest at a meeting of our directors. A general notice given to the directors by any director to the effect that he or she is a member, shareholder, director, partner, officer or employee of any specified company or firm and is to be regarded as interested in any contract or transaction with that company or firm shall be deemed a sufficient declaration of interest for the purposes of voting on a resolution in respect to a contract or transaction in which he/she has an interest, and after such general notice it shall not be necessary to give special notice relating to any particular transaction. A director may vote in respect of any contract or proposed contract or arrangement notwithstanding that he/she may be interested therein (unless disqualified by the chairman of the relevant board meeting) and if he/she does so, his/her vote shall be counted and he/she may be counted in the quorum at any meeting of the directors at which any such contract or proposed contract or arrangement is considered. Our board of directors may exercise all of

the powers of our company to borrow money, to mortgage or charge its undertaking, property and uncalled capital, or any part thereof, and to issue debentures, debenture stock or other securities whenever money is borrowed or as security for any debt, liability or obligation of our company or of any third party. None of our directors has a service contract with us that provides for benefits upon termination of service as a director.

Committees of the Board of Directors

We have established an audit committee, a compensation committee and a nominating and corporate governance committee under our Board of Directors. We have adopted a charter for each of the three committees. Each committee's members and functions are described below.

Audit Committee. Our audit committee consists of Yifan Li, Peng Su and Hendrick Sin, and will be chaired by Yifan Li. Compensation Committee. Our compensation committee consists of Dagang Feng, Hendrick Sin and Jihong Liang and will be chaired by Dagang Feng. We have determined that Hendrick Sin satisfies the "independence" requirements of Rule 5605(c)(2) of the Listing Rules of the NASDAQ. The compensation committee will assist the board in reviewing and approving the compensation structure, including all forms of compensation, relating to our directors and executive officers. Our chief executive

officer may not be present at any committee meeting during which their compensation is deliberated upon. The compensation committee will be responsible for, among other things:

The nominating and corporate governance committee will assist the board in selecting individuals qualified to become our directors and in determining the composition of the board and its committees. The nominating and corporate governance committee will be responsible for, among other things:

- recommending nominees to the board for election or re-election to the board, or for appointment to fill any vacancy on the board;

- selecting and recommending to the board the names of directors to serve as members of the audit committee and the compensation committee, as well as of the nominating and corporate governance committee itself; and
- evaluating the performance and effectiveness of the board as a whole.

Immediately prior to the completion of this offering, our authorized share capital will be US\$500,000 divided into 5,000,000,000 shares comprising of (i) 4,903,917,300 Class A ordinary shares of a par value of US\$0.0001 each and (ii) 96,082,700 Class B ordinary shares of a par value of US\$0.0001 each. Immediately prior to the completion of this offering, all of our issued and outstanding preferred shares and ordinary shares will be converted into, and/or re-designated and re-classified, as Class A ordinary shares on a one-for-one basis, save and except that the 54,958,400 ordinary shares held by Palopo Holding Limited and the 41,124,300 ordinary shares held by 36Kr Heros Holding Limited, will be converted into, and/or re-designated and re-classified as, Class B ordinary shares. Following such conversion and/or re-designation, we will have Class A ordinary shares issued and outstanding and Class B ordinary shares issued and outstanding, assuming the underwriters do not exercise the option to purchase additional ADSs. All of our shares issued and outstanding prior to the completion of the offering are and will be fully paid, and all of our shares to be issued in the offering will be issued as fully paid. We will issue Class A ordinary shares represented by ADSs in this offering, assuming the underwriters do not exercise their over-allotment option. All options, regardless of grant dates, will entitle holders to an equivalent number of ordinary shares once the vesting and exercising conditions are met.

Our shareholders have conditionally adopted an amended and restated memorandum and articles of association, which will become effective and replace our current memorandum and articles of association in its entirety immediately prior to the completion of this offering.

The following are summaries of material provisions of our post-offering amended and restated memorandum and articles of association and the Companies Law insofar as they relate to the material terms of our ordinary shares that we expect will become effective upon the closing of this offering.

The following discussion primarily concerns the ordinary shares and the rights of holders of the ordinary shares. The holders of ADSs will not be treated as our shareholders and will be required to surrender their ADSs for cancellation and withdrawal from the depositary bank facility in which the shares are held in accordance with the provisions of the deposit agreement in order to exercise directly shareholders' rights in respect of the shares. The depositary bank will agree, so far as it is practical, to vote or cause to be voted the amount of the shares represented by ADSs in accordance with the non-discretionary written instructions of the holders of such ADSs. See "Description of American Depositary Shares—Voting Rights."

Ordinary Shares

General. All of our issued and outstanding ordinary shares are fully paid and non-assessable. Our ordinary shares are issued in registered form and are issued when registered in our register of shareholders. We may not issue share to bearer. Our shareholders who are non-residents of the Cayman Islands may freely hold and transfer their ordinary shares.

A dual-class voting structure has been approved by our board of directors and the existing shareholders of our company in connection with their consideration and approval of our third amended and restated memorandum and articles of association that will become effective immediately prior to the completion of this offering. For risks associated with the dual-class voting structure, see "Risk Factors—Risks Related to the ADSs and This Offering—Our dual-class share structure with different voting rights will limit your ability to influence corporate matters and could discourage others from pursuing any change of control transactions that holders of our Class A ordinary shares and ADSs may view as beneficial."

Conversion. Class B ordinary shares may be converted into the same number of Class A ordinary shares by the holders thereof at any time, while Class A ordinary shares cannot be converted into Class B ordinary shares under any circumstances. Upon any sale, transfer, assignment or disposition of Class B ordinary shares by a holder thereof to any person or entity which is not an affiliate of such holder of Class B ordinary shares, or upon a change of beneficial ownership of any Class B ordinary shares as a result of which any person who is not an affiliate of the holder of such Class B ordinary shares becomes a beneficial owners of such Class B ordinary shares, such Class B ordinary shares shall be automatically and immediately converted into an equal number of Class A ordinary shares.

Dividends. The holders of our ordinary shares are entitled to such dividends as may be declared by our board of directors, subject to our post-offering amended and restated memorandum and articles of association and the Companies Law. In addition, our shareholders may by ordinary resolution declare a dividend, but no dividend may exceed the amount recommended by our directors. Our post-offering amended and restated articles of association provide that dividends may be declared and paid out of our profits, realized or unrealized, or from any reserve set aside from profits which our board of directors determine is no longer needed. Dividends may also be declared and paid out of share premium account or any other fund or account which can be authorized for this purpose in accordance with the Companies Law. No dividend may be declared and paid unless our directors determine that, immediately after the payment, we will be able to pay our debts as they become due in the ordinary course of business and we have funds lawfully available for such purpose.

Voting Rights. In respect of all matters subject to a shareholders' vote, each Class A ordinary share is entitled to one vote for the holder of each Class A ordinary share registered in his or her name on our register of members and each Class B ordinary share is entitled to 25 votes for the holder of each Class B ordinary share registered in his or her name on our register of members. Voting at any meeting of shareholders is by a poll not on a show of hands.

A quorum required for a meeting of shareholders consists of shareholders holding shares which carry a majority of the votes attaching to the issued and outstanding shares entitled to vote at general meetings present in person or by proxy or, if a corporation or other non-natural person, by its duly authorized representative. As a Cayman Islands exempted company, we are not obliged by the Companies Law to call shareholders' annual general meetings. Our post-offering amended and restated memorandum and articles of association provide that we may (but are not obliged to) in each year hold a general meeting as our annual general meeting in which case we will specify the meeting as such in the notices calling it, and the annual general meeting will be held at such time and place as may be determined by our directors. We, however, will hold an annual shareholders' meeting during each fiscal year, as required by the Listing Rules at the NASDAQ. Each general meeting, other than an annual

general meeting, shall be an extraordinary general meeting. Shareholders' annual general meetings and any other general meetings of our shareholders may be called by a majority of our Board of Directors or our chairman or upon a requisition of shareholders holding at the date of deposit of the requisition not less than ten percent (10%) of the votes attaching to the issued and outstanding shares entitled to vote at general meetings, in which case the directors are obliged to call such meeting and to put the resolutions so requisitioned to a vote at such meeting; however, our post-offering amended and restated memorandum and articles of association do not provide our shareholders with any right to put any proposals before annual general meetings or extraordinary general meetings not called by such shareholders. Advance notice of at least fifteen (15) days is required for the convening of our annual general meeting and other general meetings unless such notice is waived in accordance with our articles of association.

An ordinary resolution to be passed at a meeting by the shareholders requires the affirmative vote of a simple majority of the votes attaching to the ordinary shares cast by those shareholders entitled to vote who are present in person or by proxy at a general meeting, while a special resolution also requires the affirmative vote of no less than two-thirds of the votes attaching to the ordinary shares cast by those shareholders entitled to vote who are present in person or by proxy at a general meeting. Both ordinary resolutions and special resolutions may also be passed by a unanimous written resolution signed by all the shareholders of our company, as permitted by the Companies Law and our post-offering amended and restated memorandum and articles of association. A special resolution will be required for important matters such as a change of name or making changes to our post-offering amended and restated memorandum and articles of association.

Transfer of Ordinary Shares. Subject to the restrictions in our post-offering amended and restated memorandum and articles of association as set out below, any of our shareholders may transfer all or any of his or her ordinary shares by an instrument of transfer in the usual or common form or any other form approved by our board of directors.

Our board of directors may, in its absolute discretion, decline to register any transfer of any ordinary share which is not fully paid up or on which we have a lien. Our Board of Directors may also decline to register any transfer of any ordinary share unless:

- the instrument of transfer is lodged with us, accompanied by the certificate for the ordinary shares to which it relates and such other evidence as our Board of Directors may reasonably require to show the right of the transferor to make the transfer;
- the instrument of transfer is in respect of only one class of shares;
- the instrument of transfer is properly stamped, if required;
- in the case of a transfer to joint holders, the number of joint holders to whom the ordinary share is to be transferred does not exceed four;
- the shares are free from any lien in favor of the Company; and
- a fee of such maximum sum as the NASDAQ may determine to be payable or such lesser sum as our directors may from time to time require is paid to us in respect thereof.

If our directors refuse to register a transfer they shall, within two months after the date on which the instrument of transfer was lodged, send to each of the transferor and the transferee notice of such refusal.

The registration of transfers may, after compliance with any notice required of the NASDAQ, be suspended and the register closed at such times and for such periods as our Board of Directors may from time to time determine, *provided, however*, that the registration of transfers shall not be suspended nor the register closed for 30 more than days in any year as our board may determine.

Liquidation. On a return of capital on winding up or otherwise (other than on conversion, redemption or purchase of ordinary shares), if the assets available for distribution amongst our shareholders shall be more than sufficient to repay the whole of the share capital at the commencement of the winding up, the surplus shall be distributed amongst our shareholders in proportion to the par value of the shares held by them at the commencement of the winding up, subject to a deduction from those shares in respect of which there are monies due, of all monies payable to our company for unpaid calls or otherwise. If our assets available for distribution are insufficient to repay all of the paid-up capital, the assets will be distributed so that the losses are borne by our shareholders in proportion to the par value of the shares held by them.

Redemption, Repurchase and Surrender of Ordinary Shares. We may issue shares on terms that such shares are subject to redemption, at our option or at the option of the holders thereof, on such terms and in such manner as may be determined, before the issue of such shares, by our Board of Directors. Our company may also repurchase any of our shares provided that the manner and terms of such purchase have been approved by our Board of Directors or are otherwise authorized by our post-offering amended and restated memorandum and articles of association. Under the Companies Law, the redemption or repurchase of any share may be paid out of our company's profits or out of the proceeds of a fresh issue of shares made for the purpose of such redemption or repurchase, or out of capital (including share premium account and capital redemption reserve) if the company can, immediately following such payment, pay its debts as they fall due in the ordinary course of business. In addition, under the Companies Law no such share may be redeemed or repurchased (a) unless it is fully paid up, (b) if such redemption or repurchase would result in there being no shares outstanding, or (c) if the company has commenced liquidation. In addition, our company may accept the surrender of any fully paid share for no consideration.

Variations of Rights of Shares. If at any time our share capital is divided into different classes or series of shares, the rights attached to any class or series of shares (unless otherwise provided by the terms of issue of the shares of that class or series), whether or not our company is being wound-up, may be varied with the consent in writing of a majority the holders of the issued shares of that class or series or with the sanction of a special resolution at a separate meeting of the holders of the shares of the class or series. The rights conferred upon the holders of the shares of any class issued shall not, unless otherwise expressly provided by the terms of issue of the shares of that class, be deemed to be varied by the creation or issue of further shares ranking *pari passu* with such existing class of shares.

Inspection of Books and Records. Holders of our ordinary shares have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records. However, we will provide our shareholders with annual audited financial statements. See "Where You Can Find Additional Information."

Issuance of Additional Shares. Our post-offering amended and restated memorandum of association authorizes our Board of Directors to issue additional ordinary shares from time to time as our Board of Directors shall determine, to the extent of available authorized but unissued shares.

Our post-offering amended and restated memorandum of association also authorizes our Board of Directors to establish from time to time one or more series of preferred shares and to determine, with respect to any series of preferred shares, the terms and rights of that series, including:

- the designation of the series;
- the number of shares of the series;
- the dividend rights, dividend rates, conversion rights, voting rights; and
- the rights and terms of redemption and liquidation preferences.

Our Board of Directors may issue preferred shares without action by our shareholders to the extent authorized but unissued. Issuance of these shares may dilute the voting power of holders of ordinary shares.

Anti-Takeover Provisions. Some provisions of our post-offering amended and restated memorandum and articles of association may discourage, delay or prevent a change of control of our company or management that shareholders may consider favorable, including provisions that: (a) authorize our Board of Directors to issue preferred shares in one or more series and to designate the price, rights, preferences, privileges and restrictions of such preferred shares without any further vote or action by our shareholders; and (b) limit the ability of shareholders to requisition and convene general meetings of shareholders.

However, under Cayman Islands law, our directors may only exercise the rights and powers granted to them under our post-offering amended and restated memorandum and articles of association for a proper purpose and for what they believe in good faith to be in the best interests of our company.

Exempted Company. We are an exempted company with limited liability under the Companies Law. The Companies Law distinguishes between ordinary resident companies and exempted companies. Any company that is registered in the Cayman Islands but conducts business mainly outside the Cayman Islands may apply to be registered as an exempted company. The requirements for an exempted company are essentially the same as for an ordinary company except that an exempted company:

- does not have to file an annual return of its shareholders with the Registrar of Companies;
- is not required to open its register of members for inspection;
- does not have to hold an annual general meeting;
- may issue negotiable or bearer shares or shares with no par value;
- may obtain an undertaking against the imposition of any future taxation (such undertakings are usually given for 20 years in the first instance);
- may register by way of continuation in another jurisdiction and be deregistered in the Cayman Islands;
- may register as a limited duration company; and
- may register as a segregated portfolio company.

"Limited liability" means that the liability of each shareholder is limited to the amount unpaid by the shareholder on that shareholder's shares of the company.

Register of Members

Under the Cayman Companies Law, we must keep a register of members and there should be entered therein:

- the names and addresses of our members, a statement of the shares held by each member, and of the amount paid or agreed to be considered as paid, on the shares of each member;
- the date on which the name of any person was entered on the register as a member; and
- the date on which any person ceased to be a member.

Under Cayman Companies Law, the register of members of our company is prima facie evidence of the matters set out therein (that is, the register of members will raise a presumption of fact on the

matters referred to above unless rebutted) and a member registered in the register of members is deemed as a matter of Cayman Companies Law to have legal title to the shares as set against its name in the register of members. Upon completion of this offering, we will perform the procedure necessary to immediately update the register of members to record and give effect to the issuance of shares by us to the Depositary (or its nominee) as the depositary. Once our register of members has been updated, the shareholders recorded in the register of members will be deemed to have legal title to the shares set against their name.

If the name of any person is incorrectly entered in or omitted from our register of members, or if there is any default or unnecessary delay in entering on the register the fact of any person having ceased to be a member of our company, the person or member aggrieved (or any member of our company or our company itself) may apply to the Grand Court of the Cayman Islands for an order that the register be rectified, and the Court may either refuse such application or it may, if satisfied of the justice of the case, make an order for the rectification of the register.

Differences in Corporate Law

The Companies Law is derived, to a large extent, from the older Companies Acts of England, but does not follow recent English law statutory enactments and accordingly there are significant differences between Companies Laws and the current Companies Act of England. In addition, the Companies Law differs from laws applicable to United States corporations and their shareholders. Set forth below is a summary of the significant differences between the provisions of the Companies Law applicable to us and the laws applicable to companies incorporated in the State of Delaware.

Mergers and Similar Arrangements. The Companies Law permits mergers and consolidations between Cayman Islands companies and between Cayman Islands companies and non-Cayman Islands companies. For these purposes, (a) "merger" means the merging of two or more constituent companies and the vesting of their undertaking, property and liabilities in one of such companies as the surviving company, and (b) a "consolidation" means the combination of two or more constituent companies into a consolidated company and the vesting of the undertaking, property and liabilities of such companies to the consolidated company. In order to effect such a merger or consolidation, the directors of each constituent company must approve a written plan of merger or consolidation, which must then be authorized by (a) a special resolution of the shareholders of each constituent company, and (b) such other authorization, if any, as may be specified in such constituent company's articles of association. The written plan of merger or consolidation must be filed with the Registrar of Companies of the Cayman Islands together with a declaration as to the solvency of the consolidated or surviving company, a declaration as to the assets and liabilities of each constituent company and an undertaking that a copy of the certificate of merger or consolidation will be given to the members and creditors of each constituent company and that notification of the merger or consolidation will be published in the *Cayman Islands Gazette*. Court approval is not required for a merger or consolidation which is effected in compliance with these statutory procedures.

A merger between a Cayman parent company and its Cayman subsidiary or subsidiaries does not require authorization by a resolution of shareholders of that Cayman subsidiary if a copy of the plan of merger is given to every member of that Cayman subsidiary to be merged unless that member agrees otherwise. For this purpose a company is a "parent" of a subsidiary if it holds issued shares that together represent at least ninety percent (90%) of the votes at a general meeting of the subsidiary.

The consent of each holder of a fixed or floating security interest over a constituent company is required unless this requirement is waived by a court in the Cayman Islands.

Save in certain limited circumstances, a shareholder of a Cayman constituent company who dissents from the merger or consolidation is entitled to payment of the fair value of his shares (which, if not agreed between the parties, will be determined by the Cayman Islands court) upon dissenting to

the merger or consolidation, provide the dissenting shareholder complies strictly with the procedures set out in the Companies Law. The exercise of dissenter rights will preclude the exercise by the dissenting shareholder of any other rights to which he or she might otherwise be entitled by virtue of holding shares, save for the right to seek relief on the grounds that the merger or consolidation is void or unlawful.

Separate from the statutory provisions relating to mergers and consolidations, the Companies Law also contains statutory provisions that facilitate the reconstruction and amalgamation of companies by way of schemes of arrangement, *provided* that the arrangement is approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made, and who must in addition represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at a meeting, or meetings, convened for that purpose. The convening of the meetings and subsequently the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder has the right to express to the court the view that the transaction ought not to be approved, the court can be expected to approve the arrangement if it determines that:

- the statutory provisions as to the required majority vote have been met;
- the shareholders have been fairly represented at the meeting in question and the statutory majority are acting bona fide without coercion of the minority to promote interests adverse to those of the class;
- the arrangement is such that may be reasonably approved by an intelligent and honest man of that class acting in respect of his interest; and
- the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Law.

The Companies Law also contains a statutory power of compulsory acquisition which may facilitate the "squeeze out" of a dissenting minority shareholder upon a tender offer. When a tender offer is made and accepted by holders of 90.0% of the shares affected within four months, the offeror may, within a two-month period commencing on the expiration of such four-month period, require the holders of the remaining shares to transfer such shares to the offeror on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands but this is unlikely to succeed in the case of an offer which has been so approved unless there is evidence of fraud, bad faith or collusion.

If an arrangement and reconstruction is thus approved, or if a tender offer is made and accepted, a dissenting shareholder would have no rights comparable to appraisal rights, which would otherwise ordinarily be available to dissenting shareholders of Delaware corporations, providing rights to receive payment in cash for the judicially determined value of the shares.

Shareholders' Suits. In principle, we will normally be the proper plaintiff to sue for a wrong done to us as a company, and as a general rule a derivative action may not be brought by a minority shareholder. However, based on English authorities, which would in all likelihood be of persuasive authority in the Cayman Islands, the Cayman Islands court can be expected to follow and apply the common law principles (namely the rule in *Foss v. Harbottle* and the exceptions thereto) which permit a minority shareholder to commence a class action against or derivative actions in the name of the company to challenge actions where:

- a company acts or proposes to act illegally or ultra vires;
- the act complained of, although not ultra vires, could only be effected duly if authorized by more than a simple majority vote that has not been obtained; and
- those who control the company are perpetrating a "fraud on the minority."

Indemnification of Directors and Executive Officers and Limitation of Liability. Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime. Our post-offering memorandum and articles of association provide that that we shall indemnify our officers and directors against all actions, proceedings, costs, charges, expenses, losses, damages or liabilities incurred or sustained by such directors or officer, other than by reason of such person's dishonesty, willful default or fraud as determined by a court of competent jurisdiction, in or about the conduct of our company's business or affairs (including as a result of any mistake of judgment) or in the execution or discharge of his duties, powers, authorities or discretions, including without prejudice to the generality of the foregoing, any costs, expenses, losses or liabilities incurred by such director or officer in defending (whether successfully or otherwise) any civil proceedings concerning our company or its affairs in any court whether in the Cayman Islands or elsewhere. This standard of conduct is generally the same as permitted under the Delaware General Corporation Law for a Delaware corporation.

In addition, we will enter into indemnification agreements with our directors and executive officers that provide such persons with additional indemnification beyond that provided in our post-offering amended and restated memorandum and articles of association.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers or persons controlling us under the foregoing provisions, we have been informed that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Directors' Fiduciary Duties. Under Delaware corporate law, a director of a Delaware corporation has a fiduciary duty to the corporation and its shareholders. This duty has two components: the duty of care and the duty of loyalty. The duty of care requires that a director act in good faith, with the care that an ordinarily prudent person would exercise under similar circumstances. Under this duty, a director must inform himself of, and disclose to shareholders, all material information reasonably available regarding a significant transaction. The duty of loyalty requires that a director acts in a manner he reasonably believes to be in the best interests of the corporation. He must not use his corporate position for personal gain or advantage. This duty prohibits self-dealing by a director and mandates that the best interest of the corporation and its shareholders take precedence over any interest possessed by a director, officer or controlling shareholder and not shared by the shareholders generally. In general, actions of a director are presumed to have been made on an informed basis, in good faith and in the honest belief that the action taken was in the best interests of the corporation. However, this presumption may be rebutted by evidence of a breach of one of the fiduciary duties. Should such evidence be presented concerning a transaction by a director, the director must prove the procedural fairness of the transaction, and that the transaction was of fair value to the corporation.

As a matter of Cayman Islands law, a director of a Cayman Islands company is in the position of a fiduciary with respect to the company and therefore it is considered that he owes the following duties to the company—a duty to act bona fide in the best interests of the company, a duty not to make a profit based on his position as director (unless the company permits him to do so), a duty not to put himself in a position where the interests of the company conflict with his personal interest or his duty to a third party, and a duty to exercise powers for the purpose for which such powers were intended. A director of a Cayman Islands company owes to the company a duty to act with skill and care. It was previously considered that a director need not exhibit in the performance of his duties a greater degree of skill than may reasonably be expected from a person of his knowledge and experience. However, English and Commonwealth courts have moved towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands.

Shareholder Action by Written Consent. Under the Delaware General Corporation Law, a corporation may eliminate the right of shareholders to act by written consent by amendment to its certificate of incorporation. The Companies Law and our post-offering amended and restated articles of association provide that our shareholders may approve corporate matters by way of a unanimous written resolution signed by or on behalf of each shareholder who would have been entitled to vote on such matter at a general meeting without a meeting being held.

Shareholder Proposals. Under the Delaware General Corporation Law, a shareholder has the right to put any proposal before the annual meeting of shareholders, provided it complies with the notice provisions in the governing documents. A special meeting may be called by the board of directors or any other person authorized to do so in the governing documents, but shareholders may be precluded from calling special meetings.

The Companies Law provide shareholders with only limited rights to requisition a general meeting, and does not provide shareholders with any right to put any proposal before a general meeting. However, these rights may be provided in a company's articles of association. Our post-offering amended and restated articles of association allow our shareholders holding in aggregate not less than ten percent of all votes attaching to the issued and outstanding shares of our company entitled to vote at general meetings to requisition an extraordinary general meeting of our shareholders, in which case our board is obliged to convene an extraordinary general meeting and to put the resolutions so requisitioned to a vote at such meeting. Other than this right to requisition a shareholders' meeting, our post-offering amended and restated articles of association do not provide our shareholders with any other right to put proposals before annual general meetings or extraordinary general meetings not called by such shareholders. As an exempted Cayman Islands company, we are not obliged by law to call shareholders' annual general meetings.

Cumulative Voting. Under the Delaware General Corporation Law, cumulative voting for elections of directors is not permitted unless the corporation's certificate of incorporation specifically provides for it. Cumulative voting potentially facilitates the representation of minority shareholders on a board of directors since it permits the minority shareholder to cast all the votes to which the shareholder is entitled on a single director, which increases the shareholder's voting power with respect to electing such director. There are no prohibitions in relation to cumulative voting under the laws of the Cayman Islands but our post-offering amended and restated articles of association do not provide for cumulative voting. As a result, our shareholders are not afforded any less protections or rights on this issue than shareholders of a Delaware corporation.

Removal of Directors. Under the Delaware General Corporation Law, a director of a corporation with a classified board may be removed only for cause with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under our post-offering amended and restated articles of association, directors may be removed with or without cause, by an ordinary resolution of our shareholders or the affirmative vote of no less than two-thirds of the other directors present and voting at a board meeting. A director shall hold office until the expiration of his or her term or his or her successor shall have been elected and qualified, or until his or her office is otherwise vacated. In addition, a director's office shall be vacated if the director (i) resigns his office by notice in writing to the Company; (ii) dies, becomes bankrupt or makes any arrangement or composition with his creditors; (iii) is found to be or becomes of unsound mind; (iv) is prohibited by law or NASDAQ rules from being a director; or (v) is removed from office pursuant to any other provisions of our post-offering amended and restated memorandum and articles of association.

Transactions with Interested Shareholders. The Delaware General Corporation Law contains a business combination statute applicable to Delaware corporations whereby, unless the corporation has specifically elected not to be governed by such statute by amendment to its certificate of incorporation,

it is prohibited from engaging in certain business combinations with an "interested shareholder" for three years following the date that such person becomes an interested shareholder. An interested shareholder generally is a person or a group who or which owns or owned 15% or more of the target's outstanding voting share within the past three years. This has the effect of limiting the ability of a potential acquirer to make a two-tiered bid for the target in which all shareholders would not be treated equally. The statute does not apply if, among other things, prior to the date on which such shareholder becomes an interested shareholder, the board of directors approves either the business combination or the transaction which resulted in the person becoming an interested shareholder. This encourages any potential acquirer of a Delaware corporation to negotiate the terms of any acquisition transaction with the target's board of directors.

Cayman Islands law has no comparable statute. As a result, we cannot avail ourselves of the types of protections afforded by the Delaware business combination statute. However, although Cayman Islands law does not regulate transactions between a company and its significant shareholders, the directors of the Company are required to comply with fiduciary duties which they owe to the Company under Cayman Islands laws, including the duty to ensure that, in their opinion, any such transactions must be entered into bona fide in the best interests of the company, and are entered into for a proper corporate purpose and not with the effect of constituting a fraud on the minority shareholders.

Dissolution; Winding up. Under the Delaware General Corporation Law, unless the board of directors approves the proposal to dissolve, dissolution must be approved by shareholders holding 100% of the total voting power of the corporation. Only if the dissolution is initiated by the board of directors may it be approved by a simple majority of the corporation's outstanding shares. Delaware law allows a Delaware corporation to include in its certificate of incorporation a supermajority voting requirement in connection with dissolutions initiated by the board.

Under Cayman Islands law, a company may be wound up by either an order of the courts of the Cayman Islands or by a special resolution of its members or, if the company is unable to pay its debts as they fall due, by an ordinary resolution of its members. The court has authority to order winding up in a number of specified circumstances including where it is, in the opinion of the court, just and equitable to do so. Under the Companies Law and our post-offering amended and restated articles of association, our company may be dissolved, liquidated or wound up by a special resolution of our shareholders.

Variation of Rights of Shares. Under the Delaware General Corporation Law, a corporation may vary the rights of a class of shares with the approval of a majority of the outstanding shares of such class, unless the certificate of incorporation provides otherwise. Under Cayman Islands law and our post-offering amended and restated articles of association, if our share capital is divided into more than one class of shares, we may vary the rights attached to any class with the written consent of the holders of a majority of the issued shares of that class or with the sanction of a special resolution passed at a general meeting of the holders of the shares of that class.

Amendment of Governing Documents. Under the Delaware General Corporation Law, a corporation's governing documents may be amended with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under the Companies Law and our post-offering amended and restated memorandum and articles of association, our memorandum and articles of association may only be amended by a special resolution of our shareholders.

Rights of Nonresident or Foreign Shareholders. There are no limitations imposed by our post-offering amended and restated memorandum and articles of association on the rights of nonresident or foreign shareholders to hold or exercise voting rights on our shares. In addition, there

are no provisions in our post-offering amended and restated memorandum and articles of association governing the ownership threshold above which shareholder ownership must be disclosed.

We entered into the Amended and Restated Shareholders Agreement on September 25, 2019 with our then existing shareholders, which consist of holders of our ordinary shares, series A-1 preferred

shares, series A-2 preferred shares, series B-1 preferred shares, series B-2 preferred shares, series B-3 preferred shares, series B-4 preferred shares, series C-1 preferred shares, series C-2 preferred shares and series D preferred shares. The shareholders' agreement provides certain preferential rights, including, among others, information rights, certain corporate governance rights, prohibition on transfer of shares and right of co-sale. These special rights will automatically terminate upon completion of this offering.

Registration Rights

Pursuant to the Amended and Restated Shareholders Agreement dated September 25, 2019, we have granted certain registration rights to our shareholders. Set forth below is a description of the registration rights granted under the agreement.

Demand registration rights. At any time following the earlier of (i) 180 days after the effective date of the registration statement for a public offering and (ii) the expiration of the period during which the managing underwriters for such public offering shall prohibit the Company from effecting any other public sale or distribution of registrable securities, holders of the registrable securities then outstanding have the right to demand that we file a registration statement covering the registration of all or any portion of the registrable securities.

We have the right to defer filing of a registration statement for a period of not more than 90 days after the receipt of the request of the initiating holders under certain conditions, but we cannot exercise the deferral right more than once in any 12-month period and we cannot register any other share during such 90-day period. Except for certain circumstances where we are entitled to defer a filing, upon receiving a notice of demand registration, we should promptly give written notice to all holders and make best efforts to register the shares requested to be registered. We are not obligated to effect more than three demand registrations for each investor that have been declared and ordered effective.

The Company shall be liable for and pay all expenses in connection with any demand registration, regardless of whether such registration is effected.

Piggyback Registration Rights. If we propose to register any equity securities under the Securities Act, whether or not for sale for our own account, we shall each time give prompt notice to each shareholder and offer the opportunity to include in such registration statement the number of registrable securities of the same class or series as those proposed to be registered as each such shareholder may request. If, at any time after giving notice of its intention to register any equity securities pursuant and prior to the effective date of the registration statement filed in connection with such registration, we shall determine for any reason not to register such securities, we shall give notice to all such shareholders and, thereupon, shall be relieved of its obligation to register any registrable securities in connection with such registration.

DESCRIPTION OF AMERICAN DEPOSITARY SHARES

American Depositary Shares

The Bank of New York Mellon, as depositary, will register and deliver American Depositary Shares, also referred to as ADSs. Each ADS will represent _____ shares (or a right to receive _____ shares) deposited with The Hongkong and Shanghai Banking Corporation Limited, as custodian for the depositary in Hong Kong. Each ADS will also represent any other securities, cash or other property which may be held by the depositary. The deposited shares together with any other securities, cash or other property held by the depositary are referred to as the deposited securities. The depositary's office at which the ADSs will be administered and its principal executive office is located at 240 Greenwich Street, New York, New York 10286.

You may hold ADSs either (A) directly (i) by having an American Depositary Receipt, also referred to as an ADR, which is a certificate evidencing a specific number of ADSs, registered in your name, or (ii) by having uncertificated ADSs registered in your name, or (B) indirectly by holding a security entitlement in ADSs through your broker or other financial institution that is a direct or indirect participant in The Depository Trust Company, also called DTC. If you hold ADSs directly, you are a registered ADS holder, also referred to as an ADS holder. This description assumes you are an ADS holder. If you hold the ADSs indirectly, you must rely on the procedures of your broker or other financial institution to assert the rights of ADS holders described in this section. You should consult with your broker or financial institution to find out what those procedures are.

Registered holders of uncertificated ADSs will receive statements from the depositary confirming their holdings.

As an ADS holder, we will not treat you as one of our shareholders and you will not have shareholder rights. Cayman Islands law governs shareholder rights. The depositary will be the holder of the shares underlying the ADSs. As a registered holder of ADSs, you will have ADS holder rights. A deposit agreement among us, the depositary, ADS holders and all other persons indirectly or beneficially holding ADSs sets out ADS holder rights as well as the rights and obligations of the depositary. New York law governs the deposit agreement and the ADSs.

The following is a summary of the material provisions of the deposit agreement. For more complete information, you should read the entire deposit agreement and the form of ADR. For directions on how to obtain copies of those documents, see "Where You Can Find Additional Information."

Dividends and Other Distributions

How will you receive dividends and other distributions on the shares?

The depositary has agreed to pay or distribute to ADS holders the cash dividends or other distributions it or the custodian receives on shares or other deposited securities, upon payment or deduction of its fees and expenses. You will receive these distributions in proportion to the number of shares the ADSs represent.

Cash. The depositary will convert any cash dividend or other cash distribution we pay on the shares into U.S. dollars, if it can do so on a reasonable basis and can transfer the U.S. dollars to the United States. If that is not possible or if any government approval is needed and cannot be obtained, the deposit agreement allows the depositary to distribute the foreign currency only to those ADS holders to whom it is possible to do so. It will hold the foreign currency it cannot convert for the account of the ADS holders who have not been paid. It will not invest the foreign currency and it will not be liable for any interest.

Before making a distribution, any withholding taxes, or other governmental charges that must be paid will be deducted. See "Taxation." The depositary will distribute only whole U.S. dollars and cents and will round fractional cents to the nearest whole cent. *If the exchange rates fluctuate during a time when the depositary cannot convert the foreign currency, you may lose some of the value of the distribution.*

Shares. The depositary may distribute additional ADSs representing any shares we distribute as a dividend or free distribution. The depositary will only distribute whole ADSs. It will sell shares which would require it to deliver a fraction of an ADS (or ADSs representing those shares) and distribute the net proceeds in the same way as it does with cash. If the depositary does not distribute additional ADSs, the outstanding ADSs will also represent the new shares. The depositary may sell a portion of the distributed shares (or ADSs representing those shares) sufficient to pay its fees and expenses in connection with that distribution.

Rights to purchase additional shares. If we offer holders of our securities any rights to subscribe for additional shares or any other rights, the depositary may (i) exercise those rights on behalf of ADS holders, (ii) distribute those rights to ADS holders or (iii) sell those rights and distribute the net proceeds to ADS holders, in each case after deduction or upon payment of its fees and expenses. To the extent the depositary does not do any of those things, it will allow the rights to lapse. In that case, you will receive no value for them. The depositary will exercise or distribute rights only if we ask it to and provide satisfactory assurances to the depositary that it is legal to do so. If the depositary will exercise rights, it will purchase the securities to which the rights relate and distribute those securities or, in the case of shares, new ADSs representing the new shares, to subscribing ADS holders, but only if ADS holders have paid the exercise price to the depositary. U.S. securities laws may restrict the ability of the depositary to distribute rights or ADSs or other securities issued on exercise of rights to all or certain ADS holders, and the securities distributed may be subject to restrictions on transfer.

Other Distributions. The depositary will send to ADS holders anything else we distribute on deposited securities by any means it thinks is legal, fair and practical. If it cannot make the distribution in that way, the depositary has a choice. It may decide to sell what we distributed and distribute the net proceeds, in the same way as it does with cash. Or, it may decide to hold what we distributed, in which case ADSs will also represent the newly distributed property. However, the depositary is not required to distribute any securities (other than ADSs) to ADS holders unless it receives satisfactory evidence from us that it is legal to make that distribution. The depositary may sell a portion of the distributed securities or property sufficient to pay its fees and expenses in connection with that distribution. U.S. securities laws may restrict the ability of the depositary to distribute securities to all or certain ADS holders, and the securities distributed may be subject to restrictions on transfer.

The depositary is not responsible if it decides that it is unlawful or impractical to make a distribution available to any ADS holders. We have no obligation to register ADSs, shares, rights or other securities under the Securities Act. We also have no obligation to take any other action to permit the distribution of ADSs, shares, rights or anything else to ADS holders. *This means that you may not receive the distributions we make on our shares or any value for them if it is illegal or impractical for us to make them available to you.*

Deposit, Withdrawal and Cancellation

How are ADSs issued?

The depositary will deliver ADSs if you or your broker deposits shares or evidence of rights to receive shares with the custodian. Upon payment of its fees and expenses and of any taxes or charges, such as stamp taxes or stock transfer taxes or fees, the depositary will register the appropriate number of ADSs in the names you request and will deliver the ADSs to or upon the order of the person or persons that made the deposit.

How can ADS holders withdraw the deposited securities?

You may surrender the ADSs to the depositary for the purpose of withdrawal. Upon payment of its fees and expenses and of any taxes or charges, such as stamp taxes or stock transfer taxes or fees, the depositary will deliver the shares and any other deposited securities underlying the ADSs to the ADS holder or a person the ADS holder designates at the office of the custodian. Or, at your request, risk and expense, the depositary will deliver the deposited securities at its office, if feasible. However, the depositary is not required to accept surrender of ADSs to the extent it would require delivery of a fraction of a deposited share or other security. The depositary may charge you a fee and its expenses for instructing the custodian regarding delivery of deposited securities.

How do ADS holders interchange between certificated ADSs and uncertificated ADSs?

You may surrender your ADR to the depositary for the purpose of exchanging your ADR for uncertificated ADSs. The depositary will cancel that ADR and will send to the ADS holder a statement confirming that the ADS holder is the registered holder of uncertificated ADSs. Upon receipt by the depositary of a proper instruction from a registered holder of uncertificated ADSs requesting the exchange of uncertificated ADSs for certificated ADSs, the depositary will execute and deliver to the ADS holder an ADR evidencing those ADSs.

Voting Rights

How do you vote?

ADS holders may instruct the depositary how to vote the number of deposited shares their ADSs represent. If we request the depositary to solicit your voting instructions (and we are not required to do so), the depositary will notify you of a shareholders' meeting and send or make voting materials available to you. Those materials will describe the matters to be voted on and explain how ADS holders may instruct the depositary how to vote. For instructions to be valid, they must reach the depositary by a date set by the depositary. The depositary will try, as far as practical, subject to the laws of the Cayman Islands and the provisions of our articles of association or similar documents, to vote or to have its agents vote the shares or other deposited securities as instructed by ADS holders. If we do not request the depositary to solicit your voting instructions, you can still send voting instructions, and, in that case, the depositary may try to vote as you instruct, but it is not required to do so.

Except by instructing the depositary as described above, you won't be able to exercise voting rights unless you surrender the ADSs and withdraw the shares and become the registered holder of such shares prior to the record date for the general meeting. However, you may not know about the meeting enough in advance to withdraw the shares. In any event, the depositary will not exercise any discretion in voting deposited securities and it will only vote or attempt to vote as instructed.

We cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote your shares. In addition, the depositary and its agents are not responsible for failing to carry out voting instructions or for the manner of carrying out voting instructions. This means that you may not be able to exercise voting rights and there may be nothing you can do if your shares are not voted as you requested.

In order to give you a reasonable opportunity to instruct the depositary as to the exercise of voting rights relating to deposited securities, if we request the Depositary to act, we agree to give the depositary notice of any such meeting and details concerning the matters to be voted upon at least 30 days in advance of the meeting date.

Fees and Expenses

Persons depositing or withdrawing shares or ADS holders must pay:	For:
<ul style="list-style-type: none"> • US\$5.00 (or less) per 100 ADSs (or portion of 100 ADSs). • US\$.05 (or less) per ADS • A fee equivalent to the fee that would be payable if securities distributed to you had been shares and the shares had been deposited for issuance of ADSs • US\$.05 (or less) per ADS per calendar year • Registration or transfer fees • Expenses of the depository • Taxes and other governmental charges the depository or the custodian has to pay on any ADSs or shares underlying ADSs, such as stock transfer taxes, stamp duty or withholding taxes • Any charges incurred by the depository or its agents for servicing the deposited securities 	<ul style="list-style-type: none"> • Issuance of ADSs, including issuances resulting from a distribution of shares or rights or other property • Cancellation of ADSs for the purpose of withdrawal, including if the deposit agreement terminates • Any cash distribution to ADS holders • Distribution of securities distributed to holders of deposited securities (including rights) that are distributed by the depository to ADS holders • Depository services • Transfer and registration of shares on our share register to or from the name of the depository or its agent when you deposit or withdraw shares • Cable and facsimile transmissions (when expressly provided in the deposit agreement) • Converting foreign currency to U.S. dollars • As necessary • As necessary

The depository collects its fees for delivery and surrender of ADSs directly from investors depositing shares or surrendering ADSs for the purpose of withdrawal or from intermediaries acting for them. The depository collects fees for making distributions to investors by deducting those fees from the amounts distributed or by selling a portion of distributable property to pay the fees. The depository may collect its annual fee for depository services by deduction from cash distributions or by directly billing investors or by charging the book-entry system accounts of participants acting for them. The depository may collect any of its fees by deduction from any cash distribution payable (or by selling a portion of securities or other property distributable) to ADS holders that are obligated to pay those fees. The depository may generally refuse to provide fee-attracting services until its fees for those services are paid.

From time to time, the depository may make payments to us to reimburse us for costs and expenses generally arising out of establishment and maintenance of the ADS program, waive fees and expenses for services provided to us by the depository or share revenue from the fees collected from ADS holders. In performing its duties under the deposit agreement, the depository may use brokers, dealers, foreign currency dealers or other services providers that are owned by or affiliated with the depository and that may earn or share fees, spreads or commissions.

The depositary may convert currency itself or through any of its affiliates and, in those cases, acts as principal for its own account and not as agent, advisor, broker or fiduciary on behalf of any other person and earns revenue, including, without limitation, transaction spreads, that it will retain for its own account. The revenue is based on, among other things, the difference between the exchange rate assigned to the currency conversion made under the deposit agreement and the rate that the depositary or its affiliate receives when buying or selling foreign currency for its own account. The depositary makes no representation that the exchange rate used or obtained in any currency conversion under the deposit agreement will be the most favorable rate that could be obtained at the time or that the method by which that rate will be determined will be the most favorable to ADS holders, subject to the depositary's obligations under the deposit agreement. The methodology used to determine exchange rates used in currency conversions is available upon request.

Payment of Taxes

You will be responsible for any taxes or other governmental charges payable on the ADSs or on the deposited securities represented by any of the ADSs. The depositary may refuse to register any transfer of the ADSs or allow you to withdraw the deposited securities represented by the ADSs until those taxes or other charges are paid. It may apply payments owed to you or sell deposited securities represented by the ADSs to pay any taxes owed and you will remain liable for any deficiency. If the depositary sells deposited securities, it will, if appropriate, reduce the number of ADSs to reflect the sale and pay to ADS holders any proceeds, or send to ADS holders any property, remaining after it has paid the taxes.

Tender and Exchange Offers; Redemption, Replacement or Cancellation of Deposited Securities

The depositary will not tender deposited securities in any voluntary tender or exchange offer unless instructed to do by an ADS holder surrendering ADSs and subject to any conditions or procedures the depositary may establish.

If deposited securities are redeemed for cash in a transaction that is mandatory for the depositary as a holder of deposited securities, the depositary will call for surrender of a corresponding number of ADSs and distribute the net redemption money to the holders of called ADSs upon surrender of those ADSs.

If there is any change in the deposited securities such as a subdivision, combination or other reclassification, or any merger, consolidation, recapitalization or reorganization affecting the issuer of deposited securities in which the depositary receives new securities in exchange for or in lieu of the old deposited securities, the depositary will hold those replacement securities as deposited securities under the deposit agreement. However, if the depositary decides it would not be lawful and practicable to hold the replacement securities because those securities could not be distributed to ADS holders or for any other reason, the depositary may instead sell the replacement securities and distribute the net proceeds upon surrender of the ADSs.

If there is a replacement of the deposited securities and the depositary will continue to hold the replacement securities, the depositary may distribute new ADSs representing the new deposited securities or ask you to surrender your outstanding ADRs in exchange for new ADRs identifying the new deposited securities.

If there are no deposited securities underlying ADSs, including if the deposited securities are cancelled, or if the deposited securities underlying ADSs have become apparently worthless, the depositary may call for surrender or of those ADSs or cancel those ADSs upon notice to the ADS holders.

Amendment and Termination

How may the deposit agreement be amended?

We may agree with the depositary to amend the deposit agreement and the ADRs without your consent for any reason. If an amendment adds or increases fees or charges, except for taxes and other governmental charges or expenses of the depositary for registration fees, facsimile costs, delivery charges or similar items, or prejudices a substantial right of ADS holders, it will not become effective for outstanding ADSs until 30 days after the depositary notifies ADS holders of the amendment. *At the time an amendment becomes effective, you are considered, by continuing to hold the ADSs, to agree to the amendment and to be bound by the ADRs and the deposit agreement as amended.*

How may the deposit agreement be terminated?

The depositary will initiate termination of the deposit agreement if we instruct it to do so. The depositary may initiate termination of the deposit agreement if

- 60 days have passed since the depositary told us it wants to resign but a successor depositary has not been appointed and accepted its appointment;
- we delist the ADSs from an exchange in the United States on which they were listed and do not list the ADSs on another exchange in the United States or make arrangements for trading of ADSs on the U.S. over-the-counter market;
- we delist our shares from an exchange outside the United States on which they were listed and do not list the shares on another exchange outside the United States;
- the depositary has reason to believe the ADSs have become, or will become, ineligible for registration on Form F-6 under the Securities Act of 1933;
- we appear to be insolvent or enter insolvency proceedings;
- all or substantially all the value of the deposited securities has been distributed either in cash or in the form of securities;
- there are no deposited securities underlying the ADSs or the underlying deposited securities have become apparently worthless; or
- there has been a replacement of deposited securities.

If the deposit agreement will terminate, the depositary will notify ADS holders at least 90 days before the termination date. At any time after the termination date, the depositary may sell the deposited securities. After that, the depositary will hold the money it received on the sale, as well as any other cash it is holding under the deposit agreement, unsegregated and without liability for interest, for the pro rata benefit of the ADS holders that have not surrendered their ADSs. Normally, the depositary will sell as soon as practicable after the termination date.

After the termination date and before the depositary sells, ADS holders can still surrender their ADSs and receive delivery of deposited securities, except that the depositary may refuse to accept a surrender for the purpose of withdrawing deposited securities or reserve previous transactions of that kind that have not settled if it would interfere with the selling process. The depositary may refuse to accept a surrender for the purpose of withdrawing sale proceeds until all the deposited securities have been sold. The depositary will continue to collect distributions on deposited securities, but, after the termination date, the depositary is not required to register any transfer of ADSs or distribute any dividends or other distributions on deposited securities to the ADSs holder (until they surrender their ADSs) or give any notices or perform any other duties under the deposit agreement except as described in this paragraph.

Limitations on Obligations and Liability

Limits on our Obligations and the Obligations of the Depositary; Limits on Liability to Holders of ADSs

The deposit agreement expressly limits our obligations and the obligations of the depositary. It also limits our liability and the liability of the depositary. We and the depositary:

- are only obligated to take the actions specifically set forth in the deposit agreement without negligence or bad faith and the depositary will not be a fiduciary or have any fiduciary duty to holders of ADSs;
- are not liable if we are or it is prevented or delayed by law or by events or circumstances beyond our or its ability to prevent or counteract with reasonable care or effort from performing our or its obligations under the deposit agreement;
- are not liable if we or it exercises discretion permitted under the deposit agreement;
- are not liable for the inability of any holder of ADSs to benefit from any distribution on deposited securities that is not made available to holders of ADSs under the terms of the deposit agreement, or for any special, consequential or punitive damages for any breach of the terms of the deposit agreement;
- have no obligation to become involved in a lawsuit or other proceeding related to the ADSs or the deposit agreement on your behalf or on behalf of any other person;
- are not liable for the acts or omissions of any securities depository, clearing agency or settlement system;
- may rely upon any documents we believe or it believes in good faith to be genuine and to have been signed or presented by the proper person; and
- the depositary has no duty to make any determination or provide any information as to our tax status. Neither the depositary nor we shall have any liability for any tax consequences that may be incurred by ADS holders as a result of owning or holding ADSs or be liable for the inability or failure of an ADS holder to obtain the benefit of a foreign tax credit, reduced rate of withholding or refund of amounts withheld in respect of tax or any other tax benefit.

In the deposit agreement, we and the depositary agree to indemnify each other under certain circumstances.

Requirements for Depositary Actions

Before the depositary will deliver or register a transfer of ADSs, make a distribution on ADSs, or permit withdrawal of shares, the depositary may require:

- payment of stock transfer or other taxes or other governmental charges and transfer or registration fees charged by third parties for the transfer of any shares or other deposited securities;
- satisfactory proof of the identity and genuineness of any signature or other information it deems necessary; and
- compliance with regulations it may establish, from time to time, consistent with the deposit agreement, including presentation of transfer documents.

The depositary may refuse to deliver ADSs or register transfers of ADSs when the transfer books of the depositary or our transfer books are closed or at any time if the depositary or we think it advisable to do so.

Your Right to Receive the Shares Underlying the ADSs

ADS holders have the right to cancel their ADSs and withdraw the underlying shares at any time except:

- when temporary delays arise because: (i) the depository has closed its transfer books or we have closed our transfer books; (ii) the transfer of shares is blocked to permit voting at a shareholders' meeting; or (iii) we are paying a dividend on our shares;
- when you owe money to pay fees, taxes and similar charges; or
- when it is necessary to prohibit withdrawals in order to comply with any laws or governmental regulations that apply to ADSs or to the withdrawal of shares or other deposited securities.

This right of withdrawal may not be limited by any other provision of the deposit agreement.

Direct Registration System

In the deposit agreement, all parties to the deposit agreement acknowledge that the Direct Registration System, also referred to as DRS, and Profile Modification System, also referred to as Profile, will apply to the ADSs. DRS is a system administered by DTC that facilitates interchange between registered holding of uncertificated ADSs and holding of security entitlements in ADSs through DTC and a DTC participant. Profile is a feature of DRS that allows a DTC participant, claiming to act on behalf of a registered holder of uncertificated ADSs, to direct the depository to register a transfer of those ADSs to DTC or its nominee and to deliver those ADSs to the DTC account of that DTC participant without receipt by the depository of prior authorization from the ADS holder to register that transfer.

In connection with and in accordance with the arrangements and procedures relating to DRS/Profile, the parties to the deposit agreement understand that the depository will not determine whether the DTC participant that is claiming to be acting on behalf of an ADS holder in requesting registration of transfer and delivery as described in the paragraph above has the actual authority to act on behalf of the ADS holder (notwithstanding any requirements under the Uniform Commercial Code). In the deposit agreement, the parties agree that the depository's reliance on and compliance with instructions received by the depository through the DRS/Profile system and in accordance with the deposit agreement will not constitute negligence or bad faith on the part of the depository.

Shareholder Communications; Inspection of Register of Holders of ADSs

The depository will make available for your inspection at its office all communications that it receives from us as a holder of deposited securities that we make generally available to holders of deposited securities. The depository will send you copies of those communications or otherwise make those communications available to you if we ask it to. You have a right to inspect the register of holders of ADSs, but not for the purpose of contacting those holders about a matter unrelated to our business or the ADSs.

Jury Trial Waiver

The deposit agreement provides that, to the extent permitted by law, ADS holders waive the right to a jury trial of any claim they may have against us or the depository arising out of or relating to our shares, the ADSs or the deposit agreement, including any claim under the U.S. federal securities laws. If we or the depository opposed a jury trial demand based on the waiver, the court would determine whether the waiver was enforceable in the facts and circumstances of that case in accordance with applicable case law. However, you will not, by agreeing to the terms of the deposit agreement, be deemed to have waived our or the depository's compliance with U.S. federal securities laws and the rules and regulations promulgated thereunder.

SHARES ELIGIBLE FOR FUTURE SALE

Upon completion of this offering, we will have _____ ADSs outstanding, representing _____ Class A ordinary shares, or approximately _____ % of our outstanding ordinary shares, assuming the underwriters do not exercise their option to purchase additional ADSs. All of the ADSs sold in this offering will be freely transferable by persons other than our "affiliates" without restriction or further registration under the Securities Act. Sales of substantial amounts of the ADSs in the public market could adversely affect prevailing market prices of the ADSs. Prior to this offering, there has been no public market for our ordinary shares or the ADSs, and while the ADSs have been approved for listing on the NASDAQ, we cannot assure you that a regular trading market will develop in the ADSs. We do not expect that a trading market will develop for our ordinary shares not represented by the ADSs.

Lockup Agreements

We, [our directors, executive officers, certain existing shareholders and option holders] have agreed, subject to some exceptions, not to transfer or dispose of, directly or indirectly, any of our ordinary shares, in the form of ADSs or otherwise, or any securities convertible into or exchangeable or exercisable for our ordinary shares, in the form of ADSs or otherwise, for a period of 180 days after the date of this prospectus. After the expiration of the 180-day period, the ordinary shares or ADSs held by our directors, executive officers and our existing shareholders may be sold subject to the restrictions under Rule 144 under the Securities Act or by means of registered public offerings.

Rule 144

All of our ordinary shares outstanding prior to this offering are "restricted shares" as that term is defined in Rule 144 under the Securities Act and may be sold publicly in the United States only if they are subject to an effective registration statement under the Securities Act or pursuant to an exemption from the registration requirements. Under Rule 144 as currently in effect, a person who has beneficially owned our restricted shares for at least six months is generally entitled to sell the restricted securities without registration under the Securities Act beginning 90 days after the date of this prospectus, subject to certain additional restrictions.

Our affiliates may sell within any three-month period a number of restricted shares that does not exceed the greater of the following:

- 1% of the then outstanding ordinary shares of the same class, in the form of ADSs or otherwise, which will equal approximately _____ Class A ordinary shares immediately after this offering, assuming the underwriters do not exercise their option to purchase additional ADSs; or
- the average weekly trading volume of our Class A ordinary shares in the form of ADSs or otherwise on the NASDAQ during the four calendar weeks preceding the date on which notice of the sale is filed with the SEC.

Affiliates who sell restricted securities under Rule 144 may not solicit orders or arrange for the solicitation of orders, and they are also subject to notice requirements and the availability of current public information about us.

Persons who are not our affiliates are only subject to one of these additional restrictions, the requirement of the availability of current public information about us, and this additional restriction does not apply if they have beneficially owned our restricted shares for more than one year.

Rule 701

In general, under Rule 701 of the Securities Act as currently in effect, each of our employees, consultants or advisors who purchases our ordinary shares from us in connection with a compensatory stock or option plan or other written agreement relating to compensation is eligible to resell such ordinary shares 90 days after we became a reporting company under the Exchange Act in reliance on Rule 144, but without compliance with some of the restrictions, including the holding period, contained in Rule 144.

TAXATION

The following discussion of Cayman Islands, PRC and United States federal income tax consequences of an investment in the ADSs or ordinary shares is based upon laws and relevant interpretations thereof in effect as of the date of this prospectus, all of which are subject to change. This discussion does not deal with all possible tax consequences relating to an investment in the ADSs or ordinary shares, such as the tax consequences under state, local and other tax laws. To the extent that the discussion relates to matters of Cayman Islands tax law, it represents the opinion of Maples and Calder (Hong Kong) LLP, our Cayman Islands counsel. To the extent that the discussion relates to matters of PRC tax law, it represents the opinion of Jingtian & Gongcheng, our PRC legal counsel.

Cayman Islands Taxation

The Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation, and there is no taxation in the nature of inheritance tax or estate duty. There are no other taxes likely to be material to us or holders of the ADS's or ordinary shares levied by the government of the Cayman Islands, except for stamp duties which may be applicable on instruments executed in, or after execution brought within the jurisdiction of, the Cayman Islands. The Cayman Islands is not party to any double tax treaties that are applicable to any payments made to or by our company. There are no exchange control regulations or currency restrictions in the Cayman Islands.

Payments of dividends and capital in respect of the ADSs or ordinary shares will not be subject to taxation in the Cayman Islands and no withholding will be required on the payment of a dividend or capital to any holder of the ADSs or ordinary shares, nor will gains derived from the disposal of the ADSs or ordinary shares be subject to Cayman Islands income or corporation tax.

People's Republic of China Taxation

Under the PRC EIT Law, which became effective on January 1, 2008 and was amended on February 24, 2017 and December 29, 2018, respectively, an enterprise established outside the PRC with a "de facto management body" within the PRC is considered a "resident enterprise" for PRC enterprise income tax purposes and is generally subject to a uniform 25% enterprise income tax rate on its worldwide income. Under the implementation rules to the PRC EIT Law, a "de facto management body" is defined as a body that has material and overall management and control over the manufacturing and business operations, personnel and human resources, finances and properties of an enterprise.

In addition, SAT Circular 82 issued by the SAT in April 2009 specifies that certain offshore incorporated enterprises controlled by PRC enterprises or PRC enterprise groups will be classified as PRC resident enterprises if the following are located or resident in the PRC: (a) senior management personnel and departments that are responsible for daily production, operation and management; (b) financial and personnel decision-making bodies; (c) key properties, accounting books, company seal, minutes of board meetings and shareholders' meetings; and (d) half or more of the senior management or directors having voting rights. Further to SAT Circular 82, the SAT issued SAT Bulletin 45, which took effect in September 2011, to provide more guidance on the implementation of SAT Circular 82. SAT Bulletin 45 provides for procedures and administration details of determination on resident status and administration on post-determination matters. Our company is a company incorporated outside the PRC. As a holding company, its key assets are its ownership interests in its subsidiaries, and its key assets are located, and its records (including the resolutions of its board of directors and the resolutions of its shareholders) are maintained, outside the PRC. As such, we do not believe that our company meets all of the conditions above or is a PRC resident enterprise for PRC tax purposes. For the same reasons, we believe our other entities outside China are not PRC resident enterprises either. However,

the tax resident status of an enterprise is subject to determination by the PRC tax authorities and uncertainties remain with respect to the interpretation of the term "de facto management body." There can be no assurance that the PRC government will ultimately take a view that is consistent with us. If the PRC tax authorities determine that our Cayman Islands holding company is a PRC resident enterprise for PRC enterprise income tax purposes, a number of unfavorable PRC tax consequences could follow. For example, a 10% withholding tax may be imposed on dividends we pay to our non-PRC enterprise shareholders (including the ADS holders), if such income is treated as sourced from within the PRC. In addition, nonresident enterprise shareholders (including the ADS holders) may be subject to PRC tax at a rate of 10% on gains realized on the sale or other disposition of ADSs or ordinary shares, if such income is treated as sourced from within the PRC. Furthermore, if we are deemed a PRC resident enterprise, dividends paid to our non-PRC individual shareholders (including the ADS holders) and any gain realized on the transfer of ADSs or ordinary shares by such shareholders may be subject to PRC tax at a rate of 20% (which, in the case of dividends, may be withheld at source by us), if such income is deemed to be from PRC sources. These rates may be reduced by an applicable tax treaty, but it is unclear whether non-PRC shareholders of our company would be able to claim the benefits of any tax treaties between their country of tax residence and the PRC in the event that we are treated as a PRC resident enterprise. See "Risk Factors—Risks Related to Doing Business in China—We may be classified as a "PRC resident enterprise" for PRC enterprise income tax purposes, which could result in unfavorable tax consequences to us and our non-PRC shareholders and ADS holders and have a material adverse effect on our results of operations and the value of your investment."

U.S. Federal Income Tax Considerations

The following are the material U.S. federal income tax consequences to the U.S. Holders described below of owning and disposing of our ADSs or ordinary shares, but this discussion does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a particular person's decision to acquire ADSs or ordinary shares.

This discussion applies only to a U.S. Holder that acquires our ADSs in this offering and holds the ADSs or underlying ordinary shares as capital assets for U.S. federal income tax purposes. In addition, it does not describe all of the tax consequences that may be relevant in light of a U.S. Holder's particular circumstances, including any alternative minimum or Medicare contribution tax consequences and any tax consequences applicable to U.S. Holders subject to special rules, such as:

- certain financial institutions;
- insurance companies;
- regulated investment companies;
- dealers or traders in securities that use a mark-to-market method of tax accounting;
- persons holding ADSs or ordinary shares as part of a straddle, conversion transaction, integrated transaction or similar transaction;
- persons whose functional currency for U.S. federal income tax purposes is not the U.S. dollar;
- entities classified as partnerships for U.S. federal income tax purposes;
- tax-exempt entities, "individual retirement accounts" or "Roth IRAs";
- persons that own or are deemed to own 10% or more of our stock by vote or value; or
- persons holding ADSs or ordinary shares in connection with a trade or business outside the United States.

If an entity that is classified as a partnership for U.S. federal income tax purposes owns ADSs or ordinary shares, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. Partnerships owning ADSs or ordinary shares and partners in such partnerships should consult their tax advisers as to the particular U.S. federal income tax consequences of owning and disposing of ADSs or ordinary shares.

This discussion is based on the Internal Revenue Code of 1986, as amended, or the Code, administrative pronouncements, judicial decisions, final, temporary and proposed Treasury regulations, and the income tax treaty between the United States and the PRC, or the Treaty, all as of the date hereof, any of which is subject to change, possibly with retroactive effect. This discussion assumes that each obligation under the deposit agreement will be performed in accordance with its terms.

As used herein, a "U.S. Holder" is a person that is for U.S. federal income tax purposes a beneficial owner of our ADSs or ordinary shares and:

- a citizen or individual resident of the United States;
- a corporation, or other entity taxable as a corporation, created or organized in or under the laws of the United States, any state therein or the District of Columbia; or
- an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

In general, a U.S. Holder who owns ADSs will be treated as the owner of the underlying ordinary shares represented by those ADSs for U.S. federal income tax purposes. Accordingly, no gain or loss will be recognized if a U.S. Holder exchanges ADSs for the underlying ordinary shares represented by those ADSs.

U.S. Holders should consult their tax advisers concerning the U.S. federal, state, local and non-U.S. tax consequences of owning and disposing of ADSs or ordinary shares in their particular circumstances.

Taxation of Distributions

Except as described below under "—Passive Foreign Investment Company Rules," distributions paid on our ADSs or ordinary shares, other than certain pro rata distributions of ADSs or ordinary shares, will be treated as dividends to the extent paid out of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Because we do not maintain calculations of our earnings and profits under U.S. federal income tax principles, it is expected that distributions generally will be reported to U.S. Holders as dividends. Dividends will not be eligible for the dividends-received deduction generally available to U.S. corporations under the Code. Subject to applicable limitations, dividends paid to certain non-corporate U.S. Holders with respect to the ADSs may be taxable at favorable rates. Non-corporate U.S. Holders should consult their tax advisers regarding the availability of these favorable rates in their particular circumstances.

Dividends will be included in a U.S. Holder's income on the date of the U.S. Holder's, or in the case of ADSs, the depositary's, receipt. The amount of any dividend income paid in foreign currency will be the U.S. dollar amount calculated by reference to the spot rate in effect on the date of receipt, regardless of whether the payment is in fact converted into U.S. dollars on such date. If the dividend is converted into U.S. dollars on the date of receipt, a U.S. Holder generally should not be required to recognize foreign currency gain or loss in respect of the amount received. A U.S. Holder may have foreign currency gain or loss if the dividend is converted into U.S. dollars after the date of receipt.

Dividends will be treated as foreign-source income for foreign tax credit purposes. As described in "—People's Republic of China Taxation," dividends paid by us may be subject to PRC withholding tax. For U.S. federal income tax purposes, the amount of the dividend income will include any amounts

withheld in respect of PRC withholding tax. Subject to applicable limitations, which vary depending upon the U.S. Holder's circumstances, PRC taxes withheld from dividend payments (at a rate not exceeding the applicable Treaty rate in the case of a U.S. Holder that is eligible for the benefits of the Treaty) generally will be creditable against a U.S. Holder's U.S. federal income tax liability. The rules governing foreign tax credits are complex, and U.S. Holders should consult their tax advisers regarding the creditability of foreign taxes in their particular circumstances. In lieu of claiming a credit, a U.S. Holder may elect to deduct any such PRC taxes in computing its taxable income, subject to applicable limitations. An election to deduct foreign taxes instead of claiming foreign tax credits applies to all foreign taxes paid or accrued in the taxable year.

Sale or Other Taxable Disposition of ADSs or Ordinary Shares

Subject to the discussion below under "—Passive Foreign Investment Company Rules," a U.S. Holder will generally recognize capital gain or loss on a sale or other taxable disposition of ADSs or ordinary shares in an amount equal to the difference between the amount realized on the sale or disposition and the U.S. Holder's tax basis in the ADSs or ordinary shares disposed of, in each case as determined in U.S. dollars. The gain or loss will be long-term capital gain or loss if, at the time of the sale or disposition, the U.S. Holder has owned the ADSs or ordinary shares for more than one year. Long-term capital gains recognized by non-corporate U.S. Holders may be subject to a tax rate that is lower than the rate applicable to ordinary income. The deductibility of capital losses is subject to limitations.

As described in "—People's Republic of China Taxation," gains on the sale of ADSs or ordinary shares may be subject to PRC taxes. A U.S. Holder is entitled to use foreign tax credits to offset only the portion of its U.S. federal income tax liability that is attributable to foreign-source income. Because under the Code capital gains of U.S. persons are generally treated as U.S.-source income, this limitation may preclude a U.S. Holder from claiming a credit for all or a portion of any PRC taxes imposed on any such gains. However, U.S. Holders that are eligible for the benefits of the Treaty may be able to elect to treat the gain as PRC-source and therefore claim foreign tax credits in respect of PRC taxes on such gain. U.S. Holders should consult their tax advisers regarding their eligibility for the benefits of the Treaty and the creditability of any PRC tax on disposition gains in their particular circumstances.

Passive Foreign Investment Company Rules

In general, a non-U.S. corporation is a passive foreign investment company (a "PFIC") for any taxable year in which (i) 75% or more of its gross income consists of passive income or (ii) 50% or more of the average value of its assets (generally determined on a quarterly basis) consists of assets that produce, or are held for the production of, passive income. For purposes of the above calculations, a non-U.S. corporation that owns at least 25% by value of the shares of another corporation is treated as if it held its proportionate share of the assets of the other corporation and received directly its proportionate share of the income of the other corporation. Passive income generally includes dividends, interest, rents, royalties and certain gains. Cash is a passive asset for these purposes. Goodwill is an active asset to the extent attributable to activities that produce active income.

Based on the expected composition of our income and assets and the value of our assets, including goodwill, which is based on the expected price of our ADSs in this offering, we do not expect to be a PFIC for our current taxable year. However, it is not entirely clear how the contractual arrangements between us and our VIE will be treated for purposes of the PFIC rules, and we may be or become a PFIC if our VIE is not treated as owned by us. Because the treatment of our contractual arrangements with our VIE is not entirely clear, because we will hold a substantial amount of cash following this offering and because our PFIC status for any taxable year will depend on the composition of our income and assets and the value of our assets from time to time (which may be determined, in part, by

reference to the market price of our ADSs, which could be volatile), there can be no assurance that we will not be a PFIC for our current or any future taxable year.

If we were a PFIC for any taxable year and any entity in which we own or are deemed to own equity interests (including our VIE) were also a PFIC (any such entity, a "Lower-tier PFIC"), U.S. Holders would be deemed to own a proportionate amount (by value) of the shares of each Lower-tier PFIC and would be subject to U.S. federal income tax according to the rules described in the next paragraph on (i) certain distributions by a Lower-tier PFIC and (ii) dispositions of shares of Lower-tier PFICs, in each case as if the U.S. Holder held such shares directly, even though the U.S. Holder did not receive any proceeds of those distributions or dispositions.

In general, if we were a PFIC for any taxable year during which a U.S. Holder held ADSs or ordinary shares, gain recognized by such U.S. Holder on a sale or other disposition (including certain pledges) of its ADSs or ordinary shares would be allocated ratably over its holding period. The amounts allocated to the taxable year of the sale or disposition and to any year before we became a PFIC would be taxed as ordinary income. The amount allocated to each other taxable year would be subject to tax at the highest rate in effect for individuals or corporations, as appropriate, for that taxable year, and an interest charge would be imposed on the resulting tax liability for each such year. Furthermore, to the extent that distributions received by a U.S. Holder in any year on its ADSs or ordinary shares exceeded 125% of the average of the annual distributions on the ADSs or ordinary shares received during the preceding three years or the U.S. Holder's holding period, whichever is shorter, such distributions would be subject to taxation in the same manner. If we were a PFIC for any taxable year during which a U.S. Holder owned ADSs or ordinary shares, we would generally continue to be treated as a PFIC with respect to the U.S. Holder for all succeeding years during which the U.S. Holder owned ADSs or ordinary shares, even if we ceased to meet the threshold requirements for PFIC status.

Alternatively, if we were a PFIC and if the ADSs were "regularly traded" on a "qualified exchange," a U.S. Holder that held ADSs could make a mark-to-market election that would result in tax treatment different from the general tax treatment for PFICs described in the preceding paragraph. The ADSs would be treated as "regularly traded" for any calendar year in which more than a *de minimis* quantity of the ADSs were traded on a qualified exchange on at least 15 days during each calendar quarter. The NASDAQ, where our ADSs are expected to be listed, is a qualified exchange for this purpose. If a U.S. Holder makes the mark-to-market election, the U.S. Holder generally will recognize, for each taxable year in which we are a PFIC, as ordinary income any excess of the fair market value of the ADSs at the end of such taxable year over their adjusted tax basis, or as ordinary loss any excess of the adjusted tax basis of the ADSs over their fair market value at the end of such taxable year (but, in the case of loss, only to the extent of the net amount of income previously included as a result of the mark-to-market election). If a U.S. Holder makes the election, the U.S. Holder's tax basis in the ADSs will be adjusted to reflect the income or loss amounts recognized. Any gain recognized on the sale or other disposition of ADSs in a year when we are a PFIC will be treated as ordinary income and any loss will be treated as an ordinary loss to the extent of the net amount of income previously included as a result of the mark-to-market election, with any excess treated as capital loss. If a U.S. Holder makes the mark-to-market election, distributions paid on ADSs will be treated as discussed under "*Taxation of Distributions*" above (except that the preferential rate on dividends paid to non-corporate U.S. Holders will not apply). U.S. Holders will not be able to make a mark-to-market election with respect to Lower-tier PFICs, if any. In addition, because our ordinary shares will not be publicly traded, a U.S. Holder that holds ordinary shares that are not represented by ADSs will not be eligible to make a mark-to-market election with respect to such shares.

If we were a PFIC for any taxable year during which a U.S. Holder owned any ADSs or ordinary shares, the U.S. Holder would generally be required to file annual reports with the Internal Revenue Service ("IRS").

In addition, if we were treated as a PFIC for a taxable year in which we paid a dividend, or for the prior taxable year, the favorable tax rates described above with respect to dividends paid to certain non-corporate U.S. Holders would not apply.

U.S. Holders should consult their tax advisers regarding the determination of whether we are a PFIC for any taxable year and the potential application of the PFIC rules to their ownership of ADSs or ordinary shares.

Information Reporting and Backup Withholding

In general, payments of dividends and proceeds from the sale or other disposition of ADSs or ordinary shares that are made within the United States or through certain U.S.-related financial intermediaries may be subject to information reporting and backup withholding, unless (i) the U.S. Holder is a corporation or other "exempt recipient" or (ii) in the case of backup withholding, the U.S. Holder provides a correct taxpayer identification number and certifies that it is not subject to backup withholding. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against its U.S. federal income tax liability and may entitle it to a refund, provided that the required information is timely furnished to the IRS.

Certain U.S. Holders who are individuals (or certain specified entities) may be required to report information relating to their ownership of ADSs or ordinary shares, or non-U.S. accounts through which ADSs or ordinary shares are held. U.S. Holders should consult their tax advisers regarding their reporting obligations with respect to ADSs and ordinary shares.

UNDERWRITING

Under the terms and subject to the conditions contained in an underwriting agreement dated _____, 2019, we have agreed to sell to the underwriters named below, for whom Credit Suisse Securities (USA) LLC and China International Capital Corporation Hong Kong Securities Limited are acting as representatives, the following respective numbers of ADSs:

<u>Underwriters</u>	<u>Number of ADSs</u>
Credit Suisse Securities (USA) LLC	
China International Capital Corporation Hong Kong Securities Limited	
Total	

The underwriters and the representatives are referred to as the "underwriters" and the "representatives," respectively. The underwriting agreement provides that the underwriters are obligated to purchase all the ADSs in the offering if any are purchased, other than those ADSs covered by the over-allotment option described below. The underwriting agreement also provides that, if an underwriter defaults, the purchase commitments of non-defaulting underwriters may be increased or the offering may be terminated.

We have agreed to indemnify the underwriters and certain of their controlling persons against certain liabilities, including liabilities under the Securities Act, and to contribute to payments that the underwriters may be required to make in respect of those liabilities.

We have granted to the underwriters a 30-day option to purchase on a pro rata basis up to _____ additional ADSs from us at the initial public offering price less the underwriting discounts and commissions. Any ADSs issued or sold under the option will be issued and sold on the same terms and conditions as the other ADSs that are the subject of this offering. The option may be exercised only to cover any over-allotments of ADSs.

The underwriters propose to offer the ADSs initially at the public offering price on the cover page of this prospectus and to selling group members at that price less a selling concession of up to US\$ _____ per ADS. After the initial public offering the underwriters may change the public offering price and concession and discount to broker/dealers. The underwriters have informed us that they do not intend sales to discretionary accounts to exceed 5% of the total number of ADSs offered by them.

The following table summarizes the compensation and estimated expenses we will pay.

	<u>Per share</u>		<u>Total</u>	
	<u>Without over- allotment</u>	<u>With over- allotment</u>	<u>Without over- allotment</u>	<u>With over- allotment</u>
Underwriting discounts and commissions paid by us	US\$	US\$	US\$	US\$
Expenses payable by us	US\$	US\$	US\$	US\$

We estimate that the total expenses of the offering, exclusive of underwriting discounts and commissions, payable by us will be approximately US\$ _____. We have agreed to reimburse the underwriters for certain out-of-pocket expenses of the underwriters, in an aggregate amount not to exceed US\$ _____.

We have agreed that we will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, or file with the SEC a registration statement under the Securities Act of 1933 relating to, any ordinary shares, ADSs or securities convertible into or exchangeable or exercisable for any ordinary shares or ADSs, or publicly disclose the intention to make any offer, sale, pledge, disposition or filing,

without the prior written consent of the representatives for a period of 180 days after the date of this prospectus

Our directors, executive officers, existing shareholders and option holders have agreed that they will not offer, sell, contract to sell, pledge or otherwise dispose of, directly or indirectly, any ordinary shares, ADSs or securities convertible into or exchangeable or exercisable for any ordinary shares or ADSs, enter into a transaction that would have the same effect, or enter into any swap, hedge or other arrangement that transfers, in whole or in part, any of the economic consequences of ownership of ordinary shares or ADSs or securities convertible into or exchangeable or exercisable for any ordinary shares or ADSs, whether any of these transactions are to be settled by delivery of ordinary shares, ADSs or other securities, in cash or otherwise, or publicly disclose the intention to make any such offer, sale, pledge or disposition, or to enter into any such transaction, swap, hedge or other arrangement, without, in each case, the prior written consent of the representatives for a period of 180 days after the date of this prospectus, subject to certain exceptions.

We have agreed to indemnify the underwriters against liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in that respect.

In addition, through a letter agreement, we will instruct The Bank of New York Mellon, as depositary, not to accept any deposit of any ordinary shares or issue any ADSs for 180 days after the date of this prospectus unless we consent to such deposit or issuance. We have also agreed not to provide such consent without the prior written consent of the representatives. The foregoing does not affect the right of ADS holders to cancel their ADSs and withdraw the underlying ordinary shares.

Prior to this offering, there has been no public market for the ADSs. Consequently, the initial public offering price for the ADSs will be determined by negotiations between us and the representatives and will not necessarily reflect the market price of the ADSs following this offering. The principal factors that were considered in determining the initial public offering price included:

- the information presented in this prospectus and otherwise available to the underwriters;
- the history of, and prospects for, the industry in which we will compete;
- the ability of our management;
- the prospects for our future earnings;
- the present state of our development, results of operations and our current financial condition;
- the general condition of the securities markets at the time of this offering; and
- the recent market prices of, and the demand for, publicly traded ADSs common stock of generally comparable companies.

We cannot assure you that the initial public offering price will correspond to the price at which the ADSs will trade in the public market subsequent to this offering or that an active trading market for the ADSs will develop and continue after this offering.

In connection with the offering the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate covering transactions, and penalty bids in accordance with Regulation M under the Exchange Act.

- Stabilizing transactions permit bids to purchase the underlying security so long as the stabilizing bids do not exceed a specified maximum.
- Over-allotment involves sales by the underwriters of shares in excess of the number of the ADSs the underwriters are obligated to purchase, which creates a syndicate short position. The short position may be either a covered short position or a naked short position. In a covered short

position, the number of the ADSs over-allotted by the underwriters is not greater than the number of the ADSs that they may purchase in the over-allotment option. In a naked short position, the number of the ADSs involved is greater than the number of shares in the over-allotment option. The underwriters may close out any covered short position by either exercising their over-allotment option and/or purchasing shares in the open market.

- Syndicate covering transactions involve purchases of the ADSs in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of the ADSs to close out the short position, the underwriters will consider, among other things, the price of the ADSs available for purchase in the open market as compared to the price at which they may purchase the ADSs through the over-allotment option. If the underwriters sell more ADSs than could be covered by the over-allotment option, a naked short position, the position can only be closed out by buying shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there could be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.
- Penalty bids permit the representatives to reclaim a selling concession from a syndicate member when the ADSs originally sold by the syndicate member is purchased in a stabilizing transaction or a syndicate covering transaction to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of the ADSs or preventing or retarding a decline in the market price of the ADSs. As a result the price of the ADSs may be higher than the price that might otherwise exist in the open market. These transactions may be effected on the NASDAQ and, if commenced, may be discontinued at any time.

We will apply to have the ADSs listed on the NASDAQ under the symbol " _____ ."

Certain of the underwriters are expected to make offers and sales both inside and outside the United States through their respective selling agents. Any offers or sales in the United States will be conducted by broker-dealers registered with the SEC. China International Capital Corporation Hong Kong Securities Limited is not a broker-dealer registered with the SEC, and, to the extent that its conduct may be deemed to involve participation in offers or sales of ADSs in the United States, those offers or sales will be made through one or more SEC-registered broker-dealers in compliance with the applicable laws and regulations.

The address of Credit Suisse Securities (USA) LLC is Eleven Madison Avenue, New York, New York 10010, United States of America. The address of China International Capital Corporation Hong Kong Securities Limited is 29th Floor, One International Finance Centre, 1 Harbour View Street, Central, Hong Kong.

A prospectus in electronic format will be made available on the web sites maintained by one or more of the underwriters, or selling group members, if any, participating in this offering and one or more of the underwriters participating in this offering may distribute prospectuses electronically. The representatives may agree to allocate a number of ADSs to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make Internet distributions on the same basis as other allocations.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. Nature of Operations and Reorganization

(a) Nature of operations

36Kr Holdings Inc. ("36Kr" or the "Company"), is a holding company and conducts its business mainly through its subsidiaries and a variable interest entity ("VIE") and subsidiaries of the VIE (collectively referred to as the "Group"). The Group is primarily engaging in providing content and business services to new economy participants in the People's Republic of China (the "PRC"). The Group mainly generates revenues from providing online advertising services, enterprise value-added services and subscription services (collectively referred to as the "36Kr Business"). Unless there are plans to change locations, the Group's principal operations and geographic markets are substantially located in PRC.

(b) Reorganization

The Group commenced operations in 2010. Beijing Xieli Zhucheng Finance Information Service Co., Ltd. ("Xieli") was established in 2011 by Mr. Liu Chengcheng (the "Founder") to carry out the Group's principal business. In December 2016, the Group's business was carved out from Xieli ("Carve-out"), and incorporated into a newly set up company named Beijing Duoke Information Technology Co., Ltd. ("Beijing Duoke"; formerly named as Beijing Pinxin Media Culture Co., Ltd. and Beijing Sanshiliuke Culture Media Co., Ltd.), which was then a wholly owned subsidiary of Xieli.

The Company was incorporated as a limited liability company in the Cayman Islands on December 3, 2018. Through a series of contemplated reorganization steps (the "Reorganization"), the Company established Beijing Dake Information Technology Co., Ltd. (the "Beijing Dake") in June 2019 to gain control over Beijing Duoke through contractual arrangements and thereafter the 36Kr Business was transferred to the Group upon the completion of the Reorganization. The Reorganization was approved by the Board of Directors and a reorganization framework agreement was entered into by the Company, Beijing Duoke, the Founder and the shareholders of Beijing Duoke in June 2019.

(c) Basis of Presentation for the Reorganization

The Reorganization consists of transferring the 36Kr Business to the Group, which is owned by the shareholders of Beijing Duoke and Xieli immediately before and after the Reorganization. The shareholding percentages and rights of each shareholder are substantially the same in Beijing Duoke and in the Company immediately before and after the Reorganization. Accordingly, the Reorganization is accounted for in a manner similar to a common control transaction because of the high degree of common ownership, and it is determined that the transfers lack economic substance. Therefore, the accompanying consolidated financial statements include the assets, liabilities, revenue, expenses and cash flows of 36Kr Business for the periods presented and are prepared as if the corporate structure of the Group after the Reorganization had been in existence throughout the periods presented. Accordingly, the effect of the ordinary shares and the preferred shares issued by the Company pursuant to the Reorganization have been presented retrospectively as of the beginning of the earliest period presented on the consolidated financial statement or the original issue date, whichever is later, as if such shares were issued by the Company when the Group issued such interests.

The Reorganization has affected the following disclosures, (i) "Mezzanine equity" and "Shareholders' deficit" of the Consolidated Balance Sheets; (ii) "Accretions of convertible redeemable preferred shares to redemption value" and "Net income/(loss) per ordinary share" of Consolidated Statements of Comprehensive Income; (iii) Consolidated Statements of Changes in Shareholders' Deficit; (iv) Changed "Funding from Shareholders" to "Proceeds from issuance of Series C-1 preferred shares" and "Capital injection from shareholders", and added "Accretions of convertible redeemable preferred shares to redemption value" in "Supplemental schedule of non-cash investing and financing activities" of Consolidated Statements of Cash Flows; (v) Note 1 (b) (c)—Reorganization and Basis of Presentation for the Reorganization to reflect the completion of the Reorganization in August 2019; (vi) Note 11—Ordinary Shares; (vii) Note 12—Convertible Redeemable Preferred Shares; (viii) Note 2 (ab)—Net Income/(Loss) per share and Note 15—Basic and Diluted Net Income/(Loss) Per Share; and (ix) Note 14—Share-based compensation.

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Nature of Operations and Reorganization (Continued)****(d) Contractual agreements with the VIE**

In order to comply with the PRC laws and regulations which prohibit or restrict foreign control of companies involved in provision of internet content services, the Group operates its restricted businesses in the PRC through its VIE, whose equity interests are held by the Founder and other shareholders of the Group. The Company obtained control over the VIE by entering into a series of contractual arrangements with the legal shareholders who are also referred to as nominee shareholders. These nominee shareholders are the legal owners of the VIE. However, the rights of those nominee shareholders have been transferred to the Group through the contractual arrangements.

The contractual arrangements used to control the VIE are the power of attorney, equity pledge agreement, exclusive purchase option agreement and exclusive business cooperation agreement. The Company's management concluded that the Company, through the contractual arrangements, has the power to direct the activities that most significantly impact the VIE's economic performance and bears the risks of and enjoys the rewards normally associated with ownership of the VIE. Therefore, the Company is the ultimate primary beneficiary of the VIE. As such, the Company consolidates the financial statements of the VIE and its subsidiaries, and the financial results of the VIE were included in the Group's consolidated financial statements in accordance with the basis of presentation as stated in Note 2 (a).

The following is a summary of the contractual agreements that entered into by and among Beijing Dake, Beijing Duoke, and the nominee shareholders of Beijing Duoke;

Power of Attorney

The agreement will remain effective until Beijing Dake unilaterally terminates the agreement in writing or all equity interests in Beijing Duoke held by its shareholders are transferred or assigned to Beijing Dake or its designated representatives.

Equity Pledge Agreement

Beijing Dake, Beijing Duoke and the shareholders of Beijing Duoke have entered into an equity pledge agreement, pursuant to which the shareholders of Beijing Duoke have pledged all of their equity interests in Beijing Duoke that they own, including any interest or dividend paid for the shares, to Beijing Dake as a security interest to guarantee the performance by Beijing Duoke and its shareholders' performance of their respective obligations under the exclusive business cooperation agreement, exclusive purchase option agreement and power of attorney. Risks in relation to the VIE structure

A significant part of the Group's business is conducted through the VIE of the Group, of which the Company is the ultimate primary beneficiary. In the opinion of the management, the contractual arrangements with the VIE and the nominee shareholders are in compliance with PRC laws and regulations and are legally binding and enforceable. The nominee shareholders indicate they will not act contrary to the contractual arrangements. However, there are substantial uncertainties regarding the interpretation and application of the PRC laws and regulations including those that govern the contractual arrangements, which could limit the Group's ability to enforce these contractual arrangements and if the nominee shareholders of the VIE were to reduce their interests in the Group, their interest may diverge from that of the Group and that may potentially increase the risk that they would seek to act contrary to the contractual arrangements.

It is possible that the Group's operation of certain of its operations and businesses through the VIE could be found by PRC authorities to be in violation of PRC law and regulations prohibiting or restricting foreign ownership of companies that engage in such operations and businesses. While the

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Nature of Operations and Reorganization (Continued)**

Group's management considers the possibility of such a finding by PRC regulatory authorities under current law and regulations to be remote, on March 15, 2019, the National People's Congress adopted the Foreign Investment Law of the PRC, which will become effective on January 1, 2020 and replace three existing laws regulating foreign investment in China, namely, the Wholly Foreign-Invested Enterprise Law of the PRC, the Sino-Foreign Cooperative Joint Venture Enterprise Law of the PRC and the Sino-Foreign Equity Joint Venture Enterprise Law of the PRC, together with their implementation rules and ancillary regulations. The Foreign Investment Law of the PRC embodies an expected PRC regulatory trend to rationalize its foreign investment regulatory regime in line with prevailing international practice and the legislative efforts to unify the corporate legal requirements for both foreign and domestic investments. However, since it is relatively new, uncertainties still exist in relation to its interpretation and implementation. For example, the Foreign Investment Law of the PRC adds a catch-all clause to the definition of "foreign investment" so that foreign investment, by its definition, includes "investments made by foreign investors in China through other means defined by other laws or administrative regulations or provisions promulgated by the State Council" without further elaboration on the meaning of "other means." It leaves leeway for the future legislations promulgated by the State Council to provide for contractual arrangements as a form of foreign investment. It is therefore uncertain whether the Group's corporate structure will be seen as violating the foreign investment rules as the Group are currently leveraging the contractual arrangements to operate certain businesses in which foreign investors are prohibited from or restricted to investing. Furthermore, if future legislations prescribed by the State Council mandate further actions to be taken by companies with respect to existing contractual arrangement, the Group may face substantial uncertainties as to whether the Group can complete such actions in a timely manner, or at all. If the Group fail to take appropriate and timely measures to comply with any of these or similar regulatory compliance requirements, the Group's current corporate structure, corporate governance and business operations could be materially and adversely affected.

If the Group's corporate structure or the contractual arrangements with the VIE were found to be in violation of any existing or future PRC laws and regulations, the PRC regulatory authorities could, within their respective jurisdictions:

- revoking the business licenses and/or operating licenses of such entities;
- discontinuing or placing restrictions or onerous conditions on the Group's operation through any transactions between the PRC subsidiary and the VIE;
- imposing fines, confiscating the income from the PRC subsidiary or the VIE, or imposing other requirements with which the VIE may not be able to comply;
- requiring the Group to restructure the ownership structure or operations, including terminating the contractual arrangements with the VIE and deregistering the equity pledges of the VIE, which in turn would affect the Group's ability to consolidate, derive economic interests from, or exert effective control over the VIE;
- restricting or prohibiting the Group's use of the proceeds of this offering to finance the Group's business and operations in China; or
- taking other regulatory or enforcement actions that could be harmful to the Group's business.

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Nature of Operations and Reorganization (Continued)**

The imposition of any of these restrictions or actions could result in a material adverse effect on the Group's ability to conduct its business. In such case, the Group may not be able to operate or control the VIE, which may result in deconsolidation of the VIE in the Group's consolidated financial statements. In the opinion of the management, the likelihood for the Group to lose such ability is remote based on current facts and circumstances. The Group believes that the contractual arrangements among each of the VIE, their respective shareholders and relevant wholly foreign owned enterprise are in compliance with PRC law and are legally enforceable. The Group's operations depend on the VIE to honor their contractual arrangements with the Group. These contractual arrangements are governed by PRC law and disputes arising out of these agreements are expected to be decided by arbitration in the PRC. The Company's management believes that each of the contractual arrangements constitutes valid and legally binding obligations of each party to such contractual arrangements under the PRC laws. However, the interpretation and implementation of the laws and regulations in the PRC and their application on the legality, binding effect and enforceability of contracts are subject to the discretion of competent PRC authorities, and therefore there is no assurance that relevant PRC authorities will take the same position as the Group herein in respect of the legality, binding effect and enforceability of each of the contractual arrangements. Meanwhile, since the PRC legal system continues to evolve, the interpretations of many laws, regulations and rules are not always uniform and enforcement of these laws, regulations and rules involve uncertainties, which may limit legal protections available to the Group to enforce the contractual arrangements should the VIE or the nominee shareholders of the VIE fail to perform their obligations under those arrangements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

1. Nature of Operations and Reorganization (Continued)

The Company's involvement with the VIE is through the contractual arrangements disclosed in Note 1. All recognized assets held by the VIE are disclosed in the table above. Unrecognized revenue-producing assets held by the VIE include the Internet Content Provision License, tradename of 36Kr, the domain names of 36kr.com, 36Kr mobile application, 36Kr official account on social networks, customer relationship relating to online advertising and enterprise value-added services, customer lists relating to subscription services and assembled workforce.

In accordance with various contractual agreements, the Company has the power to direct the activities of the VIE and can have assets transferred out of the VIE. Therefore, the Company considers that there are no assets in the respective VIE that can be used only to settle obligations of the respective VIE, except for the registered capital of the VIE as well as certain non-distributable statutory reserves. As the respective VIE is incorporated as limited liability company under the PRC Company Law, creditors do not have recourse to the general credit of the Company for the liabilities of the respective VIE. There is currently no contractual arrangement that would require the Company to provide additional financial support to the VIE. As the Group is conducting certain businesses in the PRC through the VIE, the Group may provide additional financial support on a discretionary basis in the future, which could expose the Group to a loss.

There is no VIE in the Group where the Company or any subsidiary has a variable interest but is not the primary beneficiary.

2. Significant Accounting Policies

(a) Basis of presentation

The consolidated financial statements of the Group have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Significant accounting policies followed by the Group in the preparation of the accompanying consolidated financial statements are summarized below.

(b) Principles of consolidation

The consolidated financial statements include the financial statements of the Company, its subsidiaries, the VIE and the VIE's subsidiaries for which the Company is the ultimate primary beneficiary.

Subsidiaries are those entities in which the Company, directly or indirectly, controls more than one half of the voting power or has the power to appoint or remove the majority of the members of the board of directors, or to cast a majority of votes at the meeting of the board of directors, or to govern the financial and operating policies of the investee under a statute or agreement among the shareholders or equity holders.

A VIE is an entity in which the Company, or its subsidiary, through contractual arrangements, has the power to direct the activities that most significantly impact the entity's economic performance, bears the risks of and enjoys the rewards normally associated with ownership of the entity, and therefore is the primary beneficiary of the entity.

All significant intercompany transactions and balances between the Company, its subsidiaries, the VIE and subsidiaries of the VIE have been eliminated upon consolidation.

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

A non-controlling interest is recognized to reflect the portion of a subsidiary's equity which is not attributable, directly or indirectly, to the Group. When the non-controlling interest is contingently redeemable upon the occurrence of a conditional event which is not solely within the control of the Group, the non-controlling interest is classified as mezzanine equity. The details of redeemable non-controlling interests are set forth in Note 10 to the consolidated financial statements.

The Group records accretions on the redeemable non-controlling interests to the redemption value from the issuance dates to the earliest redemption dates. The accretions using the effective interest method, are recorded against retained earnings, or in the absence of retained earnings, by charges against additional paid-in capital. Once additional paid-in capital has been exhausted, additional charges are recorded by increasing the accumulated deficit. The issuance of the preferred shares as the redeemable non-controlling interests is recognized at the fair value at the date of issuance. For the years ended December 31, 2017 and 2018, accretions on the redeemable non-controlling interests to the redemption value were nil and RMB 1.03 million, respectively. Consolidated net income on the consolidated statements of comprehensive income includes the net income/(loss) attributable to the mezzanine equity holders when applicable. For the years ended December 31, 2017 and 2018, there was no net loss attributable to mezzanine equity holders. The cumulative results of operations attributable to the non-controlling interests and the accretion on redeemable non-controlling interests to redemption value are also recorded as redeemable non-controlling interests of mezzanine equity in the Group's consolidated balance sheets. Cash flows related to transactions with non-controlling interests holders are presented under financing activities in the consolidated statements of cash flows when applicable.

(c) Use of estimates

The preparation of the consolidated financial statements in conformity with the U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the balance sheet date, and the reported revenues and expenses during the reporting periods in the consolidated financial statements and accompanying notes. Significant accounting estimates include, but are not limited to, determination of assessment for the impairment of long-lived assets, allowance for doubtful accounts, valuation allowance of deferred tax assets and valuation and recognition of share-based compensation expenses. Actual results could differ from those estimates and such differences may be material to the consolidated financial statements.

(d) Functional currency and foreign currency translation

The Group's reporting currency is Renminbi ("RMB"). The functional currency of the Company is United States dollar ("US\$"). The functional currency of the Group's PRC entities, the VIE and the VIE's PRC subsidiaries is RMB. The functional currency of the VIE's subsidiary incorporated in Singapore is Singapore dollar. The determination of the respective functional currency is based on the criteria set out by ASC 830, Foreign Currency Matters.

Transactions denominated in foreign currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing on the transactions date. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

exchange rates prevailing at the balance sheet dates. Exchange gains and losses arising from foreign currency transactions are recorded in the consolidated statements of comprehensive income.

The financial statements of the Group's non PRC entities are translated from their respective functional currencies into RMB. Assets and liabilities are translated into RMB using the applicable exchange rates at the balance sheet date. Equity accounts other than earnings generated in the current period are translated into RMB using the appropriate historical rates. Revenues, expenses, gains and losses are translated into RMB using the average exchange rates for the relevant period. The resulting foreign currency translation adjustments are reported in other comprehensive income in the consolidated statements of comprehensive income, and the accumulated foreign currency translation adjustments are presented as a component of accumulated other comprehensive income in the consolidated statements of changes in shareholders' deficit. Total foreign currency translation adjustments included in the Group's other comprehensive income were nil and RMB 231,000 for the years ended December 31, 2017 and 2018, respectively.

(e) Convenience translation

Translations of the consolidated balance sheets, consolidated statements of comprehensive income and consolidated statements of cash flows from RMB into US\$ as of and for the year ended December 31, 2018 are solely for the convenience of the reader and were calculated at the rate of US\$1.00 = RMB 6.8650, representing the noon buying rate in the H.10 statistical release of the U.S. Federal Reserve Board on June 28, 2019. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into US\$ at that rate on December 31, 2018, or at any other rate.

(f) Fair value measurements

Accounting guidance defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Group considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

Accounting guidance establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Accounting guidance establishes three levels of inputs that may be used to measure fair value:

- a. Level 1—Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- b. Level 2—Observable, market-based inputs, other than quoted prices, in active markets for identical assets or liabilities.
- c. Level 3—Unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

Accounting guidance describes three main approaches to measure the fair value of assets and liabilities: (1) market approach; (2) income approach and (3) cost approach. The market approach uses prices and other relevant information generated from market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that would currently be required to replace an asset.

Transfers into or out of fair value hierarchy classifications are made if the significant inputs used in the financial models measuring the fair value of the assets and liabilities become unobservable or observable in the current marketplace. These transfers are considered to be effective as of the beginning of the period in which they occur. The Group did not transfer any assets or liabilities in or out of Level 2 during the years ended December 31, 2017 and 2018.

The Group's financial instruments consist principally of cash and cash equivalents, short-term investments, accounts receivable, receivables due from related parties, other receivables, accounts payable, accrued liabilities and other payables and amounts due to related parties.

As of December 31, 2017 and 2018, the fair values of cash and cash equivalents, accounts receivable, receivables due from related parties, other receivables, accounts payable, accrued liabilities and other payables and amounts due to related parties approximated their carrying values reported in the consolidated balance sheets due to the short term maturities of these instruments.

On a recurring basis, the Group measures its short-term investments at fair value. For the details of the short-term investments, please refer to Note 2 (h).

The following table sets forth the Group's assets and liabilities that are measured at fair value on a recurring basis and are categorized using the fair value hierarchy:

As of December 31, 2017

Short-term investments—Wealth management products	—	145,451	—	145,451

Wealth management products with Level 2 inputs are valued using quoted subscription or redemption prices published by the banks or using discounted cash flow method at a quoted rate of return provided by banks at the end of each year.

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)****(g) Cash and cash equivalents**

Cash and cash equivalents represent cash in banks and highly liquid investments placed with banks or other financial institutions, which are unrestricted to withdrawal or use, and which have original maturities of three months or less.

(h) Short-term investments

Short-term investments include investments in wealth management products issued by China Merchants Bank, which are redeemable by the Company at a periodic term or any working day within one year. The wealth management products are unsecured with variable interest rates and primarily invested in financial instruments with high credit rating and good liquidity in the interbank and exchange markets, including but not limited to debt securities issued by the PRC government, central bank bills, interbank and exchange-traded bond, and assets backed securities. The Company measures the short-term investments at fair value using the quoted subscription or redemption prices published by these banks or by discounting the future cash flows at the expected yield rate with reference to the expected benchmark yield rates of the wealth management products of banks. The changes in fair value of short-term investments were recognized as the unrealized gains from investing in the wealth management products amounted to RMB 334,000 and RMB 3,498,000 in the short-term investment income to the consolidated statements of comprehensive income for the years ended 2017 and 2018, respectively. The realized gains from disposal of the wealth management products were RMB 37,000 and RMB 5,802,000 in the short-term investment income to the consolidated statements of comprehensive income for the years ended 2017 and 2018, respectively.

(i) Accounts receivable, net

Accounts receivable are stated at the historical carrying amount net of write-offs and the allowance for doubtful accounts. The Group reviews the accounts receivable on a periodic basis and provides allowances when there is doubt as to the collectability of individual balance. In evaluating the collectability of individual accounts receivable balances, the Group considers several factors, including the age of the balance, the customer's payment history, and current credit-worthiness, and current economic trends. Account receivable balances are written off after all collection efforts have been exhausted.

(j) Property and equipment, net

Property and equipment are stated at cost less accumulated depreciation and impairment, if any. Depreciation is computed using the straight-line method over the estimated useful lives of the assets as follows:

	Estimated useful life
Electronic equipment and computers	3 to 5 years
Office furniture and equipment	3 years
Leasehold improvement	Lesser of the term of the lease or the estimated useful lives of the leasehold improvement

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

Repair and maintenance costs are charged to expenses as incurred, whereas the cost of renewals and betterment that extend the useful lives of property and equipment is capitalized as addition to the related assets. Retirements, sales and disposals of assets are recorded by removing the cost and accumulated depreciation from the assets and accumulated depreciation accounts with any resulting gain or loss reflected in the consolidated statement of comprehensive income.

(k) Intangible assets, net

Intangible assets mainly consist of computer software purchased from unrelated third parties. Purchased intangible assets are initially recognized and measured at fair value. Intangible assets are stated at cost less impairment and accumulated amortization, which is computed using the straight-line method over the estimated useful lives of the assets. The estimated useful life is 3 years for computer software.

(l) Impairment of long-lived assets

The Group evaluates its long-lived assets with finite lives for impairment whenever events or changes in circumstances (such as a significant adverse change to market conditions that will impact the future use of the assets) indicate that the carrying amount of an asset may not be fully recoverable. When these events occur, the Group evaluates the impairment by comparing carrying amount of the assets to an estimate of future undiscounted cash flows expected to be generated from the use of the assets and their eventual disposition. If the sum of the expected future undiscounted cash flows is less than the carrying amount of the assets, the Group recognizes an impairment loss based on the excess of the carrying amount of the long-lived assets over their fair value. No impairment of long-lived assets was recognized for the years ended December 31, 2017 and 2018.

(m) Equity method investments

Investments in entities in which the Group can exercise significant influence but does not control or own a majority equity interest are accounted for using the equity method of accounting in accordance with ASC Topic 323 Investments-Equity Method and Joint Ventures. The Group adjusts the carrying amount of equity method investments for its share of the income or losses of the investee and reports the recognized income or losses in the consolidated statements of comprehensive income. The Group's share of the income or losses of an investee are based on the shares of common stock and in-substance common stock held by the Group.

An impairment loss on the equity method investments is recognized in the consolidated statements of comprehensive income when the decline in value is determined to be other-than-temporary.

(n) Revenue recognition

The Group early adopted ASC Topic 606, "Revenue from Contracts with Customers" (ASC 606) for all years presented. According to ASC 606, revenue is recognized when control of the promised goods or services is transferred to the customers, in an amount that reflects the consideration the Group expects to be entitled to in exchange for those goods or services. The Group determine revenue recognition through the following steps:

- identification of the contract, or contracts, with a customer;

36Kr Holdings Inc.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

2. Significant Accounting Policies (Continued)

- identification of the performance obligations in the contract;
- determination of the transaction price, including the constraint on variable consideration;
- allocation of the transaction price to the performance obligations in the contract; and
- recognition of revenue when (or as) the Group satisfy a performance obligation.

The following is a description of the accounting policy for the principal revenue streams of the Group.

I. Online advertising services

Online advertising revenue is derived principally from advertising contracts with customers, which allow advertisers to place advertisements on agreed areas of the Company's PC website, mobile application and official accounts in other social networks, mainly in Weibo, Weixin/WeChat, and Toutiao (collectively referred to as "36Kr Platforms") in different formats and over a particular period of time. The Group displays advertisement provided by customers in a variety of forms such as full screen display, banners, and pop-ups. The Group also helps produce advertisements based on the customers' requests, and post the advertisements on the 36Kr Platforms to help promote customers' products and enhance their brand awareness. The Group has developed capabilities in generating and distributing its own and third-party high-quality content on 36Kr Platforms, there is no third party content for fulfilling a promise to the customers for the years ended December 31, 2017 and 2018.

The Group generates its online advertising service revenue primarily (i) at a fixed fee per each day's advertisement display, which is known as the Cost Per Day ("CPD") model, and (ii) at a fixed fee per each advertisement posted on the 36Kr Platforms, which the Group refers as the cost-per-advertisement model. The Group recognizes revenue for the amount of fees it receives from its advertisers, after deducting discounts and net of value-added tax ("VAT") under ASC 606.

The Group's online advertising contracts with customers may include multiple performance obligations. For such arrangements, the Group allocates revenues to each performance obligation based on its relative standalone selling price. The Group generally determines standalone selling prices of each distinct performance obligation based on the prices charged to customers when sold on a standalone basis.

Under the CPD model, a contract is signed to establish a fixed price for the advertising services to be provided over a period of time. Given the advertisers benefit from the advertising evenly, the Group recognizes revenue on a straight-line basis over the period of display, provided all revenue recognition criteria have been met. Under the cost-per-advertisement model, as all the economic benefit enjoyed by the customer can be substantially realized at the time the advertisements are posted initially, the Group recognizes revenue at a point in time when it posts the advertisements initially.

II. Enterprise value-added services

The principal enterprise value-added services that the Group provides to customers are set out as follows:

(i) Integrated marketing

The Group helps its customers develop tailored and diverse marketing strategies to improve their marketing efficiency. Integrated marketing services include providing marketing plan, marketing event organization and execution, and public relations, etc.

(ii) Offline events

The Group organizes diverse events, such as summits, forums, industry conferences and fan festivals in a bid to create brand-building opportunities and to facilitate business cooperation and investment opportunities. The services provided by the Group to the customer who then becomes a sponsor of such events including for the sponsor to participate as a speaker, to launch new products of the sponsor, to place advertisements at offline events and the 36Kr Platforms during the course of events.

(iii) Consulting

The Group provides consulting services to customers to help them seek new business opportunities and partners by leveraging the Group's extensive network of New Economy participants.

In certain circumstances, the Group engages third party suppliers to perform part of the aforementioned services in fulfilling its contract obligation. In these cases, the Group controls and takes responsibilities for such services before the services are transferred to the customer. The Group has the right to direct the suppliers to perform the service and control the goods or assets transferred to its customers. In addition, the Group combines and integrates the separate services provided by the suppliers into the specified marketing or business consulting solutions to its customers. Thus, the Group considers it should recognize revenue as a principal in the gross amount of consideration to which it is entitled in exchange for the specified services transferred.

Although a bundle of services are provided to the customers in each of the three services mentioned above, the Group's overall commitment in such contract arrangement is to transfer a combined item at a fixed fee, which is an integrated marketing or business consulting solution, to which the individual services are inputs. The integrated services are customized for the customers, and they are interdependent and interrelated. Therefore, the Group combines such bundle of services in the contracts into a single performance obligation. Most of the offline events are completed within several days, and most of the contracts of integrated marketing solution and business consulting are completed within one year. The revenues are recognized ratably over the duration of such events and activities.

In addition to the traditional marketing services above, the Group provides interactive marketing services through interactive marketing dispensers equipped with large display screen, sensors and speakers. The Group usually uses the machines to provide promotion services to the customer's new products. Revenue is recognized when these services are rendered and determined

based on the number of items dispensed or at a fixed contract price in a period of time. For the years ended December 31, 2017 and 2018, the revenue derived from such service was not significant.

III. Subscription services

(i) Institutional investor subscription services

The Group offers institutional investor subscription services, a service package to institutional investors, which consists of creating the investor yellow page on 36Kr Platform, publishing articles about the investors and their investees on the 36Kr Platform and priority access to 36Kr's offline activities, etc. The Group offers such subscription benefits to its institutional investor subscribers for a fixed period subscription fee.

The institutional investor subscription services involve multiple performance obligations. The Group allocates revenues to each performance obligation based on its relative standalone selling price. The Group generally determines standalone selling prices of each distinct performance obligation based on the prices charged to customers when sold on a standalone basis. Where standalone selling price is not directly observable, the best estimate of the stand-alone selling price is taken into consideration of the pricing of advertisings or enterprise value-added services of the Group with similar characteristics and advertisements or services with similar formats and quoted prices from competitors and other market conditions. Most of such contracts have all performance obligations completed within one year. The revenue has been recognized over the period when such services are delivered or when the services are rendered based on the transaction price allocated to each performance obligation.

(ii) Individual subscription services

The Group provides paid columns, online courses and offline trainings services to its individual subscribers. The revenue of paid columns and online courses generated from the individual subscription services for the years ended December 31, 2017 and 2018 was not significant.

The revenue of paid columns and online courses are derived from providing fee-based online content to individuals on the 36Kr Platform. The revenues generated from paid columns and online courses are recognized evenly over the economic period that individual subscribers can benefit, which is usually less than one year.

The Group also provides two forms of offline training services. One is organized by the Group, and the Group is responsible for delivering the training to the individual subscribers and has primary responsibility and broad discretion to establish price. Therefore, the Group is considered the primary obligor in these transactions and recognize the revenues at a gross basis. The other form of offline training services provided by the Group is to help recruit the trainees and coordinate the training activities instructed by the training organizer and sponsor. The revenue is recognized over the service period on a net basis as the Group considers itself as an agent in such arrangement.

Contract balances

Timing of revenue recognition may differ from the timing of invoicing to customers. The Group records contract asset when the Group has a right to consideration in exchange for goods or services that it has transferred to a customer and when that right is conditioned on something other than the passage of time (for example, the entity's future performance). Accounts receivable represent amounts invoiced and revenue recognized prior to invoicing, when the Group has satisfied its performance obligations and has the unconditional right to payment. As of December 31, 2017 and 2018, there were no contract assets recorded in the Group's consolidated balance sheets.

If a customer pays consideration, or the Group has a right to an amount of consideration that is unconditional (that is, a receivable), before the Group transfers a good or service to the customer, the Group shall present the contract as a contract liability when the payment is made or the payment is due (whichever is earlier). A contract liability is the Group's obligation to transfer goods or services to a customer for which it has received consideration (or an amount of consideration is due) from the customer. Receipts in advance and deferred revenue relate to unsatisfied performance obligations at the end of the period and primarily consist of fees received from advertisers. Due to the generally short-term duration of the contracts, the majority of the performance obligations are satisfied in the following reporting period. Contract liability is presented as deferred revenue in the consolidated balance sheets. Revenue recognized for the years ended December 31, 2017 and 2018 that was included in the contract liabilities balance at the beginning of the period was nil and RMB 3,546,000, respectively.

Practical Expedients and Exemptions

The Group generally expenses sales commissions when incurred because the amortization periods are generally one year or less. These costs are recorded within sales and marketing expenses.

(o) Cost of revenues

The Group's cost of revenues consists primarily of (i) personnel-related expenses in relation to the content production; (ii) advertising content producing costs, such as video production costs; (iii) site fee and execution fee of enterprise value-added services and offline training; (iv) equipment location rental fee and operating expense; (v) business tax and surcharges; (vi) bandwidth and server cost, depreciation and other miscellaneous costs.

(p) Sales and marketing expenses

Sales and marketing expenses consist primarily of personnel-related expenses including sales commissions related to the sales and marketing personnel; marketing and promotional expenses including promotion activity outsourcing costs; rental expenses and depreciation expenses.

Advertising costs are expensed as incurred, and are included in sales and marketing expenses. For the years ended December 31, 2017 and 2018, total advertising expenses were RMB 3.14 million and RMB 3.76 million, respectively.

(q) General and administrative expenses

General and administrative expenses consist primarily of payroll and related expenses for employees involved in general corporate functions, including finance, legal and human resources; costs associated with use by these functions of facilities and equipment, such as depreciation, rental and other general corporate related expenses.

(r) Research and development expenses

Research and development expenses consist primarily of (i) personnel-related expenses associated with the development of, enhancement to, and maintenance of the Group's PC websites, mobile applications and mobile websites; (ii) expenses associated with new technology and product development and enhancement; and (iii) rental expense and depreciation of servers.

For internal use software, the Group expenses all costs incurred for the preliminary project stage and post implementation-operation stage of development, and costs associated with repair or maintenance of the existing platform. Costs incurred in the application development stage are capitalized and amortized over the estimated useful life. Since the amount of the Company's research and development expenses qualifying for capitalization has been immaterial, as a result, all development costs incurred for development of internal used software have been expensed as incurred.

For external use software, costs incurred for development of external use software have not been capitalized since the inception of the Company, because the period after the date technical feasibility is reached and the time when the software is marketed is short historically, and the amount of costs qualifying for capitalization has been immaterial.

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)****(s) Operating lease**

Leases where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Payments made under operating leases are charged to the consolidated statements of comprehensive income on a straight-line basis over the lease periods. The Group had no capital leases for the years ended December 31, 2017 and 2018.

(t) Share-based compensation

All share-based awards granted to employees are restricted share units, which are measured at fair value on grant date. Share-based compensation expense is recognized using the straight-line method, over the requisite service period, which is the vesting period. The Group early adopted ASU 2016-09 from the earliest period presented to recognize the effect of forfeiture in compensation cost when they occur. The fair value of the restricted share units were assessed using the income approaches / market approaches, with a discount for lack of marketability given that the shares underlying the awards were not publicly traded at the time of grant. This assessment required complex and subjective judgments regarding the Company's projected financial and operating results, its unique business risks, the liquidity of its ordinary shares and its operating history and prospects at the time the grants were made.

Cancellation of an award accompanied by the grant of a replacement award is accounted for as a modification of the terms of the cancelled award ("modification awards"). The compensation costs associated with the modification awards are recognized if either the original vesting condition or the new vesting condition has been achieved. If the awards are expected to vest under the original vesting condition, the compensation cost would be recognized regardless of whether the employee satisfies the modified condition. Such compensation costs cannot be less than the grant-date fair value of the original award. The incremental compensation cost is measured as the excess of the fair value of the replacement award over the fair value of the cancelled award at the cancellation date. Therefore, in relation to the modification awards, the Group recognizes share-based compensation over the vesting periods of the new awards, which comprises (i) the amortization of the incremental portion of share-based compensation over the remaining vesting term and (ii) any unrecognized compensation cost of original award, using either the original term or the new term, whichever is higher for each reporting period.

(u) Employee benefits

The Group's consolidated subsidiaries, the VIE and the VIE's subsidiaries in the PRC (the PRC Entities) participate in a government-mandated multi-employer defined contribution plan pursuant to which certain retirement, medical and other welfare benefits are provided to employees. The relevant labor regulations require the PRC Entities to pay the local labor and social welfare authorities' monthly contributions at a stated contribution rate based on the monthly basic compensation of qualified employees. The relevant local labor and social welfare authorities are responsible for meeting all retirement benefits obligations and the PRC Entities have no further commitments beyond their monthly contributions. The contributions to the plan are expensed as incurred. Employee social security and welfare benefits included as cost and expenses in the consolidated statements of comprehensive income were appropriately RMB 9.12 million and RMB 21.79 million for the years ended December 31, 2017 and 2018, respectively.

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)****(v) Taxation***Income taxes*

Current income taxes are provided on the basis of net income for financial reporting purposes, adjusted for income and expense items which are not assessable or deductible for income tax purposes, in accordance with the regulations of the relevant tax jurisdictions.

The Group follows the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on the temporary differences between the financial statements carrying amounts and tax basis of existing assets and liabilities by applying enacted statutory tax rates that will be in effect in the period in which the temporary differences are expected to reverse. The Group records a valuation allowance to reduce the amount of deferred tax assets if based on the weight of available evidence, it is more-likely-than-not that some portion, or all, of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rates is recognized in the consolidated statement of comprehensive income in the period of change.

Uncertain tax positions

In order to assess uncertain tax positions, the Group applies a more likely than not threshold and a two-step approach for the tax position measurement and financial statement recognition. Under the two-step approach, the first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount that has a more than 50% likelihood of being realized upon settlement. The Group recognizes interest and penalties, if any, under accrued expenses and other current liabilities on its consolidated balance sheets and under other expenses in its consolidated statement of comprehensive income. The Group did not have any unrecognized uncertain tax positions as of and for the years ended December 31, 2017 and 2018.

(w) Other income—Others, net

Other income—Others, net mainly represent government subsidies which primarily consist of financial subsidies received from provincial and local governments for operating a business in their jurisdictions. Such income has been recognized when the grants are received and no further conditions need to be met.

(x) Comprehensive income

Comprehensive income is defined as the change in equity of the Group during a period arising from transactions and other events and circumstances excluding transactions resulting from investments by shareholders and distributions to shareholders. Comprehensive income is reported in the consolidated statements of comprehensive income. Accumulated other comprehensive income, as presented on the Group's consolidated balance sheets, includes the foreign currency translation.

(y) Related parties

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

decisions. Parties are also considered to be related if they are subject to common control or significant influence, such as a family member or relative, shareholders, or a related corporation.

(z) Segment reporting

The Group's chief operating decision maker ("CODM") has been identified as its Chief Executive Officer, who reviews the consolidated results when making decision about allocating resources and assessing performance of the Group as a whole. Hence, the Group has only one reportable segment. The Group does not distinguish between markets or segments for the purpose of internal reporting. The Group's long-lived assets are substantially all located in the PRC and substantially all of the Group's revenues are derived from the PRC. Therefore, no geographical segments are presented.

The Group's organizational structure is based on a number of factors that the CODM uses to evaluate, view and run the Group's business operations, which include, but are not limited to, customer base, homogeneity of services and technology. The Group's reporting segment is based on its organizational structure and information reviewed by the Group's CODM to evaluate the reporting segment result.

(aa) Statutory reserves

The Group's consolidated subsidiaries, the VIE and VIE's subsidiaries established in the PRC are required to make appropriations to certain non-distributable reverse funds.

In accordance with the law applicable to the Foreign Investment Enterprises established in the PRC, the Company's subsidiaries registered as wholly-owned foreign enterprise have to make appropriations from their annual after-tax profit (as determined under generally accepted accounting principles in the PRC ("PRC GAAP")) to reserve funds including general reserve fund, enterprise expansion fund and staff bonus and welfare fund. The appropriation to the general reserve fund must be at least 10% of the annual after-tax profits calculated in accordance with the PRC GAAP. Appropriation is not required if the general reserve fund has reached 50% of the registered capital of the company. Appropriation to the enterprise expansion fund and staff bonus and welfare fund are made at the respective company's discretion.

In addition, in accordance with the PRC Company Law, the Group's VIE registered as Chinese domestic company must make appropriations from its annual after-tax profits as determined under the PRC GAAP to non-distributable reserve funds including statutory surplus fund and discretionary surplus fund. The appropriation to the statutory surplus fund must be 10% of the annual after-tax profits as determined under the PRC GAAP. Appropriation is not required if the statutory surplus fund has reached 50% of the registered capital of the company. Appropriation to the discretionary surplus fund is made at the discretion of the company.

The use of the general reserve fund, enterprise expansion fund, statutory surplus fund and discretionary surplus fund are restricted to offsetting of losses or increasing of the registered capital of the respective company. The staff bonus and welfare fund is a liability in nature and is restricted to fund payment of special bonus to employee and for the collective welfare of all employees. None of these reserves are allowed to be transferred to the company in terms of cash dividends, loan or advances, nor can they be distributed except under liquidation.

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

Profit appropriation to above reserve funds was made for the Group's entities established in the PRC was RMB 0.01 million and RMB 3.64 million for the years ended December 31, 2017 and 2018, respectively.

(ab) Net Income/(loss) per share

Net income/(loss) per share is computed in accordance with ASC 260, "Earnings per Share". The two-class method is used for computing earnings per share in the event the Group has net income available for distribution. Under the two-class method, net income is allocated between ordinary shares and other participating securities based on their participating rights. The Company's convertible redeemable preferred shares may be considered as participating securities because they are entitled to receive dividends or distributions on an as if converted basis if the Group has net income available for distribution under certain circumstances. Net losses are not allocated to other participating securities as they are not obligated to share the losses based on their contractual terms.

Diluted income/(loss) per share is calculated by dividing net income/(loss) attributable to ordinary shareholders as adjusted for the effect of dilutive ordinary equivalent shares, if any, by the weighted average number of ordinary and dilutive ordinary equivalent shares outstanding during the period. Dilutive equivalent shares are excluded from the computation of diluted income per share if their effects would be anti-dilutive. Ordinary share equivalents consist of the ordinary shares issuable in connection with the Group's convertible redeemable preferred shares using the if-converted method, and ordinary shares issuable upon the vesting of the restricted share units, using the treasury stock method.

3. Recently issued accounting pronouncements

The Group qualifies as an "emerging growth company", or EGC, pursuant to the Jumpstart Our Business Startups Act of 2012, as amended, or the JOBS Act. As an EGC, the Group does not need to comply with any new or revised financial accounting standards until such date that a private company is otherwise required to comply with such new or revised accounting standards.

Revenue from Contracts with Customers. In May 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-09, "Revenue from Contracts with Customers (Topic 606)," a new standard on revenue which superseded the revenue recognition requirements in ASC 605. The new standard, as amended, sets forth a single comprehensive model for recognizing and reporting revenues. The new guidance requires the Company to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The new guidance requires the Company to apply the following steps: (1) identify the contract with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract; and (5) recognize revenue when, or as, the Company satisfies a performance obligation. The standard also requires additional financial statement disclosures that will enable users to understand the nature, amount, timing and uncertainty of revenues and cash flows relating to customer contracts. The standard is effective for fiscal years, and interim periods within those years, beginning on or after January 1, 2018 for public companies. Early adoption is permitted but not before the original effective date of January 1, 2017. The Company has early adopted the standard using the full retrospective method.

Financial Instruments-overall: Recognition and Measurement of Financial Assets and Financial Liabilities. In January 2016, the FASB issued ASU 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities", which amends certain aspects of recognition, measurement, presentation and disclosure of financial instruments. This amendment requires all equity investments to be measured at fair value, with changes in the fair value recognized through net income (other than those accounted for under equity method of accounting or those that result in consolidation of the investee). This standard is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years for public companies. The standard is effective for the Group beginning after December 15, 2018. Based on the evaluation, the Group considers the adoption has no material impact on the Group's consolidated financial statements.

Financial Instruments-overall: Credit Losses. In June 2016, the FASB issued ASU 2016-13, "Financial Instruments-Credit Losses (Topic 326)", which introduces new guidance for the accounting for credit losses on instruments within its scope. The new FASB model, referred to as the current expected credit losses ("CECL") model, will apply to: (1) financial asset subject to credit losses and measured at amortized cost and (2) certain off-balance sheet credit exposures. This includes loans, held-to-maturity debt securities, loan commitments, financial guarantees, and net investment in leases, as well as reinsurance and trade receivables. This replaces the existing incurred loss model. This guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption will be permitted for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018 for public companies. The standard is effective for the Group beginning after December 15, 2021. The Group is currently evaluating the impact that the standard will have on its consolidated financial statements and related disclosures.

Leases. In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)", specifies the accounting for leases. For operating leases, ASU 2016-02 requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. In addition, this standard requires both lessees and lessors to disclose certain key information about lease transactions. ASU 2016-02 is effective for public companies for annual reporting periods, and interim periods within those years, beginning after December 15, 2018. The standard is effective for the Group beginning after December 15, 2019 and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted. The Group is currently evaluating the impact of adopting this standard on its consolidated financial statements.

Statement of Cash Flows. In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows—Classification of Certain Cash Receipts and Cash Payments", which clarifies the presentation and classification of certain cash receipts and cash payments in the statement of cash flows. This guidance is effective for financial statements issued for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years for public companies. Early adoption is permitted. The standard is effective for the Group beginning after December 15, 2018 and interim periods within fiscal years beginning after December 15, 2019. Based on the evaluation, the Group considers the adoption has no material impact on the Group's consolidated financial statements.

Fair Value Measurement (Topic 820). In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement, which eliminates, adds and modifies certain disclosure requirements for fair value measurements. Under the guidance, public companies will be required to disclose the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements. The guidance is effective for all entities for fiscal years beginning after December 15, 2019 and for interim periods within those fiscal years, but entities are permitted to early adopt either the entire standard or only the provisions that eliminate or modify the requirements. The Group is currently in the process of evaluating the impact of the adoption of this guidance on its consolidated financial statements.

4. Concentrations and risks**(a) Concentration of customers and suppliers**

Customers accounting for more than 10% of the Group's total revenues for the years ended December 31, 2017 and 2018 and more than 10% of the Group's net accounts receivable as of December 31, 2017 and 2018 were as follows:

	<u>2017</u>	<u>2018</u>
Supplier I	27%	16%
Supplier II	18%	—
Supplier III	12%	—

b) Credit risk

The Group's credit risk primarily arises from cash and cash equivalents, short-term investments, receivables due from its customers, related parties and other parties. The maximum exposure of such assets to credit risk is the assets' carrying amounts as of the balance sheet dates. The Group expects that there is no significant credit risk associated with cash and cash equivalents and short term

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****4. Concentrations and risks (Continued)**

investments which were held by reputable financial institutions in the jurisdictions where the Company, its subsidiaries, VIE and the subsidiaries of the VIE are located. The Group believes that it is not exposed to unusual risks as these financial institutions have high credit quality.

The Group believes that there is no significant credit risk associated with amounts due from related parties. Receivables due from customers are typically unsecured in the PRC and the credit risk with respect to which is mitigated by credit evaluations the Group performs on its customers and its ongoing monitoring process of outstanding balances.

c) Foreign currency risk

The Group's operating transactions are mainly denominated in RMB, which is not freely convertible into foreign currencies. The value of the RMB is subject to changes by the central government policies and to international economic and political development. In the PRC, certain foreign exchange transactions are required by law to be transacted only by authorized financial institutions at exchange rates set by the People's Bank of China (the "PBOC"). Remittances in currencies other than RMB by the Group in China must be processed through PBOC or other China foreign exchange regulatory bodies which require certain supporting documentation in order to effect the remittance.

d) PRC regulations

The Group is required to obtain certain licenses to operate the Internet information services including Internet news information license, Internet audio-visual program transmission license, Internet publishing license and completing the update procedures of the value-added telecommunication license. Online culture operating permit and production and operation of radio and television programs license may also be required by the relevant authorities due to the uncertainties of the interpretation of the related laws and regulations. Without these licenses, the PRC government may order the Group to cease its services, which may cause disruption to the Group's business operations. As of the date of the report, the Group is planning to apply for licenses and permits for the certain operations of the businesses.

enterprises and media practitioners, and held 38.89% equity interest of Huake. As the Group has significant influence over financial and operating decision-making of Huake, the Group accounted for the 38.89% equity interests in Huake by using the equity method of accounting. As of December 31, 2017 and 2018, the carrying value of equity method investment in Huake was approximately RMB 2.95 million and nil, respectively.

In August 2018, Huake had suspended its business and planned to dissolve due to the below-expectation business performance. The administrative approval by the relevant authorities for the dissolution of Huake was completed in January 2019. As of December 31, 2018, the Group recognized RMB 0.16 million of other receivables according to the amounts that are expected to be collected after the liquidation, which was fully received in January 2019.

The losses from the equity method investment in Huake recorded in the consolidated statements of comprehensive income were RMB 0.55 million and RMB 2.79 million for the years ended December 31, 2017 and 2018, respectively.

The guarantee deposits were paid by potential business partners to the Group in late December 2017 as the Group planned to carry out a new business aiming to expand its advertising and services market shares. The guarantee deposits were repaid by the Group in December 2018 due to the termination of such new business.

10. Redeemable non-controlling interests

In January 2018, Beijing Duoke established KrAsia, which is a limited liability company in Singapore with a paid-up share capital of US\$3,000 divided into 30,000 ordinary shares. KrAsia's principal business is operating an online platform for telecommunications, media and technology entrepreneurship, which is contemplated to be in the similar business of Beijing Duoke in Southeast Asia. Pursuant to the shareholders agreement ("SHA") that were entered into by several institutional investors ("Investors"), Beijing Duoke, and KrAsia in March 2018, KrAsia allotted and issued redeemable convertible preference shares ("RCPS") to the Investors ("RCPS Shareholder") at

36Kr Holdings Inc.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)****10. Redeemable non-controlling interests (Continued)**

considerations amounted to approximately US\$ 1.06 million in aggregate. Upon the issuance, Beijing Duoke has approximately 56.25% equity interest in KrAsia.

According to the SHA, on the occurrence of certain events that are not within the control of KrAsia, a majority of RCPS Shareholders shall have the right to require KrAsia to redeem all the RCPS held by the RCPS Shareholders at 1.5 times of the subscription price per RCPS. Beijing Duoke provides guarantee to such redemption obligation of KrAsia to the RCPS Shareholders. Hence the Group considers KrAsia is a VIE mainly due to the fact that the ordinary shares held by Beijing Duoke is equity at risk which is insufficient to finance KrAsia's expected activities without additional subordinated financial support. In addition, as the Group has the obligation to absorb all the losses and the right to receive benefits from KrAsia that could potentially be significant to KrAsia and the Group has power to direct the most significant activities of KrAsia, the Group is considered the primary beneficiary of KrAsia and consolidates KrAsia in accordance with ASC 810, Consolidation.

As KrAsia has preference shares that could be redeemed by non-controlling shareholders, the RCPS Shareholders, upon the occurrence of certain events that are not solely within the control of KrAsia, the RCPS are accounted for as redeemable non-controlling interests in mezzanine equity.

The changes in the amount of redeemable non-controlling interests for the year ended December 31, 2018 are as follows:

	RMB'000
Balance at beginning of year	—

11. Ordinary Shares

In December 2018, the Company was incorporated as a limited liability company with authorized share capital of US\$50,000 divided into 500,000,000 shares with par value US\$0.0001 each. As of December 31, 2018, one ordinary share was issued and outstanding.

In August 2019, the shareholders of the Company agreed to increase the authorized shares to 5,000,000,000 shares. Upon the completion of the Reorganization in August 2019, authorized ordinary shares are 4,326,574,000, of which issued and outstanding ordinary shares were 189,388,000, and issuable shares in connection to the vested restricted share units were 63,567,850, and the authorized, issued and outstanding Series A-1, A-2, B-1, B-2, B-3, B-4 and C-1 preferred shares were 65,307,000, 101,261,000, 250,302,000, 14,593,000, 56,105,000, 20,982,000 and 164,876,000, respectively.

b. In March 2019, 10,027,455 Series A-1 preferred shares held by one of the holders of Series A-1 preferred shares were re-designated to Series B-3 preferred shares, which were then transferred to a new investor for a total amount of RMB 27,140,000. The Group did not receive any proceeds from this transaction.

The Group considered that such re-designation, in substance, was the same as a repurchase and cancellation of the Series A-1 preferred shares and simultaneously an issuance of the Series B-3 preferred shares. Therefore the Group recorded 1) difference between the fair value of the Series A-1 preferred shares and the carrying amount of the Series A-1 preferred shares against retained earnings, or in the absence of retained earnings, by charging against additional paid-in capital or by increasing the accumulated deficit once additional paid-in capital has been exhausted; and 2) difference between the fair value of the Series A-1 preferred shares and the fair value of the Series B-3 preferred shares as deemed distribution to preferred shareholders.

c. In April 2019, 17,215,818 and 11,643,239 ordinary shares held by the Founder who is also an employee of the Company, were re-designated to Series B-3 and Series B-4 preferred shares, respectively, which were then transferred to certain new investors for a total amount of RMB 30,896,752 and RMB 36,756,000, respectively. The Group did not receive any proceeds from this transaction.

The Group considered that such re-designation, in substance, was the same as a repurchase and cancellation of the ordinary shares and simultaneously an issuance of the preferred shares. Therefore the Company recorded 1) difference between the fair value and the par value of the ordinary shares against additional paid-in capital or by increasing accumulated deficit once additional paid-in capital has been exhausted; and 2) difference between the fair value of the preferred shares and the fair value of the ordinary shares, as share based compensation expenses in the Company's consolidated statements of comprehensive income.

d. To compensate the preferred shareholders for the dilution of their interests due to the adoption of the 2016 Incentive Plan set forth in Note 14, (i) in August 2019, immediately before the Reorganization, 15,553,793 ordinary shares and 12,927,101 vested restricted share units were re-designated to Series A-1, A-2, B-1, B-2 and B-3 preferred shares, which were then transferred to the existing holders of Series A-1, A-2, B-1, B-2 and B-3 preferred shares without consideration. (ii) 67,311,809 Series A-1, A-2, B-1, B-2 and B-3 preferred shares in total were issued to the existing holders of Series A-1, A-2, B-1, B-2 and B-3 preferred shares without consideration.

The Company considered that re-designation and free transfer of shares from ordinary shareholders to preferred shareholders mentioned in (i) above were, in substance, the same as a contribution from ordinary shareholders followed by a cancellation of those ordinary shares and simultaneously an issuance of the preferred shares for no consideration. Therefore the Company recorded the par value of those ordinary shares cancelled into additional paid-in capital, and recorded the fair value of the preferred shares as deemed distribution to preferred shareholders, against retained earnings, or in the absence of retained earnings, by charging against additional paid-in capital or by increasing the accumulated deficit once additional paid-in capital has been exhausted.

The issuance of the preferred shares as mentioned in (ii) above was recognized at the fair value at the date of issuance as mezzanine against retained earnings, or in the absence of retained earnings, by charging against additional paid-in capital or by increasing the accumulated deficit once additional paid-in capital has been exhausted.

e. After taken into account the transactions mentioned above and pursuant to the Reorganization set forth in Note 1 (b), in August 2019, the Company issued 65,307,000, 101,261,000, 250,302,000, 14,593,000, 56,105,000, 20,982,000 and 164,876,000 shares of Series A-1, A-2, B-1, B-2, B-3, B-4 and C-1 preferred shares, respectively, to the same group of preferred shareholders of Beijing Duoke and Xieli as consideration in exchange for the respective similar equity interests that they held in Beijing Duoke. As set forth in Note 1 (c), the effect of the ordinary shares and the preferred shares issued by the Company pursuant to the Reorganization have been presented retrospectively as of the beginning of the earliest period presented on the consolidated financial statement or the original issue date, whichever is later.

The major rights, preferences and privileges of the Preferred Shares are as follows:

Conversion rights

The Preferred Shares (exclusive of unpaid shares) would automatically be converted into ordinary shares 1) upon the qualified Initial Public Offering ("QIPO"); or 2) upon the written consent of the holders of a majority of the outstanding Preferred Shares of each class with respect to conversion of each class. The initial conversion ratio of Preferred Shares to ordinary shares shall be 1:1, subject to adjustments in the event of (i) share splits, share dividends, consolidations, recapitalization and similar events, or (ii) issuance of ordinary shares (excluding certain events such as issuance of ordinary shares pursuant to a public offering) at a price per share less than the conversion price in effect on the date of or immediately prior to such issuance or other dilutive events.

In the event that any dividend is declared by the board, with respect to each holder of Series C-1 preferred shares, a non-cumulative dividend equal to (i) the dividend per share declared, multiplied by (ii) the number of the preferred shares held by the holders of such series preferred shares;

shares, except for the holders of Series C-1 preferred shares who shall be entitled to receive an amount per share equal to the higher of (i) such portion of the assets and funds of the Company as each share (on an as-converted basis) is entitled to on a pro-rata basis ; and (ii) the Series C-1 issue price $\times (1 + 12\%)^N$, plus all declared but unpaid dividends on such Series C-1 preferred share (where N is a fraction, the numerator of which is the number of calendar days between the Series C-1 issue date and the date on which such distribution is made and the denominator of which is 365). If the assets and funds of the Company shall be insufficient to make payment of the foregoing amounts in full on holders of Series C-1 preferred shares, then such assets and funds shall be distributed among the holders of this category preferred shares ratably in proportion to the full amounts to which they would otherwise be respectively entitled thereon.

Redemption right

Series A-2, B-1, B-2, B-3, B-4 and C-1 Preferred Shares shall be redeemable (Series A-1 does not have redemption right) at the holder's discretion, at any time (i) the Company has not completed an IPO or a trade sale approved by the shareholders in writing on or prior to December 31, 2022, (ii) the VIE agreements are held to be invalid or unenforceable under applicable laws and the economic or legal substance of the VIE agreements cannot be preserved by modification of the VIE agreements, (iii) the Company, certain holders of the ordinary shares or Mr. Dagang Feng ("Co-Founder"), is in material breach of its obligations , covenants or undertakings under the shareholders agreement of the Company, which is not waived in writing by the Preferred Shares' investors, (iv) the representations and warranties of the Company, certain holders of the ordinary shares or the Co-Founder contain any material false or fraudulent statement, which causes a material adverse effect, and (v) certain holders

of the ordinary shares or the Co-Founder is in material violation of any applicable law or is subject to any criminal investigation, which causes a material adverse effect. Upon receipt of a redemption notice, the Company and the Co-Founder shall redeem the redeemable Preferred Shares and make payment to the shareholders within ninety days following the receipt of the redemption notice an amount on a per share basis calculated as follows:

The redemption price of Series C-1 preferred shares would be equal to the sum of (a) the Series C-1 issue price $\times (1 + 10\%)^N$, plus (b) any declared but unpaid dividends on a Series C-1 preferred share (where N is a fraction, the numerator of which is the number of calendar days between the Series C-1 issue date and the date on which such Series C-1 preferred shares are redeemed and the denominator of which is 365);

The redemption price of Series B-1, B-2, B-3, and B-4 preferred shares would be equal to the sum of (a) 120% of the Series B-1, B-2, B-3, and B-4 issue price or the fair market value of such shares (whichever is higher), plus (b) any declared but unpaid dividends on a Series B-1, B-2, B-3, and B-4 preferred share;

The redemption price of Series A-2 preferred shares would be equal to the sum of 300% of the Series A-2 issue price plus any declared but unpaid dividends on a Series A-2 preferred share;

Subject to applicable laws, the Company and the Co-Founder shall, jointly and severally, effect the redemption and make payment of the redemption price to each preferred shareholder in the following sequence and priority: (i) first, pay the Series C-1 redemption price to the holders of Series C-1 preferred shares on a pari passu basis; (ii) second, after the full payment of the Series C-1 redemption price, pay the Series B-1 redemption price to the holders of Series B-1 preferred shares on a pari passu basis; (iii) third, after the full payment of the Series C-1 and B-1 redemption price, pay the Series B-2, B-3, B-4 redemption price to the holders of Series B-2, B-3, B-4 preferred shares on a pari passu basis; (iv) after redemption in full of the Series C-1, B-1, B-2, B-3 and B-4 preferred shares, redeem each Series A2 preferred shares requested to be redeemed.

The Co-Founder's obligations to the redemption right shall be limited to the financial value of the Company's securities directly or indirectly held by the Co-Founder. The Co-Founder shall not be obligated to make any payment under the Redemption in an amount exceeding the financial value of the Company's securities directly or indirectly held by the Co-Founder.

Accounting for Preferred Shares

The Company has classified the Preferred Shares in the mezzanine equity of the Consolidated Balance Sheets as they are contingently redeemable at the holders' option any time upon occurrences of certain events except for Series A-1 which were contingently redeemable upon the occurrence of certain liquidation events outside of the Company's control. The Company records accretions on the Preferred Shares to the redemption value from the issuance dates to the earliest redemption dates. The accretions are recorded against retained earnings, or in the absence of retained earnings, by charges against additional paid-in capital. Once additional paid-in capital has been exhausted, additional charges are recorded by increasing the accumulated deficit. Each issuance of the Preferred Shares was recognized at the respective fair value at the date of issuance net of issuance cost.

In respect of the Co-Founder's obligation to the redemption right, as it were directly linked to and incurred for the Preferred Shares issuance, the Group views it as appropriate to treat the amount of

36Kr Holdings Inc.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (Continued)

12. Convertible Redeemable Preferred Shares (Continued)

value related to such obligation as an issuance cost as it is similar to a finder's fee to find a new investor. Since the underlying shares issued are preferred shares, such issuance costs are recorded as a reduction of the balance of mezzanine, and also deemed as the contribution from the Co-Founder. With the rapid growth of the Group's business, the Group believes the fair value of such Co-Founder's obligation is immaterial since inception as the probability of triggering the Co-Founder's obligation is very remote taking into account independent valuations.

The Company has determined that there was no beneficial conversion feature attributable to any of the Preferred Shares because the initial effective conversion price of these Preferred Shares were higher than the fair value of the Company's ordinary shares determined by the Company with the assistance from an independent valuation firm.

The Group's Preferred Shares activities for the years ended December 31, 2017 and 2018 are summarized as below:

Subsidiaries in the BVI are exempted from income tax on their foreign-derived income in the BVI. There are no withholding taxes in the BVI.

The PRC

In accordance with the Enterprise Income Tax Law ("EIT Law"), Foreign Investment Enterprises ("FIEs") and domestic companies are subject to Enterprise Income Tax ("EIT") at a uniform rate of 25%.

The EIT Law also provides that an enterprise established under the laws of a foreign country or region but whose "de facto management body" is located in the PRC be treated as a resident enterprise for PRC tax purposes and consequently be subject to the PRC income tax at the rate of 25% for its global income. The Implementing Rules of the EIT Law merely define the location of the "de facto management body" as "the place where the exercising, in substance, of the overall management and control of the production and business operation, personnel, accounting, properties, etc., of a non-PRC company is located." Based on a review of surrounding facts and circumstances, the Group does not believe that it is likely that its operations outside of the PRC would be considered a resident enterprise for PRC tax purposes. However, due to limited guidance and implementation history of the EIT Law, should the Company be treated as a resident enterprise for PRC tax purposes, the Company will be subject to PRC income tax on worldwide income at a uniform tax rate of 25%.

A valuation allowance is provided against deferred tax assets when the Group determines that it is more likely than not that the deferred tax assets will not be utilized in the future. In making such determination, the Group evaluates a variety of factors including the Group's operating history, retained earnings, existence of taxable temporary differences and reversal periods.

As of December 31, 2018, Dianqier and KrAsia, two subsidiaries of the Group's VIE incorporated in the PRC and Singapore, respectively, have incurred accumulated operating losses of RMB 11.00 million and RMB 2.82 million for income tax purposes since their inception, respectively. The net operating loss of Dianqier carryforwards will expire in 2023, if unused, and the net operating loss of KrAsia carryforwards are available indefinitely for offsetting against its taxable profits in the future under certain circumstances. The Group believes that it is more likely than not that these net accumulated operating losses will not be utilized in the future. Therefore, the Group has provided full valuation allowance for the deferred tax assets amounted to RMB 3.23 million which arose from such net accumulated operating losses as of December 31, 2018.

Withholding income tax

The EIT Law also imposes a withholding income tax of 10% on dividends distributed by a foreign investment enterprise ("FIE") to its immediate holding company outside of China, if such immediate holding company is considered as a non-resident enterprise without any establishment or place within China or if the received dividends have no connection with the establishment or place of such immediate holding company within China, unless such immediate holding company's jurisdiction of incorporation has a tax treaty with China that provides for a different withholding arrangement. Such withholding income tax was exempted under the previous EIT Law. The Cayman Islands, where the Company is incorporated, does not have such a tax treaty with China. According to the Arrangement between Mainland China and the Hong Kong Special Administrative Region for the Avoidance of Double Taxation and Prevention of Fiscal Evasion in August 2006, dividends paid by a FIE in China to its immediate holding company in Hong Kong will be subject to withholding tax at a rate that may be lowered to 5% (if the foreign investor owns directly at least 25% of the shares of the FIE). The State Administration of Taxation ("SAT") further promulgated Circular [2009] 601 and SAT Public Notice [2018] No.9 regarding the assessment criteria on beneficial owner status. The Group did not record any dividend withholding tax, as the Group's FIE, the WFOE, has no retained earnings in any of the periods presented.

- (a) Restricted share units issued by Beijing Duoke to employees of Beijing Duoke

In December 2016, Beijing Duoke adopted the Beijing Duoke 2016 stock incentive plan (the "2016 Incentive Plan"), which allowed Beijing Duoke to grant restricted share units to selected persons including its directors, senior management and employees to acquire ordinary shares of Beijing Duoke. Up to 20% of equity interests of Beijing Duoke or equivalent to 157,024,000 ordinary shares of the Company were reserved for the issuance.

Pursuant to the 2016 Incentive Plan, Beijing Duoke has granted 78,512,000 restricted share units to the chief executive officer, Mr. Feng Dagang in December 2016 which are all vested immediately upon the grant. NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Nature of Operations and Reorganization

(a) Nature of operations

36Kr Holdings Inc. ("36Kr" or the "Company"), is a holding company and conducts its business mainly through its subsidiaries and a variable interest entity ("VIE") and subsidiaries of the VIE (collectively referred to as the "Group"). The Group is primarily engaging in providing content and business services to new economy participants in the People's Republic of China (the "PRC"). The Group mainly generates revenues from providing online advertising services, enterprise value-added services and subscription services (collectively referred to as the "36Kr Business"). Unless there are plans to change locations, the Group's principal operations and geographic markets are substantially located in PRC.

(b) Reorganization

The Group commenced operations in 2010. Beijing Xieli Zhucheng Finance Information Service Co., Ltd. ("Xieli") was established in 2011 by Mr. Liu Chengcheng (the "Founder") to carry out the Group's principal business. In December 2016, the Group's business was carved out from Xieli ("Carve-out"), and incorporated into a newly set up company named Beijing Duoke Information Technology Co., Ltd. ("Beijing Duoke"; formerly named as Beijing Pinxin Media Culture Co., Ltd. and Beijing Sanshiliuke Culture Media Co., Ltd.), which was then a wholly owned subsidiary of Xieli.

The Company was incorporated as a limited liability company in the Cayman Islands on December 3, 2018. Through a series of contemplated reorganization steps (the "Reorganization"), Beijing Dake Information Technology Co., Ltd. (the "Beijing Dake") was established in June 2019 to gain control over Beijing Duoke through contractual arrangements and thereafter the 36Kr Business was transferred to the Group upon the completion of the Reorganization. The Reorganization was approved by the Board of Directors and a reorganization framework agreement was entered into by the Company, Beijing Duoke, the Founder and the shareholders of Beijing Duoke in June 2019.

As of the report date, the Group has completed the steps of the Reorganization as described below, and Beijing Duoke and its subsidiaries have become VIE of the Group. Pursuant to and upon

- (ii) the Company established a wholly owned subsidiary in British Virgin Islands ("BVI"), 36Kr BVI, in December 2018;

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Nature of Operations and Reorganization (Continued)**

- (viii) the Company issued ordinary shares at par value to ordinary shareholders of Beijing Duoke and Xieli for the respective equity interests that they held in Beijing Duoke in August 2019;
- (ix) In August 2019, the Company issued Series A-1, A-2, B-1, B-2, B-3 and B-4 preferred shares ("Series A and B Preferred Shares") to preferred shareholders of Xieli as consideration in exchange for the respective similar equity interests that they held indirectly in Beijing Duoke through Xieli. On the same date, the Company issued Series C-1 preferred shares to preferred shareholders of Beijing Duoke as consideration in exchange for the respective similar equity interests that they held directly in Beijing Duoke. Collectively, all the Series A-1, A-2, B-1, B-2, B-3, B-4 and C-1 preferred shares are referred to as the "Preferred Shares".

(c) Basis of Presentation for the Reorganization

The Reorganization consists of transferring the 36Kr Business to the Group, which is owned by the shareholders of Beijing Duoke and Xieli immediately before and after the Reorganization. The shareholding percentages and rights of each shareholder are substantially the same in Beijing Duoke and in the Company immediately before and after the Reorganization. Accordingly, the Reorganization is accounted for in a manner similar to a common control transaction because of the high degree of common ownership, and it is determined that the transfers lack economic substance. Therefore, the accompanying consolidated financial statements include the assets, liabilities, revenue, expenses and cash flows of 36Kr Business for the periods presented and are prepared as if the corporate structure of the Group after the Reorganization had been in existence throughout the periods presented. Accordingly, the effect of the ordinary shares and the preferred shares issued by the Company pursuant to the Reorganization have been presented retrospectively as of the beginning of the earliest period presented on the consolidated financial statement or the original issue date, whichever is later, as if such shares were issued by the Company when the Group issued such interests.

(d) Contractual agreements with the VIE

In order to comply with the PRC laws and regulations which prohibit or restrict foreign control of companies involved in provision of internet content services, the Group operates its restricted businesses in the PRC through its VIE, whose equity interests are held by the Founder and other shareholders of the Group. The Company obtained control over the VIE by entering into a series of contractual arrangements with the legal shareholders who are also referred to as nominee shareholders. These nominee shareholders are the legal owners of the VIE. However, the rights of those nominee shareholders have been transferred to the Group through the contractual arrangements.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Nature of Operations and Reorganization (Continued)**

The contractual arrangements used to control the VIE are the power of attorney, equity pledge agreement, exclusive purchase option agreement and exclusive business cooperation agreement. The Company's management concluded that the Company, through the contractual arrangements, has the power to direct the activities that most significantly impact the VIE's economic performance and bears the risks of and enjoys the rewards normally associated with ownership of the VIE. Therefore, the Company is the ultimate primary beneficiary of the VIE. As such, the Company consolidates the financial statements of the VIE and its subsidiaries, and the financial results of the VIE were included in the Group's unaudited interim condensed consolidated financial statements in accordance with the basis of presentation as stated in Note 2 (a).

The following is a summary of the contractual agreements that entered into by and among Beijing Dake, Beijing Duoke, and the nominee shareholders of Beijing Duoke;

Power of Attorney

Beijing Dake, Beijing Duoke and the shareholders of Beijing Duoke have entered into a power of attorney, pursuant to which each of the shareholders of Beijing Duoke irrevocably appointed Beijing Dake (as well as its successors, including a liquidator, if any, replacing Beijing Dake) or its designated persons to act on their respective behalf as exclusive agent and attorney, to the extent permitted by law, with respect to all rights of shareholders concerning all equity interests held by each of them in Beijing Duoke, including without limitation (i) to exercise all the shareholder's rights (including but not limited to voting rights and right to sell, transfer, pledge or dispose of all equity interests in Beijing Duoke held in part or in whole), (ii) to attend shareholders' meetings and to execute any and all written resolutions and meeting minutes in the name and on behalf of such shareholders, and (iii) to file documents with the relevant companies registry. The agreement will remain effective until Beijing Dake unilaterally terminates the agreement in writing or all equity interests in Beijing Duoke held by its shareholders are transferred or assigned to Beijing Dake or its designated representatives.

Equity Pledge Agreement

Beijing Dake, Beijing Duoke and the shareholders of Beijing Duoke have entered into an equity pledge agreement, pursuant to which the shareholders of Beijing Duoke have pledged all of their equity interests in Beijing Duoke that they own, including any interest or dividend paid for the shares, to Beijing Dake as a security interest to guarantee the performance by Beijing Duoke and its shareholders' performance of their respective obligations under the exclusive business cooperation agreement, exclusive purchase option agreement and power of attorney. Upon the discovery of the occurrence of any circumstances or event that may lead to an event of default (as defined in the equity pledge agreement), Beijing Dake, as the pledgee, will be entitled to certain rights, including the right to sell the pledged equity interests. Beijing Dake is not be liable for any loss incurred by its due exercise of such rights and powers. This pledge will become effective on the date the pledged equity interests are registered with the relevant office of industry and commerce and will remain effective until the pledgors are no longer the shareholders of Beijing Duoke.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Nature of Operations and Reorganization (Continued)****Exclusive Purchase Option Agreement**

Beijing Duke, Beijing Duoke and the shareholders of Beijing Duoke have entered into an exclusive purchase option agreement, pursuant to which each of the shareholders of Beijing Duoke irrevocably granted Beijing Duke or its designated representatives an exclusive option to purchase, to the extent permitted under PRC law, all or part of his, her or its equity interests in Beijing Duoke. Beijing Duke or its designated representatives have sole discretion as to when to exercise such options, either in part or in full, once or at multiple times at any time. Without Beijing Duke's prior written consent, the shareholders of Beijing Duoke shall not sell, transfer, mortgage or otherwise dispose of their equity interests in Beijing Duoke, or allow the encumbrance thereon. The agreement will remain effective until all equity interests in Beijing Duoke held by its shareholders are transferred or assigned to Beijing Duke or its designated representatives.

Exclusive Business Cooperation Agreement

Beijing Duke and Beijing Duoke have entered into an exclusive business cooperation agreement, pursuant to which Beijing Duke has the exclusive right to provide to Beijing Duoke technical support, consulting services and other services related to Beijing Duoke's business, including business management, daily operations, strategic planning, among others. Beijing Duke has granted Beijing Duoke the right to register its intellectual property rights under Beijing Duoke. Beijing Duke has the right to purchase such intellectual property rights from Beijing Duoke at nominal prices. The scope of the services provided by Beijing Duke may be expanded from time to time per Beijing Duoke's request. The timing and amount of the service fee payments shall be determined at the sole discretion of Beijing Duke. The term of this agreement is indefinite unless Beijing Duke unilaterally terminates the agreement in writing.

Risks in relation to the VIE structure

A significant part of the Group's business is conducted through the VIE of the Group, of which the Company is the ultimate primary beneficiary. In the opinion of the management, the contractual arrangements with the VIE and the nominee shareholders are in compliance with PRC laws and regulations and are legally binding and enforceable. The nominee shareholders indicate they will not act contrary to the contractual arrangements. However, there are substantial uncertainties regarding the interpretation and application of the PRC laws and regulations including those that govern the contractual arrangements, which could limit the Group's ability to enforce these contractual arrangements and if the nominee shareholders of the VIE were to reduce their interests in the Group, their interest may diverge from that of the Group and that may potentially increase the risk that they would seek to act contrary to the contractual arrangements.

It is possible that the Group's operation of certain of its operations and businesses through the VIE could be found by PRC authorities to be in violation of PRC law and regulations prohibiting or restricting foreign ownership of companies that engage in such operations and businesses. While the Group's management considers the possibility of such a finding by PRC regulatory authorities under current law and regulations to be remote, on March 15, 2019, the National People's Congress adopted the Foreign Investment Law of the PRC, which will become effective on January 1, 2020 and replace three existing laws regulating foreign investment in China, namely, the Wholly Foreign-Invested

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Nature of Operations and Reorganization (Continued)**

Enterprise Law of the PRC, the Sino-Foreign Cooperative Joint Venture Enterprise Law of the PRC and the Sino-Foreign Equity Joint Venture Enterprise Law of the PRC, together with their implementation rules and ancillary regulations. The Foreign Investment Law of the PRC embodies an expected PRC regulatory trend to rationalize its foreign investment regulatory regime in line with prevailing international practice and the legislative efforts to unify the corporate legal requirements for both foreign and domestic investments. However, since it is relatively new, uncertainties still exist in relation to its interpretation and implementation. For example, the Foreign Investment Law of the PRC adds a catch-all clause to the definition of "foreign investment" so that foreign investment, by its definition, includes "investments made by foreign investors in China through other means defined by other laws or administrative regulations or provisions promulgated by the State Council" without further elaboration on the meaning of "other means." It leaves leeway for the future legislations promulgated by the State Council to provide for contractual arrangements as a form of foreign investment. It is therefore uncertain whether the Group's corporate structure will be seen as violating the foreign investment rules as the Group are currently leveraging the contractual arrangements to operate certain businesses in which foreign investors are prohibited from or restricted to investing. Furthermore, if future legislations prescribed by the State Council mandate further actions to be taken by companies with respect to existing contractual arrangement, the Group may face substantial uncertainties as to whether the Group can complete such actions in a timely manner, or at all. If the Group fail to take appropriate and timely measures to comply with any of these or similar regulatory compliance requirements, the Group's current corporate structure, corporate governance and business operations could be materially and adversely affected.

If the Group's corporate structure or the contractual arrangements with the VIE were found to be in violation of any existing or future PRC laws and regulations, the PRC regulatory authorities could, within their respective jurisdictions:

- revoking the business licenses and/or operating licenses of such entities;
- discontinuing or placing restrictions or onerous conditions on the Group's operation through any transactions between the PRC subsidiary and the VIE;
- imposing fines, confiscating the income from the PRC subsidiary or the VIE, or imposing other requirements with which the VIE may not be able to comply;
- requiring the Group to restructure the ownership structure or operations, including terminating the contractual arrangements with the VIE and deregistering the equity pledges of the VIE, which in turn would affect the Group's ability to consolidate, derive economic interests from, or exert effective control over the VIE;
- restricting or prohibiting the Group's use of the proceeds of this offering to finance the Group's business and operations in China; or
- taking other regulatory or enforcement actions that could be harmful to the Group's business.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Nature of Operations and Reorganization (Continued)**

The imposition of any of these restrictions or actions could result in a material adverse effect on the Group's ability to conduct its business. In such case, the Group may not be able to operate or control the VIE, which may result in deconsolidation of the VIE in the Group's unaudited interim condensed consolidated financial statements. In the opinion of the management, the likelihood for the Group to lose such ability is remote based on current facts and circumstances. The Group believes that the contractual arrangements among each of the VIE, their respective shareholders and relevant wholly foreign owned enterprise are in compliance with PRC law and are legally enforceable. The Group's operations depend on the VIE to honor their contractual arrangements with the Group. These contractual arrangements are governed by PRC law and disputes arising out of these agreements are expected to be decided by arbitration in the PRC. The Company's management believes that each of the contractual arrangements constitutes valid and legally binding obligations of each party to such contractual arrangements under the PRC laws. However, the interpretation and implementation of the laws and regulations in the PRC and their application on the legality, binding effect and enforceability of contracts are subject to the discretion of competent PRC authorities, and therefore there is no assurance that relevant PRC authorities will take the same position as the Group herein in respect of the legality, binding effect and enforceability of each of the contractual arrangements. Meanwhile, since the PRC legal system continues to evolve, the interpretations of many laws, regulations and rules are not always uniform and enforcement of these laws, regulations and rules involve uncertainties, which may limit legal protections available to the Group to enforce the contractual arrangements should the VIE or the nominee shareholders of the VIE fail to perform their obligations under those arrangements.

The following financial information of the Group's VIE and the VIE's subsidiaries as of December 31, 2018 and June 30, 2019 and for the six months ended June 30, 2018 and 2019 is included

The Company's involvement with the VIE is through the contractual arrangements disclosed in Note 1. All recognized assets held by the VIE are disclosed in the table above. Unrecognized revenue-producing assets held by the VIE include the Internet Content Provision License, tradename of 36Kr,

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****1. Nature of Operations and Reorganization (Continued)**

the domain names of 36kr.com, 36Kr mobile application, 36Kr official account on social networks, customer relationship relating to online advertising and enterprise value-added services, customer lists relating to subscription services and assembled workforce.

In accordance with various contractual agreements, the Company has the power to direct the activities of the VIE and can have assets transferred out of the VIE. Therefore, the Company considers that there are no assets in the respective VIE that can be used only to settle obligations of the respective VIE, except for the registered capital of the VIE as well as certain non-distributable statutory reserves. As the respective VIE is incorporated as limited liability company under the PRC Company Law, creditors do not have recourse to the general credit of the Company for the liabilities of the respective VIE. There is currently no contractual arrangement that would require the Company to provide additional financial support to the VIE. As the Group is conducting certain businesses in the PRC through the VIE, the Group may provide additional financial support on a discretionary basis in the future, which could expose the Group to a loss.

There is no VIE in the Group where the Company or any subsidiary has a variable interest but is not the primary beneficiary.

2. Significant Accounting Policies**(a) Basis of presentation**

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") for interim financial information. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. Certain information and note disclosures normally included in the annual financial statements prepared in accordance with US GAAP have been condensed or omitted consistent with Article 10 of Regulation S-X. In the opinion of management, the unaudited interim condensed consolidated financial statements and accompanying notes included all adjustments (consisting of normal recurring adjustments) considered necessary by management to a fair statement of the results of operations, financial position and cash flows for the interim periods presented. Interim results of operations are not necessarily indicative of the results for the full year or for any future periods. These financial statements should be read in conjunction with the annual financial statements and notes thereto also included herein.

Significant accounting policies followed by the Company in the preparation of the accompanying unaudited interim condensed consolidated financial statements are summarized below.

(b) Principles of consolidation

The unaudited interim condensed consolidated financial statements include the financial statements of the Company, its subsidiaries, the VIE and the VIE's subsidiaries for which the Company is the ultimate primary beneficiary.

Subsidiaries are those entities in which the Company, directly or indirectly, controls more than one half of the voting power or has the power to appoint or remove the majority of the members of the board of directors, or to cast a majority of votes at the meeting of the board of directors, or to govern

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

the financial and operating policies of the investee under a statute or agreement among the shareholders or equity holders.

A VIE is an entity in which the Company, or its subsidiary, through contractual arrangements, has the power to direct the activities that most significantly impact the entity's economic performance, bears the risks of and enjoys the rewards normally associated with ownership of the entity, and therefore is the primary beneficiary of the entity.

All significant intercompany transactions and balances between the Company, its subsidiaries, the VIE and subsidiaries of the VIE have been eliminated upon consolidation.

A non-controlling interest is recognized to reflect the portion of a subsidiary's equity which is not attributable, directly or indirectly, to the Group. When the non-controlling interest is contingently redeemable upon the occurrence of a conditional event which is not solely within the control of the Group, the non-controlling interest is classified as mezzanine equity. The details of redeemable non-controlling interests are set forth in Note 9 to the unaudited interim condensed consolidated financial statements.

The Group records accretions on the redeemable non-controlling interests to the redemption value from the issuance dates to the earliest redemption dates. The accretions using the effective interest method, are recorded against retained earnings, or in the absence of retained earnings, by charges against additional paid-in capital. Once additional paid-in capital has been exhausted, additional charges are recorded by increasing the accumulated deficit. The issuance of the preferred shares as the redeemable non-controlling interests is recognized at the fair value at the date of issuance. For the six months ended June 30, 2018 and 2019, accretions on the redeemable non-controlling interests to the redemption value were RMB 0.34 million and RMB 0.33 million, respectively. The cumulative results of operations attributable to the non-controlling interests and the accretion on redeemable non-controlling interests to redemption value are also recorded as redeemable non-controlling interests of mezzanine equity in the Group's unaudited interim condensed consolidated balance sheets. Consolidated net loss on the unaudited interim condensed consolidated statements of comprehensive loss includes the net income/(loss) attributable to the non-controlling interests when applicable. For the six months ended June 30, 2018 and 2019, the net loss attributable to the non-controlling interests were nil and RMB 0.14 million, respectively. Cash flows related to transactions with non-controlling interests holders are presented under financing activities in the unaudited interim condensed consolidated statements of cash flows when applicable.

(c) Use of estimates

The preparation of the unaudited interim condensed consolidated financial statements in conformity with the U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the balance sheet date, and the reported revenues and expenses during the reporting periods in the unaudited interim condensed consolidated financial statements and accompanying notes. Significant accounting estimates include, but are not limited to, determination of assessment for the impairment of long-lived assets, allowance for doubtful accounts, valuation allowance of deferred tax assets and valuation and recognition of share-based compensation expenses. Actual results could differ from those

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

estimates and such differences may be material to the unaudited interim condensed consolidated financial statements.

(d) Functional currency and foreign currency translation

The Group's reporting currency is Renminbi ("RMB"). The functional currency of the Company is United States dollar ("US\$"). The functional currency of the Group's PRC entities, the VIE and the VIE's PRC subsidiaries is RMB. The functional currency of the VIE's subsidiary incorporated in Singapore is Singapore dollar. The determination of the respective functional currency is based on the criteria set out by ASC 830, Foreign Currency Matters.

Transactions denominated in foreign currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing on the transactions date. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates prevailing at the balance sheet dates. Exchange gains and losses arising from foreign currency transactions are recorded in the unaudited interim condensed consolidated statements of comprehensive loss.

The financial statements of the Group's non PRC entities are translated from their respective functional currencies into RMB. Assets and liabilities are translated into RMB using the applicable exchange rates at the balance sheet date. Equity accounts other than earnings generated in the current period are translated into RMB using the appropriate historical rates. Revenues, expenses, gains and losses are translated into RMB using the average exchange rates for the relevant period. The resulting foreign currency translation adjustments are reported in other comprehensive loss in the unaudited interim condensed consolidated statements of comprehensive loss, and the accumulated foreign currency translation adjustments are presented as a component of accumulated other comprehensive income in the unaudited interim condensed consolidated statements of changes in shareholders' deficit. Total foreign currency translation adjustments included in the Group's other comprehensive income/(loss) were an income of RMB 64,000 and a loss of RMB 3,000 for the six months ended June 30, 2018 and 2019, respectively.

(e) Convenience translation

Translations of the unaudited interim condensed consolidated balance sheets, consolidated statements of comprehensive loss and consolidated statements of cash flows from RMB into US\$ as of and for the six months ended June 30, 2019 are solely for the convenience of the reader and were calculated at the rate of US\$1.00 = RMB 6.8650, representing the noon buying rate in the H.10 statistical release of the U.S. Federal Reserve Board on June 28, 2019. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into US\$ at that rate on June 30, 2019, or at any other rate.

(f) Fair value measurements

Accounting guidance defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Group considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

Accounting guidance establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Accounting guidance establishes three levels of inputs that may be used to measure fair value:

- a. Level 1—Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- b. Level 2—Observable, market-based inputs, other than quoted prices, in active markets for identical assets or liabilities.
- c. Level 3—Unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

Accounting guidance describes three main approaches to measure the fair value of assets and liabilities: (1) market approach; (2) income approach and (3) cost approach. The market approach uses prices and other relevant information generated from market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that would currently be required to replace an asset.

Transfers into or out of fair value hierarchy classifications are made if the significant inputs used in the financial models measuring the fair value of the assets and liabilities become unobservable or observable in the current marketplace. These transfers are considered to be effective as of the beginning of the period in which they occur. The Group did not transfer any assets or liabilities in or out of Level 2 during the six months ended June 30, 2018 and 2019.

The Group's financial instruments consist principally of cash and cash equivalents, short-term investments, accounts receivable, receivables due from related parties, other receivables, accounts payable, accrued liabilities and other payables and amounts due to related parties.

As of December 31, 2018 and June 30, 2019, the fair values of cash and cash equivalents, accounts receivable, receivables due from related parties, other receivables, accounts payable, accrued liabilities and other payables and amounts due to related parties approximated their carrying values reported in the unaudited interim condensed consolidated balance sheets due to the short term maturities of these instruments.

On a recurring basis, the Group measures its short-term investments at fair value. For the details of the short-term investments, please refer to Note 2 (g).

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

The following table sets forth the Group's assets and liabilities that are measured at fair value on a recurring basis and are categorized using the fair value hierarchy:

As of December 31, 2018

<u>Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Balance at fair value</u>
	<u>RMB'000</u>	<u>RMB'000</u>	<u>RMB'000</u>	<u>RMB'000</u>
Short-term investments—Wealth management products	—	145,451	—	145,451

As of June 30, 2019

<u>Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Balance at fair value</u>
	<u>RMB'000</u>	<u>RMB'000</u>	<u>RMB'000</u>	<u>RMB'000</u>
Short-term investments—Wealth management products	—	77,977	—	77,977

Wealth management products with Level 2 inputs are valued using quoted subscription or redemption prices published by the banks or using discounted cash flow method at a quoted rate of return provided by banks at the end of each year.

(g) Short-term investments

Short-term investments include investments in wealth management products issued by China Merchants Bank, which are redeemable by the Company at a periodic term or any working day within one year. The wealth management products are unsecured with variable interest rates and primarily invested in financial instruments with high credit rating and good liquidity in the interbank and exchange markets, including but not limited to debt securities issued by the PRC government, central bank bills, interbank and exchange-traded bond, and assets backed securities. The Company measures the short-term investments at fair value using the quoted subscription or redemption prices published by these banks or by discounting the future cash flows at the expected yield rate with reference to the expected benchmark yield rates of the wealth management products of banks.

(h) Accounts receivable, net

Accounts receivable are stated at the historical carrying amount net of write-offs and the allowance for doubtful accounts. The Group reviews the accounts receivable on a periodic basis and provides allowances when there is doubt as to the collectability of individual balance. In evaluating the collectability of individual accounts receivable balances, the Group considers several factors, including the age of the balance, the customer's payment history, and current credit-worthiness, and current economic trends. Account receivable balances are written off after all collection efforts have been exhausted.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)****(i) Property and equipment, net**

Property and equipment are stated at cost less accumulated depreciation and impairment, if any. Depreciation is computed using the straight-line method over the estimated useful lives of the assets as follows:

	<u>Estimated useful life</u>
Electronic equipment and computers	3 to 5 years
Office furniture and equipment	3 years
Leasehold improvement	Lesser of the term of the lease or the estimated useful lives of the leasehold improvement

Repair and maintenance costs are charged to expenses as incurred, whereas the cost of renewals and betterment that extend the useful lives of property and equipment is capitalized as addition to the related assets. Retirements, sales and disposals of assets are recorded by removing the cost and accumulated depreciation from the assets and accumulated depreciation accounts with any resulting gain or loss reflected in the unaudited interim condensed consolidated statement of comprehensive loss.

(j) Impairment of long-lived assets

The Group evaluates its long-lived assets with finite lives for impairment whenever events or changes in circumstances (such as a significant adverse change to market conditions that will impact the future use of the assets) indicate that the carrying amount of an asset may not be fully recoverable. When these events occur, the Group evaluates the impairment by comparing carrying amount of the assets to an estimate of future undiscounted cash flows expected to be generated from the use of the assets and their eventual disposition. If the sum of the expected future undiscounted cash flows is less than the carrying amount of the assets, the Group recognizes an impairment loss based on the excess of the carrying amount of the long-lived assets over their fair value. No impairment of long-lived assets was recognized for the six months ended June 30, 2018 and 2019.

(k) Revenue recognition

The Group early adopted ASC Topic 606, "Revenue from Contracts with Customers" (ASC 606) for all years presented. According to ASC 606, revenue is recognized when control of the promised goods or services is transferred to the customers, in an amount that reflects the consideration the Group expects to be entitled to in exchange for those goods or services. The Group determine revenue recognition through the following steps:

- identification of the contract, or contracts, with a customer;
- identification of the performance obligations in the contract;
- determination of the transaction price, including the constraint on variable consideration;
- allocation of the transaction price to the performance obligations in the contract; and
- recognition of revenue when (or as) the Group satisfy a performance obligation.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

The following is a description of the accounting policy for the principal revenue streams of the Group.

I. Online advertising services

Online advertising revenue is derived principally from advertising contracts with customers, which allow advertisers to place advertisements on agreed areas of the Company's PC website, mobile application and official accounts in other social networks, mainly in Weibo, Weixin/WeChat, and Toutiao (collectively referred to as "36Kr Platforms") in different formats and over a particular period of time. The Group displays advertisement provided by customers in a variety of forms such as full screen display, banners, and pop-ups. The Group also helps produce advertisements based on the customers' requests, and post the advertisements on the 36Kr Platforms to help promote customers' products and enhance their brand awareness. The Group has developed capabilities in generating and distributing its own and third-party high-quality content on 36Kr Platforms, there is no third party content for fulfilling a promise to the customers for the six months ended June 30, 2018 and 2019.

The Group generates its online advertising service revenue primarily (i) at a fixed fee per each day's advertisement display, which is known as the Cost Per Day ("CPD") model, and (ii) at a fixed fee per each advertisement posted on the 36Kr Platforms, which the Group refers as the cost-per-advertisement basis. The Group recognizes revenue for the amount of fees it receives from its advertisers, after deducting discounts and net of value-added tax ("VAT") under ASC 606.

The Group's online advertising contracts with customers may include multiple performance obligations. For such arrangements, the Group allocates revenues to each performance obligation based on its relative standalone selling price. The Group generally determines standalone selling prices of each distinct performance obligation based on the prices charged to customers when sold on a standalone basis.

Under the CPD model, a contract is signed to establish a fixed price for the advertising services to be provided over a period of time. Given the advertisers benefit from the advertising evenly, the Group recognizes revenue on a straight-line basis over the period of display, provided all revenue recognition criteria have been met. Under the cost-per-advertisement model, as all the economic benefit enjoyed by the customer can be substantially realized at the time the advertisements are posted initially, the Group recognizes revenue at a point in time when it posts the advertisements initially.

II. Enterprise value-added services

The principal enterprise value-added services that the Group provides to customers are set out as follows:

(i) Integrated marketing

The Group helps its customers develop tailored and diverse marketing strategies to improve their marketing efficiency. Integrated marketing services include providing marketing plan, marketing event organization and execution, and public relations, etc.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)****(ii) Offline events**

The Group organizes diverse events, such as summits, forums, industry conferences and fan festivals in a bid to create brand-building opportunities and to facilitate business cooperation and investment opportunities. The services provided by the Group to the customer who then becomes a sponsor of such events including for the sponsor to participate as a speaker, to launch new products of the sponsor, to place advertisements at offline events and the 36Kr Platforms during the course of events.

(iii) Consulting

The Group provides consulting services to customers to help them seek new business opportunities and partners by leveraging the Group's extensive network of New Economy participants.

In certain circumstances, the Group engages third party suppliers to perform part of the aforementioned services in fulfilling its contract obligation. In these cases, the Group controls and takes responsibilities for such services before the services are transferred to the customer. The Group has the right to direct the supplier to perform the service and control the goods or assets transferred to its customers. In addition, the Group combines and integrates the separate services provided by the suppliers into the specified marketing or business consulting solutions to its customers. Thus, the Group considers it should recognize revenue as a principal in the gross amount of consideration to which it is entitled in exchange for the specified services transferred.

Although a bundle of services are provided to the customers in each of the three services mentioned above, the Group's overall commitment in such contract arrangement is to transfer a combined item at a fixed fee, which is an integrated marketing or business consulting solution, to which the individual services are inputs. The integrated services are customized for the customers, and they are interdependent and interrelated. Therefore, the Group combines such bundle of services in the contracts into a single performance obligation. Most of the offline events are completed within several days, and most of the contracts of integrated marketing solution and business consulting are completed within one year. The revenues are recognized ratably over the duration of such events and activities.

In addition to the traditional marketing services above, the Group provides interactive marketing services through interactive marketing dispensers equipped with large display screen, sensors and speakers. The Group usually uses the machines to provide promotion services to the customer's new products. Revenue is recognized when these services are rendered and determined based on the number of items dispensed or at a fixed contract price in a period of time. For the six months ended June 30, 2018 and 2019, the revenue derived from such service was not significant.

III. Subscription services**(i) Institutional investor and enterprise subscription services**

The Group offers institutional investor and enterprise subscription services, a service package to institutional investors and to New Economy companies, which consists of creating their yellow

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

pages on the 36Kr Platform, publishing articles about the customers on the 36Kr Platform, priority access to 36Kr's offline activities, etc., and for enterprise subscribers we also offer online courses and one-on-one consulting. The Group offers such subscription benefits for a fixed period subscription fee.

Both the institutional investor and enterprise subscription services involve multiple performance obligations. The Group allocates revenues to each performance obligation based on its relative standalone selling price. The Group generally determines standalone selling prices of each distinct performance obligation based on the prices charged to customers when sold on a standalone basis. Where standalone selling price is not directly observable, the best estimate of the stand-alone selling price is taken into consideration of the pricing of advertisements or enterprise value-added services of the Group with similar characteristics and advertisements or services with similar formats and quoted prices from competitors and other market conditions. Most of such contracts have all performance obligations completed within one year. The revenue has been recognized over the period when such services are delivered or when the services are rendered based on the transaction price allocated to each performance obligation.

(ii) Individual subscription services

The Group provides paid columns, online courses and offline trainings services to its individual subscribers. The revenue of paid columns and online courses generated from the individual subscription services for the six months ended June 30, 2018 and 2019 was not significant.

The revenue of paid columns and online courses are derived from providing fee-based online content to individuals on the 36Kr Platform. The revenues generated from paid columns and online courses are recognized evenly over the economic period that individual subscribers can benefit, which is usually less than one year.

The Group also provides two forms of offline training services. One is organized by the Group, and the Group is responsible for delivering the training to the individual subscribers and has primary responsibility and broad discretion to establish price. Therefore, the Group is considered the primary obligor in these transactions and recognize the revenues at a gross basis. The other form of offline training services provided by the Group is to help recruit the trainees and coordinate the training activities instructed by the training organizer and sponsor. The revenue is recognized over the service period on a net basis as the Group considers itself as an agent in such arrangement.

Contract balances

Timing of revenue recognition may differ from the timing of invoicing to customers. The Group records contract asset when the Group has a right to consideration in exchange for goods or services that it has transferred to a customer and when that right is conditioned on something other than the passage of time (for example, the entity's future performance). Accounts receivable represent amounts invoiced and revenue recognized prior to invoicing, when the Group has satisfied its performance obligations and has the unconditional right to payment. As of December 31, 2018 and June 30, 2019, there were no contract assets recorded in the Group's consolidated balance sheets.

If a customer pays consideration, or the Group has a right to an amount of consideration that is unconditional (that is, a receivable), before the Group transfers a good or service to the customer, the Group shall present the contract as a contract liability when the payment is made or the payment is due (whichever is earlier). A contract liability is the Group's obligation to transfer goods or services to a customer for which it has received consideration (or an amount of consideration is due) from the customer. Receipts in advance and deferred revenue relate to unsatisfied performance obligations at the end of the period and primarily consist of fees received from advertisers. Due to the generally short-term duration of the contracts, the majority of the performance obligations are satisfied in the following reporting period. Contract liability is presented as deferred revenue in the unaudited interim condensed consolidated balance sheets. Revenue recognized for the six months ended June 30, 2018 and 2019 that was included in the contract liabilities balance at the beginning of the period was RMB 3,155,000 and RMB 3,408,000, respectively.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)****Practical Expedients and Exemptions**

The Group generally expenses sales commissions when incurred because the amortization periods are generally one year or less. These costs are recorded within sales and marketing expenses.

(l) Cost of revenues

The Group's cost of revenues consists primarily of (i) personnel-related expenses in relation to the content production; (ii) advertising content producing costs, such as video production costs; (iii) site fee and execution fee of enterprise value-added services and offline training; (iv) equipment location rental fee and operating expense; (v) business tax and surcharges; (vi) bandwidth and server cost, depreciation and other miscellaneous costs.

(m) Sales and marketing expenses

Sales and marketing expenses consist primarily of personnel-related expenses including sales commissions related to the sales and marketing personnel; marketing and promotional expenses including promotion activity outsourcing costs; rental expenses and depreciation expenses.

Advertising costs are expensed as incurred, and are included in sales and marketing expenses. For the six months ended June 30, 2018 and 2019, total advertising expenses were RMB 0.79 million and RMB 0.70 million, respectively.

(n) General and administrative expenses

General and administrative expenses consist primarily of payroll and related expenses for employees involved in general corporate functions, including finance, legal and human resources; costs associated with use by these functions of facilities and equipment, such as depreciation, rental and other general corporate related expenses.

(o) Research and development expenses

Research and development expenses consist primarily of (i) personnel-related expenses associated with the development of, enhancement to, and maintenance of the Group's PC websites, mobile applications and mobile websites; (ii) expenses associated with new technology and product development and enhancement; and (iii) rental expense and depreciation of servers.

For internal use software, the Group expenses all costs incurred for the preliminary project stage and post implementation-operation stage of development, and costs associated with repair or maintenance of the existing platform. Costs incurred in the application development stage are capitalized and amortized over the estimated useful life. Since the amount of the Company's research and development expenses qualifying for capitalization has been immaterial, as a result, all development costs incurred for development of internal used software have been expensed as incurred.

For external use software, costs incurred for development of external use software have not been capitalized since the inception of the Company, because the period after the date technical feasibility is reached and the time when the software is marketed is short historically, and the amount of costs qualifying for capitalization has been immaterial.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)****(p) Share-based compensation**

All share-based awards granted to employees are restricted share units, which are measured at fair value on grant date. Share-based compensation expense is recognized using the straight-line method, over the requisite service period, which is the vesting period. The Group early adopted ASU 2016-09 from the earliest period presented to recognize the effect of forfeiture in compensation cost when they occur. The fair value of the restricted share units were assessed using the income approaches / market approaches, with a discount for lack of marketability given that the shares underlying the awards were not publicly traded at the time of grant. This assessment required complex and subjective judgments regarding the Company's projected financial and operating results, its unique business risks, the liquidity of its ordinary shares and its operating history and prospects at the time the grants were made.

Cancellation of an award accompanied by the grant of a replacement award is accounted for as a modification of the terms of the cancelled award ("modification awards"). The compensation costs associated with the modification awards are recognized if either the original vesting condition or the new vesting condition has been achieved. If the awards are expected to vest under the original vesting condition, the compensation cost would be recognized regardless of whether the employee satisfies the modified condition. Such compensation costs cannot be less than the grant-date fair value of the original award. The incremental compensation cost is measured as the excess of the fair value of the replacement award over the fair value of the cancelled award at the cancellation date. Therefore, in relation to the modification awards, the Group recognizes share-based compensation over the vesting periods of the new awards, which comprises (i) the amortization of the incremental portion of share-based compensation over the remaining vesting term and (ii) any unrecognized compensation cost of original award, using either the original term or the new term, whichever is higher for each reporting period.

(q) Employee benefits

The Group's consolidated subsidiaries, the VIE and the VIE's subsidiaries in the PRC (the "PRC Entities") participate in a government-mandated multi-employer defined contribution plan pursuant to which certain retirement, medical and other welfare benefits are provided to employees. The relevant labor regulations require the PRC Entities to pay the local labor and social welfare authorities' monthly contributions at a stated contribution rate based on the monthly basic compensation of qualified employees. The relevant local labor and social welfare authorities are responsible for meeting all retirement benefits obligations and the PRC Entities have no further commitments beyond their monthly contributions. The contributions to the plan are expensed as incurred. Employee social security and welfare benefits included as cost and expenses in the unaudited interim condensed consolidated statements of comprehensive loss were appropriately RMB 7.6 million and RMB 15.0 million for the six months ended June 30, 2018 and 2019, respectively.

(r) Taxation*Income taxes*

Current income taxes are provided on the basis of net income for financial reporting purposes, adjusted for income and expense items which are not assessable or deductible for income tax purposes, in accordance with the regulations of the relevant tax jurisdictions.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

The Group follows the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on the temporary differences between the financial statements carrying amounts and tax basis of existing assets and liabilities by applying enacted statutory tax rates that will be in effect in the period in which the temporary differences are expected to reverse. The Group records a valuation allowance to reduce the amount of deferred tax assets if based on the weight of available evidence, it is more-likely-than-not that some portion, or all, of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rates is recognized in the unaudited interim condensed consolidated statement of comprehensive loss in the period of change.

Uncertain tax positions

In order to assess uncertain tax positions, the Group applies a more likely than not threshold and a two-step approach for the tax position measurement and financial statement recognition. Under the two-step approach, the first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount that is more than 50% likelihood of being realized upon settlement. The Group recognizes interest and penalties, if any, under accrued expenses and other current liabilities on its unaudited interim condensed consolidated balance sheets and under other expenses in its unaudited interim condensed consolidated statement of comprehensive loss. The Group did not have any unrecognized uncertain tax positions as of and for the six months ended June 30, 2018 and 2019.

(s) Segment reporting

The Group's chief operating decision maker ("CODM") has been identified as its Chief Executive Officer, who reviews the consolidated results when making decision about allocating resources and assessing performance of the Group as a whole. Hence, the Group has only one reportable segment. The Group does not distinguish between markets or segments for the purpose of internal reporting. The Group's long-lived assets are substantially all located in the PRC and substantially all of the Group's revenues are derived from the PRC. Therefore, no geographical segments are presented.

The Group's organizational structure is based on a number of factors that the CODM uses to evaluate, view and run the Group's business operations, which include, but are not limited to, customer base, homogeneity of services and technology. The Group's reporting segment is based on its organizational structure and information reviewed by the Group's CODM to evaluate the reporting segment result.

(t) Net Loss per share

Net loss per share is computed in accordance with ASC 260, "Earnings per Share". The two-class method is used for computing earnings per share in the event the Group has net income available for distribution. Under the two-class method, net income is allocated between ordinary shares and other participating securities based on their participating rights. The Company's convertible redeemable preferred shares may be considered as participating securities because they are entitled to receive dividends or distributions on an as if converted basis if the Group has net income available for

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****2. Significant Accounting Policies (Continued)**

distribution under certain circumstances. Net losses are not allocated to other participating securities as they are not obligated to share the losses based on their contractual terms.

Diluted loss per share is calculated by dividing net loss attributable to ordinary shareholders as adjusted for the effect of dilutive ordinary equivalent shares, if any, by the weighted average number of ordinary and dilutive ordinary equivalents shares outstanding during the period. Dilutive equivalent shares are excluded from the computation of diluted loss per share if their effects would be anti-dilutive. Ordinary share equivalents consist of the ordinary shares issuable in connection with the Group's convertible redeemable preferred shares using the if-converted method, and ordinary shares issuable upon the vesting of the restricted share units, using the treasury stock method.

3. Recently issued accounting pronouncements

The Group qualifies as an "emerging growth company", or EGC, pursuant to the Jumpstart Our Business Startups Act of 2012, as amended, or the JOBS Act. As an EGC, the Group does not need to comply with any new or revised financial accounting standards until such date that a private company is otherwise required to comply with such new or revised accounting standards.

Financial Instruments-overall: Recognition and Measurement of Financial Assets and Financial Liabilities. In January 2016, the FASB issued ASU 2016-01, "Recognition and Measurement of Financial Assets and Financial Liabilities", which amends certain aspects of recognition, measurement, presentation and disclosure of financial instruments. This amendment requires all equity investments to be measured at fair value, with changes in the fair value recognized through net income (other than those accounted for under equity method of accounting or those that result in consolidation of the investee). This standard is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years for public companies. The standard is effective for the Group beginning after December 15, 2018. Based on the evaluation, the Group considers the adoption has no material impact on the Group's unaudited interim condensed consolidated financial statements.

Financial Instruments-overall: Credit Losses. In June 2016, the FASB issued ASU 2016-13, "Financial Instruments-Credit Losses (Topic 326)", which introduces new guidance for the accounting for credit losses on instruments within its scope. The new FASB model, referred to as the current expected credit losses ("CECL") model, will apply to: (1) financial asset subject to credit losses and measured at amortized cost and (2) certain off-balance sheet credit exposures. This includes loans, held-to-maturity debt securities, loan commitments, financial guarantees, and net investment in leases, as well as reinsurance and trade receivables. This replaces the existing incurred loss model. This guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption will be permitted for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018 for public companies. The standard is effective for the Group beginning after December 15, 2021. The Group is currently evaluating the impact that the standard will have on its unaudited interim condensed consolidated financial statements and related disclosures.

Leases. In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)", specifies the accounting for leases. For operating leases, ASU 2016-02 requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****3. Recently issued accounting pronouncements (Continued)**

sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. In addition, this standard requires both lessees and lessors to disclose certain key information about lease transactions. ASU 2016-02 is effective for public companies for annual reporting periods, and interim periods within those years, beginning after December 15, 2018. The standard is effective for the Group beginning after December 15, 2019 and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted. The Group is currently evaluating the impact ASU 2016-02 will have on the Group's unaudited interim condensed consolidated financial statements, and expects that some existing operating lease commitments will be recognized as operating lease obligations and right-of-use assets as a result of adoption.

Statement of Cash Flows. In August 2016, the FASB issued ASU 2016-15, "Statement of Cash Flows—Classification of Certain Cash Receipts and Cash Payments", which clarifies the presentation and classification of certain cash receipts and cash payments in the statement of cash flows. This guidance is effective for financial statements issued for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years for public companies. Early adoption is permitted. The standard is effective for the Group beginning after December 15, 2018 and interim periods within fiscal years beginning after December 15, 2019. Based on the evaluation, the Group considers the adoption will not have material impact on the Group's unaudited interim condensed consolidated financial statements.

Fair Value Measurement (Topic 820). In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement, which eliminates, adds and modifies certain disclosure requirements for fair value measurements. Under the guidance, public companies will be required to disclose the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements. The guidance is effective for all entities for fiscal years beginning after December 15, 2019 and for interim periods within those fiscal years, but entities are permitted to early adopt either the entire standard or only the provisions that eliminate or modify the requirements. The Group is currently in the process of evaluating the impact of the adoption of this guidance on its unaudited interim condensed consolidated financial statements.

b) Credit risk

The Group's credit risk primarily arises from cash and cash equivalents, short-term investments, receivables due from its customers, related parties and other parties. The maximum exposure of such assets to credit risk is the assets' carrying amounts as of the balance sheet dates. The Group expects that there is no significant credit risk associated with cash and cash equivalents and short term investments which were held by reputable financial institutions in the jurisdictions where the Company, its subsidiaries, VIE and the subsidiaries of the VIE are located. The Group believes that it is not exposed to unusual risks as these financial institutions have high credit quality.

The Group believes that there is no significant credit risk associated with amounts due from related parties. Receivables due from customers are typically unsecured in the PRC and the credit risk with respect to which is mitigated by credit evaluations the Group performs on its customers and its ongoing monitoring process of outstanding balances.

c) Foreign currency risk

The Group's operating transactions are mainly denominated in RMB, which is not freely convertible into foreign currencies. The value of the RMB is subject to changes by the central government policies and to international economic and political development. In the PRC, certain foreign exchange transactions are required by law to be transacted only by authorized financial institutions at exchange rates set by the People's Bank of China (the "PBOC"). Remittances in currencies other than RMB by the Group in China must be processed through PBOC or other China

Online culture operating permit and production and operation of radio and television programs license may also be required by the relevant authorities due to the uncertainties of the interpretation of the related laws and regulations. Without these licenses, the PRC government may order the Group to cease its services, which may cause disruption to the Group's business operations. As of the date of the report, the Group is planning to apply for licenses and permits for the certain operations of the businesses.

9. Redeemable non-controlling interests

In January 2018, Beijing Duoke established KrAsia, which is a limited liability company in Singapore with a paid-up share capital of US\$3,000 divided into 30,000 ordinary shares. KrAsia's principal business is operating an online platform for telecommunications, media and technology entrepreneurship, which is contemplated to be in the similar business of Beijing Duoke in Southeast Asia. Pursuant to the shareholders agreement ("SHA") that were entered into by several institutional investors ("Investors"), Beijing Duoke, and KrAsia in March 2018, KrAsia allotted and issued redeemable convertible preference shares ("RCPS") to the Investors ("RCPS Shareholders") at considerations amounted to approximately US\$ 1.06 million in aggregate. Upon the issuance, Beijing Duoke has approximately 56.25% equity interest in KrAsia.

According to the SHA, on the occurrence of certain events that are not within the control of KrAsia, a majority of RCPS Shareholders shall have the right to require KrAsia to redeem all the RCPS held by the RCPS Shareholders at 1.5 times of the subscription price per RCPS. Beijing Duoke provides guarantee to such redemption obligation of KrAsia to the RCPS Shareholders. Hence the Group considers KrAsia is a VIE mainly due to the fact that the ordinary shares held by Beijing Duoke is equity at risk which is insufficient to finance KrAsia's expected activities without additional subordinated financial support. In addition, as the Group has the obligation to absorb all the losses and the right to receive benefits from KrAsia that could potentially be significant to KrAsia and the Group has power to direct the most significant activities of KrAsia, the Group is considered the primary beneficiary of KrAsia and consolidates KrAsia in accordance with ASC 810, Consolidation.

As KrAsia has preference shares that could be redeemed by non-controlling shareholders, the RCPS Shareholders, upon the occurrence of certain events that are not solely within the control of KrAsia, the RCPS are accounted for as redeemable non-controlling interests in mezzanine equity.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****9. Redeemable non-controlling interests (Continued)**

The changes in the amount of redeemable non-controlling interests for the six months ended June 30, 2018 and 2019 are as follows:

Addition	6,032	—
Accretions on the redeemable non-controlling interests to the redemption value	338	331
Balance at end of the period	<u>6,370</u>	<u>8,062</u>

Subsequent to June 30, 2019, 36Kr Global Holding, a subsidiary of the Company, acquired 18.75% outstanding shares of KrAsia from one of its RCPS shareholders at the consideration of approximately US\$ 0.68 million. After this acquisition, the Group holds 75% outstanding shares of KrAsia in aggregate.

10. Ordinary Shares

In December 2018, the Company was incorporated as a limited liability company with authorized share capital of US\$50,000 divided into 500,000,000 shares with par value US\$0.0001 each. As of December 31, 2018, one ordinary share was issued and outstanding.

In August 2019, the shareholders of the Company agreed to increase the authorized shares to 5,000,000,000 shares. As described in Note 1 (b), the Company issued ordinary shares and Preferred Shares in August 2019 to the ordinary shareholders and preferred shareholders of Beijing Duoke and Xieli as consideration to swap for the respective similar equity interests that they held in Beijing Duoke. Upon the completion of the Reorganization in August 2019, the authorized ordinary shares are 4,326,574,000, of which issued and outstanding ordinary shares were 189,388,000 and issuable shares in connection to the vested restricted share units were 63,567,850, and the authorized, issued and outstanding Series A-1, A-2, B-1, B-2, B-3, B-4 and C-1 preferred shares were 65,307,000, 101,261,000, 250,302,000, 14,593,000, 56,105,000, 20,982,000 and 164,876,000, respectively.

As at June 30, 2019, on an as if basis, issued and outstanding ordinary shares were 204,941,793 and the vested restricted share units were 76,494,951.

Series C-1 preferred shares	October 2017 to January 2018	1.53	164,876,000

b. In March 2019, 10,027,455 Series A-1 preferred shares held by one of the holders of Series A-1 preferred shares were re-designated to Series B-3 preferred shares, which were then transferred to a new investor for a total amount of RMB 27,140,000. The Group did not receive any proceeds from this transaction.

The Group considered that such re-designation, in substance, was the same as a repurchase and cancellation of the Series A-1 preferred shares and simultaneously an issuance of the Series B-3 preferred shares. Therefore the Group recorded 1) difference between the fair value of the Series A-1 preferred shares and the carrying amount of the Series A-1 preferred shares against retained earnings, or in the absence of retained earnings, by charging against additional paid-in capital or by increasing the accumulated deficit once additional paid-in capital has been exhausted; and 2) difference between the fair value of the Series A-1 preferred shares and the fair value of the Series B-3 preferred shares as deemed distribution to preferred shareholders.

c. In April 2019, 17,215,818 and 11,643,239 ordinary shares held by the Founder who is also an employee of the Company, were re-designated to Series B-3 and Series B-4 preferred shares, respectively, which were then transferred to certain new investors for a total amount of RMB 30,896,752 and RMB 36,756,000, respectively. The Group did not receive any proceeds from this transaction.

The Group considered that such re-designation, in substance, was the same as a repurchase and cancellation of the ordinary shares and simultaneously an issuance of the preferred shares. Therefore the Company recorded 1) difference between the fair value and the par value of the ordinary shares, amounted to RMB 29,956,000 and RMB 20,261,000 for the re-designation of ordinary shares into Series B-3 and Series B-4 preferred shares, respectively, against additional paid-in capital or by increasing accumulated deficit once additional paid-in capital has been exhausted; and 2) difference between the fair value of the preferred shares and the fair value of the ordinary shares, amounted to

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****11. Convertible Redeemable Preferred Shares (Continued)**

RMB 11,230,000 and RMB 15,554,000 for the re-designation of ordinary shares into Series B-3 and Series B-4 preferred shares, respectively, as share based compensation expenses in the Company's unaudited interim condensed consolidated statements of comprehensive loss.

d. To compensate the preferred shareholders for the dilution of their interests due to the adoption of the 2016 Incentive Plan set forth in Note 13, (i) in August 2019, immediately before the Reorganization, 15,553,793 ordinary shares and 12,927,101 vested restricted share units were re-designated to Series A-1, A-2, B-1, B-2 and B-3 preferred shares, which were then transferred to the existing holders of Series A-1, A-2, B-1, B-2 and B-3 preferred shares without consideration. (ii) 67,311,809 Series A-1, A-2, B-1, B-2 and B-3 preferred shares in total were issued to the existing holders of Series A-1, A-2, B-1, B-2 and B-3 preferred shares without consideration.

The Company considered that re-designation and free transfer of shares from ordinary shareholders to preferred shareholders mentioned in (i) above were, in substance, the same as a contribution from ordinary shareholders followed by a cancellation of those ordinary shares and simultaneously an issuance of the preferred shares for no consideration. Therefore the Company recorded the par value of those ordinary shares cancelled into additional paid-in capital, and recorded the fair value of the preferred shares as deemed distribution to preferred shareholders, against retained earnings, or in the absence of retained earnings, by charging against additional paid-in capital or by increasing the accumulated deficit once additional paid-in capital has been exhausted.

The issuance of the preferred shares as mentioned in (ii) above was recognized at the fair value at the date of issuance as mezzanine against retained earnings, or in the absence of retained earnings, by charging against additional paid-in capital or by increasing the accumulated deficit once additional paid-in capital has been exhausted.

e. After taken into account the transactions mentioned above, and pursuant to the Reorganization set forth in Note 1 (b), in August 2019, the Company issued 65,307,000, 101,261,000, 250,302,000, 14,593,000, 56,105,000, 20,982,000 and 164,876,000 shares of Series A-1, A-2, B-1, B-2, B-3, B-4 and C-1 preferred shares, respectively, to the same group of preferred shareholders of Beijing Duoke and Xieli as consideration in exchange for the respective similar equity interests that they held in Beijing Duoke. As set forth in Note 1 (c), the effect of the ordinary shares and the preferred shares issued by the Company pursuant to the Reorganization have been presented retrospectively as of the beginning of the earliest period presented on the unaudited interim condensed consolidated financial statement or the original issue date, whichever is later.

The major rights, preferences and privileges of the Preferred Shares are as follows:

Conversion rights

The Preferred Shares (exclusive of unpaid shares) would automatically be converted into ordinary shares 1) upon the qualified Initial Public Offering ("QIPO"); or 2) upon the written consent of the holders of a majority of the outstanding Preferred Shares of each class with respect to conversion of each class. Upon receipt of a redemption notice, the Company and the Co-Founder shall redeem the redeemable Preferred Shares and make payment to the shareholders within ninety days following the receipt of the redemption notice an amount on a per share basis calculated as follows:

The redemption price of Series C-1 preferred shares would be equal to the sum of (a) the Series C-1 issue price $\times (1 + 10\%)^N$, plus (b) any declared but unpaid dividends on a Series C-1 preferred share (where N is a fraction, the numerator of which is the number of calendar days between the Series C-1 issue date and the date on which such Series C-1 preferred shares are redeemed and the denominator of which is 365);

The redemption price of Series B-1, B-2, B-3, and B-4 preferred shares would be equal to the sum of (a) 120% of the Series B-1, B-2, B-3, and B-4 issue price or the fair market value of such shares (whichever is higher), plus (b) any declared but unpaid dividends on a Series B-1, B-2, B-3, and B-4 preferred share;

Subject to applicable laws, the Company and the Co-Founder shall, jointly and severally, effect the redemption and make payment of the redemption price to each preferred shareholder in the following sequence and priority: (i) first, pay the Series C-1 redemption price to the holders of Series C-1 preferred shares on a pari passu basis (ii) second, after the full payment of the Series C-1 redemption price, pay the Series B-1 redemption price to the holders of Series B-1 preferred shares on a pari passu basis; (iii) third, after the full payment of the Series C-1 and B-1 redemption price, pay the Series B-2, B-3, B-4 redemption price to the holders of Series B-2, B-3, B-4 preferred shares on a pari passu basis; (iv) after redemption in full of the Series C-1, B-1, B-2, B-3 and B-4 preferred shares, redeem each Series A2 preferred shares requested to be redeemed.

The Co-Founder shall not be obligated to make any payment under the Redemption in an amount exceeding the financial value of the Company's securities directly or indirectly held by the Co-Founder.

Accounting for Preferred Shares

The Company has classified the Preferred Shares in the mezzanine equity of the unaudited interim condensed consolidated balance sheets as they are contingently redeemable at the holders' option any time upon the occurrence of certain events except for Series A-1 which were contingently redeemable upon the occurrence of certain liquidation events outside of the Company's control. The Company

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****11. Convertible Redeemable Preferred Shares (Continued)**

records accretions on the Preferred Shares to the redemption value from the issuance dates to the earliest redemption dates. The accretions are recorded against retained earnings, or in the absence of retained earnings, by charges against additional paid-in capital. Once additional paid-in capital has been exhausted, additional charges are recorded by increasing the accumulated deficit. Each issuance of the Preferred Shares was recognized at the respective fair value at the date of issuance net of issuance cost.

In respect of the Co-Founder's obligation to the redemption right, as it were directly linked to and incurred for the Preferred Shares issuance, the Group views it as appropriate to treat the amount of value related to such obligation as an issuance cost as it is similar to a finder's fee to find a new investor. Since the underlying shares issued are preferred shares, such issuance costs are recorded as a reduction of the balance of mezzanine, and also deemed as the contribution from the Co-Founder. With the rapid growth of the Group's business, the Group believes the fair value of such Co-Founder's obligation is immaterial since inception as the probability of triggering the Co-Founder's obligation is very remote taking into account independent valuations.

The Company has determined that there was no beneficial conversion feature attributable to any of the Preferred Shares because the initial effective conversion price of these Preferred Shares were higher than the fair value of the Company's ordinary shares determined by the Company with the assistance from an independent valuation firm.

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****12. Income taxes (Continued)**

The PRC

In accordance with the Enterprise Income Tax Law ("EIT Law"), Foreign Investment Enterprises ("FIEs") and domestic companies are subject to Enterprise Income Tax ("EIT") at a uniform rate of 25%.

The EIT Law also provides that an enterprise established under the laws of a foreign country or region but whose "de facto management body" is located in the PRC be treated as a resident enterprise for PRC tax purposes and consequently be subject to the PRC income tax at the rate of 25% for its global income. The Implementing Rules of the EIT Law merely define the location of the "de facto management body" as "the place where the exercising, in substance, of the overall management and control of the production and business operation, personnel, accounting, properties, etc., of a non-PRC company is located." Based on a review of surrounding facts and circumstances, the Group does not believe that it is likely that its operations outside of the PRC would be considered a resident enterprise for PRC tax purposes. However, due to limited guidance and implementation history of the EIT Law, should the Company be treated as a resident enterprise for PRC tax purposes, the Company will be subject to PRC income tax on worldwide income at a uniform tax rate of 25%.

Singapore

Subsidiaries incorporated in Singapore are subject to the Singapore Corporate Tax rate of 17%.

For interim financial reporting, the Group estimates the annual tax rate based on projected taxable income for the full year and records a quarterly income tax provision in accordance with the guidance on accounting for income taxes in an interim period. As the year progresses, the Group refines the estimates of the year's taxable income as new information becomes available. This continual estimation process often results in a change to the expected effective tax rate for the year. When this occurs, the Group adjusts the income tax provision during the quarter in which the change in estimate occurs so that the year-to-date provision reflects the expected annual tax rate.

The following table summarizes the Company's income tax expenses and effective tax rates for the six months ended June 30, 2018 and 2019:

	For the six months ended June 30,	
	2018 RMB'000	2019 RMB'000
Loss before income tax	(11,342)	(47,605)
Income tax credit	3,029	2,107
Effective tax rate	26.71%	4.43%

The change in effective tax rate is primarily resulted from the changes in mix of loss before income tax in different entities and the changes of permanent differences (mainly arising from share based compensation expenses incurred as a result of the re-designation of ordinary shares to Series B-3 and Series B-4 preferred shares and research and development expenses).

36Kr Holdings Inc.**NOTES TO UNAUDITED INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****12. Income taxes (Continued)**

As of December 31, 2018 and June 30, 2019, deferred tax assets were RMB 306,000 and RMB 3,422,000, respectively. The increase of deferred tax assets is primarily arising from the increase of tax losses carried forward in Beijing Duoke.

PART II**INFORMATION NOT REQUIRED IN PROSPECTUS****ITEM 6. INDEMNIFICATION OF DIRECTORS AND OFFICERS.**

Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences or committing a crime. Our post-offering memorandum and articles of association that will become effective immediately prior to the completion of this offering provide that each officer or director of our company (but not auditors) shall be indemnified against all actions, proceedings, costs, charges, expenses, losses, damages or liabilities incurred or sustained by such director or officer, other than by reason of such person's own dishonesty or fraud as determined by a court of competent jurisdiction, in or about the conduct of our company's business or affairs (including as a result of any mistake of judgment) or in the execution or discharge of his or her duties, powers, authorities or discretions, including without prejudice to the generality of the foregoing, any costs, expenses, losses or liabilities incurred by such director or officer in defending (whether successfully or otherwise) any civil proceedings concerning our company or its affairs in any court whether in the Cayman Islands or elsewhere.

Pursuant to the form of indemnification agreements filed as Exhibit 10.3 to this registration statement, we will agree to indemnify our directors and officers against certain liabilities and expenses that they incur in connection with claims made by reason of their being a director or officer of our company.

The form of Underwriting Agreement to be filed as Exhibit 1.1 to this registration statement will also provide for indemnification of us and our officers and directors.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended (the "Securities Act") may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

- (viii) Each Series C-2 Preferred Share shall automatically be converted (without the need for the consent or approval of any Member or the Board), based on the then-effective Series C-2 Conversion Price, without the payment of any additional consideration, into fully-paid and non-assessable Ordinary Shares upon the earlier of (A) the closing of an IPO, or (B) the date specified by written consent or agreement of holders holding 50% or more of the issued and outstanding Series C-2 Preferred Shares.
- (ix) Each Series D Preferred Share shall automatically be converted (without the need for the consent or approval of any Member or the Board), based on the then-effective Series D Conversion Price, without the payment of any additional consideration, into fully-paid and non-assessable Ordinary Shares upon the earlier of (A) the closing of an IPO, or (B) the date specified by written consent or agreement of holders holding 50% or more of the issued and outstanding Series D Preferred Shares.

Any conversion pursuant to this Article 6.6 shall be referred to as an “**Automatic Conversion**”.

- (d) *Conversion Mechanism.* The conversion hereunder of the Preferred Shares shall be effected in the following manner:
 - (i) Except as provided in (ii) and (iii) below, before any holder of any Preferred Shares shall be entitled to convert the same into Ordinary Shares, such holder shall surrender the original certificate or certificates therefor duly endorsed (or in lieu thereof shall deliver an affidavit of lost certificate and indemnity therefor) (if any), at the office of the Company or of any transfer agent for such share to be converted and shall give notice to the Company at its principal corporate office, of the election to convert the same and shall state therein the name of such holder in which the certificate or certificates for Ordinary Shares are to be issued. The Company shall, as soon as practicable thereafter, issue and deliver at such office to such Preferred Holder, or to the nominee or nominees of such holder, a certificate or certificates (if applicable) for the number of Ordinary Shares to which such holder shall be entitled as aforesaid, and such conversion shall be deemed to have been made immediately prior to the close of business on the date of such notice and such surrender of the Preferred Shares to be converted, the Register of Members of the Company shall be updated accordingly to reflect the same.
 - (ii) If the conversion is in connection with an underwritten public offering of securities, the conversion will be conditioned upon the closing with the underwriter(s) of the sale of securities pursuant to such offering and the Person(s) entitled to receive the Ordinary Shares issuable upon such conversion shall not be deemed to have converted the applicable Preferred Shares until immediately prior to the closing of such sale of securities.

- (iii) Upon the occurrence of an event of Automatic Conversion, all Preferred Holders to be automatically converted will be given at least ten (10) days' prior written notice of the date fixed (which date shall in the case of an IPO be the latest practicable date immediately prior to the closing of an IPO) and the place designated for automatic conversion of all such Preferred Shares pursuant to this Article. Such notice shall be given pursuant to Article 39 to each record holder of such Preferred Shares at such holder's address appearing on the Register of Members. On or before the date fixed for conversion, each holder of such Preferred Shares shall surrender the applicable original certificate or certificates duly endorsed (or in lieu thereof shall deliver an affidavit of lost certificate and indemnity therefor) (if any) for all such Shares to the Company at the place designated in such notice. On the date fixed for conversion, the Company shall promptly effect such conversion and update its Register of Members to reflect such conversion, and all rights with respect to such Preferred Shares so converted will terminate, with the exception of the right of a holder thereof to receive the Ordinary Shares issuable upon conversion of such Preferred Shares, and upon surrender of the certificate or certificates therefor duly endorsed (or in lieu thereof upon delivery of an affidavit of lost certificate and indemnity therefor) (if any), to receive certificates (if applicable) for the number of Ordinary Shares into which such Preferred Shares have been converted. All certificates evidencing such Preferred Shares shall, from and after the date of conversion, be deemed to have been retired and cancelled and the Preferred Shares represented thereby converted into Ordinary Shares for all purposes, notwithstanding the failure of the holder or holders thereof to surrender such certificates on or prior to such date.
- (iv) The Company may effect the conversion of Preferred Shares in any manner available under Applicable Law, including redeeming or repurchasing the relevant Preferred Shares and applying the proceeds thereof towards payment for the new Ordinary Shares. For purposes of the repurchase or redemption, the Company may, subject to the Company being able to pay its debts in the ordinary course of business, make payments out of its capital.
- (v) No fractional Ordinary Shares shall be issued upon conversion of any Preferred Shares. In lieu of any fractional shares to which the holder would otherwise be entitled, the Company shall at the discretion of the Board of Directors either (A) pay cash equal to such fraction multiplied by the fair market value for the Preferred Share as determined and approved by the Board of Directors), or (B) issue one (1) whole Ordinary Share for each fractional share to which the holder would otherwise be entitled.

27

- (vi) Upon conversion, all declared but unpaid bonus share dividends on the Preferred Shares shall be paid in Shares and all declared but unpaid cash dividends on the Preferred Shares shall be paid either in cash or by the issuance of such number of further Ordinary Shares as equal to the value of such cash amount divided by the applicable conversion price, at the option of the Preferred Holders.
- (e) *Adjustment of Applicable Conversion Prices.* The Applicable Conversion Price shall be adjusted and re-adjusted from time to time as provided below:
- (i) *Adjustment for Subdivision or Consolidation of Shares.* If the Company shall at any time, or from time to time, effect a subdivision of the outstanding Ordinary Shares, the Applicable Conversion Price in effect immediately prior to such subdivision shall be proportionately decreased. Conversely, if the Company shall at any time, or from time to time, consolidate the outstanding Ordinary Shares into a smaller number of shares, the Applicable Conversion Price in effect immediately prior to such combination shall be proportionately increased. Any adjustment under this subparagraph shall become effective at the close of business on the date the subdivision or consolidation becomes effective.
 - (ii) *Adjustment for Ordinary Share Dividends and Distributions.* If the Company makes (or fixes a record date for the determination of Ordinary Shareholders entitled to receive) a dividend or other distribution to the Ordinary Shareholders payable as a bonus issuance of Ordinary Shares, the Applicable Conversion Price then in effect shall be decreased as of the time of such issuance (or in the event such record date is fixed, as of the close of business on such record date) by multiplying such conversion price by a fraction (i) the numerator of which is the total number of Ordinary Shares issued and outstanding immediately prior to the time of such issuance or the close of business on such record date, and (ii) the denominator of which is the total number of Ordinary Shares issued and outstanding immediately prior to the time of such issuance or the close of business on such record date plus the number of Ordinary Shares issuable in payment of such dividend or distribution.
 - (iii) *Adjustments for Other Dividends.* If the Company at any time, or from time to time, makes (or fixes a record date for the determination of Ordinary Shareholders entitled to receive) a dividend or other distribution to the Ordinary Shareholders payable in securities of the Company other than Ordinary Shares or payable in any other asset or property (other than cash), then, and in each such event, provision shall be made so that, upon conversion of any Preferred Share thereafter, the holder thereof shall receive, in addition to the number of Ordinary Shares issuable thereon, the amount of securities of the Company or other asset or property which the holder of such share would have received in connection with such event had the Preferred Shares been converted into Ordinary Shares immediately prior to such event.

28

- (iv) *Adjustments for Reorganizations, Mergers, Consolidations, Reclassifications, Exchanges, Substitutions.* If at any time, or from time to time, any capital reorganization or reclassification of the Ordinary Shares (other than as a result of a share dividend, subdivision or consolidation otherwise treated above) occurs or the Company is consolidated, merged or amalgamated with or into another Person (other than a consolidation, merger or amalgamation treated as a liquidation), then in any such event, provision shall be made so that, upon conversion of any Preferred Share thereafter, the holder thereof shall receive the kind and amount of shares and other securities and property which the holder of such shares would have received in connection with such event had the Preferred Shares been converted into Ordinary Shares immediately prior to such event.
- (v) *Adjustments to Applicable Conversion Price for Dilutive Issuance.*
- (A) *Special Definitions.* For purpose of this Article, the following definitions shall apply:
- (I) “**Options**” mean rights, options or warrants to subscribe for, purchase or otherwise acquire either Ordinary Shares or Convertible Securities.
- (II) “**Convertible Securities**” shall mean any indebtedness, shares or other securities directly or indirectly convertible into or exchangeable for Ordinary Shares.
- (III) “**New Securities**” shall mean all Ordinary Shares issued (or, pursuant to Article 6.6(e)(v)(C), deemed to be issued) by the Company after the date on which these Articles are adopted, other than the following issuances:
- a. Ordinary Shares (or Options exercisable for such Ordinary Shares) (as appropriately adjusted for share subdivision, share dividends, consolidation, Recapitalizations and similar events) issued (or issuable pursuant to such Options) to the Group Companies’ employees, officers, directors, consultants or any other Persons qualified pursuant to the ESOP;
- b. Ordinary Shares issued or issuable pursuant to a share subdivision, share dividend, combination, Recapitalization or other similar transaction of the Company, in each case, as described in Article 6.6(e)(i) through Article 6.6(e)(iii);

- c. Ordinary Shares issued upon the conversion of Preferred Shares; and
 - d. Equity Securities of the Company issued as dividend or distribution solely on the Preferred Shares in accordance with these Articles, or in connection with a subdivision, combination, reclassification or similar event of the Preferred Shares.
- (B) *Waiver of Adjustment.* No adjustment to the Conversion Price shall be made as the result of the issuance or deemed issuance of New Securities if the Company receives written notice signed by or on behalf of the Majority Preferred Holders agreeing that no such adjustment shall be made as the result of the issuance or deemed issuance of such New Securities.
- (C) *Deemed Issuance of New Securities.* In the event the Company at any time or from time to time after the Applicable Issue Date shall issue any Options or Convertible Securities or shall fix a record date for the determination of holders of any series or class of securities entitled to receive any such Options or Convertible Securities, then the maximum number of Ordinary Shares (as set forth in the instrument relating thereto without regard to any provisions contained therein for a subsequent adjustment of such number for anti-dilution adjustments) issuable upon the exercise of such Options or, in the case of Convertible Securities and Options therefor, the conversion or exchange of such Convertible Securities or the exercise of such Options, shall be deemed to be New Securities issued as of the time of such issue or, in case such a record date shall have been fixed, as of the close of business on such record date; *provided* that in any such case in which New Securities are deemed to be issued:
- (I) no further adjustment in the Applicable Conversion Price shall be made upon the subsequent issue of Convertible Securities or Ordinary Shares upon the exercise of such Options or conversion or exchange of such Convertible Securities or upon the subsequent issue of Options for Convertible Securities or Ordinary Shares;
 - (II) if such Options or Convertible Securities by their terms provide, with the passage of time or otherwise, for any change in the consideration payable to the Company, or change in the number of Ordinary Shares issuable, upon the exercise, conversion or exchange thereof, the then effective Applicable Conversion Price computed upon the original issue thereof (or upon the occurrence of a record date with respect thereto), and any subsequent adjustments based thereon, shall, upon any such change becoming effective, be recomputed to reflect such change insofar as it affects such Options or the rights of conversion or exchange under such Convertible Securities;

- (III) no readjustment pursuant to Article 6.6(e)(v)(C)(II) shall have the effect of increasing the then effective Applicable Conversion Price to an amount which exceeds the Applicable Conversion Price that would have been in effect had no adjustments in relation to the issuance of such Options or Convertible Securities as referenced in Article 6.6(e)(v)(C)(II) been made;
- (IV) upon the expiration of any such Options or any rights of conversion or exchange under such Convertible Securities that have not been exercised, the then effective Applicable Conversion Price computed upon the original issue thereof (or upon the occurrence of a record date with respect thereto) and any subsequent adjustments based thereon shall, upon such expiration, be recomputed as if:
 - a. in the case of Convertible Securities or Options for Ordinary Shares, the only New Securities issued were the Ordinary Shares, if any, actually issued upon the exercise of such Options or the conversion or exchange of such Convertible Securities and the consideration received therefor was the consideration actually received by the Company for the issue of such exercised Options plus the consideration actually received by the Company upon such exercise or for the issue of all such Convertible Securities that were actually converted or exchanged, plus the additional consideration, if any, actually received by the Company upon such conversion or exchange, and
 - b. in the case of Options for Convertible Securities, only the Convertible Securities, if any, actually issued upon the exercise thereof were issued at the time of issue of such Options, and the consideration received by the Company for the New Securities deemed to have been then issued was the consideration actually received by the Company for the issue of such exercised Options, plus the consideration deemed to have been received by the Company (determined pursuant to Article 6.6(e)(v)(E)) upon the issue of the Convertible Securities with respect to which such Options were actually exercised; and

- (V) if such record date shall have been fixed and such Options or Convertible Securities are not issued on the date fixed therefor, the adjustment previously made in the Applicable Conversion Price which became effective on such record date shall be cancelled as of the close of business on such record date, and thereafter the Applicable Conversion Price shall be adjusted pursuant to Article 6.6(e)(v)(C) as of the actual date of their issuance.
- (D) *Adjustment of Applicable Conversion Price upon Issuance of New Securities.* In the event of an issuance of New Securities, at any time after the Applicable Issue Date, for a consideration per Ordinary Share received by the Company (net of any selling concessions, discounts or commissions) less than the Applicable Conversion Price in effect immediately prior to such issue, then and in such event, such Applicable Conversion Price shall be reduced, concurrently with such issue, to a price determined as set forth below:
- $$\text{NCP} = \text{OCP} * (\text{OS} + (\text{NP}/\text{OCP})) / (\text{OS} + \text{NS})$$
- WHERE:
- NCP = the new Applicable Conversion Price,
- OCP = the Applicable Conversion Price in effect immediately before the issuance of the New Securities,
- OS = the total outstanding Ordinary Shares immediately before the issuance of the New Securities plus the total Ordinary Shares issuable upon conversion of the outstanding Convertible Securities and exercise of outstanding Options,
- NP = the total consideration received for the issuance or sale of the New Securities, and
- NS = the number of New Securities issued or sold or deemed issued or sold.
- (E) *Determination of Consideration.* For purposes of this subparagraph, the consideration received by the Company for the issuance of any New Securities shall be computed as follows:

- (I) *Cash and Property.* Such consideration shall:
- a. insofar as it consists of cash, be computed at the aggregate amount of cash received by the Company excluding amounts paid or payable for accrued interest or accrued dividends and excluding any discounts, commissions or placement fees payable by the Company to any underwriter or placement agent in connection with the issuance of any New Securities;
 - b. insofar as it consists of property other than cash, be computed at the fair market value thereof at the time of such issue, as determined and approved in good faith by the Board of Directors); *provided, however*, that no value shall be attributed to any services performed by any employee, officer or director of any Group Company;
 - c. in the event New Securities are issued together with other Shares or securities or other assets of the Company for consideration which covers both, be the proportion of such consideration so received which relates to such New Securities, computed as provided in subparagraph a and b above, as reasonably determined in good faith by the Board of Directors.
- (II) *Options and Convertible Securities.* The consideration per Ordinary Share received by the Company for New Securities deemed to have been issued pursuant to Article 6.6(e)(v)(C) hereof relating to Options and Convertible Securities, shall be determined by dividing (x) the total amount, if any, received or receivable by the Company as consideration for the issue of such Options or Convertible Securities (determined in the manner described in subparagraph ((E(I) above), plus the minimum aggregate amount of additional consideration (as set forth in the instruments relating thereto, without regard to any provision contained therein for a subsequent adjustment of such consideration) payable to the Company upon the exercise of such Options or the conversion or exchange of such Convertible Securities, or in the case of Options for Convertible Securities, the exercise of such Options for Convertible Securities and the conversion or exchange of such Convertible Securities by (y) the maximum number of Ordinary Shares (as set forth in the instruments relating thereto, without regard to any provision contained therein for a subsequent adjustment of such number) issuable upon the exercise of such Options or the conversion or exchange of such Convertible Securities.

- (vi) *Other Dilutive Events.* In case any event shall occur as to which the other provisions of this Article are not strictly applicable, but the failure to make any adjustment to the Applicable Conversion Price would not fairly protect the conversion rights of the relevant Preferred Holders in accordance with the essential intent and principles hereof, then, in each such case, Board of Directors, in good faith, shall determine the appropriate adjustment to be made, on a basis consistent with the essential intent and principles established in this Article, necessary to preserve, without dilution, the conversion rights of the holders of such Preferred Shares.
- (vii) *No Impairment.* The Company will not, by amendment of these Articles or through any reorganization, Recapitalization, transfer of assets, consolidation, merger, amalgamation, scheme of arrangement, dissolution, issue or sale of securities or any other voluntary action, avoid or seek to avoid the observance or performance of any of the terms to be observed or performed hereunder by the Company, but will at all times in good faith assist in the carrying out of all the provisions of this Article and in the taking of all such action as may be necessary or appropriate to protect the conversion rights of the Preferred Holders against impairment.
- (viii) *Certificate of Adjustment.* In the case of any adjustment or readjustment of the Applicable Conversion Price, the Directors, at the Company's sole expense, shall compute such adjustment or readjustment in accordance with the provisions hereof and prepare a certificate showing such adjustment or readjustment, and shall deliver such certificate by notice to each registered Preferred Holder, at the holder's address as shown in the Company's books. The certificate shall set forth such adjustment or readjustment, showing in detail the facts upon which such adjustment or readjustment is based, including a statement of (i) the consideration received or deemed to be received by the Company for any New Securities issued or sold or deemed to have been issued or sold, (ii) the number of New Securities issued or sold or deemed to be issued or sold, (iii) the Applicable Conversion Price in effect before and after such adjustment or readjustment, and (iv) the type and number of Equity Securities of the Company, and the type and amount, if any, of other property which would be received upon conversion of Preferred Shares after such adjustment or readjustment.
- (ix) *Notice of Record Date.* In the event the Company shall propose to take any action of the type or types requiring an adjustment set forth in this Article, the Directors shall give notice to the Preferred Holders, which notice shall specify the record date, if any, with respect to any such action and the date on which such action is to take place. Such notice shall also set forth such facts with respect thereto as shall be reasonably necessary to indicate the effect of such action (to the extent such effect may be known at the date of such notice) on the Applicable Conversion Price and the number, kind or class of shares or other securities or property which shall be deliverable upon the occurrence of such action or deliverable upon the conversion of the Preferred Shares. In the case of any action which would require the fixing of a record date, such notice shall be given at least twenty (20) days prior to the date so fixed, and in the case of all other actions, such notice shall be given at least thirty (30) days prior to the taking of such proposed action.

- (x) *Reservation of Shares Issuable Upon Conversion.* The Company shall at all times reserve and keep available out of its authorised but unissued Ordinary Shares, solely for the purpose of effecting the conversion of the Preferred Shares, such number of its Ordinary Shares as shall from time to time be sufficient to effect the conversion of all outstanding Preferred Shares. If at any time the number of authorised but unissued Ordinary Shares shall not be sufficient to effect the conversion of all then outstanding Preferred Shares, in addition to such other remedies as shall be available to the Preferred Holders, the Members will take such corporate action as may, in the opinion of its counsel, be necessary to increase its authorised but unissued Ordinary Shares to such number of Shares as shall be sufficient for such purpose.

6.12 If the Company, the Co-Founder and the Co-Founder Holdco fail to make full payment of the Redemption Price within ninety (90) days following the receipt of the Redemption Notice, the amount of any shortfall shall be subject to a daily interest accumulated at a rate of 0.05%. In the event that the Company, the Co-Founder and the Co-Founder Holdco fail to make full payment of the Redemption Price within one hundred and twenty (120) days following the receipt of the Redemption Notice, any Redemption Holder shall be entitled to require the dissolution and liquidation of the Company in accordance with the procedures as set forth in these Articles.

6.13 Notwithstanding anything to the contrary, the Co-Founder’s obligations under this Article shall be limited to the fair market value of the Company Securities directly or indirectly held by the Co-Founder and the Co-Founder Holdco. The Co-Founder shall not be obligated to make any payment under this Article in an amount exceeding the fair market value of the Company Securities directly or indirectly held by the Co-Founder and the Co-Founder Holdco.

7. REGISTER OF MEMBERS

7.1 The Directors shall establish and maintain (or cause to be established and maintained) the Register of Members at the Registered Office or at such other place determined by the Directors in the manner prescribed by the Statute.

42

8. **RECORD DATE**

Power of Directors to Fix Record Date

8.1 The Directors may fix in advance a date as the record date to determine the Members entitled to notice of or to vote at a meeting of the Members and, for the purpose of determining the Members entitled to receive payment of any dividend, the Directors may, at or within ninety (90) days prior to the date of the declaration of such dividend, fix a subsequent date as the record date for such determination.

No Fixed Record Date

8.2 If no such record date is fixed, the record date shall be the date on which notice of the meeting is sent or the date on which the resolution of the Directors declaring such dividend is adopted, as the case may be. A determination of Members entitled to vote at any meeting of Members in accordance with this Article, shall apply to any adjournment thereof.

9. **REDEMPTION AND PURCHASE OF SHARES**

9.1 Subject to the provisions of the Statute, the Memorandum and these Articles, including without limitation Articles 6.8 and 6.9, the Company may:

- (a) purchase its own Shares (including any redeemable Shares); *provided* that the manner of purchase has been agreed by such Member or Members whose Shares are to be purchased by the Company or, failing such agreement, authorised by Ordinary Resolution, and may make payment for such purchase or for any redemption of Shares in any manner authorised by the Statute, including out of capital; and
- (b) reduce its share capital and any capital redemption reserve fund in any manner whatsoever.

9.2 The Company may make a payment in respect of the redemption or purchase of its own Shares in any manner permitted by the Statute, including out of capital.

9.3 The Directors may accept the surrender for no consideration of any fully paid Share unless following such surrender there would no longer be any issued Shares.

10. **VARIATION OF SHARE RIGHTS**

Variation of Class Rights

10.1 Subject to these Articles, including without limitation Articles 6.8 and 6.9, if at any time the share capital is divided into different classes of Shares, all or any of the special rights attached to any class of Shares (unless otherwise provided by the terms of issue of the Shares of that class) may be varied or abrogated with the consent in writing of the holders of not less than two thirds (2/3) of the issued Shares of that class or with the sanction of a resolution passed by the holders of not less than two thirds (2/3) of the issued Shares of that class as may be present in person or by proxy at a separate general meeting of the holders of the Shares of that class. To any such separate general meeting, all of the provisions of these Articles relating to general meetings shall mutatis mutandis apply, but so that the necessary quorum shall be any one or more persons holding or representing by proxy not less than one third (1/3) of the issued Shares of the class and that any holder of Shares of the relevant class present in person or by proxy may demand a poll.

Treatment of Classes

- 10.2 For the purpose of a separate class meeting, the Directors may treat two or more of all classes of Shares as forming one class if they consider that such class of Shares would be affected in the same way by the proposals under consideration.

Effect of Share Issue on Class Rights

- 10.3 The rights conferred upon the holders of any Shares shall not, unless otherwise expressly provided in the rights attaching to such Shares, be deemed to be altered by the creation or issue of further Shares ranking *pari passu* therewith.

11. SHARE CERTIFICATES

Issue of Share Certificates

- 11.1 No Member shall be entitled to a certificate for any or all of his, her or its Shares, unless the Directors shall determine otherwise.

Certificates for Jointly Held Shares

- 11.2 The Company shall not be bound to issue more than one certificate for Shares held jointly by more than one person, and delivery of a certificate to one joint holder shall be sufficient delivery to all.

Replacement Share Certificates

- 11.3 If a share certificate is defaced, lost or destroyed, it may be replaced on payment of such fee (if any) and on such terms (if any) as to evidence and indemnity, and on the payment of expenses of the Company in investigating such evidence and preparing such indemnity as the Directors shall think fit and, in case of defacement, on delivery of the old certificate to the Company for cancellation.

12. TRANSFER OF SHARES

Restrictions on Transfer

- 12.1 [Reserved].

- 12.2 Without the prior written consent of each Preferred Holder, the Ordinary Shareholder (except for the Ordinary Investors) shall not Transfer, directly or indirectly, any Equity Securities of any Group Company, except for any Permitted Transfer, provided that (i) such Permitted Transfer is effected in compliance with all Applicable Laws, (ii) such Permitted Transfer will not result in a change of Control of the Company, and (iii) each transferee of such Permitted Transfer, prior to the completion of such Permitted Transfer, shall execute a joinder agreement in substantially the form attached as Exhibit A to the Shareholders Agreement assuming the obligations of such Ordinary Shareholder under the Shareholders Agreement; provided further, in the event of a Transfer of Equity Securities of a Group Company by such Ordinary Shareholder to a trust for the benefit of such Ordinary Shareholder or its Affiliate(s), such Ordinary Shareholder shall remain liable for any breach by the transferee of such Permitted Transfer of any provision under the Series D Preferred Share Subscription Agreement, the Shareholders Agreement and the Memorandum and Articles.
- 12.3 Without the prior written consent of the Board, and notwithstanding any other provision herein, no Member shall Transfer any Company Securities to any Company Competitor.
- 12.4 (a) No Group Company shall, directly or indirectly, issue or sell any Equity Securities of any Group Company to any Competitor without the prior written consent of Ant Financial, and (b) subject to Article 12.6, no Member (other than Ant Financial) shall Transfer any or all of its Company Securities to any Competitor, without the prior written consent of Ant Financial. Notwithstanding prong (b) of the previous sentence, if Ant Financial does not consent to such Transfer and not exercise the right of first refusal in accordance with Article 12.6, each of the Series A-1 Preferred Holder, the Series A-2 Preferred Holder, Chuangji, Neo TH, Themisclio, the Series C-1 Preferred Holder, the Series C-2 Preferred Holder and the Series D Preferred Holder may, individually or collectively, Transfer its Company Securities to any Competitor only if the following conditions are satisfied: (i) the aggregate Company Securities thus Transferred to such Competitor shall not exceed ten percent (10%) of the total outstanding Shares of the Company (calculated on a fully diluted and an as-converted basis), and (ii) following such Transfer, no Competitor shall be entitled to any veto right over any of the material matters of any Group Company, or to appoint any director of any Group Company.

Right of First Refusal

- 12.5 (a) Subject to Articles 12.2, 12.3, 12.4, 12.6 and 12.8 and except for any Permitted Transfer, if any Ordinary Shareholder (other than the Ordinary Investors) (a “**Transferor**”) proposes to Transfer any or all of its Company Securities to one or more Persons other than the Members, the Transferor shall give the Company and all the Preferred Holders (each such Preferred Holder, a “**Rightholder**”) a written notice of the Transferor’s intention to make the Transfer (the “**Transfer Notice**”), which shall include (i) a description of the Company Securities to be transferred (the “**Offered Securities**”), (ii) the identity and address of the prospective transferee and (iii) the consideration and other material terms and conditions upon which the proposed Transfer is to be made. The Transfer Notice shall certify that the Transferor has received a definitive offer from the prospective transferee and in good faith believes a binding agreement for the Transfer is obtainable on the terms set forth in the Transfer Notice. The Transfer Notice shall also include a copy of any written proposal, term sheet or letter of intent or other agreements relating to the proposed Transfer.

(b) Each Rightholder shall have an option for a period of ten (10) Business Days following receipt of the Transfer Notice (the “**Option Period**”) to elect to purchase all or any portion of its respective Pro Rata Share of the Offered Securities at the same price and subject to the same terms and conditions as described in the Transfer Notice, by notifying the Transferor and the Company in writing before expiration of the Option Period as to the number of such Offered Securities that it wishes to purchase. For purpose of this Article, the Rightholder’s “**Pro Rata Share**” of such Offered Securities shall be equal to the product of (i) the total number of such Offered Securities, *multiplied* by (ii) a fraction, the numerator of which shall be the aggregate number of Ordinary Shares held by such Rightholder on the date of the Transfer Notice (including all Preferred Shares held by such Rightholder on an as-converted basis) and the denominator of which shall be the total number of Ordinary Shares held by all Rightholders on such date (including all Preferred Shares held by such Rightholders on an as-converted basis).

(c) If any Rightholder fails to exercise its right to purchase its full Pro Rata Share of such Offered Securities, the Company shall deliver a written notice thereof (the “**Second Notice**”), within two (2) Business Days after the expiration of the Option Period, to the Transferor and to each Rightholder that elected to purchase its entire Pro Rata Share of the Offered Securities (an “**Exercising Shareholder**”). The Exercising Shareholders shall have a right of re-allotment, and may exercise an additional right to purchase such unpurchased Offered Securities by notifying the Transferor and the Company in writing within ten (10) Business Days after receipt of the Second Notice (the “**Second Option Period**”); *provided* that if the Exercising Shareholders desire to purchase in aggregate more than the number of such unpurchased Offered Securities, then such unpurchased Offered Securities will be allocated to the extent necessary among the Exercising Shareholders in accordance with their relative Pro Rata Shares.

(d) Subject to Applicable Laws, each Rightholder shall be entitled to apportion Offered Securities to be purchased among its Affiliates, provided that such Rightholder shall notify the Transferor in writing and such Affiliates shall execute and deliver such documents and take such other actions as may be necessary for such Affiliates to join in and be bound by the terms of the Shareholders Agreement as a “Shareholder” (if not already a Party hereto) upon and after such Transfer. If any Rightholder gives the Transferor and the Company notice that it desires to purchase Offered Securities, payment for the Offered Securities to be purchased shall be made by wire transfer in immediately available funds of the appropriate currency, against delivery of such Offered Securities to be purchased, remotely via the exchange of documents and signatures on or prior to the 30th day after expiration of the Option Period, or other time as agreed by the Transferor, the Company and all Exercising Shareholders. The Company will update its register of members upon the consummation of any such Transfer.

12.6 Subject to Articles 12.2, 12.3 and 12.4, if any Member (other than Ant Financial) proposes to Transfer (the “**Proposed Transfer**”) any or all of its Company Securities to any Competitor, then before any Rightholder may invoke its applicable right of first refusal pursuant to Article 12.5 or co-sale right pursuant to Article 12.7, such proposed transferor shall give Ant Financial a written transfer notice, which shall include (i) its intention to make the Proposed Transfer, (ii) a description of the Company Securities to be transferred (the “**Transferring Securities**”), including the number of such Company Securities, the proposed consideration and other key terms and conditions upon which the Proposed Transfer is to be made. Ant Financial shall, within thirty (30) days (the “**30-Day Option Period**”) following receipt of such transfer notice, deliver a written notice to such transferor of its election: (x) Ant Financial does not consent to the Proposed Transfer, (y) Ant Financial elects to exercise its right of first refusal to purchase all of the Transferring Securities at the same price and subject to the same terms and conditions as described in the transfer notice, or (z) Ant Financial consents to the Proposed Transfer without exercising its right of first refusal under this Article 12.6. If Ant Financial fails to give a written notice within the 30-Day Option Period in accordance with the foregoing, then the foregoing sub-clause (x) shall be deemed to be elected by Ant Financial. In the case of the foregoing sub-clause (x), Ant Financial shall not be obliged to purchase the Transferring Securities. In the case of the foregoing sub-clause (y), the written notice of Ant Financial shall constitute a binding agreement to purchase, at the price and on the terms specified in the transfer notice, all of the Transferring Securities specified in the transfer notice and such Transfer shall be consummated within thirty (30) days upon the expiration of the 30-Day Option Period. For the avoidance of doubt, in the case of the foregoing sub-clause(z) Ant Financial consents to the Proposed Transfer without exercising its right of first refusal under this Article 12.6, then other Members are entitled to the right of first refusal under Article 12.5.

Co-Sale Rights

12.7 (a) To the extent that the Rightholders do not exercise their right of first refusals in full as to the Offered Securities proposed to be Transferred by the Transferor to the prospective transferee identified in the Transfer Notice pursuant to Article 12.5, the Rightholders (each, a “**Co-Sale Rightholder**”) shall have the right to participate in such sale to the prospective transferee identified in the Transfer Notice on the same terms and conditions as specified in the Transfer Notice by notifying the Transferor in writing within ten (10) Business Days after expiration the Option Period, or the Second Option Period, as the case may be (the “**Co-Sale Option Period**”).

(b) The maximum number of Company Securities that each Co-Sale Rightholder may elect to sell shall be equal to the product of (i) the aggregate number of Offered Securities after any Transfer made pursuant to Article 12.5, *multiplied* by (ii) a fraction, the numerator of which shall be the number of Ordinary Shares owned by such Co-Sale Rightholder (including all Preferred Shares held by such Co-Sale Rightholder on an as-converted basis) and the denominator of which shall be the total number of Ordinary Shares held by the Transferor and all participating Co-Sale Rightholders immediately prior to the proposed Transfer (including all Preferred Shares held by such Members on an as-converted basis).

(c) Each Co-Sale Rightholder shall effect its participation in the sale by promptly delivering to the Transferor for Transfer to the prospective transferee, before the applicable closing, one or more certificates, which represent the type and number of Company Securities which the Co-Sale Rightholder elects to sell.

(d) The share certificate or certificates that each Co-Sale Rightholder delivers to the Transferor pursuant to Article 12.7(c) shall be submitted to the Company for cancellation and the Company shall, upon the consummation of the sale of the Company Securities, issue a new certificate to each Co-Sale Rightholder for the remaining balance. The Transferor shall concurrently therewith remit to each Co-Sale Rightholder that portion of the sale proceeds to which the Co-Sale Rightholder is entitled by reason of its participation in such Transfer. The Company shall update its register of members upon consummation of such Transfer.

(e) To the extent that (x) any prospective purchaser prohibits the participation by any Co-Sale Rightholder exercising its co-sale rights hereunder in a proposed Transfer or otherwise refuses to purchase Company Securities from such Co-Sale Rightholder, or (y) such prospective purchaser fails to consummate the purchase of the Company Securities from such Co-Sale Rightholder prior to, or simultaneously with, the consummation of the Transfer of the Offered Securities, then the Transferor shall not sell to such prospective purchaser any Company Securities unless and until, prior to, or simultaneously with, such sale, the Transferor shall purchase from the Co-Sale Rightholder such Company Securities that the Co-Sale Rightholder would otherwise be entitled to sell to the prospective purchaser pursuant to its co-sale rights for the same consideration and subject to the terms and conditions as the proposed Transfer specified in the Transfer Notice.

Subject to the provisions of Article 12.7, to the extent that the Rightholders do not elect to purchase all of the Offered Securities in accordance with Article 12.5, the Transferor shall have two (2) months after the latest of the expiration of the Option Period, the Second Option Period and the Co-Sale Option Period to consummate the Transfer of the Offered Securities not purchased by the Rightholders pursuant to Article 12.5 to the prospective transferee identified in the Transfer Notice on the same terms and conditions specified in the Transfer Notice. In the event that such Transfer has not consummated within such two-month period, the Transferor shall not thereafter Transfer any Company Securities without first applying the procedures provided in Article 12.5 and Article 12.7.

Drag-along Rights

- 12.8 If the Majority Shareholders (including the Majority Preferred Holders and each of Ant Financial, Chuangji, the Founder and the Co-Founder) (the “**Drag-Along Sellers**”) approve a bona fide offer from any third party (other than the Preferred Holders or their respective Affiliate(s)) to enter into a Deemed Liquidation Event (as defined in the Shareholders Agreement) of the Company (a “**Drag-Along Sale**”), then each other Member shall, if so requested by the Drag-Along Sellers, (i) vote all of its Company Securities, or execute a written consent, in favor of the Drag-Along Sale, (ii) Transfer all or any portion of its Company Securities at the same price and on the same terms as the Drag-Along Sellers to consummate the Drag-Along Sale, provided, however, that such terms and conditions, including with respect to price paid or received per Company Security, may differ as between different classes of Company Securities in accordance with their relative liquidation preferences as set forth in the Shareholders Agreement and the Memorandum and Articles, and (iii) otherwise take all other actions necessary or desirable to consummate the Drag-Along Sale; *provided* that, any Transfer of the Company Securities pursuant to this Article 12.8 shall not be subject to the restrictions provided under Articles 12.2, 12.3, 12.5, 12.6 and 12.7.

Preemptive Rights

- 12.9 (a) The Company shall give each Preemptive Rightholder notice (an “**Issuance Notice**”) of any proposed issuance by the Company of any Company Securities at least ten (10) days prior to the proposed issuance date. The Issuance Notice shall specify (i) the price at which such Company Securities are to be issued, (ii) the identity of the prospective subscriber and (iii) the other material terms of the issuance. Subject to Article 12.9(g) below, each Preemptive Rightholder shall be entitled to purchase up to its Preemptive Portion of the Company Securities proposed to be issued, at the price and on the terms specified in the Issuance Notice.
- (b) Each Preemptive Rightholder who desires to purchase any or all of its Preemptive Portion of the Company Securities specified in the Issuance Notice shall deliver notice to the Company (each, an “**Exercise Notice**”) of its election to purchase such Company Securities within ten (10) Business Days of receipt of the Issuance Notice (the “**Preemptive Option Period**”). The Exercise Notice shall specify the number (or amount) of Company Securities to be purchased by such Preemptive Rightholder and shall constitute exercise by such Preemptive Rightholder of its rights under this Article 12.9 and a binding agreement of it to purchase, at the price and on the terms specified in the Issuance Notice, the number (or amount) of Company Securities specified in the Exercise Notice. If, at the termination of the Preemptive Option Period, any Preemptive Rightholder shall not have delivered an Exercise Notice to the Company, such Preemptive Rightholder shall be deemed to have waived all of its rights under this Article 12.9 with respect to the purchase of such Company Securities.
- (c) If any Preemptive Rightholder declines or fails to exercise its right to subscribe for its Preemptive Portion of the Company Securities proposed to be issued in full in accordance with Article 12.9(b) and there is at least one Preemptive Rightholder who has fully exercised its right of participation (the “**Exercising Rightholder**”), the Company shall promptly give notice thereof to each Exercising Rightholder. The Exercising Rightholders shall have a right of over- allotment, and may exercise an additional right to subscribe such unsubscribed Company Securities by notifying the Company in writing within ten (10) Business Days after receipt of notice; *provided* that if the Exercising Rightholders desire to subscribe in aggregate more than the number of such unsubscribed Company Securities, then such unsubscribed Company Securities will be allocated to the extent necessary among the Exercising Rightholders in accordance with their relative pro rata ownership of Shares on an as-converted basis.
- (d) The Company shall have one hundred and twenty (120) days from the date of the Issuance Notice to consummate the proposed issuance of any or all of such Company Securities that the Preemptive Rightholders have not elected to purchase pursuant to this Article 12.9 at the price and upon terms that are not materially less favorable to the Company than those specified in the Issuance Notice. If the Company proposes to issue any such Company Securities after such 120-day period, it shall again comply with the procedures set forth in this Article 12.9.

(e) At the consummation of the issuance of such Company Securities, the Company shall deliver a copy of its register of members updated to reflect such issuance and issue certificates representing the Company Securities purchased by each Preemptive Rightholder exercising preemptive rights pursuant to this Article 12.9, against payment by such Member of the purchase price for such Company Securities in accordance with the terms and conditions as specified in the Issuance Notice.

(f) Each Preemptive Rightholder may apportion, at its sole discretion, its Preemptive Portion of the Company Securities proposed to be issued among its Affiliates in any proportion, provided that each of such Affiliate(s) shall meet the prerequisites and qualifications to become a Member of the Company, and execute and deliver a joinder agreement to be bound by the Shareholders Agreement in the form as attached to the Exhibit A of the Shareholders Agreement.

(g) Notwithstanding the foregoing, no Preemptive Rightholder shall be entitled to purchase Company Securities as contemplated by this Article 12.9 in connection with issuances of (i) Company Securities (as appropriately adjusted for share subdivision, share dividends, combination, Recapitalizations and similar events) issued (or issuable pursuant to such Company Securities) to the Group Companies' employees, officers, directors, consultants or any other Persons qualified pursuant to the ESOP of the Company as duly adopted, (ii) Company Securities issued or issuable pursuant to a pro rata share subdivision, share dividend, combination, Recapitalization or other similar transaction of the Company, in each case, as duly approved, (iii) Ordinary Shares issued upon the conversion of Preferred Shares, (iv) Company Securities issued in connection with the exercise of the right under any convertible securities, *provided* that the issuance of such convertible securities has been duly approved, (v) Company Securities issued pursuant to an IPO and (vi) Company Securities issued in connection with any bona fide, arm's-length direct or indirect merger, consolidation, asset acquisition or similar transaction where the Company proposes to acquire substantially all of the assets of, or more than fifty percent (50%) of equity interest or voting power in, the target entity, as duly approved.

Instrument of Transfer

12.10 The instrument of transfer of any Share shall be executed by or on behalf of the transferor (and, if the Directors so determine, the transferee). The transferor shall be deemed to remain the holder of the Share until the name of the transferee is entered in the Register of Members in respect of such Share. All instruments of transfer, once registered, may be retained by the Company.

12.11 Subject to any applicable restrictions contained in these Articles, Shares shall be transferred in any usual or common form approved by the Directors.

50

Refusal to Register Transfers

12.12 The Directors may not resolve to refuse or delay a Share transfer unless such registration of transfer would be contrary to any provisions in the Memorandum, any provisions of these Articles, the Statute, or the Shareholders Agreement. If the Directors refuse to register a transfer, they shall notify the transferee of such refusal within five (5) Business Days after receipt of a request for such transfer, providing a detailed explanation of the reason therefore.

13. TRANSMISSION OF SHARES

Transmission of Shares

13.1 If a Member dies, the survivor or survivors (where he was a joint holder), and the legal personal representative (where he was sole holder), shall be the only person recognised by the Company as having any title to the Share. The estate of a deceased Member is not thereby released from any liability in respect of any Share held by him, whether solely or jointly. For the purpose of this Article, legal personal representative means the person to whom probate or letters of administration has or have been granted in the Cayman Islands or, if there is no such person, such other person as the Directors may in their absolute discretion determine to be the person recognised by the Company for the purpose of this Article.

Election by Persons Entitled on Transmission

13.2 Any person becoming entitled to a Share in consequence of the death or bankruptcy of a Member or otherwise by operation of Applicable Law may elect, upon such evidence being produced as may be required by the Directors as to his entitlement, either be registered himself as a Member in respect of the Share or, instead of being registered himself, to make such transfer of the Share as the deceased or bankrupt Member could have made.

Manner of Election

13.3 If the person so becoming entitled elects to be registered himself, he shall deliver or send to the Company a notice in writing signed by him stating that he so elects. If he shall elect to transfer the Shares, he shall signify his election by signing an instrument of transfer of such Shares in favour of his transferee. All the limitations, restrictions and provisions of these Articles relating to the right to transfer and the registration of transfers of Shares shall be applicable to any such notice or instrument of transfer as aforesaid as if the death of the Member or other event giving rise to the transmission had not occurred and the notice or instrument of transfer was an instrument of transfer signed by such Member.

Rights of Persons Entitled on Transmission

13.4 A person becoming entitled to a Share in consequence of the death or bankruptcy of the Member (or otherwise by operation of Applicable Law), upon such evidence being produced as may be required by the Directors as to his entitlement, shall be entitled to the same dividends and other monies payable in respect of the Share as he would be entitled if he were the holder of such Share. However, he shall not be entitled, until he becomes registered as the holder of such Share, to receive notices of or to attend or vote at general meetings of the Company or (except as aforesaid) to exercise any other rights or privileges of a Member. The Directors may at any time give notice requiring such person to elect either to be registered himself or to transfer the Share and, if the notice is not complied with within sixty (60) days, the Directors may thereafter withhold payment of all dividends and other monies payable in respect of the Shares until the requirements of the notice have been complied with.

51

14. **NON-RECOGNITION OF TRUSTS**

Except as required by the Statute or these Articles, or under an order of a court of competent jurisdiction, the Company shall not be bound by or compelled to recognise in any way, even when notice thereof is given to it, any equitable, contingent, future or partial interest in any Share, or any other rights in respect of any Share other than an absolute right to the entirety thereof in the registered holder.

15. **LIEN**

Lien Generally

15.1 The Company shall have a first and paramount lien on every Share (not being a fully paid Share) for all moneys (whether presently payable or not) called or payable at a date fixed by or in accordance with the terms of issue of such Share in respect of that Share, and the Company shall also have a first and paramount lien on every Share (other than a fully paid up Share) standing registered in the name of a Member, whether singly or jointly with any other person for all debts and liabilities of a Member or his estate to the Company, whether the same shall have been incurred before or after notice to the Company of any interest of any person other than such Member, and whether the time for the payment or discharge of the same shall have actually arrived or not, and notwithstanding that the same are joint debts or liabilities of such Member or his estate and any other person, whether a Member or not. The Directors may at any time, either generally or in any particular case, waive any lien that has arisen or declare any Share to be wholly or in part exempt from the provisions of this Article. The Company's lien, if any, on a Share shall extend to all dividends payable thereon.

Enforcement

15.2 The Company may sell, in such manner as the Directors think fit, any Share on which the Company has a lien; *provided* that a sum in respect of which the lien exists is presently payable, and is not paid within fourteen (14) days after a notice in writing has been given to the registered holder for the time being of the Share, demanding payment of the sum presently payable and giving notice of the intention to sell in default of such payment.

Completion of Sale

- 15.3 For giving effect to any such sale, the Directors may authorise any person to transfer the Share sold to the purchaser thereof. The purchaser shall be registered as the holder of the Share comprised in any such transfer and he shall not be bound to see to the application of the purchase money, nor shall his title to the Share be affected by any irregularity or invalidity in the proceedings relating to the sale.

Application of Proceeds

- 15.4 The net proceeds of such sale shall be applied in payment or discharge of the debt or liability in respect of which the lien exists and as is presently payable, and any balance shall (subject to a like lien for debts or liabilities not presently payable as existed upon the Shares prior to the sale) be paid to the person who was the registered holder of the Share immediately before such sale.

16. CALLS ON SHARES

Calls on Shares Generally

- 16.1 The Directors may from time to time make calls upon the Members in respect of any moneys unpaid on their Shares (whether in respect of the par value of the Shares or premium or otherwise and not, by the terms of issue thereof, made payable at a future date fixed by or in accordance with such terms of issue); and each Member shall (subject to the Company serving upon him at least fourteen (14) days' notice specifying the time or times and place of payment) pay to the Company at the time or times and place so specified the amount called on his Shares. A call may be revoked or postponed by the Directors wholly or in part as the Directors may determine. A call shall be deemed to have been made at the time when the resolution of the Directors authorising the call was passed.

Payment

- 16.2 Payment of a call may be made by instalments on the direction of the Directors.
- 16.3 If a sum called in respect of a Share is not paid before or on the day appointed for payment thereof, the person from whom the sum is due shall pay interest on the sum from the day payment is due to the time of the actual payment at such rate as the Directors may determine, but the Directors may waive payment of such interest wholly or in part.
- 16.4 Any sum payable in respect of a Share on issue or allotment or at any fixed date, whether in respect of the par value of the Share or premium or otherwise, shall be deemed to be a call and if it is not paid all the relevant provisions as to payment of interest, forfeiture or otherwise of these Articles shall apply as if such sum had become due and payable by virtue of a call duly made and notified.
- 16.5 The Directors may issue Shares with different terms as to the amount and times of payment of calls.

Liability of Joint Holders

16.6 The joint holders of a Share shall be jointly and severally liable to pay calls in respect thereof.

Interest

16.7 The Directors may, if they think fit, receive from any Member willing to advance the same, all or any part of the moneys uncalled and unpaid upon any Shares held by him; and may (until the amount would otherwise become payable) pay interest at such rate (not exceeding six per cent (6%) without the sanction of the Company in general meeting) as may be agreed upon between the Member paying the sum in advance and the Directors.

17. FORFEITURE OF SHARES

Notice

17.1 If a Member fails to pay any call or instalment of a call by the date it becomes due and payable, the Directors may, at any time thereafter while such call or instalment remains unpaid, give notice to the Member requiring payment of the unpaid portion of the call or instalment, together with any accrued interest and expenses incurred by the Company by reason of such non-payment.

17.2 The notice shall specify where and by what date (not being less than the expiration of fourteen (14) days' from the date of the notice) payment is to be made and shall state that if it is not complied with the Shares in respect of which the call was made will be liable to be forfeited. The Directors may accept the surrender of any Share liable to be forfeited hereunder and, in such case, references to these Articles to forfeiture shall include surrender.

Forfeiture for Non-Compliance

17.3 If such notice is not complied with, any Share in respect of which the notice was given may thereafter, before the payment of all calls or instalments and interest due in respect thereof has been made, be forfeited by a resolution of the Directors. Such forfeiture shall include all dividends declared, other distributions or other monies payable in respect of the forfeited Shares and not paid before the forfeiture.

Forfeited Shares

17.4 A forfeited Share may be sold, re-allotted or otherwise disposed of upon such terms and in such manner as the Directors shall think fit, and at any time before a sale, re-allotment or disposition, the forfeiture may be cancelled on such terms as the Directors think fit.

Continued Liability for Forfeited Member

17.5 A person whose Shares have been forfeited shall cease to be a Member in respect of the forfeited Shares, but shall remain liable to pay to the Company all moneys which at the date of forfeiture were presently payable by him in respect of the Shares together with interest at such rate as the Directors may determine from the date of forfeiture until payment, but his liability shall cease if and when the Company receives payment in full of all amounts due in respect of the Shares. The Company may enforce payment without being under any obligation to make any allowance for the value of the Shares forfeited.

Evidence of Forfeiture

- 17.6 An affidavit in writing by a Director or Secretary of the Company that a Share has been duly forfeited on a specified date, shall be conclusive evidence of the facts stated in it as against all persons claiming to be entitled to the Share. The Company may receive the consideration, if any, given for the Share on any sale, re-allotment or disposition thereof and may authorise some person to execute a transfer of the Share in favour of the person to whom the Share is sold, re-allotted or otherwise disposed of, and he shall thereupon be registered as the holder of the Share, and shall not be bound to see to the application of the purchase money (if any) nor shall his title to the Share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale, re-allotment or disposition of the Share.
- 17.7 The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a Share, becomes payable at a fixed time, whether on account of the par value of the Share, or by way of premium or otherwise, as if the same had been made payable by virtue of a call duly made and notified to the Member.

18. INCREASE OF CAPITAL

- 18.1 Subject to the Shareholders Agreement and Article 6, the Company may from time to time by Ordinary Resolution increase its share capital by such sum, to be divided into new Shares of such par value, and with such rights, priorities and privileges attached thereto as the resolution shall prescribe.
- 18.2 Subject to any directions given by the Company in a general meeting, all new Shares shall be at the discretion of the Directors in accordance with these Articles.
- 18.3 The new Shares shall be subject to the same provisions of these Articles with reference to the payment of calls, lien, forfeiture, transfer, transmission and otherwise, as the Shares in the original share capital.

19. ALTERATION OF CAPITAL

- 19.1 Subject to Articles 6, the Company may from time to time by Ordinary Resolution:
- (a) consolidate and divide all or any of its share capital into Shares of larger par value than its existing Shares;

- (b) sub divide its existing Shares, or any of them, into Shares of smaller par value than is fixed by the Memorandum, subject nevertheless to the provisions of the Statute;
- (c) cancel any Shares which, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person; and
- (d) convert all or any paid up Shares into stock, and reconvert all or any stock into paid up Shares of any denomination.

19.2 Subject to Articles 6, the Company may from time to time by Special Resolution:

- (a) divide its Shares into several classes and attach to such classes any preferential, deferred, or special rights or restrictions in accordance with these Articles;
- (b) change the currency denomination of its share capital;
- (c) reduce its share capital and any capital redemption reserve fund in any manner whatsoever; and
- (d) merge or consolidate with any one or more constituent companies (as defined in the Statute).

20. GENERAL MEETINGS

Convening a Meeting

20.1 The Directors may, whenever they think fit, convene an extraordinary general meeting. If at any time there are not sufficient Directors capable of acting to form a quorum, any Director, or any one or more Members holding in the aggregate not less than one third (1/3) of the total issued share capital of the Company entitled to vote, may convene an extraordinary general meeting in the same manner as nearly as possible as that in which meetings may be convened by the Directors.

Members' Requisition

20.2 The Directors shall, upon the requisition in writing of one or more Members holding in the aggregate not less than one tenth (1/10) of such paid up capital of the Company as at the date of the requisition carries the right of voting at general meetings, convene an extraordinary general meeting. Any such requisition shall express the object of the meeting proposed to be called, and must be signed by the requisitionists and deposited at the Registered Office, and may consist of several documents in like form, each signed by one or more requisitionists.

20.3 If there are no Directors as at the date of the deposit of the Members' requisition or if the Directors do not convene a general meeting within twenty one (21) days from the date of the deposit, the requisitionists or any of them or any other Member or Members holding in the aggregate not less than one tenth (1/10) of such paid up capital of the Company as at the date of the requisition, may convene an extraordinary general meeting. A general meeting convened by requisitionists shall be convened in the same manner as nearly as possible as that in which general meetings are to be convened by the Directors.

21. **NOTICE OF GENERAL MEETINGS**

Length and Form of Notice

21.1 At least five (5) Clear Days' notice shall be given of any general meeting. Every notice shall specify the place, the day and the time of meeting and, in the case of special business, the general nature of the business to be conducted at the general meeting, and shall be given in the manner provided in these Articles or in such other manner (if any) as may be prescribed by the Company, to such persons as are entitled to receive such notices from the Company.

Omission or Non-Receipt

21.2 So long as a notice of a meeting is given pursuant to the Memorandum and these Articles and Section 11.02 of the Shareholders Agreement, the non-receipt of a notice of a meeting by any Member entitled to receive notice shall not invalidate the proceedings at any meeting.

22. **PROCEEDINGS AT GENERAL MEETINGS**

22.1 All business shall be deemed special that is transacted at an extraordinary general meeting.

Quorum

22.2 No business shall be transacted at any general meeting unless a quorum of Members is present at the time that the meeting proceeds to business, but the absence of a quorum shall not preclude the appointment, choice or election of a chairman, which shall not be treated as part of the business of the Meeting. Save as otherwise provided in these Articles, one or more Members holding in the aggregate not less than one third (1/3) of the issued Shares entitled to notice of and to attend and vote at such general meeting (including the Preferred Shares on an as converted and fully diluted basis) present in person or by proxy shall be a quorum.

Adjournment for Lack of Quorum

22.3 If within five (5) minutes (or such longer time as the chairman of the meeting may determine to wait) after the time appointed for the meeting, a quorum is not present, the meeting, if convened upon the requisition of Members, shall be dissolved. In any other case, it shall stand adjourned to the same day in the next week, at the same time and place, and if at the adjourned meeting a quorum is not present within half an hour from the time appointed for the meeting, the Members present shall be a quorum.

Meeting by Telephone or Other Facilities

- 22.4 A meeting of the Members may be held by telephone, electronic or other communication facilities (including, without limiting the generality of the foregoing, by telephone or video conferencing) by which all persons participating in the meeting can communicate with each other simultaneously and instantaneously, and participation in such a general meeting shall constitute presence in person at such meeting.
- 22.5 Any Director shall be entitled to attend and speak at any general meeting of the Company.

Appointment of Chairman

- 22.6 The chairman (if any) of the Board of Directors shall preside as chairman at every general meeting of the Company. If there is no such chairman, or if at any meeting he is not present within five (5) minutes after the time appointed for holding the meeting or is unwilling to act as chairman, the Directors present shall choose one of their number to act or, if only one Director is present, he shall preside as chairman if willing to act. If no Director is present, or if each of the Directors present declines to take the chair, the Members present and entitled to vote shall elect one of their number to be chairman.

Adjournment of Meeting

- 22.7 The chairman may, with the consent of a meeting at which a quorum is present (and shall if so directed by the meeting) adjourn the meeting from time to time and from place to place, but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place. When a meeting is adjourned for ten (10) days or more, notice of the adjourned meeting shall be given as in the case of an original meeting. Save as aforesaid, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.

23. VOTING

Ordinary Resolution

- 23.1 Save where a Special Resolution or other greater majority is required by the Statute or these Articles, any question proposed for consideration at any general meeting shall be decided by an Ordinary Resolution.
- 23.2 At any general meeting, a resolution put to the vote of the meeting shall be decided on poll.
- 23.3 A poll shall be taken in such manner as the chairman directs, and the result of the poll shall be deemed to be the resolution of the meeting at which the poll was demanded.
- 23.4 In the case of an equality of votes at a general meeting, the chairman of the meeting shall not be entitled to a second or casting vote and the resolution shall fail.

- 23.5 A poll on the election of a chairman or on a question of adjournment shall be taken forthwith. A poll on any other question shall be taken in such manner and either forthwith or at such time later in the meeting as the chairman of the meeting shall direct.
- 23.6 On a poll votes may be cast either personally or by proxy.
- 23.7 A person entitled to more than one (1) vote on a poll need not use all his votes or cast all the votes he uses in the same way.
- 23.8 In the case of joint holders of a Share, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders; and for this purpose seniority shall be determined by the order in which the names stand in the Register of Members in respect of the joint holding.
- 23.9 A Member of unsound mind, or, in respect of whom an order has been made by any court having jurisdiction in lunacy, may vote on a poll, by his receiver, committee, *curator bonis* or other person of similar nature appointed by such court, and any such receiver, committee, *curator bonis* or other person may vote by proxy and may otherwise act and be treated as such Member for the purpose of the general meetings.
- 23.10 No Member, unless the Directors otherwise determine, shall be entitled to vote at any general meeting, unless all calls or other sums presently payable by him in respect of Shares in the Company have been paid.
- 23.11 No objection shall be raised as to the qualification of any voter or as to whether any votes have been properly counted except at the general meeting or adjourned general meeting at which the vote objected to is given or tendered and every vote not disallowed at the meeting shall be valid. Any objection made in due time and in accordance with these Articles shall be referred to the chairman whose decision shall be final and conclusive.

24. PROXIES AND CORPORATE REPRESENTATIVES

Members' Attendance and Voting

- 24.1 Subject to these Articles, each Member entitled to attend and vote at a general meeting may attend and vote at the general meeting:
- (a) in person, or where a Member is a company or non-natural person, by a duly authorised corporate representative; or
 - (b) by one or more proxies.
- 24.2 A proxy or corporate representative need not be a Member.

Appointment of Proxies

- 24.3 The instrument appointing a proxy shall be in writing under the hand of the Member or his duly authorised attorney or, if the Member is a corporation, under the hand of its duly authorised representative.

Form of Proxy

- 24.4 An instrument appointing a proxy may be in any usual or common form (or such other form as the Directors may approve) and may be expressed to be for a particular meeting or any adjournment thereof or may appoint a standing proxy until notice of revocation is received at the Registered Office or at such place or places as the Directors may otherwise specify for the purpose.

Corporate Representatives

- 24.5 Any corporation which is a Member of the Company may by resolution of its directors or other governing body authorise such person as it thinks fit to act as its representative at any meeting of the Company or of any class of Members of the Company, and the person so authorised shall be entitled to exercise the same powers on behalf of the corporation which he represents as that corporation could exercise if it were an individual Member of the Company.

Receipt of Instrument of Appointment

- 24.6 The instrument appointing a proxy or corporate representative, and the power of attorney (if any) under which it is signed, together with such other evidence as to its due execution as the Directors may from time to time require, shall be deposited at the Registered Office of the Company or at such other place as is specified for that purpose in the notice convening the meeting or in any notice of any adjournment or, in either case or the case of a written resolution, in any document sent therewith, not less than twenty four (24) hours (or such longer or shorter time as the Directors may determine) before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote.
- 24.7 In default of any of the provisions in these Articles to deposit any instrument of proxy or authorisation at the Registered Office of the Company or at such other place as is specified for that purpose in the notice convening the meeting, the instrument of proxy or authorisation shall not be treated as valid; *provided* that the chairman of the meeting may in his discretion accept an instrument of proxy or authorisation sent by email or fax upon receipt of email or fax confirmation that the signed original thereof has been sent.

Standing Proxy

- 24.8 The operation of a standing proxy or authorisation shall be suspended at any general meeting or adjournment thereof at which the Member is present in person or by specially appointed proxy. The Directors may require evidence as to the due execution and continuing validity of any standing proxy or authorisation and the operation of any such standing proxy or authorisation shall be deemed to be suspended until the Directors determine that they have received such satisfactory evidence.

Poll Vote

- 24.9 In the case of a poll taken subsequently to the date of a meeting or adjourned meeting, the instrument appointing the proxy or corporate representative referred to in these Articles shall be deposited at the Registered Office of the Company or at such other place as is specified for that purpose in the notice convening the meeting before the time appointed for the taking of the poll.
- 24.10 The instrument appointing a proxy shall be deemed to confer authority to demand or join in demanding a poll, to speak at the meeting and to vote on any amendment of a written resolution or amendment of a resolution put to the meeting for which it is given as the proxy thinks fit. The instrument of proxy or authorisation shall, unless the contrary is stated therein, be valid as well for any adjournment of the meeting as for the meeting to which it relates.

Validity of Votes

- 24.11 A vote given in accordance with the terms of an instrument of proxy or authorisation shall be valid notwithstanding the previous death or unsoundness of mind of the principal, or revocation of the proxy or of the corporate authority, unless notice in writing of such death, unsoundness of mind or revocation was received by the Company at the Registered Office (or such other place as may be specified for the delivery of instruments of proxy or authorisation in the notice convening the meeting or other documents sent therewith) before the commencement of the general meeting, or adjourned meeting, at which the instrument or proxy is used.

Written Resolutions

- 24.12 In the case of a written resolution to be signed by a corporate representative, the instrument appointing the corporate representative shall be deposited at the Registered Office of the Company or at such other place as is specified for that purpose in the notice convening the meeting prior to the effective date of the written resolution.

Waiver by Directors

- 24.13 Subject to the Statute, these Articles and the Shareholders Agreement, the Directors may at their discretion waive any of the provisions of these Articles relating to proxies, corporate representatives or authorisations and, in particular, may accept such verbal or other assurances as they think fit as to the right of any person to attend, speak and vote on behalf of any Member at general meetings or to sign written resolutions.

Each Member shall vote its Shares for the removal of a Director upon the request of the Person that appointed such Director. No Member shall otherwise vote for the removal of a Director.

In the event any Director resigns or is removed in accordance with this Article, the Person that appointed such Director will have the right to appoint such Director’s successor or replacement, and such successor or replacement Director shall be appointed on or as soon as practicable after the date of such resignation or removal. If any such Director resigns or is removed, and as a result of the resignation or removal, the Person who appointed this Director does not have any representative on the Board, unless such Person shall have failed to appoint a successor or replacement Director within ten (10) Business Days after such resignation or removal, the other Persons shall not, and the other Persons shall procure that their appointed Directors shall not, convene any meeting of the Board or pass any written resolution until the successor or replacement Director is appointed to the Board.

26.5 No document or deed otherwise duly executed and delivered by or on behalf of the Company shall be regarded as invalid merely because at the date of delivery of the deed or document, the Director, Secretary or other officer or person who shall have executed the same and/or affixed the Seal (if any) thereto as the case may be for and on behalf of the Company shall have ceased to hold such office or to hold such authority on behalf of the Company.

Any such revocation or termination as aforesaid shall be without prejudice to any claim for damages that such Director may have against the Company or the Company may have against such Director for any breach of any contract of service between him and the Company which may be involved in such revocation or termination. Any person so appointed shall receive such remuneration (if any) (whether by way of salary, commission, participation in profits or otherwise) as the Directors may determine, and either in addition to or in lieu of his remuneration as a Director.

- 28.5 The nature of the interest of any Director or officer in any contract, dealing or transacting with or affecting the Company shall be disclosed by him at or prior to its consideration and any vote thereon and a general notice that a Director or officer is a shareholder of any specified firm or company and/or is to be regarded as interested in any transaction with such firm or company shall be sufficient disclosure hereunder and after such general notice it shall not be necessary to give special notice relating to any particular transaction.

- 2.12. Sections 8 and 19(3) of the Electronic Transactions Law shall not apply.

SHARE CAPITAL

1. The authorized share capital of the Company is US\$500,000 divided into 5,000,000,000 ordinary shares of par value of US\$0.0001 each, comprising (a) 4,903,917,300 Class A Ordinary Shares of par value of US\$0.0001 each and (b) 96,082,700 Class B Ordinary Shares of par value of US\$0.0001 each.
2. Subject to the Statute, the Memorandum and these Articles and, where applicable, Designated Stock Exchange Rules and/or the rules of any competent regulatory authority, any power of the Company to purchase or otherwise acquire its own shares shall be exercisable by the Board in such manner, upon such terms and subject to such conditions as it thinks fit.

SHARES

3. Subject to the Law, these Articles and, where applicable, the Designated Stock Exchange Rules (and to any direction that may be given by the Company in general meeting) and without prejudice to any rights attached to any existing Shares, the Directors may in their absolute discretion and without the approval of the Members, cause the Company to:

- (a) allot, issue, grant options over or otherwise dispose of Shares (including fractions of a Share) with or without preferred, deferred or other rights or restrictions, whether in regard to dividend, voting, return of capital or otherwise and to such persons, to Such Persons, at such times and on such other terms as they think proper;
- (b) grant rights over Shares or other securities to be issued in one or more classes or series as they deem necessary or appropriate and determine the designations, powers, preferences, privileges and other rights attaching to such Shares or securities, including dividend rights, voting rights, conversion rights, terms of redemption and liquidation preferences, any or all of which may be greater than the powers, preferences, privileges and rights associated with the then issued and outstanding Shares, at such times and on such other terms as they think proper; and
- (c) issue options, warrants or convertible securities or securities of similar nature conferring the right upon the holders thereof to subscribe for, purchase or receive any class of shares or securities in the capital of the Company on such terms as it may from time to time determine.

4. The Directors may authorise the division of Shares into any number of Classes and the different Classes shall be authorized, established and designated (or re-designated as the case may be) and the variations in the relative rights (including, without limitation, voting, dividend and redemption rights), restrictions, preferences, privileges and payment obligations as between the different Classes (if any) may be fixed and determined by the Directors or by a Special Resolution. The Directors may issue from time to time, out of the authorized share capital of the Company, preferred shares with such preferred or other rights, all or any of which may be greater than the rights of Ordinary Shares, at such time and on such terms as they may think appropriate in their absolute discretion and without approval of the Members; provided, however, before any preferred shares of any such series are issued, the Directors may by resolution of Directors determine, with respect to any series of preferred shares, the terms and rights of that series, including:

- (a) the designation of such series, the number of preferred shares to constitute such series and the subscription price thereof if different from the par value thereof;
- (b) whether the preferred shares of such series shall have voting rights, in addition to any voting rights provided by law, and, if so, the terms of such voting rights, which may be general or limited;
- (c) the dividends, if any, payable on such series, whether any such dividends shall be cumulative, and, if so, from what dates, the conditions and dates upon which such dividends shall be payable, and the preference or relation which such dividends shall bear to the dividends payable on any shares of any other class or any other series of shares;

7

-
- (d) whether the preferred shares of such series shall be subject to redemption by the Company, and, if so, the times, prices and other conditions of such redemption;
 - (e) whether the preferred shares of such series shall have any rights to receive any part of the assets available for distribution amongst the Members upon the liquidation of the Company, and, if so, the terms of such liquidation preference, and the relation which such liquidation preference shall bear to the entitlements of the holders of shares of any other class or any other series of shares;
 - (f) whether the preferred shares of such series shall be subject to the operation of a retirement or sinking fund and, if so, the extent to and manner in which any such retirement or sinking fund shall be applied to the purchase or redemption of the preferred shares of such series for retirement or other corporate purposes and the terms and provisions relative to the operation thereof;
 - (g) whether the preferred shares of such series shall be convertible into, or exchangeable for, shares of any other class or any other series of preferred shares or any other securities and, if so, the price or prices or the rate or rates of conversion or exchange and the method, if any, of adjusting the same, and any other terms and conditions of conversion or exchange;
 - (h) the limitations and restrictions, if any, to be effective while any preferred shares of such series are outstanding upon the payment of dividends or the making of other distributions on, and upon the purchase, redemption or other acquisition by the Company of, the existing shares or shares of any other class of shares or any other series of preferred shares;
 - (i) the conditions or restrictions, if any, upon the creation of indebtedness of the Company or upon the issue of any additional shares, including additional shares of such series or of any other class of shares or any other series of preferred shares; and
 - (j) any other powers, preferences and relative, participating, optional and other special rights, and any qualifications, limitations and restrictions thereof;

and, for such purposes, the Directors may reserve an appropriate number of Shares for the time being unissued.

5. Neither the Company nor the Board shall be obliged, when making or granting any allotment of, offer of, option over or disposal of shares, to make, or make available, any such allotment, offer, option or shares to Members or others with registered addresses in any particular territory or territories being a territory or territories where, in the absence of a registration statement or other special formalities, this would or might, in the opinion of the Board, be unlawful or impracticable. Members affected as a result of the foregoing sentence shall not be, or be deemed to be, a separate class of members for any purpose whatsoever. Except as otherwise expressly provided in the resolution or resolutions providing for the establishment of any class or series of preferred shares, no vote of the holders of preferred shares of or ordinary shares shall be a prerequisite to the issuance of any shares of any class or series of the preferred shares authorized by and complying with the conditions of the Memorandum and these Articles.

8

6. The Company shall not issue Shares to bearer.
7. The Company may in connection with the issue of any shares exercise all powers of paying commissions and brokerage conferred or permitted by the Law. Such commissions and brokerage may be satisfied by the payment of cash or the lodgement of fully or partly paid-up Shares or partly in one way and partly in the other.
8. The Directors may refuse to accept any application for Shares, and may accept any application in whole or in part, for any reason or for no reason.

FRACTIONAL SHARES

9. The Directors may issue fractions of a Share and, if so issued, a fraction of a Share shall be subject to and carry the corresponding fraction of liabilities (whether with respect to nominal or par value, premium, contributions, calls or otherwise), limitations, preferences, privileges, qualifications, restrictions, rights (including, without prejudice to the generality of the foregoing, voting and participation rights) and other attributes of a whole Share. If more than one fraction of a Share of the same Class is issued to or acquired by the same Member such fractions shall be accumulated.

REGISTER OF MEMBERS

10. The Company shall maintain or cause to be maintained the Register of Members in accordance with the Statute.

CLOSING REGISTER OF MEMBERS OR FIXING RECORD DATE

11. For the purpose of determining Members entitled to notice of, or to vote at any meeting of Members or any adjournment thereof, or Members entitled to receive payment of any dividend, or in order to make a determination of Members for any other purpose, the Directors may provide that the Register of Members shall be closed for transfers for a stated period which shall not in any case exceed forty (40) calendar days. If the Register of Members shall be closed for the purpose of determining Members entitled to notice of, or to vote at, a meeting of Members, the Register of Members shall be closed for at least ten (10) calendar days immediately preceding the meeting and the record date for such determination shall be the date of closure of the Register of Members.
12. In lieu of, or apart from, closing the Register of Members, the Directors may fix in advance or arrears a date as the record date for any such determination of Members entitled to notice of, or to vote at any meeting of the Members or any adjournment thereof, or for the purpose of determining the Members entitled to receive payment of any dividend or in order to make a determination of Members for any other purpose.
13. If the Register of Members is not so closed and no record date is fixed for the determination of Members entitled to notice of, or to vote at, a meeting of Members or Members entitled to receive payment of a dividend, the date on which notice of the meeting is sent or the date on which the resolution of the Directors declaring such dividend is adopted, as the case may be, shall be the record date for such determination of Members. When a determination of Members entitled to vote at any meeting of Members has been made as provided in this Article, such determination shall apply to any adjournment thereof.

SHARE CERTIFICATES

14. A Member shall only be entitled to a share certificate if the Directors resolve that share certificates shall be issued. Share certificates representing Shares, if any, shall be in such form as the Directors may determine. Share certificates shall be signed by one or more Directors or other person authorized by the Directors. The Directors may authorize certificates to be issued with the authorized signature(s) affixed by mechanical process. All certificates for Shares shall be consecutively numbered or otherwise identified and shall specify the Shares to which they relate. All certificates surrendered to the Company for transfer shall be cancelled and, subject to these Articles, no new certificate shall be issued until the former certificate representing a like number of relevant Shares shall have been surrendered and cancelled.
 15. No certificate shall be issued representing shares of more than one class.
 16. The Company shall not be bound to issue more than one certificate for Shares held jointly by more than one person and delivery of a certificate to one joint holder shall be a sufficient delivery to all of them. In the event that Shares are held jointly by several persons, any request may be made by any one of the joint holders and if so made shall be binding on all of the joint holders.
 17. Every share certificate of the Company shall bear legends required under the applicable laws, including the Securities Act.
 18. Share certificates shall be issued within the relevant time limit as prescribed by the Law or as the Designated Stock Exchange may from time to time determine, whichever is the shorter, after allotment or, except in the case of a transfer which the Company is for the time being entitled to refuse to register and does not register, after lodgment of a transfer with the Company.
 19.
 - (1) Upon every transfer of shares the certificate held by the transferor shall be given up to be cancelled, and shall forthwith be cancelled accordingly, and a new certificate shall be issued to the transferee in respect of the shares transferred to him at such fee as is provided in paragraph (2) of this Article. If any of the shares included in the certificate so given up shall be retained by the transferor a new certificate for the balance shall be issued to him at the aforesaid fee payable by the transferor to the Company in respect thereof.
 - (2) The fee referred to in paragraph (1) above shall be an amount not exceeding the relevant maximum amount as the Designated Stock Exchange may from time to time determine provided that the Board may at any time determine a lower amount for such fee.
-

20. If a share certificate shall be damaged or defaced or alleged to have been lost, stolen or destroyed, a new certificate representing the same Shares may be issued to the relevant Member upon request, subject to delivery up of the old certificate or (if alleged to have been lost, stolen or destroyed) compliance with such conditions as to evidence and indemnity and the payment of out-of-pocket expenses of the Company in connection with the request as the Directors may think fit.

REDEMPTION, REPURCHASE AND SURRENDER OF SHARES

21. Subject to the provisions of the Statute and these Articles, the Company may:
- (a) issue Shares that are to be redeemed or are liable to be redeemed at the option of the Member or the Company. The redemption of Shares shall be effected in such manner and upon such terms as may be determined, before the issue of such Shares, by the Board;
 - (b) purchase its own Shares (including any redeemable Shares) in such manner and upon such terms as have been approved by the Board, or are otherwise authorized by these Articles; and
 - (c) make a payment in respect of the redemption or purchase of its own Shares in any manner permitted by the Statute, including out of capital.
22. The purchase of any Share shall not oblige the Company to purchase any other Share other than as may be required pursuant to applicable law and any other contractual obligations of the Company.
23. The holder of the Shares being purchased shall be bound to deliver up to the Company the certificate(s) (if any) thereof for cancellation and thereupon the Company shall pay to him the purchase or redemption monies or consideration in respect thereof.
24. The Directors may accept the surrender for no consideration of any fully paid Share.

TREASURY SHARES

25. The Directors may, prior to the purchase, redemption or surrender of any Share, determine that such Share shall be held as a Treasury Share. The Directors may determine to cancel a Treasury Share or transfer a Treasury Share on such terms as they think proper (including, without limitation, for nil consideration).

NON RECOGNITION OF TRUSTS

26. The Company shall not be bound by or compelled to recognize in any way (even when notified) any equitable, contingent, future or partial interest in any Share, or (except only as is otherwise provided by these Articles or the Statute) any other rights in respect of any Share other than an absolute right to the entirety thereof in the registered holder.

LIEN ON SHARES

27. The Company shall have a first and paramount Lien on all Shares (whether fully paid-up or not) registered in the name of a Member (whether solely or jointly with others) for all debts, liabilities or engagements to or with the Company (whether presently payable or not) by such Member or his estate, either alone or jointly with any other person, whether a Member or not, but the Directors may at any time declare any Share to be wholly or in part exempt from the provisions of this Article. The registration of a transfer of any such Share shall operate as a waiver of the Company's Lien thereon. The Company's Lien on a Share shall also extend to any amount payable in respect of that Share.

28. The Company may sell, in such manner as the Directors think fit, any Shares on which the Company has a Lien, if a sum in respect of which the Lien exists is presently payable, and is not paid within fourteen (14) calendar days after notice has been given to the holder of the Shares, or to the person entitled to it in consequence of the death or bankruptcy of the holder, demanding payment and stating that if the notice is not complied with the Shares may be sold.
29. To give effect to any such sale, the Directors may authorize any Person to execute an instrument of transfer of the Shares sold to, or in accordance with the directions of, the purchaser. The purchaser or his nominee shall be registered as the holder of the Shares comprised in any such transfer, and he shall not be bound to see to the application of the purchase money, nor shall his title to the Shares be affected by any irregularity or invalidity in the sale or the exercise of the Company's power of sale under these Articles.
30. The net proceeds of such sale after deduction of expenses, fees and commission incurred by the Company shall be applied in payment of such part of the amount in respect of which the Lien exists as is presently payable and any residue shall (subject to a like Lien for sums not presently payable as existed upon the Shares before the sale) be paid to the person entitled to the Shares at the date of the sale.

CALLS ON SHARES

31. Subject to these Articles and the terms of the allotment and issue of any Shares, the Directors may from time to time make calls upon the Members in respect of any monies due and payable but unpaid on their Shares (whether in respect of par value or premium), and each Member shall (subject to receiving at least fourteen (14) calendar days' notice specifying the time or times of payment) pay to the Company at the time or times so specified the amount called on the Shares. A call may be revoked or postponed as the Directors may determine. A call may be required to be paid by installments. A person upon whom a call is made shall remain liable for calls made upon him notwithstanding the subsequent transfer of the Shares in respect of which the call was made.
32. A call shall be deemed to have been made at the time when the resolution of the Directors authorizing such call was passed.
33. The joint holders of a Share shall be jointly and severally liable to pay all calls in respect thereof.
34. If a call remains unpaid after it has become due and payable, the person from whom it is due shall pay interest on the amount unpaid from the day it became due and payable until it is paid at such rate as the Directors may determine, but the Directors may waive payment of the interest in whole or in part.

35. An amount payable in respect of a Share on allotment or at any fixed date, whether on account of the par value of the Share or premium or otherwise, shall be deemed to be a call and, if it is not paid, all the provisions of these Articles shall apply as if that amount had become due and payable by virtue of a call.
36. The Directors may issue Shares with different terms as to the amount and times of payment of calls, or the interest to be paid.
37. The Directors may, if they think fit, receive an amount from any Member willing to advance all or any part of the monies uncalled and unpaid upon any Shares held by him, and may (until the amount would otherwise become payable) pay interest at such rate as may be agreed upon between the Directors and the Member paying such amount in advance. No such amount paid in advance of calls shall entitle the Member paying such amount to any portion of a dividend declared in respect of any period prior to the date upon which such amount would, but for such payment, become payable.

FORFEITURE OF SHARES

38. If a call remains unpaid after it has become due and payable, the Directors may give to the person from whom it is due not less than fourteen (14) calendar days' notice requiring payment of the amount unpaid together with any interest, which may have accrued. The notice shall specify where payment is to be made and shall state that if the notice is not complied with, the Shares in respect of which the call was made will be liable to be forfeited.
39. If the notice is not complied with, any Share in respect of which it was given may, before the payment required by the notice has been made, be forfeited by a resolution of the Directors. Such forfeiture shall include all dividends or other monies declared payable in respect of the forfeited Share and not paid before the forfeiture.
40. A forfeited Share may be sold, re-allotted or otherwise disposed of on such terms and in such manner as the Directors think fit and at any time before a sale, re-allotment or disposition the forfeiture may be cancelled on such terms as the Directors think fit. Where for the purposes of its disposal a forfeited Share is to be transferred to any person, the Directors may authorize some person to execute an instrument of transfer of the Share in favor of that person.
41. A person any of whose Shares have been forfeited shall cease to be a Member in respect of them and shall surrender to the Company for cancellation the certificate for the Shares forfeited and shall remain liable to pay to the Company all monies which at the date of forfeiture were payable by him to the Company in respect of those Shares together with interest, but his liability shall cease if and when the Company shall have received payment in full of all monies due and payable by him in respect of those Shares.
42. A certificate in writing under the hand of one Director of the Company that a Share has been forfeited on a specified date shall be conclusive evidence of the fact as against all persons claiming to be entitled to the Share. The certificate shall (subject to the execution of an instrument of transfer) constitute a good title to the Share and the person to whom the Share is disposed of shall not be bound to see to the application of the purchase money, if any, nor shall his title to the Share be affected by any irregularity or invalidity in the proceedings in reference to the forfeiture, sale or disposal of the Share.

43. The provisions of these Articles as to forfeiture shall apply in the case of non-payment of any sum which, by the terms of issue of a Share, becomes payable at a fixed time, whether on account of the par value of the Share or by way of premium as if it had been payable by virtue of a call duly made and notified.

TRANSFER OF SHARES

44. Subject to these Articles, any Member may transfer all or any of his shares by an instrument of transfer in the usual or common form or in a form prescribed by the Designated Stock Exchange or in any other form approved by the Board and may be under hand or, if the transferor or transferee is a clearing house or a central depository house or its nominee(s), by hand or by machine imprinted signature or by such other manner of execution as the Board may approve from time to time.
45. The instrument of transfer of any Share shall be in writing and in any usual or common form or such other form as the Directors may, in their absolute discretion, approve and be executed by or on behalf of the transferor and if in respect of a nil or partly paid up Share, or if so required by the Directors, shall also be executed on behalf of the transferee and shall be accompanied by the certificate (if any) of the Shares to which it relates and such other evidence as the Directors may reasonably require to show the right of the transferor to make the transfer. The transferor shall be deemed to remain a Member until the name of the transferee is entered in the Register of Members in respect of the relevant Shares.
46. The Board may, in its absolute discretion, and without giving any reason therefor, refuse to register a transfer of any share (not being a fully paid up share) to a person of whom it does not approve, or any share issued under any share incentive scheme for employees upon which a restriction on transfer imposed thereby still subsists.
47. The Directors may in their absolute discretion decline to register any transfer of Shares which is not fully paid up or on which the Company has a lien. The Directors may also decline to register any transfer of any Share unless:
- (a) the instrument of transfer is lodged with the Company, accompanied by the certificate for the Shares to which it relates and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer;
 - (b) the instrument of transfer is in respect of only one Class of Shares;
 - (c) the instrument of transfer is properly stamped, if required;
 - (d) in the case of a transfer to joint holders, the number of joint holders to whom the Share is to be transferred does not exceed four; and

- (e) a fee of such maximum sum as the Designated Stock Exchange may determine to be payable, or such lesser sum as the Board of Directors may from time to time require, is paid to the Company in respect thereof.
48. The registration of transfers may, after compliance with any notice required by the Designated Stock Exchange Rules, be suspended and the Register of Members closed at such times and for such periods as the Directors may, in their absolute discretion, from time to time determine, provided always that such registration of transfer shall not be suspended nor the Register of Members closed for more than thirty (30) calendar days in any calendar year.
49. All instruments of transfer that are registered shall be retained by the Company. If the Directors refuse to register a transfer of any Shares, they shall within two calendar months after the date on which the instrument of transfer was lodged with the Company send notice of the refusal to each of the transferor and the transferee.

TRANSMISSION OF SHARES

50. If a Member dies, the survivor or survivors where he was a joint holder, and his legal personal representatives where he was a sole holder, shall be the only persons recognized by the Company as having any title to his interest. The estate of a deceased Member is not thereby released from any liability in respect of any Share, which had been jointly held by him. Any person becoming entitled to a Share in consequence of the death or bankruptcy or liquidation or dissolution of a Member (or in any other way than by transfer) may, upon such evidence being produced as may from time to time be required by the Directors, elect either to become the holder of the Share or to have some person nominated by him as the transferee. If he elects to become the holder, he shall give notice to the Company to that effect, but the Directors shall, in either case, have the same right to decline or suspend registration as they would have had in the case of a transfer of the Share by that Member before the death or bankruptcy or liquidation or dissolution of that Member, as the case may be.
51. If the person so becoming entitled shall elect to be registered himself as holder, he shall deliver or send to the Company a notice in writing signed by him stating that he so elects.
52. A person becoming entitled to a Share by reason of the death or bankruptcy or liquidation or dissolution of a Member (or in any other case than by transfer) shall be entitled to the same dividends and other advantages to which he would be entitled if he were the registered holder of the Share. However, he shall not, before being registered as a Member in respect of the Share, be entitled in respect of it to exercise any right conferred by membership in relation to meetings of the Company and the Directors may at any time give notice requiring any such person to elect either to be registered himself or to have some other person nominated by him become the holder of the Share (but the Directors shall, in either case, have the same right to decline or suspend registration as they would have had in the case of a transfer of the Share by the relevant Member before the death or bankruptcy or liquidation or dissolution of such Member or in any other case than by transfer, as the case may be). If the notice is not complied with within ninety (90) calendar days, the Directors may thereafter withhold payment of all dividends, bonuses or other monies payable in respect of the Share until the requirements of the notice have been complied with.

UNTRACEABLE MEMBERS

- 52A. (1) Without prejudice to the rights of the Company under paragraph (2) of this Article 52A, the Company may cease sending cheques for dividend entitlements or dividend warrants by post if such cheques or warrants have been left uncashed on two consecutive occasions. However, the Company may exercise the power to cease sending cheques for dividend entitlements or dividend warrants after the first occasion on which such a cheque or warrant is returned undelivered.
- (2) The Company shall have the power to sell, in such manner as the Board thinks fit, any shares of a Member who is untraceable, but no such sale shall be made unless:
- (a) all cheques or warrants in respect of dividends of the shares in question, being not less than three in total number, for any sum payable in cash to the holder of such shares sent during the relevant period in the manner authorised by these Articles have remained uncashed;
 - (b) so far as it is aware at the end of the relevant period, the Company has not at any time during the relevant period received any indication of the existence of the Member who is the holder of such shares or of a person entitled to such shares by death, bankruptcy or operation of law; and
 - (c) the Company, if so required by the rules governing the listing of shares on the Designated Stock Exchange, has given notice to, and caused advertisement in newspapers to be made in accordance with the requirements of the Designated Stock Exchange of its intention to sell such shares in the manner required by the Designated Stock Exchange, and a period of three months or such shorter period as may be allowed by the Designated Stock Exchange has elapsed since the date of such advertisement.

For the purpose of the foregoing, the “relevant period” means the period commencing twelve (12) years before the date of publication of the advertisement referred to in paragraph (c) of this Article and ending at the expiry of the period referred to in that paragraph.

- (3) To give effect to any such sale the Board may authorise some person to transfer the said shares and an instrument of transfer signed or otherwise executed by or on behalf of such person shall be as effective as if it had been executed by the registered holder or the person entitled by transmission to such shares, and the purchaser shall not be bound to see to the application of the purchase money nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings relating to the sale. The net proceeds of the sale will belong to the Company and upon receipt by the Company of such net proceeds it shall become indebted to the former Member for an amount equal to such net proceeds. No trust shall be created in respect of such debt and no interest shall be payable in respect of it and the Company shall not be required to account for any money earned from the net proceeds which may be employed in the business of the Company or as it thinks fit. Any sale under this Article 55 shall be valid and effective notwithstanding that the Member holding the shares sold is dead, bankrupt or otherwise under any legal disability or incapacity.

16

AMENDMENTS OF MEMORANDUM AND ARTICLES OF ASSOCIATION AND ALTERATION OF CAPITAL

53. (1) Subject to the provisions of the Statute and the provisions of these Articles, the Company may from time to time by Ordinary Resolution:
- (a) increase the share capital by such sum, to be divided into Shares of such Classes and amount, as the resolution shall prescribe and with such rights, priorities and privileges annexed thereto, as the Company in general meeting may determine;
 - (b) consolidate and divide all or any of its share capital into Shares of larger amount than its existing Shares;
 - (c) without prejudice to the powers of the Directors under Article 4, divide its Shares into several classes and without prejudice to any special rights previously conferred on the holders of existing Shares attach thereto respectively any preferential, deferred, qualified or special rights, privileges, conditions or such restrictions which in the absence of any such determination by the Company in general meeting, as the Directors may determine provided always that, for the avoidance of doubt, where a Class of Shares has been authorized by the Company, no resolution of the Company in general meeting is required for the issuance of Shares of that Class and the Directors may issue Shares of that Class and determine such rights, privileges, conditions or restrictions attaching thereto as aforesaid, and further provided that where the Company issues shares which do not carry voting rights, the words “non-voting” shall appear in the designation of such Shares and where the equity capital includes shares with different voting rights, the designation of each Class of Shares, other than those with the most favourable voting rights, must include the words “restricted voting” or “limited voting”;
 - (d) subdivide its Shares, or any of them, into Shares of smaller amount than is fixed by the Memorandum or into Shares without par value (subject, nevertheless, to the Law), and may by such resolution determine that, as between the holders of the Shares resulting from such sub-division, one or more of the Shares may have any such preferred, deferred or other rights or be subject to any such restrictions as compared with the other or others as the Company has power to attach to unissued or new shares; and
 - (e) cancel any Shares that at the date of the passing of the resolution have not been taken or agreed to be taken by any Person and diminish the amount of its share capital by the amount of the Shares so cancelled or, in the case of shares, without par value, diminish the number of shares into which its capital is divided.
- (2) No alteration may be made of the kind contemplated by Article 53(1), or otherwise, to the par value of the Class A Ordinary Shares or the Class B Ordinary Shares unless an identical alteration is made to the par value of the Class B Ordinary Shares or the Class A Ordinary Shares, as the case may be.

17

54. All new Shares created in accordance with the provisions of the preceding Article shall be subject to the same provisions of the Articles with reference to the payment of calls, Liens, transfer, transmission, forfeiture and otherwise as the Shares in the original share capital. The Board may settle as it considers expedient any difficulty which arises in relation to any consolidation and division under the preceding Article and in particular but without prejudice to the generality of the foregoing may issue certificates in respect of fractions of shares or arrange for the sale of the shares representing fractions and the distribution of the net proceeds of sale (after deduction of the expenses of such sale) in due proportion amongst the Members who would have been entitled to the fractions, and for this purpose the Board may authorise some person to transfer the shares representing fractions to their purchaser or resolve that such net proceeds be paid to the Company for the Company's benefit. Such purchaser will not be bound to see to the application of the purchase money nor will his title to the shares be affected by any irregularity or invalidity in the proceedings relating to the sale.
55. Subject to the provisions of the Statute and the provisions of these Articles, the Company may from time to time by Special Resolution:
- (a) change its name;
 - (b) alter, amend or add to these Articles;
 - (c) alter or add to the Memorandum with respect to any objects, powers or other matters specified therein; and
 - (d) reduce its share capital and any capital redemption reserve fund in any manner authorized by Law.

SHARE RIGHTS

56. Subject to the provisions of applicable Law, Designated Stock Exchange Rules, the Memorandum and these Articles and to any special rights conferred on the holders of any Shares or class of Shares, any share in the Company (whether forming part of the present capital or not) may be issued with or have attached thereto such rights or restrictions whether in regard to dividend, voting, return of capital or otherwise as the Board may determine, including without limitation on terms that they may be, or at the option of the Company or the holder are, liable to be redeemed on such terms and in such manner, including out of capital, as the Board may deem fit.
57. Subject to the provisions of applicable Law and these Articles, any preferred shares may be issued or converted into shares that, at a determinable date or at the option of the Company or the holder if so authorized by the Memorandum, are liable to be redeemed on such terms and in such manner as the Company before the issue or conversion may by Ordinary Resolution of the Members determine. Where the Company purchases for redemption a redeemable share, purchases not made through the market or by tender shall be limited to a maximum price as may from time to time be determined by the Board, either generally or with regard to specific purchases. If purchases are by tender, tenders shall comply with applicable Law.

58. The rights and restrictions attaching to the Ordinary Shares are as follows:

(a). Income.

Holders of Ordinary Shares shall be entitled to such dividends as the Directors may in their absolute discretion lawfully declare from time to time.

(b). Capital

Holders of Ordinary Shares shall be entitled to a return of capital on liquidation, dissolution or winding-up of the Company (other than on a conversion, redemption or purchase of shares, or an equity financing or series of financings that do not constitute the sale of all or substantially all of the shares of the Company).

(c). Attendance at General and Special Meetings and Voting

Holders of Ordinary Shares have the right to receive notice of, attend, speak and vote at general and special meetings of the Company. Holders of Class A Ordinary Shares and Class B Ordinary Shares shall, at all times, vote together as one class on all matters submitted to a vote by the Members. Each Class A Ordinary Share shall be entitled to one (1) vote on all matters subject to vote at general and special meetings of the Company and each Class B Ordinary Share shall be entitled to twenty-five (25) votes on all matters subject to vote at general and special meetings of the Company.

(d). Conversion

- (i) Each fully paid Class B Ordinary Share is convertible into one (1) fully paid Class A Ordinary Share at any time by the holder thereof and without the payment of any additional sum. The right to convert shall be exercisable by the holder of the Class B Ordinary Share delivering a written notice to the Company that such holder elects to convert a specified number of Class B Ordinary Shares into Class A Ordinary Shares. In no event shall Class A Ordinary Shares be convertible into Class B Ordinary Shares. A conversion notice shall not be effective if it is not accompanied by the share certificate(s) in respect of the relevant Class B Ordinary Shares and such other evidence (if any) as the Directors may reasonably require to prove the title of the person exercising such right (or, if such certificates have been lost or destroyed, such evidence of title and such indemnity as the Directors may reasonably require).
- (ii) Upon any sale, transfer, assignment or disposition of Class B Ordinary Shares by a holder thereof to any person or entity which is not an Affiliate of such holder, or upon a change of beneficial ownership of any Class B Ordinary Shares as a result of which any Person who is not an Affiliate of the registered holders of such Ordinary Shares becomes a beneficial owner of such Ordinary Shares, such Class B Ordinary Share, shall be automatically and immediately converted into an equal number of Class A Ordinary Shares. For the avoidance of doubt, (i) a sale, transfer, assignment or disposition shall be effective upon the Company's registration of such sale, transfer, assignment or disposition in the Register of Members; (ii) the creation of any pledge, charge, encumbrance or other third party right of whatever description on any Class B Ordinary Shares to secure any contractual or legal obligations shall not be deemed as a sale, transfer, assignment or disposition unless and until any such pledge, charge, encumbrance or other third party right is enforced and results in the third party who is not an Affiliate of the relevant Shareholder becoming a beneficial owner of the relevant Class B Ordinary Shares in which case all the related Class B Ordinary Shares shall be automatically and immediately converted into the same number of Class A Ordinary Shares, and (iii) the termination of directorship on the Board of Directors or employment as an executive officer with the Company of any holder of any Class B Ordinary Shares shall not trigger the automatic conversion contemplated under this Article 58(d).

- (iii) For purposes of this Article 58, “beneficial ownership” shall have the meaning defined in Rule 13d-3 under the U.S. Securities Exchange Act of 1934, as amended.
- (iv) Any conversion of Class B Ordinary Shares into Class A Ordinary Shares pursuant to this Article shall be effected by means of the re-designation and re-classification of the relevant Class B Ordinary Share as a Class A Ordinary Share together with such rights and restrictions and which shall rank pari passu in all respects with the Class A Ordinary Shares then in issue. Such conversion shall become effective forthwith upon entries being made in the Register of Members to record the re-designation and re-classification of the relevant Class B Ordinary Shares as Class A Ordinary Shares.
- (v) Upon conversion, the Company shall allot and issue the relevant Class A Ordinary Shares to the converting Member, enter or procure the entry of the name of the relevant holder of Class B Ordinary Shares as the holder of the relevant number of Class A Ordinary Shares resulting from the conversion of the Class B Ordinary Shares in, and make any other necessary and consequential changes to, the Register of Members and shall procure that certificates in respect of the relevant Class A Ordinary Shares, together with a new certificate for any unconverted Class B Ordinary Shares comprised in the certificate(s) surrendered by the holder of the Class B Ordinary Shares are issued to the holders of the Class A Ordinary Shares and Class B Ordinary Shares.
- (vi) Save and except for voting rights and conversion rights as set out in this Article 58(c) and (d), Class A Ordinary Shares and Class B Ordinary Shares shall rank pari passu and shall have the same rights, preferences, privileges and restrictions.

VARIATION OF RIGHTS OF SHARES

59. Subject to the provisions of these Articles and without prejudice to Articles 56 and 57, if at any time the share capital of the Company is divided into different Classes, the rights attached to any class (unless otherwise provided by the terms of issue of the Shares of that class) may be varied, modified or abrogated with the consent in writing of the holders of a majority of the issued Shares of that Class, or with the sanction of a Special Resolution passed at a general meeting of the holders of the Shares of that Class.

60. The provisions of these Articles relating to general meetings shall apply to every class meeting of the holders of one Class of Shares except that:
- (a) separate general meetings of the holders of a class or series of shares may be called only by (i) the Chairman of the Board, or (ii) a majority of the Board (unless otherwise specifically provided by the terms of issue of the shares of such class or series). Nothing in this Article 60 shall be deemed to give any Member or Members the right to call a class or series meeting; and
 - (b) the necessary quorum (whether at a separate general meeting or at its adjourned meeting) shall be one person (or in the case of a Member being a corporation, its duly authorized representative) holding or representing by proxy at least one third of the issued Shares of the Class.
61. Subject to the provisions of the Articles, the rights conferred upon the holders of the Shares of any Class issued with preferred or other rights shall not, unless otherwise expressly provided by the terms of issue of the Shares of that Class, be deemed to be varied by the creation or issue of further Shares ranking *pari passu* with or subsequent to the Shares of that Class or the redemption or purchase of any Shares of any Class by the Company, and the rights of the holders of Shares shall not be deemed to be varied by the creation or issue of Shares with preferred or other rights including, without limitation, the creation of Shares with enhanced or weighted voting rights.

REGISTERED OFFICE

62. Subject to the provisions of the Statute, the Company may by resolution of the Directors change the location of its Registered Office.

GENERAL MEETINGS

63. All general meetings other than annual general meetings shall be called extraordinary general meetings.
64. The Company may, but shall not (unless required by the Statute) be obliged to hold a general meeting in each calendar year as its annual general meeting and shall specify the meeting as such in the notices calling it. The annual general meeting shall be held at such time and place as the Directors shall appoint. At these meetings the report of the Directors (if any) shall be presented.
65. The Chairman or a majority of the Directors may call general meetings, and they shall on a Member's requisition forthwith proceed to convene an extraordinary general meeting of the Company.
66. A Members' requisition is a requisition of Members of the Company holding at the date of deposit of the requisition not less than ten percent (10%) of all votes attaching to all issued and outstanding Shares entitled to vote at general meetings of the Company.
67. The requisition must state the objects of the meeting and must be signed by the requisitionists and deposited at the Registered Office, and may consist of several documents in like form each signed by one or more requisitionists.

68. If there are no Directors as at the date of the deposit of a Members' requisition, or if the Directors do not within twenty-one (21) calendar days from the date of the deposit of such requisition duly proceed to convene a general meeting to be held within a further twenty-one (21) calendar days, the requisitionists, or any of them representing more than one-half of the total voting rights of all of them, may themselves convene a general meeting, but any meeting so convened shall not be held after the expiration of three calendar months after the expiration of the said twenty-one (21) calendar days.
69. A general meeting convened as aforesaid by requisitionists shall be convened in the same manner as nearly as possible as that in which general meetings are to be convened by Directors.

NOTICE OF GENERAL MEETINGS

70. At least fifteen (15) calendar days' notice shall be given of any general meeting. Every notice shall be exclusive of the day on which it is given or deemed to be given and of the day for which it is given and shall specify the place, the day and the hour of the meeting and the general nature of the business and shall be given in the manner hereinafter mentioned or in such other manner if any as may be prescribed by the Company, provided that a general meeting of the Company shall, whether or not the notice specified in this regulation has been given and whether or not the provisions of the Articles regarding general meetings have been complied with, be deemed to have been duly convened if it is so agreed:
- (a) in the case of an annual general meeting, by all the Members (or their proxies) entitled to attend and vote thereat; and
 - (b) in the case of an extraordinary general meeting, by a majority in number of the Members (or their proxies) having a right to attend and vote at the meeting, being a majority together holding not less than seventy-five percent (75%) in voting rights of the Shares giving that right.
71. The accidental omission to give notice of a general meeting to, or the non-receipt of notice of a meeting by, any Person entitled to receive notice shall not invalidate the proceedings at any meeting.

PROCEEDINGS AT GENERAL MEETINGS

72. No business shall be transacted at any general meeting unless a quorum is present at the time when the meeting proceeds to business. The holders of Shares which carry a majority of all votes attaching to Shares in issue and entitled to vote at such general meeting, present in person or by proxy or, if a corporate or other non-natural person, by its duly authorised representative, shall constitute a quorum; unless the Company has only one Member entitled to vote at such general meeting in which case the quorum shall be that one Member present in person or by proxy or (in the case of a corporation or other non-natural person) by a duly authorized representative or proxy.
73. A person may participate at a general meeting by telephone or other similar communications equipment by means of which all the persons participating in such meeting can communicate with each other. Participation by a person in a general meeting in this manner is treated as presence in person at that meeting.

74. A resolution (including a Special Resolution) in writing (in one or more counterparts) signed by all Members for the time being entitled to receive notice of and to attend and vote at general meetings (or, being corporations, signed by their duly authorized representatives) shall be as valid and effective as if the resolution had been passed at a general meeting of the Company duly convened and held.
75. If a quorum is not present within half an hour from the time appointed for the meeting or if during such a meeting a quorum ceases to be present, the meeting shall stand adjourned to the same day in the next week at the same time and place or to such other day, time or such other place as the Directors may determine, and if at the adjourned meeting a quorum is not present within half an hour from the time appointed for the meeting, the Members constituting a majority of the outstanding share capital of the Company (calculated on an as-converted basis) shall be a quorum and may transact the business for which the meeting was called, provided, that, such present Members shall only discuss and/or approve the matters as described in the meeting notice delivered in accordance with these Articles.
76. The chairman, if any, of the Board of Directors shall preside as chairman at every general meeting of the Company, or if there is no such chairman, or if he shall not be present within fifteen (15) minutes after the time appointed for the holding of the meeting, or is unwilling to act, the Directors present shall elect one of their number to be chairman of the meeting.
77. If no Director is willing to act as chairman or if no Director is present within fifteen (15) minutes after the time appointed for holding the meeting, the Members present shall choose one of their number to be chairman of the meeting.
78. The chairman may, with the consent of a meeting at which a quorum is present (and shall if so directed by the meeting), adjourn the meeting from time to time and from place to place, but no business shall be transacted at any adjourned meeting other than the business left unfinished at the meeting from which the adjournment took place. When a general meeting is adjourned for thirty calendar days or more, notice of the adjourned meeting shall be given as in the case of an original meeting. Otherwise it shall not be necessary to give any such notice.
79. A resolution put to the vote of the meeting shall be decided on the vote of the requisite majority pursuant to a poll of the Members. Unless otherwise required by the Statute or these Articles, such requisite majority shall be a simple majority of votes that are able to be cast.
80. The Directors may cancel or postpone any duly convened general meeting at any time prior to such meeting, except for general meetings requisitioned by the Members in accordance with these Articles, for any reason or for no reason, upon notice in writing to Members. A postponement may be for a stated period of any length or indefinitely as the Directors may determine. Notice of the business to be transacted at such postponed general meeting shall not be required. If a general meeting is postponed in accordance with this Article, the appointment of a proxy will be valid if it is received as required by the Articles not less than 48 hours before the time appointed for holding the postponed meeting.

VOTES OF MEMBERS

81. Subject to any rights and restrictions for the time being attached to any Share, every Member present in person or by proxy (or, if a corporation or other non-natural person, by its duly authorized representative or proxy) shall, at a general or special meeting of the Company, have one (1) vote for each Class A Ordinary Share and twenty-five (25) votes for each Class B Ordinary Share, in each case of which he is the holder.
82. In the case of joint holders of record the vote of the senior holder who tenders a vote, whether in person or by proxy (or, if a corporation or other non-natural person, by its duly authorized representative or proxy), shall be accepted to the exclusion of the votes of the other joint holders and for this purpose seniority shall be determined by the order in which the names of the holders stand in the Register of Members.
83. Shares carrying the right to vote that are held by a Member of unsound mind, or in respect of whom an order has been made by any court, having jurisdiction in lunacy, may be voted by his committee, receiver, curator bonis, or other Person on such Member's behalf appointed by that court, and any such committee, receiver, curator bonis or other person may vote by proxy.
84. No Person shall be entitled to vote at any general meeting or at any separate meeting of the holders of a class of Shares unless he is registered as a Member on the record date for such meeting nor unless all calls or other monies then payable by him in respect of Shares have been paid.
85. No objection shall be raised to the qualification of any voter except at the general meeting or adjourned general meeting at which the vote objected to is given or tendered and every vote not disallowed at the meeting shall be valid. Any objection made in due time shall be referred to the chairman whose decision shall be final and conclusive.
86. Votes may be cast either personally or by proxy. A Member may appoint more than one proxy or the same proxy under one or more instruments to attend and vote at a meeting. All resolutions shall be determined by poll and not on a show of hands. An instrument appointing a proxy may be in any usual or common form or such other form as the Directors may approve.
87. A Member holding more than one Share need not cast the votes in respect of his Shares in the same way on any resolution and therefore may vote a Share or some or all such Shares either for or against a resolution and/or abstain from voting a Share or some or all of the Shares and, subject to the terms of the instrument appointing him, a proxy appointed under one or more instruments may vote a Share or some or all of the Shares in respect of which he is appointed either for or against a resolution and/or abstain from voting.

PROXIES

88. The instrument appointing a proxy shall be in writing, be executed under the hand of the appointor or of his attorney duly authorized in writing, or, if the appointor is a corporation, under the hand of an officer or attorney duly authorized for that purpose. A proxy need not be a Member of the Company.

89. The instrument appointing a proxy shall be deposited at the Registered Office or at such other place as is specified for that purpose in the notice convening the meeting, or in any instrument of proxy sent out by the Company:
- (a) not less than forty-eight (48) hours before the time for holding the meeting or adjourned meeting at which the person named in the instrument proposes to vote; or
 - (b) in the case of a poll taken more than forty-eight (48) hours after it is demanded, be deposited as aforesaid after the poll has been demanded and not less than twenty-four (24) hours before the time appointed for the taking of the poll; or
 - (c) where the poll is not taken forthwith but is taken not more than forty-eight (48) hours after it was demanded be delivered at the meeting at which the poll was demanded to the chairman or to the secretary or to any director;

provided that the Directors may in the notice convening the meeting, or in an instrument of proxy sent out by the Company, direct that the instrument appointing a proxy may be deposited (no later than the time for holding the meeting or adjourned meeting) at the Registered Office or at such other place as is specified for that purpose in the notice convening the meeting, or in any instrument of proxy sent out by the Company. The chairman may in any event at his discretion direct that an instrument of proxy shall be deemed to have been duly deposited. An instrument of proxy that is not deposited in the manner permitted shall be invalid.

90. The instrument appointing a proxy may be in any usual or common form and may be expressed to be for a particular meeting or any adjournment thereof or generally until revoked. An instrument appointing a proxy shall be deemed to confer authority to demand or join or concur in demanding a poll.
91. Votes given in accordance with the terms of an instrument of proxy shall be valid notwithstanding the previous death or insanity of the principal or revocation of the proxy or of the authority under which the proxy was executed, or the transfer of the Share in respect of which the proxy is given unless notice in writing of such death, insanity, revocation or transfer was received by the Company at the Registered Office two hours before the commencement of the general meeting, or adjourned meeting at which it is sought to use the proxy.

CORPORATIONS ACTING BY REPRESENTATIVES

92. Any corporation or other non-natural person which is a Member or a Director may in accordance with its constitutional documents, or in the absence of such provision by resolution of its directors or other governing body, authorize such person as it thinks fit to act as its representative at any meeting of the Company or of any meeting of holders of a Class or of the Directors or of a committee of Directors, and the person so authorized shall be entitled to exercise the same powers on behalf of the corporation which he represents as that corporation could exercise if it were an individual Member or Director.

If a recognised clearing house (or its nominee(s)) or depositary (or its nominee(s)) is a Member of the Company it may, by resolution of its directors or other governing body or by power of attorney, authorise such Person(s) as it thinks fit to act as its representative(s) at any general meeting of the Company or of any Class of Members provided that, if more than one Person is so authorized, the authorization shall specify the number and Class of Shares in respect of which each such Person is so authorized. A Person so authorized pursuant to this Article shall be entitled to exercise the same powers on behalf of the recognised clearing house (or its nominee(s)) or depositary (or its nominee(s)) which he represents as that recognised clearing house (or its nominee(s)) or depositary (or its nominee(s)) could exercise if it were an individual Member holding the number and Class of Shares specified in such authorization.

The period for which the Chairman will hold office will also be determined by a majority of all of the Directors then in office. The Chairman shall preside as chairman at every meeting of the Board of Directors, save and except that if the Chairman is not present at a meeting of the Board of Directors within fifteen minutes after the time appointed for holding the same, or if the Chairman is unable or unwilling to act as the chairman of a meeting of the Board of Directors, the attending Directors may choose one of their number to be the chairman of the meeting.
97. The Company may by Ordinary Resolution appoint any person to be a Director.
98. The Board may, by the affirmative vote of a simple majority of the remaining Directors present and voting at a Board meeting, appoint any person as a Director, to fill a casual vacancy on the Board or as an addition to the existing Board.

A vacancy on the Board created by the removal of a Director under the previous sentence may be filled by Ordinary Resolution or by the affirmative vote of a simple majority of the remaining Directors present and voting at a Board meeting. The notice of any meeting at which a resolution to remove a Director shall be proposed or voted upon must contain a statement of the intention to remove that Director and such notice must be served on that Director not less than ten (10) calendar days before the meeting. Such Director is entitled to attend the meeting and be heard on the motion for his removal.

Subject to the provisions of the Statute, the Memorandum and these Articles and to any directions given by Special Resolution, the business and affairs of the Company shall be conducted as directed by the Board of Directors of the Company. The Board shall have all such powers and authorities, and may do all such acts and things, to the maximum extent permitted by applicable Law, the Memorandum and these Articles. No resolution passed by the Company in general meeting shall invalidate any prior act of the Directors that would have been valid if that resolution had not been passed.
106. The Board may, from time to time, and except as required by applicable Law or Designated Stock Exchange Rules, adopt, institute, amend, modify or revoke the corporate governance policies or initiatives of the Company and determine on various corporate governance related matters of the Company as the Board shall determine by resolution of Directors from time to time.

113. The Directors from time to time and at any time may delegate to any such committee, local board, manager or agent any of the powers, authorities and discretions for the time being vested in the Directors and may authorise the members for the time being of any such local board, or any of them to fill any vacancies therein and to act notwithstanding vacancies and any such appointment or delegation may be made on such terms and subject to such conditions as the Directors may think fit and the Directors may at any time remove any natural person or corporation so appointed and may annul or vary any such delegation, but no Person dealing in good faith and without notice of any such annulment or variation shall be affected thereby.
114. Any such delegates as aforesaid may be authorized by the Directors to sub-delegate all or any of the powers, authorities, and discretion for the time being vested in them.

BORROWING POWERS OF DIRECTORS

115. The Directors may from time to time at their discretion exercise all the powers of the Company to borrow money, to mortgage or charge all or any part of its undertaking, property and assets (present and future) and uncalled capital, and to issue debentures, bonds and other securities, whenever money is borrowed or as security for any debt, liability or obligation of the Company or of any third party. Debentures, bonds and other securities may be made assignable free from any equities between the Company and the person to whom the same may be issued. Any debentures, bonds or other securities may be issued at a discount (other than shares), premium or otherwise and with any special privileges as to redemption, surrender or drawings as the Directors may determine.

117. The Board shall meet at such times and in such places as the Board shall designate from time to time. A meeting of the Board may be called by any Director on no less than three (3) calendar days' prior written notice of the time, place and agenda of the meeting. Nevertheless, a meeting of the Board may be called by shorter notice if it is so agreed by all Directors in writing. Subject to these Articles, questions arising at any meeting shall be decided by a majority of votes of the Directors present at a meeting at which there is a quorum, with each having one (1) vote and in the case of an equality of votes the resolution shall fail.

118. A Director may participate in any meeting of the Board or of any committee of the Board by means of video conference, teleconference or other similar communications equipment by means of which all persons participating in the meeting can hear each other and such participation shall constitute such Director's presence in person at the meeting.
119. The quorum necessary for the transaction of the business of the Board may be fixed by the Directors, and unless so fixed, the presence of a majority of Directors then in office shall constitute a quorum. A Director represented by proxy or by an alternate Director at any meeting shall be deemed to be present for the purposes of determining whether or not a quorum is present.
120. If a quorum is not present at any duly called meeting, such meeting may be adjourned to a time no earlier than forty-eight (48) hours after written notice of such adjournment has been given to the Directors. The Directors present at such adjourned meeting shall constitute a quorum, provided that the Directors present at such adjourned meeting may only discuss and/or approve the matters as described in the meeting notice delivered to the Directors in accordance with Article 117.
121. A resolution in writing (in one or more counterparts), signed by all the Directors or all the members of a committee of Directors entitled to receive notice of a meeting of Directors or committee of Directors, as the case may be (an alternate Director, subject as provided otherwise in the terms of appointment of the alternate Director, being entitled to sign such a resolution on behalf of his appointer), shall be as valid and effectual as if it had been passed at a meeting of the Directors or committee, as the case may be, duly convened and held. When signed a resolution may consist of several documents each signed by one or more of the Directors or his duly appointed alternate.
122. Subject to any regulations imposed on it by the Directors, a committee appointed by the Directors may elect a chairman of its meetings. If no such chairman is elected, or if at any meeting the chairman is not present within fifteen (15) minutes after the time appointed for holding the meeting, the committee members present may choose one of their number to be chairman of the meeting.
123. A committee appointed by the Directors may meet and adjourn as it thinks proper. Subject to any regulations imposed on it by the Directors, questions arising at any meeting shall be determined by a majority of votes of the committee members present and in case of an equality of votes the chairman shall have a second or casting vote.
124. All acts done by any meeting of the Directors or of a committee of Directors, or by any Person acting as a Director, shall notwithstanding that it be afterwards discovered that there was some defect in the appointment of any such Director or Person acting as aforesaid, or that they or any of them were disqualified, be as valid as if every such Person had been duly appointed and was qualified to be a Director.
125. The Company shall pay all fees, charges and expenses (including travel and related expenses) incurred by each Director in connection with: (i) attending the meetings of the Board and all committees thereof (if any) and (ii) conducting any other Company business requested by the Company.

PRESUMPTION OF ASSENT

126. A Director who is present at a meeting of the Board at which action on any Company matter is taken shall be presumed to have assented to the action taken unless his dissent shall be entered in the minutes of the meeting or unless he shall file his written dissent from such action with the person acting as the chairman or secretary of the meeting before the adjournment thereof or shall forward such dissent by registered post to such person immediately after the adjournment of the meeting. Such right to dissent shall not apply to a Director who voted in favor of such action.

DIRECTORS' INTERESTS

127. A Director may:
- (a). hold any other office or place of profit with the Company (except that of Auditor) in conjunction with his office of Director for such period and upon such terms as the Board may determine. Any remuneration (whether by way of salary, commission, participation in profits or otherwise) paid to any Director in respect of any such other office or place of profit shall be in addition to any remuneration provided for by or pursuant to any other Article;

2 Assumptions

The following opinions are given only as to, and based on, circumstances and matters of fact existing and known to us on the date of this opinion letter. These opinions only relate to the laws of the Cayman Islands which are in force on the date of this opinion letter. In giving these opinions we have relied (without further verification) upon the completeness and accuracy, as of the date of this opinion letter, of the Director’s Certificate and the Certificate of Good Standing. We have also relied upon the following assumptions, which we have not independently verified:

- 2.1 Copies of documents, conformed copies or drafts of documents provided to us are true and complete copies of, or in the final forms of, the originals.
- 2.2 All signatures, initials and seals are genuine.
- 2.3 There is nothing under any law (other than the law of the Cayman Islands), which would or might affect the opinions set out below.

3 Opinion

Based upon the foregoing and subject to the qualifications set out below and having regard to such legal considerations as we deem relevant, we are of the opinion that:

- 3.1 The Company has been duly incorporated as an exempted company with limited liability and is validly existing and in good standing with the Registrar of Companies under the laws of the Cayman Islands.
- 3.2 The authorised share capital of the Company, with effect immediately prior to the completion of the Company’s initial public offering of the ADSs representing the Shares, will be US\$500,000 divided into 5,000,000,000 Ordinary Shares, consisting of (i) 4,903,917,300 Class A Ordinary Shares of a par value of US\$0.0001 each and (ii) 96,082,700 Class B Ordinary Shares of a par value of US\$0.0001 each.

- 3.3 The issue and allotment of the Shares have been duly authorised and when allotted, issued and paid for as contemplated in the Registration Statement, the Shares will be legally issued and allotted, fully paid and non-assessable. As a matter of Cayman law, a share is only issued when it has been entered in the register of members (shareholders).
- 3.4 The statements under the caption “Taxation” in the prospectus forming part of the Registration Statement, to the extent that they constitute statements of Cayman Islands law, are accurate in all material respects and that such statements constitute our opinion.

4 Qualifications

In this opinion the phrase “non-assessable” means, with respect to shares in the Company, that a shareholder shall not, solely by virtue of its status as a shareholder, be liable for additional assessments or calls on the shares by the Company or its creditors (except in exceptional circumstances, such as involving fraud, the establishment of an agency relationship or an illegal or improper purpose or other circumstances in which a court may be prepared to pierce or lift the corporate veil).

Except as specifically stated herein, we make no comment with respect to any representations and warranties which may be made by or with respect to the Company in any of the documents or instruments cited in this opinion or otherwise with respect to the commercial terms of the transactions the subject of this opinion.

We hereby consent to the filing of this opinion as an exhibit to the Registration Statement and to the reference to our name under the headings “Enforceability of Civil Liabilities”, “Taxation” and “Legal Matters” and elsewhere in the prospectus included in the Registration Statement. (vii) in the event of a Grantee’s death; or

(viii) in other events as determined by Mr. Dagang Feng;

6

all Options that are unvested as of the date of such event shall lapse, unless Mr. Dagang Feng otherwise determines in writing that such unvested Options shall not lapse and will continue to remain valid, such termination notwithstanding.

(d) Subject to (A) the condition specified in Section 3 being fully satisfied, and (B) the terms and conditions on which such Option was granted, Options vested may be exercised by the Grantee at any time during the Option Period, *provided that:*

(ii) if a general offer by way of voluntary offer, takeover or otherwise (other than by way of Plan of arrangement pursuant to Section 7(d) (iii) below) is made to all the holders of Shares (or all such holders other than the offeror and any person controlled by the offeror and any person acting in association or concert with the offeror) and such offer becomes or is declared unconditional prior to the expiry date of the relevant Option, the Company shall forthwith give notice thereof to the Grantee and the Grantee shall be entitled to exercise the Option to its full extent or, if the Company shall give the relevant notification, to the extent notified by the Company at any time within such period as shall be notified by the Company;

(iii) if a general offer for Shares by way of Plan of arrangement is made to all the holders of Shares and has been approved by the necessary number of holders of Shares at the requisite meetings, the Company shall forthwith give notice thereof to the Grantee and the Grantee may at any time thereafter (but before such time as shall be notified by the Company) exercise the Option to its full extent or, if the Company shall give the relevant notification, to the extent notified by the Company;

(iv) in the event a notice is given by the Company to its shareholders to convene a shareholders’ meeting for the purpose of considering and, if thought fit, approving a resolution to voluntarily wind-up the Company, the Company shall forthwith give notice thereof to the Grantee and the Grantee may at any time thereafter (but before such time as shall be notified by the Company) exercise the Option to its full extent or, if the Company shall give the relevant notification, to the extent notified by the Company, and the Company shall as soon as possible and in any event no later than three days prior to the date of the proposed shareholders’ meeting, allot, issue and register in the name of the Grantee such number of fully paid Shares which fall to be issued on exercise of such Option; and

7

(v) in the event of a compromise or arrangement, other than a plan of arrangement contemplated in Section 7(d)(iii) above, between the Company and its members and/or creditors being proposed in connection with a plan for the reconstruction or amalgamation of the Company, the Company shall give notice thereof to all Grantees on the same day as it first gives notice of the meeting to its members and/or creditors to consider such a plan or arrangement and the Grantee may at any time thereafter but before such time as shall be notified by the Company exercise the Option to its full extent or, if the Company shall give the relevant notification, to the extent notified by the Company, and the Company shall as soon as possible and in any event no later than 3 days prior to the date of the proposed meeting, allot, issue and register in the name of the Grantee such number of fully paid Shares which fall to be issued on exercise of such Option.

If the Company gives such notice that any Option shall be exercised in part only, the balance of the Option shall lapse.

(e) The Shares to be allotted and issued upon the exercise of an Option will be subject to the provisions of the articles of association of the Company for the time being in force and will rank *pari passu* with the fully paid Shares in issue as from the date of exercise of the Option and in particular will entitle the holders to participate in all dividends or other distributions paid or made on or after the date of exercise of the Option other than any dividend or other distribution previously declared or recommended or resolved to be paid or made if the record date therefor is before the date of exercise of the Option, *provided* always that when the date of exercise of the Option falls on a date upon which the register of members of the Company is closed then the exercise of the Option shall become effective on the next available Business Day on which the register of members of the Company is re-opened.

(f) Mr. Dagang Feng may at any time, with the mutual consent of the Grantee, cancel Options previously granted to, but not yet exercised by a Grantee. Where the Company cancels Options and, in compliance with applicable law, offers Options to the same Grantee, the offer of such new Options may only be made with available Options to the extent not yet granted (excluding the cancelled Options) within the limit as mentioned in Section 10(a) of this Plan.

Section 8. Lapse of Option. An Option shall lapse automatically (to the extent (A) not already vested in accordance with Section 7(c), and (B) vested but not already exercised) on the earliest of:

(ii) the Grantee (being an Employee) serves as an employee, director or officer of any other companies that are not a member of the Group, and/or, whether alone or jointly with others, carried on or be concerned or interested, directly or indirectly, whether as shareholder, employee, director, investor, consultant, adviser, partner or agent in any types of business which are in competition with or in opposition to any business of any member of the Group as determined by Mr. Dagang Feng in his sole discretion;

Section 9. Redemption.

(a) In the events specified in Section 7(c), the Company shall, upon and from the date of such events, have an irrevocable, exclusive, assignable right (the “**Redemption Right**”), to redeem all or any portion of the Shares subject to the Options that are vested and any Shares acquired upon exercise of any portion of the Option.

(b) The Company (or its assignee) may exercise the Redemption Right in the Company’s sole discretion, and in no event shall the Company (or its assignee) be obligated to exercise the Redemption Right. Each participant agrees and acknowledges that upon receipt of the written notice of redemption of any portion of the Options or Shares purchased under the Options, the Participant shall have no further rights to such portion of the Options or such Shares, as applicable.

(c) In the events specified in Section 7 (c)(ii) to (vi), unless otherwise determined by Mr. Dagang Feng, the Option granted to such Grantee terminates automatically on the date of such event. The Company (or its assignee) may acquire the Shares at the lower of the Exercise Price and the minimal price as prescribed by the law.

(d) In the events specified in Section 7 (c) (i), (vii) and (viii), the Company (or its assignee) may acquire the Shares at the price determined by Mr. Dagang Feng based on factors including but not limited to the net asset value per share, valuations and price-to-earning ratio of the Company.

Section 10. Maximum Number of Shares Subject to Options. (a) The total number of Shares which may be issued upon exercise of Options to be granted under this Plan shall not exceed in aggregate 137,186,000 Shares.

(b) The maximum number of Shares referred to in Sections 10(a) may be adjusted upon the occurrence of such events and in such manner as described in Section 11.

Section 11. Reorganization of Capital Structure. (a) In the event of any alteration in the capital structure of the Company by way of capitalization of profits or reserves, rights issue, sub-division or consolidation of Shares or reduction of share capital of the Company, but excluding, for the avoidance of doubt, any alteration in the capital structure of the Company as a result of an issue of Shares or other securities of the Group as consideration in a transaction to which the Company is a party, the Auditors or the financial advisors engaged by the Company for such purpose shall determine what equitable adjustment is required to be made to:

- (i) the number and type of Shares or other securities then available for Awards under the Plan are subject to any unexercised Option; and/or
- (ii) the Exercise Price; and/or
- (iii) the method of exercise of the Options,

and the Auditors or such financial advisors shall certify in writing to the Board that such adjustments are in their/his opinion fair and reasonable. The capacity of the Auditors or financial advisors in this paragraph is that of experts and not of arbitrators and their certification shall, in the absence of manifest error, be final and binding on the Company and the Grantees. The costs of the Auditors or financial advisors shall be borne by the Company.

(b) For the avoidance of doubt, following the date on which the Shares first commence trading on a Stock Exchange the events set forth in Section 11(a) above shall include any extraordinary cash dividend or other distribution (whether in the form of cash, Shares or other securities), recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, split-up, spin-off, combination, repurchase or exchange of Shares or other securities of the Company, issuance of warrants or other rights to purchase Shares or other securities of the Company, issuance of Shares pursuant to the anti-dilution provisions of securities of the Company, or other similar corporate transaction or event affecting the Shares, or of changes in applicable laws, regulations or accounting principles, in each case in respect of which an adjustment is appropriate in order to prevent dilution or enlargement of the benefits or potential benefits intended to be made available under the Plan.

(c) Any such adjustments shall give each Participant the same proportion of the equity capital of the Company for which such Participant was entitled to subscribe for prior to such adjustments and any adjustments to the advantage of the Participants to the Exercise Price or to the number of Shares subject to the Options must be approved by the shareholders of the Company in general meeting. No adjustment may be made to the extent that Shares would be issued at less than their nominal value.

(d) If there has been any alteration in the capital structure of the Company as referred to in Section 11(a), the Company shall, upon receipt of a notice from a Grantee in accordance with Section 7(b), inform the Grantee of such alteration and shall either inform the Grantee of the adjustment to be made in accordance with the certificate of the Auditors or the financial advisors engaged by the Company for such purpose or, if no such certificate has yet been obtained, inform the Grantee of such fact and instruct the Auditors or the financial advisors as soon as practicable thereafter to issue a certificate in that regard in accordance with Section 11(a).

Section 12. Share Capital. The exercise of any Option shall be subject to the shareholders of the Company in general meeting approving any necessary increase in the authorized share capital of the Company. Subject thereto, the Board shall make available sufficient authorized but unissued share capital of the Company to meet subsisting requirements on the exercise of Options.

Section 13. Disputes. Any dispute arising in connection with this Plan (whether as to the number of Shares the subject of an Option, the amount of the Exercise Price or otherwise) may be determined by Mr. Dagang Feng, the decision of which shall be final and binding on all parties who may be affected thereby.

Section 14. Alteration of this Plan. (a) Subject to the terms set out in the paragraph below, the Board may amend any of the provisions of this Plan (including without limitation amendments in order to comply with changes in legal or regulatory requirements and in order to waive any restrictions, imposed by the provisions of this Plan) at any time (but not so as to affect adversely any rights which have accrued to any Grantee at that date).

(b) Any change to the authority of the Board in relation to any alteration to the terms of this Plan must be approved by shareholders of the Company in general meeting.

Section 15. Miscellaneous. (a) This Plan shall not form part of any contract of employment or engagement of services between the Group and any Participant and the rights and obligations of any Participant under the terms of his office, employment or engagement in services shall not be affected by the participation of the Participants in this Plan or any right which he may have to participate in it and this Plan shall afford such a Participant no additional rights to compensation or damages in consequence of the termination of such office, employment or engagement for any reason.

(b) This Plan shall not confer on any person any legal or equitable right (other than those rights constituting the Options themselves) against the Company directly or indirectly or give rise to any cause of action at law or in equity against the Company.

(c) The Company shall bear the costs of establishing and administering this Plan.

(d) Any notice or other communication between the Company and a Grantee may be sent by prepaid post, by electronic means, or by personal delivery to, in the case of the Company, its principal place of business in the PRC or such other address as notified to the Grantee from time to time and, in the case of the Grantee, his address in the PRC or such other address as notified to the Company from time to time.

(e) Any notice or other communication served by post:

(i) by the Company shall be deemed to have been served 24 hours after the same was put in the post; and

(ii) by the Grantee shall not be deemed to have been received until the same shall have been received by the Company.

(f) Any notice or other communication served by electronic means by the Company or the Grantee shall be deemed to have been served if the sender did not receive a failure of receipt notification.

(g) All allotments and issues of the Shares will be subject to all necessary consents under any relevant legislation for the time being in force in the PRC, Hong Kong and the Cayman Islands, and a Grantee shall be responsible for obtaining any governmental or other official consent or approval that may be required by any country or jurisdiction in order to permit the grant or exercise of the Option. The Company shall not be responsible for any failure by a Grantee to obtain any such consent or approval or for any tax or other liability to which a Grantee may become subject as a result of his or her participation in this Plan.

(h) This Plan and all Options granted hereunder shall be governed by and construed in accordance with the laws of the Cayman Islands.

(i) This Plan is intended to comply with the requirements of Section 409A of the Code and the regulations and guidance thereunder (“**Section 409A**”) with respect to Awards made to or held by any Participant who is subject to taxation under the Code. The provisions of this Plan shall be interpreted in a manner that satisfies such requirements, and this Plan shall be operated accordingly. If any provision of this Plan would otherwise frustrate or conflict with this intent, the provision will be interpreted and deemed amended so as to avoid this conflict. If an operational failure occurs with respect to the requirements of Section 409A, any affected Participant shall fully cooperate with the Company to correct the failure, to the extent possible, in accordance with any correction procedure established by the Internal Revenue Service. No provision of this Plan shall be interpreted to transfer any liability for a failure to comply with Section 409A from a Participant or any other Person to the Company. Notwithstanding any provision of this Plan or any Grant Letter, if at the time of termination of a Participant’s employment or service with the Company he or she is a “specified employee” (as defined in Section 409A) and any payments upon such termination under this Plan or such Grant Letter are treated as deferred compensation subject to Section 409A, he or she will not be entitled to such payments until the earlier of (i) the date that is six months after such termination or (ii) any earlier date that does not result in any additional tax or interest to such Participant under Section 409A.

FORM OF INDEMNIFICATION AGREEMENT

36KR HOLDINGS INC.

This Indemnification Agreement (this "**Agreement**"), made and entered into as of the day of , 2019, by and between 36Kr Holdings Inc., an exempted company with limited liability under the laws of Cayman Islands (the "**Company**") and ("**Indemnitee**").

WITNESSETH:

WHEREAS, highly competent persons have become more reluctant to serve publicly-held corporations as directors or executive officers unless they are provided with adequate protection through insurance or adequate indemnification against risks of claims and actions against them arising out of their service to and activities on behalf of the corporation.

WHEREAS, the Board of Directors of the Company (the "**Board**") has determined that, in order to attract and retain qualified individuals, the Company will attempt to maintain on an ongoing basis, at its sole expense, liability insurance to protect persons serving the Company and its subsidiaries from certain liabilities.

WHEREAS, the uncertainties relating to such insurance and to indemnification have increased the difficulty of attracting and retaining such persons.

WHEREAS, the Board has determined that the increased difficulty in attracting and retaining such persons is detrimental to the best interests of the Company's stockholders and that the Company should act to assure such persons that there will be increased certainty of such protection in the future.

WHEREAS, it is reasonable, prudent and necessary for the Company contractually to obligate itself to indemnify, and to advance expenses on behalf of, such persons to the fullest extent permitted by applicable law so that they will serve or continue to serve the Company free from undue concern that they will not be so indemnified.

WHEREAS, this Agreement is a supplement to and in furtherance of the memorandum and articles of association of the Company (as may from time to time be supplemented and amended) (the "**Memorandum and Articles**") and any resolutions adopted pursuant thereto and shall not be deemed a substitute therefor, nor to diminish or abrogate any rights of Indemnitee thereunder.

WHEREAS, Indemnitee does not regard the protection available under the Memorandum and Articles and insurance as adequate in the present circumstances, and may not be willing to serve as an officer or director of the Company without adequate protection, and the Company desires Indemnitee to serve in such capacity. Indemnitee is willing to serve, continue to serve and take on additional service for or on behalf of the Company on the condition that he be so indemnified.

NOW, THEREFORE, in consideration of the premises and the covenants contained herein, the Company and Indemnitee do hereby covenant and agree as follows:

ARTICLE 1
CERTAIN DEFINITIONS

(a) As used in this Agreement:

“Change of Control” means any one of the following circumstances occurring after the date hereof: (i) there shall have occurred an event required to be reported with respect to the Company in response to Item 6(e) of Schedule 14A of Regulation 14A (or in response to any similar item or any similar schedule or form) under the Exchange Act, regardless of whether the Company is then subject to such reporting requirement; (ii) any “person” or “group” (as such terms are used in Sections 13(d) and 14(d) of the Exchange Act) shall have become, without prior approval of the Company’s Board by approval of at least two-thirds of the Continuing Directors, the “beneficial owner” (as defined in Rule 13d-3 under the Exchange Act), directly or indirectly, of securities of the Company representing 30% or more of the combined voting power of the Company’s then outstanding voting securities (provided that, for purposes of this clause (ii), the term “person” shall exclude (x) the Company, (y) any trustee or other fiduciary holding securities under an employee benefit plan of the Company, and (z) any corporation owned, directly or indirectly, by the stockholders of the Company in substantially the same proportions as their ownership of stock of the Company); (iii) there occurs a merger or consolidation of the Company with any other entity, other than a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior to such merger or consolidation continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity) more than 51% of the combined voting power of the voting securities of the surviving entity outstanding immediately after such merger or consolidation and with the power to elect at least a majority of the board of directors or other governing body of such surviving entity; (iv) all or substantially all the assets of the Company are sold or disposed of in a transaction or series of related transactions; (v) the approval by the stockholders of the Company of a complete liquidation of the Company; or (vi) the Continuing Directors cease for any reason to constitute at least a majority of the members of the Board.

“Continuing Director” means each director on the Board on the date hereof.

“Corporate Status” means the status of a person who is or was a director, officer, trustee, general partner, managing member, fiduciary, board of directors’ committee member, employee or agent of the Company or of any other Enterprise.

“Disinterested Director” means a director of the Company who is not and was not a party to the Proceeding in respect of which indemnification is sought by Indemnitee.

“Enterprise” means (i) the Company, (ii) any of the Company’s subsidiaries and affiliates, and (iii) any other corporation, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise of which Indemnitee is or was serving at the request of the Company as a director, officer, trustee, general partner, managing member, fiduciary, board of directors’ committee member, employee or agent.

“Exchange Act” means the Securities Exchange Act of 1934, as amended.

“Expenses” means all direct and indirect costs (including attorneys’ fees, retainers, court costs, transcripts, fees of experts, witness fees, travel expenses, duplicating costs, printing and binding costs, telephone charges, postage, delivery service fees, and all other disbursements or expenses) reasonably incurred in connection with (i) prosecuting, defending, preparing to prosecute or defend, investigating, being or preparing to be a witness in, or otherwise participating in, a Proceeding or (ii) establishing or enforcing a right to indemnification under this Agreement, the Memorandum and Articles, applicable law or otherwise. Expenses also shall include Expenses incurred in connection with any appeal resulting from any Proceeding, including the premium, security for, and other costs relating to any cost bond, supersedeas bond, or other appeal bond or its equivalent. For the avoidance of doubt, Expenses, however, shall not include any Liabilities.

“Independent Counsel” means a law firm, or a member of a law firm, that is experienced in matters of corporate law and neither currently is, nor in the five years previous to its selection or appointment has been, retained to represent (i) the Company or Indemnitee in any matter material to either such party (other than with respect to matters concerning Indemnitee under this Agreement or of other indemnitees under similar indemnification agreements) or (ii) any other party to the Proceeding giving rise to a claim for indemnification hereunder. Notwithstanding the foregoing, the term “Independent Counsel” shall not include any person who, under the applicable standards of professional conduct then prevailing, would have a conflict of interest in representing either the Company or Indemnitee in an action to determine Indemnitee’s rights under this Agreement.

“Liabilities” means any losses or liabilities, including any judgments, fines, penalties and amounts paid in settlement, arising out of or in connection with any Proceeding (including all interest, assessments and other charges paid or payable in connection with or in respect of any such judgments, fines, penalties or amounts paid in settlement).

“Proceeding” means any threatened, pending or completed action, derivative action, suit, claim, counterclaim, cross claim, arbitration, alternate dispute resolution mechanism, investigation, inquiry, administrative hearing or any other actual, threatened or completed proceeding, whether civil (including intentional and unintentional tort claims), criminal, administrative or investigative, including any appeal therefrom, and whether instituted by or on behalf of the Company or any other party, or any inquiry or investigation that Indemnitee in good faith believes might lead to the institution of any such action, suit or other proceeding hereinabove listed in which Indemnitee was, is or will be involved as a party, potential party, non-party witness or otherwise by reason of any Corporate Status of Indemnitee, or by reason of any action taken (or failure to act) by him or her or of any action (or failure to act) on his or her part while serving in any Corporate Status.

(b) For the purposes of this Agreement:

References to “Company” shall include, in addition to the resulting or surviving corporation, any constituent corporation (including any constituent of a constituent) absorbed in a consolidation or merger which, if its separate existence had continued, would have had power and authority to indemnify its directors, officers, employees or agents, so that if Indemnitee is or was a director, officer, employee, or agent of such constituent corporation or is or was serving at the request of such constituent corporation as a director, officer, employee, or agent of another corporation, partnership, joint venture, trust or other enterprise, then Indemnitee shall stand in the same position under the provisions of this Agreement with respect to the resulting or surviving corporation as Indemnitee would have with respect to such constituent corporation if its separate existence had continued.

Reference to “other enterprise” shall include employee benefit plans; references to “fines” shall include any excise tax assessed with respect to any employee benefit plan; references to “serving at the request of the Company” shall include any service as a director, officer, employee or agent of the Company which imposes duties on, or involves services by, such director, officer, employee or agent with respect to any of the Company’s subsidiaries, affiliates, an employee benefit plan, its participants or beneficiaries; and a person who acted in good faith and in a manner he reasonably believed to be in the best interests of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner “not opposed to the best interests of the Company” as referred to in this Agreement.

Reference to “including” shall mean “including, without limitation,” regardless of whether the words “without limitation” actually appear, references to the words “herein,” “hereof” and “hereunder” and other words of similar import shall refer to this Agreement as a whole and not to any particular paragraph, subparagraph, section, subsection or other subdivision.

ARTICLE 2 SERVICES BY INDEMNITEE

Section 2.01. *Services By Indemnitee.* Indemnitee hereby agrees to serve or continue to serve as *[for directors]* a director of the Company, for so long as Indemnitee is duly elected or appointed or until Indemnitee tenders his or her resignation or is removed. *[for officers]* an officer of the Company until such time as Indemnitee’s employment is terminated for any reason.

ARTICLE 3
INDEMNIFICATION

Section 3.01. *General.* (a) The Company hereby agrees to and shall indemnify Indemnitee and hold Indemnitee harmless from and against any and all Expenses and Liabilities, in either case, actually and reasonably incurred by Indemnitee or on Indemnitee's behalf by reason of Indemnitee's Corporate Status, to the fullest extent permitted by applicable law. The Company's indemnification obligations set forth in this Section 3.01 shall apply (i) in respect of Indemnitee's past, present and future service in any Corporate Status and (ii) regardless of whether Indemnitee is serving in any Corporate Status at the time any such Expense or Liability is incurred.

For purposes of this Agreement, the meaning of the phrase "to the fullest extent permitted by applicable law" shall include, but not be limited to:

(i) to the fullest extent permitted by any provision of the applicable company law (the "**Companies Law**") or the corresponding provision of any successor statute, and

(ii) to the fullest extent authorized or permitted by any amendments to or replacements of the Companies Law adopted after the date of this Agreement that increase the extent to which a corporation may indemnify its officers and directors.

(b) *Witness Expenses.* Notwithstanding any other provision of this Agreement, to the extent that Indemnitee is, by reason of his or her Corporate Status, a witness in any Proceeding to which Indemnitee is not a party, he shall be indemnified against all Expenses actually and reasonably incurred by Indemnitee or on his or her behalf in connection therewith.

(c) *Expenses as a Party Where Wholly or Partly Successful.* Notwithstanding any other provisions of this Agreement, to the fullest extent permitted by applicable law, to the extent that Indemnitee is a party to (or a participant in) and is successful, on the merits or otherwise, in any Proceeding or in defense of any claim, issue or matter therein, in whole or in part, the Company shall indemnify Indemnitee against all Expenses actually and reasonably incurred by him or her in connection therewith. If Indemnitee is not wholly successful in such Proceeding, but is successful, on the merits or otherwise, as to one or more but less than all claims, issues or matters in such Proceeding, the Company shall, to the fullest extent permitted by applicable law, indemnify Indemnitee against all Expenses actually and reasonably incurred by Indemnitee or on his or her behalf in connection with each successfully resolved claim, issue or matter. All such indemnification against Expenses shall be offset by the amount of cash, if any, received by the Indemnitee resulting from his/her success therein. For purposes of this Section and without limitation, the termination of any claim, issue or matter in such a Proceeding by dismissal, with or without prejudice, shall be deemed to be a successful result as to such claim, issue or matter.

Section 3.02. *Exclusions.* Notwithstanding any provision of this Agreement and unless Indemnitee ultimately is successful on the merits with respect to any such claim, the Company shall not be obligated under this Agreement to make any indemnity in connection with any claim made against Indemnitee:

(a) for (i) an accounting of profits made from the purchase and sale (or sale and purchase) by Indemnitee of securities of the Company within the meaning of Section 16(b) of the Exchange Act or similar provisions of state statutory law or common law, regardless of whether the securities are subject to the requirements of such provisions; or (ii) any reimbursement of the Company by Indemnitee of any bonus or other incentive-based or equity-based compensation or of any profits realized by Indemnitee from the sale of securities of the Company, as required in each case under the Exchange Act (including any such reimbursements that arise from an accounting restatement of the Company pursuant to Section 304 of the Sarbanes-Oxley Act of 2002 (the “**Sarbanes-Oxley Act**”), or the payment to the Company of profits arising from the purchase and sale by Indemnitee of securities in violation of Section 306 of the Sarbanes-Oxley Act);

(b) except as otherwise provided in Sections 6.01(e), prior to a Change of Control, in connection with any Proceeding (or any part of any Proceeding) initiated by Indemnitee, including any Proceeding (or any part of any Proceeding) initiated by Indemnitee against the Company or its directors, officers, employees or other indemnitees, unless (i) the Board authorized the Proceeding (or any part of any Proceeding) prior to its initiation or (ii) the Company provides the indemnification, in its sole discretion, pursuant to the powers vested in the Company under applicable law;

(c) to the extent that Indemnitee is indemnified and actually received such payment other than pursuant to this Agreement;

(d) in connection with a judicial action by or in the right of the Company, in respect of any claim, issue or matter as to which the Indemnitee shall have been adjudicated by final judgment in a court of law to be liable for fraud or willful default in the performance of his duty to the Company unless and only to the extent that any court in which such action was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, the Indemnitee is fairly and reasonably entitled to indemnification for such Expenses as such court shall deem proper; or

(e) for any judgment, fine or penalty which the Company is prohibited by applicable law from paying as indemnification.

ARTICLE 4
ADVANCEMENT OF EXPENSES; DEFENSE OF CLAIMS

Section 4.01. *Advances.* Notwithstanding any provision of this Agreement to the contrary, the Company shall advance any Expenses actually and reasonably incurred by Indemnitee in connection with any Proceeding within 30 business days after the receipt by the Company of each statement in writing requesting such advance from time to time, whether prior to or after final disposition of any Proceeding. Advances shall be unsecured and interest free. Advances shall be made without regard to Indemnitee's ability to repay such amounts and without regard to Indemnitee's ultimate entitlement to indemnification under the other provisions of this Agreement. Advances shall include any and all reasonable Expenses incurred pursuing an action to enforce this right of advancement, including Expenses incurred preparing and forwarding statements in writing to the Company to support the advances claimed. Any excess of the advanced Expenses over the actual Expenses will be promptly repaid to the Company. To the extent Indemnitee has not requested any advanced payment of Expenses from the Company, Indemnitee shall be entitled to receive reimbursement for the Expenses incurred in connection with a Proceeding from the Company as soon as practicable after Indemnitee makes a written request to the Company for reimbursement.

Section 4.02. *Repayment of Advances or Other Expenses.* Indemnitee agrees that Indemnitee shall reimburse the Company for all Expenses advanced by the Company pursuant to Section 4.01, in the event and only to the extent that it shall be determined by final judgment or other final adjudication under the provisions of any applicable law (as to which all rights of appeal therefrom have been exhausted or lapsed) that Indemnitee is not entitled to be indemnified by the Company for such Expenses.

Section 4.03. *Defense of Claims.* The Company will be entitled to participate in the Proceeding at its own expense. Upon the delivery of written notice by the Company to Indemnitee, the Company shall be entitled to assume the defense of any Proceeding with counsel consented to by Indemnitee (such consent not to be unreasonably withheld), except for such Proceeding brought by the Company or as to which the Indemnitee has reasonably concluded that there may be a conflict of interest between the Company and the Indemnitee. After delivery of such notice, consent to such counsel by Indemnitee and the retention of such counsel by the Company, the Company will not be liable to Indemnitee under this Agreement for any fees or expenses of counsel subsequently incurred by Indemnitee with respect to such Proceeding; provided that (i) Indemnitee shall have the right to employ separate counsel in respect of any Proceeding at Indemnitee's expense and (ii) if (A) the employment of counsel by Indemnitee has been previously authorized in writing by the Company or (B) Indemnitee shall have reasonably concluded upon the advice of counsel that there is a conflict of interest between the Company and Indemnitee in the conduct of the defense of such Proceeding, then in each such case the fees and expenses of Indemnitee's counsel shall be at the Company's expense. Neither party to this Agreement shall settle any Proceeding in any manner that would impose any Expense, judgment, fine, damages, penalty or limitation on Indemnitee without the other party's written consent. Neither the Company nor Indemnitee shall unreasonably withhold its consent to any proposed settlement.

ARTICLE 5
PROCEDURES FOR NOTIFICATION OF AND DETERMINATION OF ENTITLEMENT TO INDEMNIFICATION

Section 5.01. *Notification; Request For Indemnification.* (a) As soon as reasonably practicable after receipt by Indemnitee of written notice that he is a party to or a participant (as a witness or otherwise) in any Proceeding or of any other matter in respect of which Indemnitee intends to seek indemnification or advancement of Expenses hereunder, Indemnitee shall provide to the Company written notice thereof, including the nature of and the facts underlying the Proceeding. The omission by Indemnitee to so notify the Company will not relieve the Company from any liability which it may have to Indemnitee hereunder or otherwise.

(b) As a condition precedent to an Indemnitee's right to obtain indemnification under this Agreement, Indemnitee shall deliver to the Company a written request for indemnification, including therewith such information as is reasonably available to Indemnitee and reasonably necessary to determine Indemnitee's entitlement to indemnification hereunder and such information as reasonably requested by the Company. Such request(s) may be delivered from time to time and at such time(s) as Indemnitee deems appropriate in his or her sole discretion. Indemnitee's entitlement to indemnification shall be determined according to Section 5.02 of this Agreement and applicable law.

Section 5.02. *Determination of Entitlement.* (a) Where there has been a written request by Indemnitee for indemnification pursuant to Section 5.01(b), then as soon as is reasonably practicable (but in any event not later than 60 days) after final disposition of the relevant Proceeding, a determination, if required by applicable law, with respect to Indemnitee's entitlement thereto shall be made in the specific case: (i) if a Change of Control shall not have occurred, (A) by a majority vote of the Disinterested Directors, even though less than a quorum of the Board, (B) by a committee of Disinterested Directors designated by a majority vote of the Disinterested Directors, even though less than a quorum of the Board, (C) if there are no such Disinterested Directors or, if such Disinterested Directors so direct, by Independent Counsel in a written opinion to the Board, a copy of which shall be delivered to Indemnitee; or (ii) if a Change of Control shall have occurred, by Independent Counsel in a written opinion to the Board, a copy of which shall be delivered to Indemnitee. If it is so determined that Indemnitee is entitled to indemnification, payment to Indemnitee shall be made within ten (10) business days after such determination. Indemnitee shall reasonably cooperate with the person, persons or entity making such determination with respect to Indemnitee's entitlement to indemnification, including providing to such person, persons or entity upon reasonable advance request any documentation or information which is not privileged or otherwise protected from disclosure and which is reasonably available to Indemnitee and reasonably necessary to such determination. Any costs or expenses (including attorneys' fees and disbursements) actually and reasonably incurred by Indemnitee in so cooperating with the person, persons or entity making such determination shall be borne by the Company (irrespective of the determination as to Indemnitee's entitlement to indemnification).

(b) If entitlement to indemnification is to be determined by Independent Counsel pursuant to Section 5.02(a)(ii), such Independent Counsel shall be selected by Indemnatee, and Indemnatee shall give written notice to the Company advising it of the identity of the Independent Counsel so selected. If entitlement to indemnification is to be determined by Independent Counsel pursuant to Section 5.02(a)(i)(C) (or if Indemnatee requests that such selection be made by the Board), such Independent Counsel shall be selected by the Company in which case the Company shall give written notice to Indemnatee advising him or her of the identity of the Independent Counsel so selected. In either event, Indemnatee or the Company, as the case may be, may, within ten (10) business days after such written notice of selection shall have been received, deliver to the Company or to Indemnatee, as the case may be, a written objection to such selection; provided, however, that such objection may be asserted only on the ground that the Independent Counsel so selected does not meet the requirements of "Independent Counsel" as defined in Section 1 of this Agreement, and the objection shall set forth with particularity the factual basis of such assertion. Absent a proper and timely objection, the person so selected shall act as Independent Counsel. If such written objection is so made and substantiated, the Independent Counsel so selected may not serve as Independent Counsel unless and until such objection is withdrawn or a court of competent jurisdiction has determined that such objection is without merit. If, within 20 days after the submission by Indemnatee of a written request for indemnification pursuant to Section 5.01(b) hereof, no Independent Counsel shall have been selected and not objected to, either the Company or Indemnatee may petition a court of competent jurisdiction for resolution of any objection which shall have been made by the Company or Indemnatee to the other's selection of Independent Counsel and/or for the appointment as Independent Counsel of a person selected by the court or by such other person as the court shall designate, and the person with respect to whom all objections are so resolved or the person so appointed shall act as Independent Counsel under Section 5.02(a) hereof. Upon the due commencement of any judicial proceeding or arbitration pursuant to Section 6.01(a) of this Agreement, the Independent Counsel shall be discharged and relieved of any further responsibility in such capacity (subject to the applicable standards of professional conduct then prevailing).

(c) The Company agrees to pay the reasonable fees and expenses of any Independent Counsel serving under this Agreement.

Section 5.03. *Presumptions and Burdens of Proof; Effect of Certain Proceedings.* (a) In making any determination with respect to entitlement to indemnification hereunder, the person or persons or entity making such determination shall, to the fullest extent not prohibited by law, presume that Indemnatee is entitled to indemnification under this Agreement if Indemnatee has submitted a request for indemnification in accordance with Section 5.01(b) of this Agreement, and the Company shall, to the fullest extent not prohibited by law, have the burden of proof to overcome that presumption in connection with the making by any person, persons or entity of any determination contrary to that presumption. Neither the failure of any person, persons or entity to have made a determination prior to the commencement of any action pursuant to this Agreement that indemnification is proper in the circumstances because Indemnatee has met the applicable standard of conduct, nor an actual determination by any person, persons or entity that Indemnatee has not met such applicable standard of conduct, shall be a defense to the action or create a presumption that Indemnatee has not met the applicable standard of conduct.

(b) If the person, persons or entity empowered or selected under Section 5.02 of this Agreement to determine whether Indemnitee is entitled to indemnification shall not have made a determination within the sixty (60) day period referred to in Section 5.02(a), the requisite determination of entitlement to indemnification shall, to the fullest extent not prohibited by law, be deemed to have been made and Indemnitee shall be entitled to such indemnification, absent (i) a misstatement by Indemnitee of a material fact, or an omission of a material fact necessary to make Indemnitee's statement not materially misleading, in connection with the request for indemnification, or (ii) a prohibition of such indemnification under applicable law; *provided*, however, that such 60-day period may be extended for a reasonable time, not to exceed an additional thirty (30) days, if the person, persons or entity making the determination with respect to entitlement to indemnification in good faith requires such additional time for the obtaining or evaluating of documentation and/or information relating thereto.

(c) The termination of any Proceeding or of any claim, issue or matter therein, by judgment, order, settlement or conviction, or upon a plea of nolo contendere or its equivalent, shall not (except as otherwise expressly provided in this Agreement) of itself adversely affect the right of Indemnitee to indemnification or create a presumption that Indemnitee did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the Company or, with respect to any criminal Proceeding, that Indemnitee had reasonable cause to believe that his or her conduct was unlawful.

(d) For purposes of any determination of good faith, Indemnitee shall be deemed to have acted in good faith if Indemnitee's action is in good faith reliance on the records or books of account of any Enterprise, including financial statements, or on information supplied to Indemnitee by the officers of such Enterprise in the course of their duties, or on the advice of legal counsel for such Enterprise or on information or records given or reports made to such Enterprise by an independent certified public accountant or by an appraiser or other expert selected by such Enterprise. The provisions of this Section 5.03(d) shall not be deemed to be exclusive or to limit in any way the other circumstances in which Indemnitee may be deemed or found to have met the applicable standard of conduct set forth in this Agreement.

(e) The knowledge and/or actions, or failure to act, of any other director, trustee, partner, managing member, fiduciary, officer, agent or employee of any Enterprise shall not be imputed to Indemnitee for purposes of determining any right to indemnification under this Agreement.

ARTICLE 6 REMEDIES OF INDEMNITEE

Section 6.01. *Adjudication or Arbitration.* (a) In the event of any dispute between Indemnitee and the Company hereunder as to entitlement to indemnification or advancement of Expenses (including where (i) a determination is made pursuant to Section 5.02 of this Agreement that Indemnitee is not entitled to indemnification under this Agreement, (ii) advancement of Expenses is not timely made pursuant to Section 4.01 of this Agreement, (iii) payment of indemnification pursuant to Section 3.01 of this Agreement is not made within ten (10) business days after a determination has been made that Indemnitee is entitled to indemnification, (iv) no determination as to entitlement to indemnification is timely made pursuant to Section 5.02 of this Agreement and no payment of indemnification is made within ten (10) business days after entitlement is deemed to have been determined pursuant to Section 5.03(b)) or (v) a contribution payment is not made in a timely manner pursuant to Section 8.04 of this Agreement, then Indemnitee shall be entitled to an adjudication by a court of his or her entitlement to such indemnification, contribution or advancement. Alternatively, in such case, Indemnitee, at his or her option, may seek an award in arbitration to be conducted by the Hong Kong International Arbitration Centre. The Company shall not oppose Indemnitee's right to seek any such adjudication or award in arbitration.

(b) In the event that a determination shall have been made pursuant to Section 5.02(a) of this Agreement that Indemnitee is not entitled to indemnification, any judicial proceeding or arbitration commenced pursuant to this Section 6.01 shall be conducted in all respects as a *de novo* trial, or arbitration, on the merits, and Indemnitee shall not be prejudiced by reason of that adverse determination. In any judicial proceeding or arbitration commenced pursuant to this Section 6.01 the Company shall have the burden of proving Indemnitee is not entitled to indemnification or advancement of Expenses, as the case may be, and the Company may not refer to or introduce into evidence any determination pursuant to Section 5.02(a) of this Agreement adverse to Indemnitee for any purpose. If Indemnitee commences a judicial proceeding or arbitration pursuant to this Section 6.01, Indemnitee shall not be required to reimburse the Company for any advances pursuant to Section 4.02 until a final determination is made with respect to Indemnitee's entitlement to indemnification (as to which all rights of appeal have been exhausted or lapsed).

(c) If a determination shall have been made pursuant to Section 5.02(a) of this Agreement that Indemnitee is entitled to indemnification, the Company shall be bound by such determination in any judicial proceeding or arbitration commenced pursuant to this Section 6.01, absent (i) a misstatement by Indemnitee of a material fact, or an omission of a material fact necessary to make Indemnitee's statement not materially misleading, in connection with the request for indemnification, or (ii) a prohibition of such indemnification under applicable law.

11

(d) The Company shall be precluded from asserting in any judicial proceeding or arbitration commenced pursuant to this Section 6.01 that the procedures and presumptions of this Agreement are not valid, binding and enforceable and shall stipulate in any such court or before any such arbitrator that the Company is bound by all the provisions of this Agreement.

(e) The Company shall indemnify Indemnitee to the fullest extent permitted by law against all Expenses and, if requested by Indemnitee, shall (within ten (10) business days after the Company's receipt of such written request) advance such Expenses to Indemnitee, which are reasonably incurred by Indemnitee in connection with any judicial proceeding or arbitration brought by Indemnitee for (i) indemnification or advances of Expenses by the Company (or otherwise for the enforcement, interpretation or defense of his or her rights) under this Agreement or any other agreement, including any other indemnification, contribution or advancement agreement, or any provision of the Memorandum and Articles now or hereafter in effect or (ii) recovery or advances under any directors' and officers' liability insurance policy maintained by the Company, regardless of whether Indemnitee ultimately is determined to be entitled to such indemnification, contribution, advancement or insurance recovery, as the case may be.

ARTICLE 7
DIRECTORS' AND OFFICERS' LIABILITY INSURANCE

Section 7.01. *D&O Liability Insurance.* To the extent that the Company maintains a policy or policies of insurance ("**D&O Liability Insurance**") providing liability insurance for directors and officers of the Company in their capacities as such (and for any capacity in which any director or officer of the Company serves any other Enterprise at the request of the Company), in respect of acts or omissions occurring while serving in such capacity, Indemnitee shall be covered by such policy or policies, in accordance with its or their terms, to the maximum extent of the coverage available for any other director or officer under such policy or policies.

Section 7.02. *Evidence of Coverage.* Upon request by Indemnitee, the Company shall provide copies of all policies of D&O Liability Insurance obtained and maintained in accordance with Section 7.01 of this Agreement. The Company shall promptly notify Indemnitee of any changes in such insurance coverage.

ARTICLE 8
MISCELLANEOUS

Section 8.01. *Non-exclusivity of Rights.* The rights of indemnification, contribution and advancement of Expenses as provided by this Agreement shall not be deemed exclusive of any other rights to which Indemnitee may at any time be entitled to under applicable law, the Memorandum and Articles, any agreement, a vote of stockholders or a resolution of directors, or otherwise. No right or remedy herein conferred is intended to be exclusive of any other right or remedy, and every other right and remedy shall be cumulative and in addition to every other right and remedy given hereunder or now or hereafter existing at law or in equity or otherwise. The assertion or employment of any right or remedy hereunder, or otherwise, shall not prevent the concurrent assertion or employment of any other right or remedy.

Section 8.02. *Insurance and Subrogation.* (a) If, at the time the Company receives notice of a claim hereunder, the Company has director and officer liability insurance in effect, the Company shall give prompt notice of such Proceeding to the insurers in accordance with the procedures set forth in the respective policies. The Company shall thereafter take all necessary or desirable action to cause such insurers to pay, on behalf of Indemnitee, all amounts payable as a result of such Proceeding in accordance with the terms of such policies. The failure or refusal of any such insurer to pay any such amount shall not affect or impair the obligations of the Company under this Agreement.

(b) In the event of any payment under this Agreement, the Company shall be subrogated to the extent of such payment to all of the rights of recovery of Indemnitee, who shall execute all papers required and take all action necessary to secure such rights, including execution of such documents as are necessary to enable the Company to bring suit to enforce such rights.

(c) The Company shall not be liable under this Agreement to make any payment of amounts otherwise indemnifiable (or for which advancement is provided) hereunder if and to the extent that Indemnitee has actually received such payment under any insurance policy or other indemnity provision.

Section 8.03 The Company's obligation to indemnify or advance Expenses hereunder to Indemnitee who is or was serving at the request of the Company as a director, officer, trustee, partner, managing member, fiduciary, board of directors' committee member, employee or agent of any other Enterprise shall be reduced by any amount Indemnitee has actually received as indemnification or advancement of Expenses from such Enterprise.

Section 8.04. *Contribution.* To the fullest extent permissible under applicable law, if the indemnification provided for in this Agreement is unavailable to Indemnitee for any reason whatsoever, the Company, in lieu of indemnifying Indemnitee, shall contribute to the amount incurred by Indemnitee, whether for judgments, fines, penalties, excise taxes, amounts paid or to be paid in settlement and/or for Expenses, in connection with any claim relating to an indemnifiable event under this Agreement, in such proportion as is deemed fair and reasonable in light of all of the circumstances of such Proceeding in order to reflect (i) the relative benefits received by the Company and Indemnitee as a result of the event(s) and/or transaction(s) giving rise to such Proceeding; and/or (ii) the relative fault of the Company (and its directors, officers, employees and agents) and Indemnitee in connection with such event(s) and/or transaction(s). The relative fault of the Company on the one hand and of the Indemnitee on the other hand shall be determined by reference to, among other things, the parties' relative intent, knowledge, access to information and opportunity to correct or prevent the circumstances resulting in such judgments, fines, penalties, excise taxes, amounts paid or to be paid in settlement and/or for Expenses. The Company agrees that it would not be just and equitable if contribution pursuant to this Section 8.04 were determined by pro rata allocation or any other method of allocation which does not take account of the foregoing equitable considerations.

Section 8.05. *Amendment.* This Agreement may not be modified or amended except by a written instrument executed by or on behalf of each of the parties hereto. No amendment, alteration or repeal of this Agreement or of any provision hereof shall limit, restrict or reduce any right of Indemnitee under this Agreement in respect of any act or omission, or any event occurring, prior to such amendment, alteration or repeal. To the extent that a change in applicable law, whether by statute or judicial decision limits rights with respect to indemnification, contribution or advancement of Expenses, it is the intent of the parties hereto that the rights with respect to indemnification, contribution or advancement of Expenses in effect prior to such change shall remain in full force and effect to the extent permitted by applicable law.

Section 8.06. *Waivers.* The observance of any term of this Agreement may be waived (either generally or in a particular instance and either retroactively or prospectively) by the party entitled to enforce such term only by a writing signed by the party against which such waiver is to be asserted. Unless otherwise expressly provided herein, no delay on the part of any party hereto in exercising any right, power or privilege hereunder shall operate as a waiver thereof, nor shall any waiver on the part of any party hereto of any right, power or privilege hereunder operate as a waiver of any other right, power or privilege hereunder nor shall any single or partial exercise of any right, power or privilege hereunder preclude any other or further exercise thereof or the exercise of any other right, power or privilege hereunder.

Section 8.07. *Entire Agreement.* This Agreement and the documents referred to herein constitute the entire agreement between the parties hereto with respect to the matters covered hereby, and any other prior or contemporaneous oral or written understandings or agreements with respect to the matters covered hereby are superseded by this Agreement, provided that this Agreement is a supplement to and in furtherance of the Memorandum and Articles and applicable law, and shall not be deemed a substitute therefor, nor to diminish or abrogate any rights of Indemnitee thereunder.

Section 8.08. *Severability.* If any provision or provisions of this Agreement shall be held to be invalid, illegal or unenforceable for any reason whatsoever: (a) the validity, legality and enforceability of the remaining provisions of this Agreement (including each portion of any Section of this Agreement containing any such provision held to be invalid, illegal or unenforceable, that is not itself invalid, illegal or unenforceable) shall not in any way be affected or impaired thereby and shall remain enforceable to the fullest extent permitted by law; (b) such provision or provisions shall be deemed reformed to the extent necessary to conform to applicable law and to give the maximum effect to the intent of the parties hereto; and (c) to the fullest extent possible, the provisions of this Agreement (including each portion of any Section of this Agreement containing any such provision held to be invalid, illegal or unenforceable, that is not itself invalid, illegal or unenforceable) shall be construed so as to give effect to the intent manifested thereby.

Section 8.09. *Notices.* All notices, requests, demands and other communications under this Agreement shall be in writing (which may be by facsimile transmission). All such notices, requests and other communications shall be deemed received on the date of receipt by the recipient thereof if received prior to 5:00 p.m. in the place of receipt and such day is a business day in the place of receipt. Otherwise, any such notice, request or communication shall be deemed not to have been received until the next succeeding business day in the place of receipt. The address for notice to a party is as shown on the signature page of this Agreement, or such other address as any party shall have given by written notice to the other party as provided above.

Section 8.10. *Binding Effect.* (a) The Company expressly confirms and agrees that it has entered into this Agreement and assumed the obligations imposed on it hereby in order to induce Indemnitee to serve as a director or officer of the Company, and the Company acknowledges that Indemnitee is relying upon this Agreement in serving as a director or officer of the Company.

(b) This Agreement shall be binding upon and inure to the benefit of and be enforceable by the parties hereto and their respective successors, assigns, including any direct or indirect successor by purchase, merger, consolidation or otherwise to all or substantially all of the business and/or assets of the Company, spouses, heirs, and executors, administrators, personal and legal representatives. The Company shall require and cause any successor (whether direct or indirect by purchase, merger, consolidation or otherwise) to all or substantially all, or a substantial part of the business or assets of the Company, by written agreement in form and substance satisfactory to Indemnitee, expressly to assume and agree to perform this Agreement in the manner and to the same extent that the Company would be required to perform if no such succession had taken place.

(c) The indemnification, contribution and advancement of Expenses provided by, or granted pursuant to this Agreement shall continue during the period Indemnitee is an officer and/or a director of the Company or is or was serving at the request of the Company and shall continue thereafter so long as Indemnitee shall be subject to any Proceeding by reason of his former or current capacity at the Company or any other enterprise at the Company's request, whether or not he is acting or serving in any such capacity at the time any Expense is incurred for which indemnification can be provided under this Agreement. This Agreement shall inure to the benefit of the heirs, executors, administrators, legatees and assigns of such Indemnitee.

Section 8.11. *Governing Law.* This Agreement and the legal relations among the parties shall be governed by, and construed and enforced in accordance with, the laws of Cayman Islands, without regard to its conflict of laws rules.

Section 8.12. *Consent to Jurisdiction.* Except with respect to any arbitration commenced by Indemnitee pursuant to Section 6.01(a) of this Agreement, each of the parties to this Agreement irrevocably agrees that the courts of Cayman Islands shall have nonexclusive jurisdiction to hear and determine any claim, suit, action or proceeding, and to settle any disputes, which may arise out of or are in any way related to or in connection with this Agreement, and, for such purposes, irrevocably submits to the nonexclusive jurisdiction of such courts.

Section 8.13. *Headings.* The Article and Section headings in this Agreement are for convenience of reference only, and shall not be deemed to alter or affect the meaning or interpretation of any provisions hereof.

Section 8.14. *Counterparts.* This Agreement may be executed in one or more counterparts, each of which shall for all purposes be deemed to be an original but all of which together shall constitute one and the same Agreement. Only one such counterpart signed by the party against whom enforceability is sought needs to be produced to evidence the existence of this Agreement.

Section 8.15. *U.S. Federal Preemption.* Notwithstanding the foregoing, both the Company and Indemnitee acknowledge that in certain instances, U.S. federal law or public policy may override applicable law and prohibit the Company from indemnifying its directors and officers under this Agreement or otherwise. Such instances include, but are not limited to, the U.S. Securities and Exchange Commission's (the "SEC") prohibition on indemnification for liabilities arising under certain U.S. federal securities laws. Indemnitee also understands and acknowledges that the Company has undertaken or may be required in the future to undertake with the SEC to submit the question of indemnification to a court in certain circumstances for a determination of the Company's right under public policy to indemnify Indemnitee.

Section 8.16. *No Employment Rights.* Nothing in this Agreement is intended to create in Indemnitee any right to continued employment with the Company.

Section 8.15. *Use of Certain Terms.* As used in this Agreement, the words "herein," "hereof," and "hereunder" and other words of similar import refer to this Agreement as a whole and not to any particular paragraph, subparagraph, section, subsection, or other subdivision. Whenever the context may require, any pronoun used in this Agreement shall include the corresponding masculine, feminine or neuter forms, and the singular form of nouns, pronouns and verbs shall include the plural and vice versa.

IN WITNESS WHEREOF, this Agreement has been duly executed and delivered to be effective as of the date first above written.

In such circumstances, the **parties** shall make their best efforts to come up with a valid and enforceable replacement clause or agreement through negotiation in good faith to realize the **parties'** intention at the time of entering into **this Agreement** to the greatest extent.

If this Agreement is so terminated as provided, this Agreement will be of no further force or effect except that the termination will not relieve any Party from any liability for any breach of this Agreement arising prior to the date of termination.

Section 10.01. *Survival.* The representations and warranties of the Warrantors and the Investors and their respective Affiliates contained in the Transaction Documents shall survive the Closing until the first anniversary of the Closing Date. The omission of any Indemnified Party to so notify the Indemnifying Party of any such Action shall not relieve the Indemnifying Party from any liability which it may have to such Indemnified Party under this Article 10 or otherwise. In case any such Action shall be brought against any Indemnified Party, the Indemnifying Party shall be entitled to assume the defense thereof at its own expense, with counsel satisfactory to such Indemnified Party in its reasonable judgment; *provided, however*, that any Indemnified Party may, at its own expense, retain separate counsel to participate in such defense. Notwithstanding the foregoing, in any Action in which both the Indemnifying Party, on the one hand, and an Indemnified Party, on the other hand, are, or are reasonably likely to become, a party, such Indemnified Party shall have the right to employ separate counsel at the Indemnifying Party's expense and to control its own defense of such Action if, in the reasonable opinion of counsel to such Indemnified Party, a conflict or potential conflict exists between the Indemnifying Party, on the one hand, and such Indemnified Party, on the other hand, that would make such separate representation advisable; *provided, however*, that the Indemnifying Party shall not be liable for the fees and expenses of more than one counsel to all Indemnified Parties.

Section 10.04. *Limitation of Liability.*

(a) Notwithstanding anything to the contrary contained in this Agreement, the maximum aggregate liability of the Warrantors to each Investor, as the case may be, in respect of all Indemnifiable Losses under this Agreement shall not exceed an amount equal to 100% of such Investor's Purchase Price. None of the Parties shall have any liability for speculative, punitive, unforeseeable or consequential damages or lost profits resulting from any legal action or claim arising out of or relating to this Agreement.

(b) An Indemnifying Party shall not have liability under this Agreement for any Indemnifiable Losses unless the aggregate amount of Indemnifiable Losses incurred by the Indemnified Parties and indemnifiable thereunder exceeds US\$100,000 and Indemnifying Parties shall be liable for all such amount of Indemnifiable Losses and not only the excess.

(c) The amount of any Indemnifiable Losses payable by the Indemnifying Party under this Agreement shall be net of any amounts actually recovered or recoverable by the Indemnified Party under applicable insurance policies or from any other Person alleged to be responsible therefor. If the Indemnifying Party has paid an amount in discharge of any claim under this Agreement and the Indemnified Party has been compensated in full for all Indemnifiable Losses it has suffered with respect to the subject matter of such claim, then to the extent the Indemnified Party subsequently recovers (whether by payment, discount, credit, relief, insurance or otherwise) from a third party a sum which further indemnifies or compensates the Indemnified Party (in whole or in part) in respect of the same loss or liability which is the subject matter of the claim such that the Indemnified Party's recovery and retention of such amount would constitute double recovery, it shall as soon as reasonably practicable pay over such amount to the Indemnifying Party less all costs of recovery and Taxes with respect thereto.

21

(d) To the extent required by applicable Law, each Indemnified Party shall use commercially reasonable efforts to mitigate any Indemnifiable Losses for which the Indemnified Party makes claims under this Agreement. If such Indemnified Party mitigates its loss after the Indemnifying Party has paid the Indemnified Party under this Agreement in respect of that loss, the Indemnified Party must notify the Indemnifying Party and pay to the Indemnifying Party the extent of the value of the benefit to the Indemnified Party of that mitigation (less the Indemnified Party's reasonable costs of mitigation) promptly after the benefit is received.

(e) The Indemnified Party shall not be entitled to recover from the Indemnifying Party under this Agreement more than once in respect of the same Indemnifiable Losses suffered.

Section 10.05. *Exclusive Remedy.* Notwithstanding any other provisions contained herein, this Article 10 shall be the sole and exclusive monetary remedy of the Parties for any claim arising out of or resulting from this Agreement and the transactions contemplated hereby, except that no limitation or exceptions with respect to the obligations or liabilities on the Parties provided in the forgoing sections under this Article 10 shall apply to an Indemnifiable Loss incurred by any Indemnified Party arising due to the fraud, fraudulent misrepresentation, intentional breach, willful misconduct or gross negligence of an Indemnifying Party. Nothing in this Article 10 or elsewhere in this Agreement shall affect the Parties' rights to specific performance or other equitable or non-monetary remedies with respect to the covenants and agreements in this Agreement or any of the other Transaction Documents or that are to be performed at or after the Closing.

ARTICLE 11 MISCELLANEOUS

Section 11.01. *Further Assurances.* Upon the terms and subject to the conditions herein, each of the Parties agrees to use its reasonable best efforts to take or cause to be taken all action, to do or cause to be done, to execute such further instruments, and to assist and cooperate with the other Parties hereto in doing, all things necessary, proper or advisable under applicable Laws or otherwise to consummate and make effective, in the most expeditious manner practicable, the transactions contemplated by this Agreement and the other Transaction Documents (it being understood that no Party shall be obligated to grant any waiver of any condition or other waiver hereunder).

Section 11.02. *Successors and Assigns.* Except as otherwise provided herein, the terms and conditions of this Agreement shall inure to the benefit of and be binding upon the respective successors and permitted assigns of the Parties hereto. This Agreement and the rights and obligations therein may not be assigned by any Party without the prior written consent of the other Parties.

22

Section 11.03. *Third-Party Beneficiaries*. Nothing in this Agreement, express or implied, is intended to confer upon any party other than the Parties hereto or their respective successors and assigns any rights, remedies, obligations, or liabilities under or by reason of this Agreement, except as expressly provided in this Agreement.

Section 11.04. *Governing Law*. This Agreement shall be governed by and construed under the Laws of Hong Kong, without regard to principles of conflict of Laws thereunder.

Section 11.05. *Dispute Resolution*.

(a) Any dispute, controversy or claim (each, a “**Dispute**”) arising out of or relating to this Agreement, or the interpretation, breach, termination, validity or invalidity thereof, shall be referred to arbitration upon the demand of either party to the dispute with notice (the “**Arbitration Notice**”) to the other.

(b) The Dispute shall be settled by arbitration in Hong Kong by the Hong Kong International Arbitration Centre (the “**HKIAC**”) in accordance with the Hong Kong International Arbitration Centre Administered Arbitration Rules (the “**HKIAC Rules**”) in force when the Arbitration Notice is submitted in accordance with the HKIAC Rules.

(c) There shall be three arbitrators, of whom one arbitrator shall be appointed by the claiming party(ies), one arbitrator appointed by the responding party(ies), and the third arbitrator shall be appointed by the two arbitrators designated by the parties. If a party(ies) fails to designate an arbitrator within thirty days after designation of an arbitrator by the other party(ies), the second arbitrator shall be appointed by the HKIAC Council. If the two arbitrators designated by the parties are unable to agree upon a third arbitrator within thirty days after the first two arbitrators are appointed, the third arbitrator shall be appointed by the HKIAC Council.

(d) The arbitral proceedings shall be conducted in English. To the extent that the HKIAC Rules are in conflict with the provisions of this Section, including the provisions concerning the appointment of the arbitrators, the provisions of this Section shall prevail.

(e) Each party to the arbitration shall cooperate with each other party to the arbitration in making full disclosure of and providing complete access to all information and documents requested by such other party in connection with such arbitral proceedings, subject only to any confidentiality obligations binding on such party.

(f) The award of the arbitral tribunal shall be final and binding upon the parties thereto, and the prevailing party may apply to a court of competent jurisdiction for enforcement of such award.

(g) The arbitral tribunal shall decide any Dispute submitted by the parties to the arbitration strictly in accordance with the substantive Laws of Hong Kong (without regard to principles of conflict of Laws thereunder) and shall not apply any other substantive Law.

(h) Any party to the Dispute shall be entitled to seek preliminary injunctive relief, if possible, from any court of competent jurisdiction pending the constitution of the arbitral tribunal.

(i) During the course of the arbitral tribunal's adjudication of the Dispute, this Agreement shall continue to be performed except with respect to the part in dispute and under adjudication.

(j) Notwithstanding the foregoing in this Section 11.05, the Parties agree that each Party shall have the right, without posting any bond, to seek preliminary injunction, temporary restraining order or other temporary relief from any court of competent jurisdiction.

Section 11.06. *Notices.* Any notice required or permitted pursuant to this Agreement shall be given in writing and shall be given either personally or by sending it by next-day or second-day courier service, fax, electronic mail or similar means to the address of the relevant Party as shown on Schedule III (or at such other address as such Party may designate by fifteen days' advance written notice to the other Parties to this Agreement given in accordance with this Section). Where a notice is sent by next-day or second-day courier service, service of the notice shall be deemed to be effected by properly addressing, pre-paying and sending by next-day or second-day service through an internationally-recognized courier a letter containing the notice, with a written confirmation of delivery, and to have been effected at the earlier of (i) delivery (or when delivery is refused) and (ii) expiration of two Business Days after the letter containing the same is sent as aforesaid. Where a notice is sent by fax or electronic mail, service of the notice shall be deemed to be effected by properly addressing, and sending such notice through a transmitting organization, with a written confirmation of delivery, and to have been effected on the day the same is sent as aforesaid, if such day is a Business Day and if sent during normal business hours of the recipient, otherwise the next Business Day. Notwithstanding the foregoing, to the extent a "with a copy to" address is designated, notice must also be given to such address in the manner above for such notice, request, consent or other communication hereunder to be effective.

Section 11.07. *Specific Performance.* The Parties hereto acknowledge and agree that irreparable harm may occur for which money damages would not be an adequate remedy in the event that any of the provisions of this Agreement were not performed in accordance with their specific terms or were otherwise breached. It is accordingly agreed that the Parties shall be entitled to injunctive relief to prevent breaches of this Agreement and to specifically enforce the terms and provisions of this Agreement.

Section 11.08. *Fees and Expenses.* Each Party hereto shall pay all of its own costs and expenses incurred in connection with the negotiation, execution, delivery and performance of this Agreement and other Transaction Documents and the transactions contemplated hereby and thereby; *provided that*, subject to the consummation of the Closing and in accordance with the term sheets entered into with certain Investors, the Company shall reimburse such Investors for their documented and reasonable fees and expenses incurred by them in connection with the negotiation of this Agreement and the other Transaction Documents and the consummation of the transactions contemplated hereby and thereby (including all business, legal and finance due diligence related expenses) for an amount up to a maximum of RMB200,000 in aggregate (unless otherwise provided in the term sheets).

Section 11.09. *Finder's Fee.* Each Investor agrees, severally and not jointly, to indemnify and to hold harmless the Company and each other Investor from any liability for any commission or compensation in the nature of a finders' fee (and the costs and expenses of defending against such liability or asserted liability) for which such Investor or any of its officers, partners, employees or representatives is responsible. Each Warrantor agrees, jointly and severally, to indemnify and hold harmless each Investor from any liability for any commission or compensation in the nature of a finders' fee (and the costs and expenses of defending against such liability or asserted liability) for which the Company or any of its officers, employees or representatives is responsible.

Section 11.10. *Severability*. In case any provision of the Agreement shall be invalid, illegal or unenforceable, the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby. If, however, any provision of this Agreement shall be invalid, illegal, or unenforceable under any applicable Law in any jurisdiction, it shall, as to such jurisdiction, be deemed modified to conform to the minimum requirements of such Law, or, if for any reason it is not deemed so modified, it shall be invalid, illegal, or unenforceable only to the extent of such invalidity, illegality, or limitation on enforceability without affecting the remaining provisions of this Agreement, or the validity, legality, or enforceability of such provision in any other jurisdiction.

Section 11.11. *Amendments and Waivers*. Any term of this Agreement may be amended, only with the written consent of all Parties hereto. Any amendment effected in accordance with this paragraph shall be binding upon each of the Parties hereto. The observance of any term of this Agreement may be waived (either generally or in a particular instance and either retroactively or prospectively) only with the written consent of the Party against whom such waiver is sought.

Section 11.12. *No Waiver*. Failure to insist upon compliance with any of the terms, covenants, or conditions hereof will not be deemed a waiver of such term, covenant, or condition, nor will any waiver or relinquishment of, or failure to insist upon compliance with, any right, power or remedy hereunder at any one or more times be deemed a waiver or relinquishment of such right, power or remedy at any other time or times.

Section 11.13. *Delays or Omissions*. No delay or omission to exercise any right, power or remedy accruing to any Party under this Agreement, upon any breach or default of any other Party under this Agreement, shall impair any such right, power or remedy of such non-breaching or non-defaulting Party nor shall it be construed to be a waiver of any such breach or default, or an acquiescence therein, or of or in any similar breach or default thereafter occurring; nor shall any waiver of any single breach or default be deemed a waiver of any other breach or default theretofore or thereafter occurring. Any waiver, permit, consent or approval of any kind or character on the part of any Party of any breach or default under this Agreement, or any waiver on the part of any Party of any provisions or conditions of this Agreement, must be in writing and shall be effective only to the extent specifically set forth in such writing.

Section 11.14. *No Presumption*. The Parties acknowledge that any applicable Law that would require interpretation of any claimed ambiguities in this Agreement against the Party that drafted it has no application and is expressly waived. If any claim is made by a Party relating to any conflict, omission or ambiguity in the provisions of this Agreement, no presumption or burden of proof or persuasion will be implied because this Agreement was prepared by or at the request of any Party or its counsel.

If Ant Financial fails to give a written notice within the 30-Day Option Period in accordance with the foregoing, then the foregoing sub-clause (x) shall be deemed to be elected by Ant Financial. In the case of the foregoing sub-clause (x), Ant Financial shall not be obliged to purchase the Transferring Securities. In the case of the foregoing sub-clause (y), the written notice of Ant Financial shall constitute a binding agreement to purchase, at the price and on the terms specified in the transfer notice, all of the Transferring Securities specified in the transfer notice and such Transfer shall be consummated within thirty (30) days upon the expiration of the 30- Day Option Period. For the avoidance of doubt, in the case of the foregoing sub-clause(z) Ant Financial consents to the Proposed Transfer without exercising its right of first refusal under this Section 5.01(e), then other Shareholders are entitled to the right of first refusal under this Section 5.01.

Section 5.02. *Co-Sale Rights.* (a) To the extent that the Rightholders do not exercise their right of first refusals in full as to the Offered Securities proposed to be Transferred by the Transferor to the prospective transferee identified in the Transfer Notice pursuant to Section 5.01, the Rightholders (each, a “**Co-Sale Rightholder**”) shall have the right to participate in such sale to the prospective transferee identified in the Transfer Notice on the same terms and conditions as specified in the Transfer Notice by notifying the Transferor in writing within ten (10) Business Days after expiration the Option Period, or the Second Option Period, as the case may be (the “**Co-Sale Option Period**”).

(b) The maximum number of Company Securities that each Co-Sale Rightholder may elect to sell shall be equal to the product of (i) the aggregate number of Offered Securities after any Transfer made pursuant to Section 5.01, *multiplied* by (ii) a fraction, the numerator of which shall be the number of Ordinary Shares owned by such Co-Sale Rightholder (including all Preferred Shares held by such Co-Sale Rightholder on an as-converted basis) and the denominator of which shall be the total number of Ordinary Shares held by the Transferor and all participating Co-Sale Rightholders immediately prior to the proposed Transfer (including all Preferred Shares held by such Shareholders on an as-converted basis).

(c) Each Co-Sale Rightholder shall effect its participation in the sale by promptly delivering to the Transferor for Transfer to the prospective transferee, before the applicable closing, one or more certificates, which represent the type and number of Company Securities which the Co-Sale Rightholder elects to sell.

(d) The share certificate or certificates that each Co-Sale Rightholder delivers to the Transferor pursuant to Section 5.02(c) shall be submitted to the Company for cancellation and the Company shall, upon the consummation of the sale of the Company Securities, issue a new certificate to each Co-Sale Rightholder for the remaining balance. The Transferor shall concurrently therewith remit to each Co-Sale Rightholder that portion of the sale proceeds to which the Co-Sale Rightholder is entitled by reason of its participation in such Transfer. The Company shall update its register of members upon consummation of such Transfer.

(e) To the extent that (x) any prospective purchaser prohibits the participation by any Co-Sale Rightholder exercising its co-sale rights hereunder in a proposed Transfer or otherwise refuses to purchase Company Securities from such Co-Sale Rightholder, or (y) such prospective purchaser fails to consummate the purchase of the Company Securities from such Co-Sale Rightholder prior to, or simultaneously with, the consummation of the Transfer of the Offered Securities, then the Transferor shall not sell to such prospective purchaser any Company Securities unless and until, prior to, or simultaneously with, such sale, the Transferor shall purchase from the Co-Sale Rightholder such Company Securities that the Co-Sale Rightholder would otherwise be entitled to sell to the prospective purchaser pursuant to its co-sale rights for the same consideration and subject to the terms and conditions as the proposed Transfer specified in the Transfer Notice.

Section 5.03. *Non-Exercise of Rights.* Subject to the provisions of Section 5.02, to the extent that the Rightholders do not elect to purchase all of the Offered Securities in accordance with Section 5.01, the Transferor shall have two (2) months after the latest of the expiration of the Option Period, the Second Option Period and the Co-Sale Option Period to consummate the Transfer of the Offered Securities not purchased by the Rightholders pursuant to Section 5.01 to the prospective transferee identified in the Transfer Notice on the same terms and conditions specified in the Transfer Notice. In the event that such Transfer has not consummated within such two-month period, the Transferor shall not thereafter Transfer any Company Securities without first applying the procedures provided in Section 5.01 and Section 5.02.

Section 5.04. *Drag-along Rights.* If the Majority Shareholders (including a Preferred Majority and each of Ant Financial, Chuangji, the Founder and the Co-Founder) (the “**Drag-Along Sellers**”) approve a bona fide offer from any third party (other than the Preferred Investors or their respective Affiliate(s)) to enter into a Deemed Liquidation Event of the Company (a “**Drag-Along Sale**”), then each other Shareholder shall, if so requested by the Drag-Along Sellers, (i) vote all of its Company Securities, or execute a written consent, in favor of the Drag-Along Sale, (ii) Transfer all or any portion of its Company Securities at the same price and on the same terms as the Drag-Along Sellers to consummate the Drag-Along Sale, provided, however, that such terms and conditions, including with respect to price paid or received per Company Security, may differ as between different classes of Company Securities in accordance with their relative liquidation preferences as set forth in this Agreement and the Memorandum and Articles, and (iii) otherwise take all other actions necessary or desirable to consummate the Drag-Along Sale; *provided* that, any Transfer of the Company Securities pursuant to this Section 5.04 shall not be subject to the restrictions provided under Section 4.01, Section 5.01, Section 5.02, and Section 5.03.

Section 5.05. *Preemptive Rights.* (a) The Company shall give each Preemptive Rightholder notice (an “**Issuance Notice**”) of any proposed issuance by the Company of any Company Securities at least 10 days prior to the proposed issuance date. The Issuance Notice shall specify (i) the price at which such Company Securities are to be issued, (ii) the identity of the prospective subscriber and (iii) the other material terms of the issuance. Subject to Section 5.05(g) below, each Preemptive Rightholder shall be entitled to purchase up to its Preemptive Portion of the Company Securities proposed to be issued, at the price and on the terms specified in the Issuance Notice.

(b) Each Preemptive Rightholder who desires to purchase any or all of its Preemptive Portion of the Company Securities specified in the Issuance Notice shall deliver notice to the Company (each, an “**Exercise Notice**”) of its election to purchase such Company Securities within ten (10) Business Days of receipt of the Issuance Notice (the “**Preemptive Option Period**”). The Exercise Notice shall specify the number (or amount) of Company Securities to be purchased by such Preemptive Rightholder and shall constitute exercise by such Preemptive Rightholder of its rights under this Section 5.05 and a binding agreement of it to purchase, at the price and on the terms specified in the Issuance Notice, the number (or amount) of Company Securities specified in the Exercise Notice. If, at the termination of the Preemptive Option Period, any Preemptive Rightholder shall not have delivered an Exercise Notice to the Company, such Preemptive Rightholder shall be deemed to have waived all of its rights under this Section 5.05 with respect to the purchase of such Company Securities.

(c) If any Preemptive Rightholder declines or fails to exercise its right to subscribe for its Preemptive Portion of the Company Securities proposed to be issued in full in accordance with Section 5.05(b) and there is at least one Preemptive Rightholder who has fully exercised its right of participation (the “**Exercising Rightholder**”), the Company shall promptly give notice thereof to each Exercising Rightholder. The Exercising Rightholders shall have a right of over-allotment, and may exercise an additional right to subscribe such unsubscribed Company Securities by notifying the Company in writing within ten (10) Business Days after receipt of notice; *provided* that if the Exercising Rightholders desire to subscribe in aggregate more than the number of such unsubscribed Company Securities, then such unsubscribed Company Securities will be allocated to the extent necessary among the Exercising Rightholders in accordance with their relative pro rata ownership of Shares on an as-converted basis.

(d) The Company shall have one hundred and twenty (120) days from the date of the Issuance Notice to consummate the proposed issuance of any or all of such Company Securities that the Preemptive Rightholders have not elected to purchase pursuant to this Section 5.05 at the price and upon terms that are not materially less favorable to the Company than those specified in the Issuance Notice. If the Company proposes to issue any such Company Securities after such 120-day period, it shall again comply with the procedures set forth in this Section 5.05.

(e) At the consummation of the issuance of such Company Securities, the Company shall deliver a copy of its register of members updated to reflect such issuance and issue certificates representing the Company Securities purchased by each Preemptive Rightholder exercising preemptive rights pursuant to this Section 5.05, against payment by such Shareholder of the purchase price for such Company Securities in accordance with the terms and conditions as specified in the Issuance Notice.

(f) Each Preemptive Rightholder may apportion, at its sole discretion, its Preemptive Portion of the Company Securities proposed to be issued among its Affiliates in any proportion, provided that each of such Affiliate(s) shall meet the prerequisites and qualifications to become a Shareholder of the Company, and execute and deliver a joinder agreement to be bound by this Agreement in the form of Exhibit A attached hereto.

(g) Notwithstanding the foregoing, no Preemptive Rightholder shall be entitled to purchase Company Securities as contemplated by this Section 5.05 in connection with issuances of (i) Company Securities (as appropriately adjusted for share subdivision, share dividends, combination, Recapitalizations and similar events) issued (or issuable pursuant to such Company Securities) to the Group Companies' employees, officers, directors, consultants or any other Persons qualified pursuant to the ESOP of the Company as duly adopted, (ii) Company Securities issued or issuable pursuant to a pro rata share subdivision, share dividend, combination, Recapitalization or other similar transaction of the Company, in each case, as duly approved, (iii) Ordinary Shares issued upon the conversion of Preferred Shares, (iv) Company Securities issued in connection with the exercise of the right under any convertible securities, *provided* that the issuance of such convertible securities has been duly approved, (iv) Company Securities issued pursuant to an IPO and (v) Company Securities issued in connection with any bona fide, arm's-length direct or indirect merger, consolidation, asset acquisition or similar transaction where the Company proposes to acquire substantially all of the assets of, or more than fifty percent (50%) of equity interest or voting power in, the target entity, as duly approved.

(v) to the extent related to the tax treatment and tax structure of the transactions contemplated by this Agreement (including all materials of any kind, such as opinions or other tax analyses that the Company, its Affiliate(s) or its Representatives have provided to such Shareholder relating to such tax treatment and tax structure), *provided* that the foregoing does not constitute an authorization to disclose the identity of any existing or future party to the transactions contemplated by this Agreement or their Affiliate(s) or Representatives, or, except to the extent relating to such tax structure or tax treatment, any specific pricing terms or commercial or financial information; or

(vi) if the prior written consent of the Board shall have been obtained.

(b) “**Confidential Information**” means any information concerning the Group Companies or the financial condition, business, operations or prospects of the Group Companies in the possession of or furnished to any Shareholder (including by virtue of its present or former right to designate a director of the Company); *provided* that the term “Confidential Information” does not include information that (i) is or becomes generally available to the public other than as a result of a disclosure by a Shareholder or its directors, officers, employees, stockholders, members, partners, agents, counsel, investment advisers or other representatives (all such persons being collectively referred to as “**Representatives**”) in violation of this Agreement, (ii) was available to such Shareholder on a non-confidential basis prior to its disclosure to such Shareholder or its Representatives by the Company, (iii) becomes available to such Shareholder on a non-confidential basis from a source other than the Company after the disclosure of such information to such Shareholder or its Representatives by the Company, which source is (at the time of receipt of the relevant information) not, to the best of such Shareholder’s knowledge, bound by a confidentiality agreement with (or other confidentiality obligation to) the Company or another Person or (iv) is independently developed by such Shareholder without violating any confidentiality agreement with, or other obligation of secrecy to, the Company.

Section 9.02. *Non-Competition and Non-Solicitation.* (a) Each of the Founder and the Co-Founder undertakes and covenants to the Preferred Investors that, commencing from the date of this Agreement until two (2) years after the latest date on which he ceases to be an employee, a Shareholder (direct or indirect) or a Director of any Group Company, he shall not, either on his own account or through any of his Affiliate(s) or in conjunction with or on behalf of any other Person, directly or indirectly, (i) be engaged with or employed by, invest in any manner in, or carry out any business that is the same or otherwise in direct competition with the business then operated by any Group Company, whether as a shareholder, beneficial owner, director, employee, creditor, director, officer, employee, agent, distributor, supplier or otherwise (*provided, however*, that the foregoing restrictions shall not prohibit the Founder or the Co-Founder from acquiring less than one percent (1%) of the outstanding share capital of any entity whose Equity Securities are listed for trading on a securities exchange), (ii) provide advice or consultancy services in any manner to any Person whose business or operations compete, directly or indirectly, with any of the Group Companies (the “**Group Company Competitor**”) or any Competitor, (iii) enter into any arrangement, agreement, or make any undertaking that may limit or prejudice the principal business of any Group Company, (iv) employ, solicit or entice away or attempt to employ, solicit or entice away any employee from any Group Company, or otherwise cause such employee to be hired by any Group Company Competitor or by any Competitor, (v) solicit or entice away or attempt to solicit or entice away from any Group Company, any Person that is a customer, client, representative, agent, distributor or supplier of any Group Company, or (vi) use the name of any Group Company or any substantially similar name of any Group Company in such a way that may be confused with the name of such Group Company.

(b) Each of the Founder and the Co-Founder undertakes and covenants to the Preferred Investors that he will use all reasonable efforts to procure that all of the Key Employee(s) of the Company will comply with the provisions of this Section 9.02.

(c) Each of the Founder and the Co-Founder undertakes and covenants to the Preferred Investors that, during his employment by any Group Company and until one (1) year after the latest date on which he ceases to be an employee, a Shareholder (direct or indirect) or a Director of any Group Company, all the intellectual property developed by him in relation to the relevant Group Company shall be exclusively owned by the relevant Group Company.

Section 9.03. *Books and Records.* (a) Each Group Company shall, and the Co-Founder shall use his reasonable best efforts to cause each Group Company to, keep proper books of records, in which full and correct entries shall be made of all financial transactions and the assets and business of such Group Company.

(b) Each Group Company shall give each of the Shareholders, their respective counsel, auditors and other authorized representatives full access to its offices, internal whistleblowers, properties, books and records, compliance training logs and investigation records and instruct its employees, counsel, auditor and other advisors to cooperate with the Shareholders in their investigation of the Group Companies to the extent that such investigation does not materially interfere with the normal business operations of any of such Group Company.

ARTICLE 10

REGISTRATION RIGHTS

Section 10.01. *Demand Registration.* (a) If at any time following the earlier of (x) one hundred and eighty (180) days after the effective date of the registration statement for a Public Offering and (y) the expiration of the period during which the managing underwriters for such Public Offering shall prohibit the Company from effecting any other public sale or distribution of Registrable Securities, the Company shall receive a request from any Investor (the “**Requesting Shareholder**”) that the Company effect the registration under the Securities Act of all or any portion of such Requesting Shareholder’s Registrable Securities, and specifying the intended method of disposition thereof, then the Company shall promptly give notice of such requested registration (each such request, a “**Demand Registration**”) at least twenty five (25) Business Days prior to the anticipated filing date of the registration statement relating to such Demand Registration to the other Shareholders and thereupon shall use its reasonable best efforts to effect, as expeditiously as possible, the registration under the Securities Act of:

- (i) all Registrable Securities for which the Requesting Shareholder has requested registration under this Section 10.01; and

(ii) subject to the restrictions set forth in Section 10.01(e) and Section 10.02, all other Registrable Securities of the same class as those requested to be registered by the Requesting Shareholder that any Shareholders with rights to request registration under Section 10.01 (all such Shareholders, together with the Requesting Shareholders, and any Shareholders participating in a Piggyback Registration pursuant to Section 10.02, the “**Registering Shareholders**”) have requested the Company to register by request received by the Company within twenty (20) Business Days after such Shareholders receive the Company’s notice of the Demand Registration;

all to the extent necessary to permit the disposition (in accordance with the intended methods thereof as aforesaid) of the Registrable Securities so to be registered; *provided* that, subject to Section 10.01(d), the Company shall not be obligated to effect more than three (3) Demand Registrations for each Investor, other than Demand Registration to be effected pursuant to a Registration Statement on Form F-3, for which an unlimited number of Demand Registrations shall be permitted. In no event shall the Company be required to effect more than one Demand Registration hereunder within any six-month period.

(b) Promptly after the expiration of the 20-Business Day-period referred to in Section 10.01(a)(ii), the Company will notify all Registering Shareholders of the identities of the other Registering Shareholders and the number of shares of Registrable Securities requested to be included therein. At any time prior to the effective date of the registration statement relating to such registration, the Requesting Shareholders may revoke such request, without liability to any of the other Registering Shareholders, by providing a notice to the Company revoking such request.

(c) The Company shall be liable for and pay all Registration Expenses in connection with any Demand Registration, regardless of whether such Registration is effected.

(d) A Demand Registration shall not be deemed to have occurred:

(i) unless the registration statement relating thereto (1) has become effective under the Securities Act and (2) has remained effective for a period of at least one hundred and eighty (180) days (or such shorter period in which all Registrable Securities of the Registering Shareholders included in such registration have actually been sold thereunder); *provided* that such registration statement shall not be considered a Demand Registration if, after such registration statement becomes effective, (1) such registration statement is interfered with by any stop order, injunction or other order or requirement of the SEC or other governmental agency or court and (2) less than fifty percent (50%) of the Registrable Securities included in such registration statement have been sold thereunder; or

(ii) if the Maximum Offering Size is reduced in accordance with Section 10.01(e) such that less than fifty percent (50%) of the Registrable Securities of the Requesting Shareholders sought to be included in such registration are included.

(e) If a Demand Registration involves an underwritten Public Offering and the managing underwriter advises the Company and the Requesting Shareholders that, in its view, the number of shares of Registrable Securities requested to be included in such registration (including any securities that the Company proposes to be included that are not Registrable Securities) exceeds the largest number of shares that can be sold without having an adverse effect on such offering, including the price at which such shares can be sold (the “**Maximum Offering Size**”), the Company shall include in such registration, in the priority listed below, up to the Maximum Offering Size:

(i) first, all Registrable Securities requested to be registered by the Requesting Shareholders;

(ii) second, all Registrable Securities requested to be included in such registration by any other Registering Shareholder (allocated, if necessary for the offering not to exceed the Maximum Offering Size, pro rata among such other Shareholders on the basis of the relative number of Registrable Securities so requested to be included in such registration by each such Shareholder); and

(iii) third, any securities proposed to be registered by any other Persons (including the Company), with such priorities among them as the Company shall reasonably determine.

(f) Upon notice to each Requesting Shareholder, the Company may postpone effecting a registration pursuant to this Section 10.01 on one occasion during any period of twelve (12) consecutive months for a reasonable time specified in the notice but not exceeding ninety (90) days (which period may not be extended or renewed) (“**Deferral Period**”), if (i) an investment banking firm of recognized national standing shall advise the Company and the Requesting Shareholders in writing (which writing shall be provided to each Requesting Shareholder) that effecting the registration would materially and adversely affect an offering of securities of such Company the preparation of which had then been commenced, *provided that* the Company is actively employing in good faith all reasonable efforts to complete such offering of securities, or (ii) the Company is in possession of material non-public information the disclosure of which during the period specified in such notice the Company reasonably believes would not be in the best interests of the Company, with respect to this subsection (ii), *provided that* the Company shall furnish to each of the Requesting Shareholders a certificate signed by an authorized senior officer of the Company stating on behalf of the Company that in the good faith judgment of the Company, the Company is in possession of material non-public information and the disclosure of which would not be in the best interests of the Company at the specified time. The Company shall not register any securities for the account of itself or for any other Shareholder during such ninety (90) day Deferral Period. For clarification only, a demand right shall not be deemed to have been exercised until such deferred registration shall have been effected.

(g) At any time following the consummation of the initial Public Offering and when the Company is eligible to use a Form F-3 registration statement, each Investor may request the Company in writing to file an unlimited number of Registration Statements on Form F-3 (or any successor form to Form F-3, or any comparable form for Registration in a jurisdiction other than the United States) for a public offering of Registrable Securities for which the Company is entitled to use Form F-3 or a comparable form to register the requested Registrable Securities. Upon receipt of such a request the Company shall (i) promptly give written notice of the proposed registration to all other Shareholders and (ii) as soon as practicable, and in any event within ninety (90) days of the receipt of such request, cause the Registrable Securities specified in the request to be registered and qualified for sale and distribution in such jurisdictions as such Investor may reasonably request. Each Investor may at any time, and from time to time, require the Company to effect the registration of Registrable Securities under this (g).

Section 10.02. *Piggyback Registration.* (a) If at any time following an initial Public Offering the Company proposes to register any Company Securities under the Securities Act (other than a registration relating to Company Securities issuable upon exercise of employee stock options or in connection with any employee benefit or similar plan of the Company or in connection with a direct or indirect acquisition by the Company of another Person), whether or not for sale for its own account, the Company shall each such time give prompt notice at least twenty five (25) Business Days prior to the anticipated filing date of the registration statement relating to such registration to each Shareholder, which notice shall set forth such Shareholder's rights under this Section 10.02 and shall offer such Shareholder the opportunity to include in such registration statement the number of Registrable Securities of the same class or series as those proposed to be registered as each such Shareholder may request (a "**Piggyback Registration**"), subject to the provisions of Section 10.02(b). Upon the request of any such Shareholder made within twenty (20) Business Days after the receipt of notice from the Company (which request shall specify the number of Registrable Securities intended to be registered by such Shareholder), the Company shall use its reasonable best efforts to effect the registration under the Securities Act of all Registrable Securities that the Company has been so requested to register by all such Shareholders, to the extent requisite to permit the disposition of the Registrable Securities so to be registered; *provided that* (i) if such registration involves an underwritten Public Offering, all such Shareholders requesting to be included in the Company's registration must sell their Registrable Securities to the underwriters selected as provided in Section 10.03(f) on the same terms and conditions as apply to the Company or the Requesting Shareholders, as applicable, and (ii) if, at any time after giving notice of its intention to register any Company Securities pursuant to this Section 10.02(a) and prior to the effective date of the registration statement filed in connection with such registration, the Company shall determine for any reason not to register such securities, the Company shall give notice to all such Shareholders and, thereupon, shall be relieved of its obligation to register any Registrable Securities in connection with such registration, *provided that* the Shareholders shall nevertheless continue to have the right to include any Registrable Securities in any subsequent registration statement(s) as may be filed by the Company with respect to offerings of its securities, all upon the terms and conditions set forth herein. No registration effected under this Section 10.02 shall relieve the Company of its obligations to effect a Demand Registration to the extent required by Section 10.01. The Company shall pay all Registration Expenses in connection with each Piggyback Registration.

(b) If a Piggyback Registration involves an underwritten Public Offering (other than any Demand Registration, in which case the provisions with respect to priority of inclusion in such offering set forth in Section 10.01(e) shall apply) and the managing underwriter advises the Company that, in its view, the number of Registrable Securities that the Company and such Shareholders intend to include in such registration exceeds the Maximum Offering Size, the Company shall include in such registration, in the following priority, up to the Maximum Offering Size:

40

(i) first, so much of the Registrable Securities proposed to be registered for the account of the Company as would not cause the offering to exceed the Maximum Offering Size;

(ii) second, all Registrable Securities requested by the Requesting Shareholder to be included in such registration by any Requesting Shareholders pursuant to Section 10.02 (allocated, if necessary for the offering not to exceed the Maximum Offering Size, pro rata among such Requesting Shareholders on the basis of the relative number of shares of Registrable Securities so requested to be included in such registration by each); and

(iii) third, any securities proposed to be registered for the account of any other Persons with such priorities among them as the Company shall determine.

Section 10.03. *Registration Procedures.* Whenever Shareholders request that any Registrable Securities be registered pursuant to Section 10.01 or 10.02 subject to the provisions of such Sections, the Company shall use its reasonable best efforts to effect the registration and the sale of such Registrable Securities in accordance with the intended method of disposition thereof as quickly as practicable, and, in connection with any such request:

(a) The Company shall as expeditiously as possible prepare and file with the SEC a registration statement on any form for which the Company then qualifies or that counsel for the Company shall deem appropriate and which form shall be available for the sale of the Registrable Securities to be registered thereunder in accordance with the intended method of distribution thereof, and use its reasonable best efforts to cause such filed registration statement to become and remain effective for a period of not less than one hundred and eighty (180) days, or in the case of a shelf registration statement, one (1) year (or such shorter period in which all of the Registrable Securities of the Shareholders included in such registration statement shall have actually been sold thereunder).

(b) Prior to filing a registration statement or prospectus or any amendment or supplement thereto, the Company shall, if requested, furnish to each participating Shareholder and each underwriter, if any, of the Registrable Securities covered by such registration statement copies of such registration statement as proposed to be filed, and thereafter the Company shall furnish to such Shareholder and underwriter, if any, such number of copies of such registration statement, each amendment and supplement thereto (in each case including all exhibits thereto and documents incorporated by reference therein), the prospectus included in such registration statement (including each preliminary prospectus and any summary prospectus) and such other documents as such Shareholder or underwriter may reasonably request in order to facilitate the disposition of the Registrable Securities owned by such Shareholder. Each Shareholder shall have the right to request that the Company modify any information contained in such registration statement, amendment and supplement thereto pertaining to such Shareholder and the Company shall use its reasonable best efforts to comply with such request; *provided, however,* that the Company shall not have any obligation so to modify any information if the Company reasonably expects that so doing would cause the prospectus to contain an untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein not misleading.

41

(c) After the filing of the registration statement, the Company shall (i) cause the related prospectus to be supplemented by any required prospectus supplement, and, as so supplemented, to be filed pursuant to the Securities Act, (ii) comply with the provisions of the Securities Act with respect to the disposition of all Securities covered by such registration statement during the applicable period in accordance with the intended methods of disposition by the Shareholders thereof set forth in such registration statement or supplement to such prospectus and (iii) promptly notify each Shareholder holding Registrable Securities covered by such registration statement of any stop order issued or threatened by the SEC or any state securities commission and take all reasonable actions required to prevent the entry of such stop order or to remove it if entered.

(d) The Company shall use its reasonable best efforts to (i) register or qualify the Registrable Securities covered by such registration statement under such other securities or “blue sky” laws of such jurisdictions in the United States as any Registering Shareholder holding such Registrable Securities reasonably (in light of such Shareholder’s intended plan of distribution) requests and (ii) cause such Registrable Securities to be registered with or approved by such other governmental agencies or authorities as may be necessary by virtue of the business and operations of the Company and do any and all other acts and things that may be reasonably necessary or advisable to enable such Shareholder to consummate the disposition of the Registrable Securities owned by such Shareholder; *provided* that the Company shall not be required to (A) qualify generally to do business in any jurisdiction where it would not otherwise be required to qualify but for this Section 10.03(d), (B) subject itself to taxation in any such jurisdiction or (C) consent to general service of process in any such jurisdiction.

(e) The Company shall immediately notify each Registering Shareholder holding such Registrable Securities covered by such registration statement, at any time when a prospectus relating thereto is required to be delivered under the Securities Act, of the occurrence of an event requiring the preparation of a supplement or amendment to such prospectus so that, as thereafter delivered to the purchasers of such Registrable Securities, such prospectus will not contain an untrue statement of a material fact or omit to state any material fact required to be stated therein or necessary to make the statements therein not misleading and promptly prepare and make available to each such Shareholder and file with the SEC any such supplement or amendment.

(f) In connection with any Public Offering, the Company shall enter into customary agreements (including an underwriting agreement in customary form) and take such all other actions as are required in order to expedite or facilitate the disposition of such Registrable Securities in any such Public Offering, including the engagement of a “qualified independent underwriter” in connection with the qualification of the underwriting arrangements with FINRA.

(g) Upon execution of confidentiality agreements in form and substance reasonably satisfactory to the Company, the Company shall make available for inspection by any Shareholder and any underwriter participating in any disposition pursuant to a registration statement being filed by the Company pursuant to this Section 10.03 and any attorney, accountant or other professional retained by any such Shareholder or underwriter (collectively, the “**Inspectors**”), all financial and other records, pertinent corporate documents and properties of the Company (collectively, the “**Records**”) as shall be reasonably necessary or desirable to enable them to exercise their due diligence responsibility, and cause the Company’s officers, directors and employees to supply all information reasonably requested by any Inspectors in connection with such registration statement. Records that the Company determines, in good faith, to be confidential and that it notifies the Inspectors are confidential shall not be disclosed by the Inspectors unless (i) the disclosure of such Records is necessary to avoid or correct a misstatement or omission in such registration statement or (ii) the release of such Records is ordered pursuant to a subpoena or other order from a court of competent jurisdiction. Each Shareholder agrees that information obtained by it as a result of such inspections shall be deemed confidential and shall not be used by it or its Affiliate(s) as the basis for any market transactions in the Registrable Securities unless and until such information is made generally available to the public. Each Shareholder further agrees that, upon learning that disclosure of such Records is sought in a court of competent jurisdiction, it shall give notice to the Company and allow the Company, at its expense, to undertake appropriate action to prevent disclosure of the Records deemed confidential.

(h) The Company shall furnish to each Registering Shareholder and to each such underwriter, if any, a signed counterpart, addressed to such Registering Shareholder or underwriter, of (i) an opinion or opinions of counsel to the Company and (ii) a comfort letter or comfort letters from the Company’s independent public accountants, each in customary form and covering such matters of the kind customarily covered by opinions or comfort letters, as the case may be, as a majority of such Shareholders or the managing underwriter therefor requests.

(i) The Company shall otherwise use its reasonable best efforts to comply with all applicable rules and regulations of the SEC, applicable stock exchange(s) and/or government/industry/other regulatory authorities.

(j) The Company may require each Shareholder promptly to furnish in writing to the Company such information regarding the distribution of the Registrable Securities as the Company may from time to time reasonably request and such other information as may be required to timely effect such registration.

(k) Each Shareholder agrees that, upon receipt of any notice from the Company of the happening of any event of the kind described in Section 10.03(e), such Shareholder shall forthwith suspend disposition of Registrable Securities pursuant to the registration statement covering such Registrable Securities until such Shareholder’s receipt of the copies of the supplemented or amended prospectus contemplated by Section 10.03(e), and, if so directed by the Company, such Shareholder shall deliver to the Company all copies, other than any permanent file copies then in such Shareholder’s possession, of the most recent prospectus covering such Registrable Securities at the time of receipt of such notice. If the Company shall give such notice, the Company shall extend the period during which such registration statement shall be maintained effective (including the period referred to in Section 10.03(a)) by the number of days during the period from and including the date of the giving of notice pursuant to Section 10.03(e) to the date when the Company shall make available to such Shareholder a prospectus supplemented or amended to conform with the requirements of Section 10.03(e).

(l) The Company shall use its reasonable best efforts to list all Registrable Securities covered by such registration statement on any securities exchange or quotation system on which any of the Registrable Securities or similar securities issued by the Company are then listed or traded.

(m) The Company shall have appropriate officers of the Company (i) prepare and make presentations at any “road shows” and before analysts and rating agencies, as the case may be, (ii) take other actions to obtain ratings for any Registrable Securities and (iii) otherwise use their best efforts to cooperate as reasonably requested by the underwriters in the offering, marketing or selling of the Registrable Securities.

(n) The Company shall provide a transfer agent and registrar for all Registrable Securities registered pursuant to this Agreement and provide a CUSIP number for all such Registrable Securities, in each case not later than the effective date of such registration.

Section 10.04. *Participation in Public Offering.* No Shareholder may participate in any Public Offering hereunder unless such Shareholder (a) agrees to sell such Shareholder’s Registrable Securities on the basis provided in any customary underwriting arrangements approved by the Persons entitled hereunder to approve such arrangements and (b) completes and executes all questionnaires, powers of attorney, indemnities, underwriting agreements and other documents reasonably required under the terms of such underwriting arrangements and the provisions of this Agreement in respect of registration rights.

Section 10.05. *Cooperation by the Company.* If any Shareholder shall transfer any Registrable Securities pursuant to Rule 144, the Company shall cooperate with such Shareholder and shall provide to such Shareholder such information as such Shareholder shall reasonably request, including but not limited to (i) a written statement by the Company as to its compliance with the reporting requirements of Rule 144 (at any time after ninety (90) days after the effective date of the Company’s initial public offering), the Securities Act and the Exchange Act (at any time after it has become subject to such reporting requirements), or its qualification as a registrant whose securities may be resold pursuant to Form F-3 (at any time after it so qualifies), (ii) a copy of the most recent annual or quarterly report of the Company, and (iii) such other reports and documents of the Company as a Holder may reasonably request in availing itself of any rule or regulation of the SEC that permits the selling of any such securities without registration or pursuant to Form F-3.

With a view to making available to the Shareholders the benefits of certain rules and regulations of the SEC which may at any time permit the sale of the Registrable Securities to the public without registration or pursuant to a registration on Form F-3, after such time as a public market exists for the Ordinary Shares, the Company agrees to:

(a) make and keep public information available, as those terms are understood and defined in Rule 144 under the Securities Act, at all times after the effective date of the first registration under the Securities Act filed by the Company for an offering of its securities to the general public; and

(b) file with the SEC in a timely manner all reports and other documents required of the Company under the Securities Act and the Exchange Act (at any time after it has become subject to such reporting requirements).

Section 10.06. *No Registration Rights to Third Parties.* Prior to the consummation of an IPO, without the prior written consents of the holders of the Preferred Shares representing at least two-thirds (2/3) of the voting power of the then outstanding Preferred Shares (voting together as a single class and on an as converted basis), the Company covenants and agrees that it shall not grant, or cause or permit to be created, for the benefit of any Person any registration rights of any kind (whether similar to the demand, “piggyback” or Form F-3 registration rights described in this Article III, or otherwise) relating to any securities of the Company which are senior to, or on a parity with, those granted to the Shareholders of Registrable Securities (except for those registration rights granted to Shareholders under this Article). In any event, if the Company grants to any holder of the Company’s security any registration right of any nature that are superior to the rights of the holders of the Preferred Shares, as determined in good faith by the Board (including the consent of all the Investor Directors), the Company shall grant such superior registration right to the holders of each of the Preferred Shares as well.

Section 10.07. *Assignment.* The registration rights under this Article may be transferred or assigned by a holder of Preferred Shares to a transferee who acquires any of the Preferred Shares.

Section 10.08. *Applicability of Rights.* If the Public Offering will not be conducted in the United States of America, each Investor shall be entitled to reasonably analogous or equivalent rights with respect to any other offering of the Company Securities in any other jurisdiction in which the Company undertakes a Public Offering.

ARTICLE 11

MISCELLANEOUS

Section 11.01. *Binding Effect; Assignability; Benefit.* (a) This Agreement shall inure to the benefit of and be binding upon the parties hereto and their respective heirs, successors, legal representatives and permitted assigns. Any Shareholder that ceases to own beneficially any Company Securities shall cease to be bound by the terms hereof (other than (i) the provisions of Article 10 applicable to such Shareholder with respect to any offering of Registrable Securities completed before the date such Shareholder ceased to own any Company Securities and (ii) Section 9.01 and Article 11).

(b) Neither this Agreement nor any right, remedy, obligation or liability arising hereunder or by reason hereof shall be assignable by any party hereto pursuant to any Transfer of Company Securities or otherwise, except that any Person acquiring Company Securities that is required or permitted by the terms of this Agreement or any employment agreement or share purchase, option, share option or other compensation plan of the Company or any other Group Company to become a party hereto shall (unless already bound hereby) execute and deliver to the Company an agreement to be bound by this Agreement in the form of Exhibit A hereto and shall thenceforth be a “Shareholder”.

(c) Nothing in this Agreement, expressed or implied, is intended to confer on any Person other than the parties hereto, and their respective heirs, successors, legal representatives and permitted assigns, any rights, remedies, obligations or liabilities under or by reason of this Agreement.

Section 11.02. *Notices.* (a) All notices, requests, waivers and other communications made pursuant to this Agreement shall be in writing and shall be given personally or by sending it by courier service, email, fax or similar means to the address of the relevant Party as shown on Schedule IV attached hereto (or to such other address as such Party may designate by 15 days' advance written notice to the other Parties given in accordance with this Section). A notice shall be conclusively deemed to have been duly served (i) when hand delivered to another Party, upon delivery at the address of such Party; (ii) when sent by email to the email address of another Party, upon transmission without any failure or error message; (iii) when sent by facsimile at the number of another Party, upon receipt of confirmation of error-free transmission; (iv) five (5) Business Days after deposit in the mail as air mail or certified mail, receipt requested, postage prepaid and addressed to another Party; or (v) three (3) Business Days after deposit with an next-day courier service, postage prepaid, addressed to another Party with next-day delivery guaranteed, *provided* that the sending Party receives a confirmation of delivery from the courier service provider.

(b) Each Party making a communication hereunder shall promptly confirm by telephone, e-mail, short message or WeChat to the Party to whom such communication was addressed but the absence of such confirmation shall not affect the validity of any such communication.

Section 11.03. *Waiver; Amendment; Termination.* (a) No provision of this Agreement may be amended, waived or otherwise modified except by an instrument in writing executed by each party hereto. In addition, any party may waive any provision of this Agreement with respect to itself by an instrument in writing executed by the party against whom the waiver is to be effective.

(b) Other than Section 9.01 and Article 11, this Agreement shall terminate upon the earlier to occur of (i) the mutual consent of the Parties hereto and (ii) with respect to any Shareholder, the date upon which such Shareholder and its Affiliate(s) cease to hold any Company Securities. The provisions of Article 2, 3, 4, 5, 6, 7, 8 and Section 10.06 shall terminate upon the consummation of an IPO of the Company. If this Agreement terminates, the Parties shall be released from their obligations under this Agreement, except in respect of any obligation stated, explicitly or otherwise, to continue to exist after the termination of this Agreement.

Section 11.04. *Governing Law.* This Agreement shall be governed by and construed under the laws of Hong Kong, without regard to principles of conflict of laws thereunder.

Section 11.05. *Dispute Resolution.* (a) Any dispute, controversy or claim arising out of or relating to this Agreement, or the interpretation, breach, termination or validity hereof (each, a "**Dispute**") shall be referred to and be finally settled by arbitration in Hong Kong by the Hong Kong International Arbitration Centre (the "**HKIAC**") in accordance with the Hong Kong International Arbitration Centre Administered Arbitration Rules (the "**HKIAC Rules**") then in force upon the demand of either Party to the Dispute with notice to the other.

(b) There shall be three (3) arbitrators, of whom one (1) arbitrator shall be appointed by the claiming party(ies), one (1) arbitrator appointed by the responding party(ies), and the third arbitrator shall be appointed by the two (2) arbitrators designated by the parties. If a party(ies) fails to designate an arbitrator within thirty (30) days after designation of an arbitrator by the other party(ies), the second arbitrator shall be appointed by the HKIAC Council. If the two (2) arbitrators designated by the parties are unable to agree upon a third arbitrator within thirty (30) days after the first two (2) arbitrators are appointed, the third arbitrator shall be appointed by the HKIAC Council.

(c) The arbitral proceedings shall be conducted in English. To the extent that the HKIAC Rules are in conflict with the provisions of this Section, including the provisions concerning the appointment of the arbitrators, the provisions of this Section shall prevail.

(d) Each party to the arbitration shall cooperate with each other party to the arbitration in making full disclosure of and providing complete access to all information and documents requested by such other party in connection with such arbitral proceedings, subject only to any confidentiality obligations binding on such party.

(e) The award of the arbitral tribunal shall be final and binding upon the parties thereto, and the prevailing party may apply to a court of competent jurisdiction for enforcement of such award.

(f) The arbitral tribunal shall decide any Dispute submitted by the parties to the arbitration strictly in accordance with the substantive Applicable Laws of Hong Kong (without regard to principles of conflict of laws thereunder) and shall not apply any other substantive Applicable Laws.

(g) Any party to the Dispute shall be entitled to seek preliminary injunctive relief, if possible, from any court of competent jurisdiction pending the constitution of the arbitral tribunal.

(h) During the course of the arbitral tribunal's adjudication of the Dispute, this Agreement shall continue to be performed except with respect to the part in dispute and under adjudication.

(i) Notwithstanding the foregoing in this Section 11.05, the Parties agree that each Party shall have the right, without posting any bond, to seek preliminary injunction, temporary restraining order or other temporary relief from any court of competent jurisdiction.

Section 11.06. *Counterparts; Effectiveness.* This Agreement may be signed in any number of counterparts, each of which shall be an original, with the same effect as if the signatures thereto and hereto were upon the same instrument. Upon such a determination, the parties shall negotiate in good faith to modify this Agreement so as to effect the original intent of the parties as closely as possible in an acceptable manner in order that the transactions contemplated hereby be consummated as originally contemplated to the fullest extent possible.

Section 11.09. *Several Liability*. The parties hereto acknowledge that any obligation or liability of each Investor hereunder shall be several and not joint and several.

In the event of unwinding of the variable interest entities structure of the Group, the direct or indirect shareholders rights (including the right to appoint directors) in the Domestic Company as set forth in the existing onshore transaction documents of all parties thereto shall be restored, and the Series D Investors shall be entitled to the rights as set forth in this Agreement. The aforementioned material events, to the extent within the discretion of the Board, shall be duly approved by the Board comprising the Directors appointed by each of China Prosperity and Tianhong pursuant to this Section. Notwithstanding the foregoing, the Parties hereby agree that, despite any provision as set forth in the existing onshore transaction documents, any obligation and liability of the Founder to any Party hereto under the existing onshore transaction documents for the Domestic Company shall not exceed the scope of his obligations and liabilities as provided in this Agreement (the "**Effective Liabilities**"). The Parties hereby agree to waive any obligation or liability of such Founder exceeding the Effective Liabilities.

Section 11.12. *Most Favored Nations.* (a) The Series C-1 Investors shall be automatically granted any rights, preferences, privileges and other conditions with respect to the dividend rights and redemption rights that are granted by the Company to other investors in any future financing after the date hereof by or through whatever means including without limitation subscribing for the new Shares and that are superior or more favorable to the dividend rights and the redemption rights granted to the Series C-1 Investors in this Agreement.

(b) Lotus shall be entitled to no less favorable terms with respect to the matters contemplated by this Agreement or by the Memorandum and Articles than any existing or future holders of Company Securities representing less than 3% of the total share capital of the Company regardless of other terms provided herein. In the event that the Company has granted or grants any existing or future holders of Company Securities representing less than 3% of the total share capital of the Company any rights and privileges with respect to the matters contemplated by this Agreement or by the Memorandum and Articles more favorable than those offered to Lotus contemplated herein, Lotus shall be entitled to such rights and privileges automatically.

Party B: Beijing Duoke Information Technology Co., Ltd.

Address: No.3003, 3rd Floor, No.39 West Street, Haidian District, Beijing

Party A and Party B are individually referred to as a “Party” and are collectively referred to as “Both Parties”.

Whereas:

1. Party A is a foreign-invested company established in China with the necessary resources to provide technical and consulting services;
2. Party B is a domestic company established in China and approved according to law by relevant government departments in China, focusing on new businesses, new economy and providing related services. All businesses operated and developed by Party B currently and at any time during the term of this Agreement are collectively referred to as “Main Business”;
3. Party A agrees to use its technology, personnel and information advantages to provide Party B with exclusive technical support, consulting and other services related to the Main Business during the term of this Agreement. Party B agrees to accept the various services provided by Party A or its designated party in accordance with the terms of this Agreement.

Now, therefore, Party A and Party B through mutual negotiation have agreed as follows:

1. Service Provision

- 1.1 In accordance with the terms and conditions of this Agreement, Party B hereby appoints Party A as Party B’s exclusive service provider to provide Party B with comprehensive technical support, consulting services and other services during the term of this Agreement, including but not limited to the following:

- (1) Licensing of relevant software that Party A has legal rights to for Party B to use;
 - (2) Development, maintenance and update of relevant application software required for Party B's business;
 - (3) Design, installation and day-to-day management, maintenance and update of computer network systems, hardware devices and databases;
 - (4) Technical support for and professional training of relevant personnel of Party B;
 - (5) Assisting Party B in the consultation, collection and research on relevant technical and market information;
 - (6) Providing corporate management consultation for Party B;
 - (7) Providing marketing and promotion services for Party B;
 - (8) Providing customer order management and customer services for Party B
 - (9) Leasing, transfer and disposal of equipment, assets; and

Both Parties agree that Party A may designate other parties (the designated parties may enter into certain agreements described in Section 1.3 of this Agreement with Party B) to provide Party B with the services agreed in this Agreement.

1.3 Manner of Service Provision

- 1.3.1 Party A and Party B agree that during the term of this Agreement, Party B may enter into further service agreement(s) with Party A or other parties designated by Party A as appropriate, which shall provide the specific contents, methods, personnel, fees, and other matters for various services.
- 1.3.2 Party B hereby grants Party A an irrevocable and exclusive option, pursuant to which, Party A may in its discretion, to the extent permitted by the laws and regulations of China, purchase any part or all of the assets and business from Party B at the lowest price permitted by the laws of China. Both Parties shall then enter into a separate asset or business transfer contract to specify the terms and conditions of such assets transfer. Subject to the laws of China, Party B shall donate the balance of the purchase price after deducting/withholding the relevant taxes (if any) in full according to law to Party A or the person(s) designated by Party A within ten (10) days of receipt and deducting/withholding of the relevant taxes (if any) in full according to law.

- 1.4 In order to ensure that Party B meets the cash flow requirements in daily operations and/or offsets any losses arising out of its operation, whether or not Party B actually suffers such operational losses, Party A is obliged to provide Party B with financial support (but only to the extent and in the manner as permitted by the laws of China). Party A may provide financial support to Party B in the form of bank entrusted loans or borrowings, and enter into necessary agreements separately.
- 1.5 Party A shall have the right to examine Party B's accounts regularly and at any time. Both parties agree that during the term of this Agreement, Party A shall have the right to consolidate Party B's financial results as those of wholly owned subsidiaries of Party A in accordance with the applicable accounting standards. However, Party A does not assume any legal responsibility for any liabilities or other obligations and risks of Party B.

2. Calculation and Payment of Service Fees

- 2.1 During the term of this Agreement, the fees payable by Party B to Party A shall be calculated as follows: In respect of the service fees payable by Party B to Party A, the service fee for each calendar year shall be calculated and confirmed according to the following variable standards:

Code of Business Conduct and Ethics

Adopted September 29, 2019

Introduction

This Code of Business Conduct and Ethics (the “**Code**”) has been adopted by our Board of Directors (the “**Board**”) and summarizes the standards that must guide our actions. Although they cover a wide range of business practices and procedures, these standards cannot and do not cover every issue that may arise, or every situation in which ethical decisions must be made, but rather set forth key guiding principles that represent Company policies and establish conditions for employment at the Company.

We must strive to foster a culture of honesty and accountability. Our commitment to the highest level of ethical conduct should be reflected in all of the Company’s business activities, including, but not limited to, relationships with employees, customers, suppliers, competitors, the government, the public and our shareholders. All of our employees, officers and directors must conduct themselves according to the language and spirit of this Code and seek to avoid even the appearance of improper behavior. Even well intentioned actions that violate the law or this Code may result in negative consequences for the Company and for the individuals involved.

One of our Company’s most valuable assets is our reputation for integrity, professionalism and fairness. We should all recognize that our actions are the foundation of our reputation and adhering to this Code and applicable law is imperative.

Conflicts of Interest

Our employees, officers and directors have an obligation to conduct themselves in an honest and ethical manner and to act in the best interest of the Company. All employees, officers and directors should endeavor to avoid situations that present a potential or actual conflict between their interest and the interest of the Company.

A “conflict of interest” occurs when a person’s private interest interferes in any way, or even appears to interfere, with the interests of the Company as a whole, including those of its subsidiaries and affiliates. A conflict of interest may arise when an employee, officer or director takes an action or has an interest that may make it difficult for him or her to perform his or her work objectively and effectively. A conflict of interest may also arise when an employee, officer or director (or a member of his or her family) receives improper personal benefits as a result of the employee’s, officer’s or director’s position in the Company.

Although it would not be possible to describe every situation in which a conflict of interest may arise, the following are examples of situations that may constitute a conflict of interest:

- Working, in any capacity, for a competitor, customer or supplier while employed by the Company.
- Accepting gifts of more than modest value or receiving personal discounts (if such discounts are not generally offered to the public) or other benefits as a result of your position in the Company from a competitor, customer or supplier.

- Competing with the Company for the purchase or sale of property, products, services or other interests.
- Having an interest in a transaction involving the Company, a competitor, customer or supplier (other than as an employee, officer or director of the Company and not including routine investments in publicly traded companies).
- Receiving a loan or guarantee of an obligation as a result of your position with the Company.
- Directing business to a supplier owned or managed by, or which employs, a relative or friend.

Situations involving a conflict of interest may not always be obvious or easy to resolve. You should report actions that may involve a conflict of interest to the Audit Committee of the Board of Directors.

In order to avoid conflicts of interests, senior executive officers and directors must disclose to the Audit Committee of the Board any material transaction or relationship that reasonably could be expected to give rise to such a conflict.

In the event that an actual or apparent conflict of interest arises between the personal and professional relationship or activities of an employee, officer or director, the employee, officer or director involved is required to handle such conflict of interest in an ethical manner in accordance with the provisions of this Code.

Quality of Public Disclosures

The Company has a responsibility to provide full and accurate information in our public disclosures, in all material respects, about the Company's financial condition and results of operations. Our reports and documents filed with or submitted to the United States Securities and Exchange Commission and our other public communications shall include full, fair, accurate, timely and understandable disclosure, and the Company has established a Disclosure Committee consisting of senior management to assist in monitoring such disclosures.

Compliance with Laws, Rules and Regulations

We are strongly committed to conducting our business affairs with honesty and integrity and in full compliance with all applicable laws, rules and regulations. No employee, officer or director of the Company shall commit an illegal or unethical act, or instruct others to do so, for any reason.

Compliance with this Code and Reporting of Any Illegal or Unethical Behavior

All employees, directors and officers are expected to comply with all of the provisions of this Code. The Code will be strictly enforced and violations will be dealt with immediately, including by subjecting persons who violate its provisions to corrective and/or disciplinary action such as dismissal or removal from office. Violations of the Code that involve illegal behavior will be reported to the appropriate authorities.

Situations which may involve a violation of ethics, laws, rules, regulations or this Code may not always be clear and may require the exercise of judgment or the making of difficult decisions. Employees, officers and directors should promptly report any concerns about a violation of ethics, laws, rules, regulations or this Code to their supervisor or the General Counsel (or an officer with similar duties and responsibilities) or, in the case of accounting, internal accounting controls or auditing matters, the Audit Committee of the Board. Interested parties may also communicate directly with the Company's non-management directors through contact information located in the Company's annual report on Form 20-F.

Any concerns about a violation of ethics, laws, rules, regulations or this Code by any senior executive officer or director should be reported promptly to the Audit Committee of the Board. Reporting of such violations may also be done anonymously through email to the Company at a designated email address for compliance reporting. An anonymous report should provide enough information about the incident or situation to allow the Company to investigate properly. If concerns or complaints require confidentiality, including keeping an identity anonymous, the Company will endeavor to protect this confidentiality, subject to applicable law, regulation or legal proceedings.

The Company encourages all employees, officers and directors to report any suspected violations promptly and intends to thoroughly investigate any good faith reports of violations. The Company will not tolerate any kind of retaliation for reports or complaints regarding misconduct that were made in good faith. Open communication of issues and concerns by all employees, officers and directors without fear of retribution or retaliation is vital to the successful implementation of this Code. All employees, officers and directors are required to cooperate in any internal investigations of misconduct and unethical behavior.

The Company recognizes the need for this Code to be applied equally to everyone it covers. The General Counsel (or an officer with similar duties and responsibilities) of the Company will have primary authority and responsibility for the enforcement of this Code, subject to the supervision of the Audit Committee of the Board, and the Company will devote the necessary resources to enable the General Counsel (or an officer with similar duties and responsibilities) to establish such procedures as may be reasonably necessary to create a culture of accountability and facilitate compliance with this Code. Questions concerning this Code should be directed to the General Counsel (or an officer with similar duties and responsibilities).

The provisions of this section are qualified in their entirety by reference to the following section.

Reporting Violations to a Governmental Agency

Employees have the right under applicable law to certain protections for cooperating with or reporting legal violations to governmental agencies or entities and self-regulatory organizations. As such, nothing in this Code is intended to prohibit any employee from disclosing or reporting violations to, or from cooperating with, a governmental agency or entity or self-regulatory organization, and employees may do so without notifying the Company. The Company may not retaliate against all employee for any of these activities, and nothing in this Code or otherwise requires any employee to waive any monetary award or other payment that he or she might become entitled to from a governmental agency or entity, or self-regulatory organization.

All employees of the Company have the right to:

- Report possible violations of applicable law or regulation that have occurred, are occurring, or are about to occur to any governmental agency or entity, or self-regulatory organization;
- Cooperate voluntarily with, or respond to any inquiry from, or provide testimony before any self-regulatory organization or any other national or local regulatory or law enforcement authority;

- Make reports or disclosures to law enforcement or a regulatory authority without prior notice to, or authorization from, the Company; and
- Respond truthfully to a valid subpoena.

All employees have the right to not be retaliated against for reporting, either internally to the Company or to any governmental agency or entity or self-regulatory organization, information which the employee reasonably believes relates to a possible violation of law. It is a violation of law to retaliate against anyone who has reported such potential misconduct either internally or to any governmental agency or entity or self-regulatory organization. Retaliatory conduct includes discharge, demotion, suspension, threats, harassment, and any other manner of discrimination in the terms and conditions of employment because of any lawful act the employee may have performed. It is unlawful for the company to retaliate against an employee for reporting possible misconduct either internally or to any governmental agency or entity or self-regulatory organization.

Notwithstanding anything contained in this Code or otherwise, employees may disclose confidential Company information, including the existence and terms of any confidential agreements between the employee and the Company (including employment or severance agreements), to any governmental agency or entity or self-regulatory organization.

The Company cannot require an employee to withdraw reports or filings alleging possible violations of national or local law or regulation, and the Company may not offer employees any kind of inducement, including payment, to do so.

An employee's rights and remedies as a whistleblower protected under applicable whistleblower laws, including a monetary award, if any, may not be waived by any agreement, policy form, or condition of employment, including by a predispute arbitration agreement.

Even if an employee has participated in a possible violation of law, the employee may be eligible to participate in the confidentiality and retaliation protections afforded under applicable whistleblower laws, and the employee may also be eligible to receive an award under such laws.

Waivers and Amendments

Any waiver (including any implicit waiver) of the provisions in this Code for executive officers or directors may only be granted by the Board or a committee thereof and will be promptly disclosed to the Company's shareholders. Any such waiver will also be disclosed in the Company's annual report on Form 20-F. Amendments to this Code must be approved by the Board and will also be disclosed in the Company's annual report on Form 20-F.

Trading on Inside Information

Using non-public Company information to trade in securities, or providing a family member, friend or any other person with non-public Company information, is illegal. All non-public, Company information should be considered inside information and should never be used for personal gain. You are required to familiarize yourself and comply with the Company's Policy Against Insider Trading, copies of which are distributed to all employees, officers and directors and are available from the General Counsel (or an officer with similar duties and responsibilities). You should contact the General Counsel (or an officer with similar duties and responsibilities) with any questions about your ability to buy or sell securities.

Protection of Confidential Proprietary Information

Confidential proprietary information generated by and gathered in our business is a valuable Company asset. Protecting this information plays a vital role in our continued growth and ability to compete, and all proprietary information should be maintained in strict confidence, except when disclosure is authorized by the Company or required by law.

Proprietary information includes all non-public information that might be useful to competitors or that could be harmful to the Company, its customers or its suppliers if disclosed. Intellectual property such as trade secrets, patents, trademarks and copyrights, as well as business, research and new product plans, objectives and strategies, records, databases, salary and benefits data, employee medical information, customer, employee and suppliers lists and any unpublished financial or pricing information must also be protected.

Unauthorized use or distribution of proprietary information violates Company policy and could be illegal. Such use or distribution could result in negative consequences for both the Company and the individuals involved, including potential legal and disciplinary actions. We respect the property rights of other companies and their proprietary information and require our employees, officers and directors to observe such rights.

Your obligation to protect the Company's proprietary and confidential information continues even after you leave the Company, and you must return all proprietary information in your possession upon leaving the Company.

The provisions of this section are qualified in their entirety by the section entitled "Reporting Violations to Governmental Agencies" above.

Protection and Proper Use of Company Assets

Protecting Company assets against loss, theft or other misuse is the responsibility of every employee, officer and director. Loss, theft and misuse of Company assets directly impact our profitability. Any suspected loss, misuse or theft should be reported to a supervisor or the Legal Department.

The sole purpose of the Company's equipment, vehicles, supplies and electronic resources (including hardware, software and the data thereon) is the conduct of our business. They may only be used for Company business consistent with Company guidelines.

Corporate Opportunities

Employees, officers and directors are prohibited from taking for themselves business opportunities that are discovered through the use of corporate property, information or position. No employee, officer or director may use corporate property, information or position for personal gain, and no employee, officer or director may compete with the Company. Competing with the Company may involve engaging in the same line of business as the Company or any situation in which the employee, officer or director takes away from the Company opportunities for sales or purchases of property, products, services or interests. Employees, officers and directors owe a duty to the Company to advance its legitimate interests when the opportunity to do so arises.

Fair Dealing

Each employee, officer and director of the Company should endeavor to deal fairly with customers, suppliers, competitors, the public and one another at all times and in accordance with ethical business practices.

Each employee has an obligation to comply with the anti-corruption and anti-bribery laws of the People's Republic of China and any other regions and countries in which the Company operates. No one should take unfair advantage of anyone through manipulation, concealment, abuse of privileged information, misrepresentation of material facts or any other unfair dealing practice. No bribes, kickbacks or other similar payments in any form shall be made directly or indirectly to or for anyone for the purpose of obtaining or retaining business or obtaining any other favorable action. In the event of a violation of these provisions, the Company and any employee, officer or director involved may be subject to disciplinary action as well as potential civil or criminal liability for violation of this policy.

Occasional business gifts to, or entertainment of, non-government employees in connection with business discussions or the development of business relationships are generally deemed appropriate in the conduct of Company business. However, these gifts should be given infrequently and their value should be modest. Gifts or entertainment in any form that would likely result in a feeling or expectation of personal obligation should not be extended or accepted.

Practices that are acceptable in a commercial business environment may be against the law or the policies governing national or local government employees. Therefore, no gifts or business entertainment of any kind may be given to any government employee without the prior approval of a supervisor or the General Counsel (or an officer with similar duties and responsibilities).

Except in certain limited circumstances, the United States Foreign Corrupt Practices Act (the "FCPA") prohibits giving anything of value directly or indirectly to any "non-U.S. official" for the purpose of obtaining or retaining business. When in doubt as to whether a contemplated payment or gift may violate the FCPA, contact a supervisor or the Audit Committee of the Board before taking any action.

Compliance with Antitrust Laws

The antitrust laws prohibit agreements among competitors on such matters as prices, terms of sale to customers and the allocation of markets or customers. Antitrust laws can be complex, and violations may subject the Company and its employees to criminal sanctions, including fines, jail time and civil liability. If you have any questions about our antitrust compliance policies, consult the General Counsel (or an officer with similar duties and responsibilities).

Political Contributions and Activities

Any political contributions made by or on behalf of the Company and any solicitations for political contributions of any kind must be lawful and in compliance with Company policies. This policy applies solely to the use of Company assets and is not intended to discourage or prevent individual employees, officers or directors from making political contributions or engaging in political activities on their own behalf. No one may be reimbursed directly or indirectly by the Company for personal political contributions.

Doing Business with Others

We strive to promote the application of the standards of this Code by those with whom we do business. Our policies, therefore, prohibit the engaging of a third party to perform any act prohibited by law or by this Code, and we shall avoid doing business with others who intentionally and continually violate the law or the standards of this Code.

Accuracy of Company Financial Records

We maintain the highest standards in all matters relating to accounting, financial controls, internal reporting and taxation. All financial books, records and accounts must accurately reflect transactions and events and conform both to required accounting principles and to the Company's system of internal controls. Records shall not be distorted in any way to hide, disguise or alter the Company's true financial position.

Retention of Records

All Company business records and communications shall be clear, truthful and accurate. Employees, officers and directors of the Company shall avoid exaggeration, guesswork, legal conclusions and derogatory remarks or characterizations of people and companies. This applies to communications of all kinds, including email and "informal" notes or memos. Records should always be handled according to the Company's record retention policies. If an employee, officer or director is unsure whether a document should be retained, consult a supervisor or the General Counsel (or an officer with similar duties and responsibilities) before proceeding.

Anti-Money Laundering

We are committed to preserving our reputation in the financial community by assisting in efforts to combat money laundering and terrorist financing. Money laundering is the practice of disguising the ownership or source of illegally obtained funds through a series of transactions to "clean" the funds so they appear to be proceeds from legal activities.

We have adopted measures to reduce the extent to which the Company's facilities, products and services can be used for a purpose connected with market abuse or financial crimes. Additionally, where necessary, we screen customers, potential customers and suppliers to ensure that our products and services cannot be used to facilitate money laundering or terrorist activity. If you have any questions about our internal anti-money laundering process and procedure, consult the General Counsel (or an officer with similar duties and responsibilities).

Social Media

Unless you are authorized by the Company, you are discouraged from discussing the Company as part of your personal use of social media. While business should only be conducted through approved channels, we understand that social media is used as a source of information and as a form of communicating with friends, family and workplace contacts.

When you are using social media and identify yourself as a Company employee, officer or director or mention the Company incidentally, for instance on a Facebook page or professional networking site, please remember the following:

- Never disclose confidential information about the Company or its business, customers or suppliers.
- Make clear that any views expressed are your own and not those of the Company.
- Remember that our policy on Equal Opportunity, Non-Discrimination and Fair Employment applies to social media sites.
- Be respectful of your colleagues and all persons associated with the Company, including customers and suppliers.
- Promptly report to the Company's corporate communications department any social media content which inaccurately or inappropriately discusses the Company.
- Never respond to any information, including information that may be inaccurate about the Company.
- Never post documents, parts of documents, images or video or audio recordings that have been made with Company property or of Company products, services or people or at Company functions or events.

Professional Networking

Online networking on professional or industry sites, such as LinkedIn, has become an important and effective way for colleagues to stay in touch and exchange information. Employees, officers and directors should use good judgment when posting information about themselves or the Company on any of these services.

What you post about the Company or yourself will reflect on all of us. When using professional networking sites, you should observe the same standards of professionalism and integrity described in our code and follow the social media guidelines outlined above.

Government Inquiries

The Company cooperates with government agencies and authorities. Forward all requests for information, other than routine requests, to the General Counsel (or an officer with similar duties and responsibilities) immediately to ensure that we respond appropriately.

All information provided must be truthful and accurate. Never mislead any investigator. Do not ever alter or destroy documents or records subject to an investigation.

Review

The Board shall review this Code annually and make changes as appropriate.

Re: Certain PRC Law Matters of 36Kr Holdings Inc. (the “Company”)

Dear Sir/Madam,

We are qualified lawyers of the People’s Republic of China (the “**PRC**”, for the purpose of issuing this opinion, excluding Hong Kong Special Administration Region, Macau Special Administration Region and Taiwan) and as such are qualified to issue this opinion with respect to all laws, regulations, statutes, rules, decrees, guidelines, notices, and judicial interpretations and other legislations of the PRC currently in force and publicly available as of the date hereof (hereinafter referred to as the “**PRC Laws**”).

We are acting as your PRC legal counsel in connection with (a) the proposed initial public offering (the “**Offering**”) of certain number of American depositary shares (the “**ADSs**”), each representing certain number of ordinary shares of the Company (the “**Ordinary Shares**”), by the Company as set forth in the Company’s registration statement on Form F-1, including all amendments or supplements thereto (the “**Registration Statement**”), filed by the Company with the Securities and Exchange Commission (the “**SEC**”) in relation to the Offering, and (b) the proposed listing and trading of the Company’s ADSs on the NASDAQ Global Select Market.

The following terms as used in this opinion are defined as follows.

“**M&A Rules**” means the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, which was issued by six PRC regulatory agencies, namely, the Ministry of Commerce, the State-owned Assets Supervision and Administration Commission, the State Administration for Taxation, the State Administration for Industry and Commerce, China Securities Regulatory Commission (the “**CSRC**”) and the State Administration for Foreign Exchange, on August 8, 2006 and became effective on September 8, 2006, as amended by the Ministry of Commerce on June 22, 2009.

“**PRC Entities**” means Beijing Duoke Information Technology Co., Ltd. (“Beijing Duoke”), Beijing Dian Qier Creative Interactive Media Culture Co., Ltd., Tianjin Thirty-six Heart Technology Co., Ltd., Zhejiang Pinxin Technology Co., Ltd., Hangzhou Pinxin Acceleration Technology Co., Ltd., Sichuan Thirty-six Ke Technology Co., Ltd., Jiangsu Kuaike Technology Co., Ltd., Chongqing Duoke Acceleration Technology Co., Ltd., Tianjin Duoke Investment Co., Ltd. (“Tianjin Duoke”), Tianjin Dake Information Technology Co., Ltd. and Beijing Dake Information Technology Co., Ltd. (“Beijing Dake”).

For the purpose of giving this opinion, we have examined the originals or copies, certified or otherwise identified to our satisfaction, of corporate records, agreements, documents and other instruments provided to us and such other documents or certificates issued by governmental authorities or representations made by officials of government authorities or other public organizations and by officers or representatives of the Company as we have deemed necessary and appropriate as a basis for the opinions hereinafter set forth.

In rendering the opinions expressed below, we have assumed:

- (a) the authenticity of the documents submitted to us as originals and the conformity to the originals of the documents submitted to us as copies;
 - (b) the truthfulness, accuracy and completeness of all corporate minutes, resolutions and documents of or in connection with the PRC Entities as they were presented to us;
 - (c) that the documents and the corporate minutes and resolutions which have been presented to us remain in full force and effect as of the date hereof and have not been revoked, amended, varied or supplemented, except as noted therein;
 - (d) in response to our due diligence inquiries, requests and investigation for the purpose of this opinion, all the relevant information and materials that have been provided to us by the Company and the PRC Entities, including all factual statements in the documents and all other factual information provided to us by the Company and the PRC Entities, and the statements made by the Company, the PRC Entities and relevant government officials, are true, accurate, complete and not misleading, and that the Company has not withheld anything that, if disclosed to us, would reasonably cause us to alter this opinion in whole or in part. Where important facts were not independently established to us, we have relied upon certificates issued by governmental authorities and appropriate representatives of the Company and/or other relevant entities and/or upon representations made by such persons in the course of our inquiry and consultation;
 - (e) that all parties to the documents provided to us in connection with this opinion, other than the PRC Entities, have the requisite power and authority to enter into, and have duly executed, delivered and/or issued those documents to which they are parties, and have the requisite power and authority to perform their obligations thereunder; and
 - (f) with respect to all parties, the due compliance with, and the legality, validity, effectiveness and enforceability under, all laws other than the laws of the PRC.
-

We do not purport to be experts on and do not purport to be generally familiar with or qualified to express legal opinions on any laws other than the laws of the PRC and accordingly express no legal opinion herein on any laws of any jurisdiction other than the PRC.

Based on the foregoing and subject to the qualifications set out below, we are of the opinion that, as of the date hereof, so far as PRC Laws are concerned:

1. Based on our understanding of the current PRC Laws (i) the ownership structures of the PRC Entities, both currently and immediately after giving effect to the Offering, do not and will not violate any applicable PRC Laws currently in effect; and (ii) the contractual arrangements among Beijing Dake, Beijing Duoke and its shareholders governed by PRC Laws are valid and binding upon each party to such arrangements and enforceable against each party thereto in accordance with their terms and applicable PRC Laws currently in effect, and will not violate any PRC Laws currently in effect. However, there are substantial uncertainties regarding the interpretation and application of PRC Laws and future PRC laws and regulations, and there can be no assurance that the PRC regulatory authorities will not take a view that is contrary to or otherwise different from our opinion stated above.
 2. The M&A Rules, among other things, purport to require that an offshore special purpose vehicle controlled directly or indirectly by PRC domestic companies or individuals and formed for purposes of overseas listing through acquisition of PRC domestic interests held by such PRC companies or individuals obtain the approval of the CSRC prior to the listing and trading of such special purpose vehicle's securities on an overseas stock exchange. The CSRC has not issued any definitive rules or interpretations concerning whether offerings such as the Offering are subject to the CSRC approval procedures under the M&A Rules. Based on our understanding of the current PRC Laws, a prior approval from the CSRC is not required under the M&A Rules for the Offering and listing and trading of the ADSs on the NASDAQ Global Select Market, because, among other things, (i) Tianjin Duoke and Beijing Dake were established by foreign investment, rather than through a merger or acquisition of a domestic company as defined under the M&A Rules; and (ii) no explicit provision in the M&A Rules classifies the respective contractual arrangements among Beijing Dake, Beijing Duoke and its shareholders as a type of acquisition transaction falling under the M&A Rules. However, uncertainties still exist as to how the M&A Rules will be interpreted and implemented and our opinion stated above is subject to any new laws, rules and regulations or detailed implementations and interpretations in any form relating to the M&A Rules.
 3. The recognition and enforcement of foreign judgments are provided for under the PRC Civil Procedures Law. PRC courts may recognize and enforce foreign judgments in accordance with the requirements of PRC Civil Procedures Law based either on treaties between China and the jurisdiction where the judgment is made or on principles of reciprocity between jurisdictions. China does not have any treaties or other form of reciprocity with the United States or the Cayman Islands that provide for the reciprocal recognition and enforcement of foreign judgments. In addition, according to the PRC Civil Procedures Law, courts in the PRC will not enforce a foreign judgment against a company or its directors and officers if they decide that the judgment violates the basic principles of PRC law or national sovereignty, security or public interest. As a result, it is uncertain whether and on what basis a PRC court would enforce a judgment rendered by a court in the United States or the Cayman Islands.
-

4. The statements made in the Registration Statement under the caption “Taxation—PRC,” with respect to the PRC tax laws and regulations or interpretations, constitute true and accurate descriptions of the matters described therein in all material aspects and such statements represent our opinion.
5. To the best of our knowledge after due and reasonable inquiry, the statements set forth in the Registration Statement under the captions “Prospectus Summary”, “Risk Factors”, “Use of Proceeds”, “Dividend Policy”, “Enforceability of Civil Liabilities”, “Corporate History and Structure”, “Business”, “Regulation” and “Taxation”, in each case insofar as such statements describe or summarize PRC legal or regulatory matters, are true and accurate in all material aspects, and correctly set forth therein, and nothing has come to our attention, insofar as the PRC Laws are concerned, that causes us to believe that there is any omission which will cause such statements misleading in any material respect.

The foregoing opinion is further subject to the following qualifications:

- (a) we express no opinion as to any Laws other than the PRC Laws in force on the date of this opinion;
 - (b) the PRC Laws referred to herein are Laws currently in force and there is no guarantee that any of such Laws, or the interpretation thereof or enforcement therefore, will not be changed, amended or replaced in the immediate future or in the longer term with or without retrospective effect;
 - (c) this opinion is intended to be used in the context which is specifically referred to herein and each section should be looked on as a whole regarding the same subject matter; and
 - (d) this opinion is subject to the effects of (i) certain legal or statutory principles affecting the validity and enforceability of contractual rights generally under the concepts of public interest, social ethics, national security, good faith, fair dealing, and applicable statutes of limitation; (ii) any circumstance in connection with formulation, execution or performance of any legal documents that would be deemed materially mistaken, clearly unconscionable, fraudulent, coercive or concealing illegal intentions with a lawful form; (iii) judicial discretion with respect to the availability of indemnifications, remedies or defenses, the calculation of damages, the entitlement to attorney’s fees and other costs, and the waiver of immunity from jurisdiction of any court or from legal process; and (iv) the discretion of any competent PRC legislative, administrative or judicial bodies in exercising their authority in the PRC.
-

This opinion is delivered in our capacity as the Company's PRC legal counsel solely for the purpose of the Registration Statement publicly submitted to the SEC on the date of this opinion and may not be used for any other purpose without our prior written consent.

We hereby consent to the use of this opinion in, and the filing hereof as an exhibit to, the Registration Statement, and to the reference to our name in such Registration Statement. We do not thereby admit that we fall within the category of the persons whose consent is required under Section 7 of the U.S. Securities Act of 1933, as amended, or the regulations promulgated thereunder.

Yours faithfully,
